the work **that matters**

When we talk about San Miguel's projects, it's easy to focus on their scale, visibility, and impact. Less visible is the discipline behind them—the steady, purposeful work of thousands of employees who make them possible every day.

Beyond the projects themselves are the people and communities we serve: through products that nourish and delight, fuel and power that support everyday life, roads and bridges that create connections and opportunities, and efforts to protect rivers and ecosystems.

This is the work that matters.

message to **stockholders**

Five years ago, we faced a defining moment. Amid the global pandemic, we made a deliberate decision to strengthen and reshape our business to better withstand shocks, meet the needs of a changing economy, and build the scale needed to support our country's long-term growth.

Today, that commitment is delivering results. In 2025, the strength we built across the group translated into improved profitability. Core net income, excluding one-off items, rose 52% to P79.6 billion, a clear indication of the breadth and resilience of our businesses. Together with value realized from select portfolio investments, this lifted reported net income to P94.7 billion, 158% higher than the previous year. Operating income grew 13% to P181.6 billion, and EBITDA increased 16% to P262.0 billion.

Our financial results are significant, but they are only one measure of how much the company has changed.

That change is evident in how our businesses now operate. We have improved margins, increased efficiency, and created new sources of value across the group. While consolidated revenues were slightly lower in 2025, this largely reflected lower crude prices for Petron and the change in our Power portfolio rather than weaker demand for our products and services.

More importantly, many of the investments we made over the past decade are now contributing more directly to the company and the country. Projects once under development are now operational, generating income, supporting industries, creating jobs, and improving the daily lives of Filipinos.

Ramon S. Ang
Chairman and Chief Executive Officer

John Paul L. Ang
President and Chief Operating Officer

> Projects once under development are now operational, generating income, supporting industries, creating jobs, and improving the daily lives of Filipinos.

In Food and Beverage, we expanded capacity, strengthened distribution, broadened our product portfolio, and addressed long-standing bottlenecks across the value chain, enabling us to serve more customers while improving efficiency and profitability.

In Power, we continued to build the capacity needed to support the country's growing energy needs, including the completion of roughly 500 MW of Battery Energy Storage System (BESS) facilities nationwide. We also realized significant value from assets we had developed over the years while maintaining our participation in a sector that remains essential to national growth.

In Infrastructure, our investments continued to deliver benefits to the public. Better road connections, upgraded tollway systems, and strategic access points have helped ease congestion, support mobility, and improve the movement of people and goods across key corridors.

Taken together, these businesses form a broader San Miguel platform that may serve different markets, but are increasingly connected by a common purpose: building the systems, capacity, and capabilities that support long-term progress.

Sustainability is now more deeply embedded in how we plan, invest in, and operate our businesses, and measure our impact. It begins with our Board's Sustainability Committee and extends to teams across the organization that put our commitments into action.

We have adopted major goals in circularity, net-zero emissions, inclusive growth, and sustainable supply chains. These goals are ambitious, yet they reflect the responsibility that comes with our scale and the role we play in the economy.

This gives us even greater confidence as we enter the next phase of our growth. Our focus remains on areas central to the country's long-term development, including energy security, transportation connectivity, logistics, food security, and regional growth.

In Power, we will continue to expand and diversify our portfolio by ramping up investments in renewable energy and BESS. Our planned hydropower and solar projects will strengthen our participation in the country's energy transition, improving energy supply reliability, and long-term affordability.

> No company can fully anticipate what comes next, but the past few years have shown that San Miguel can adapt, remain disciplined, and continue to act in ways that serve both the company and the country.

In Infrastructure, airport development and operations will become an increasingly important part of our portfolio. Through our participation in New NAIA Infra Corp., we are helping deliver improvements to the country's primary international gateway, with the goal of making travel through NAIA safer, more efficient, and more comfortable for passengers.

At the same time, we are advancing our airport project in Bulacan, along with the major road and rail projects that will strengthen links among communities, industries, and markets. Together, these investments are part of a larger transport network that can support growth beyond Metro Manila and create more opportunities across the regions.

The value of these projects lies not only in the assets we build but also in the access, dependability, resilience, and opportunity they create. Plant expansions help secure the supply of essential goods and support local industries. Expressways and airports connect Filipinos and improve access to markets and services. Through our Better Rivers PH initiative, we help restore waterways, increase flood-carrying capacity, and support safer, more resilient cities and provinces.

None of this happens without our people. Every day, across our businesses and project sites, San Miguel employees bring our long-term vision to life.

This work matters even more at a time of growing global uncertainty. Geopolitical conflicts, supply chain disruptions, inflationary pressures, and climate risks continue to test economies worldwide.

No company can fully anticipate what comes next, but the past few years have shown that San Miguel can adapt, remain disciplined, and continue to act in ways that serve both the company and the country.

We remain committed to the broader progress of the Filipino people. That purpose continues to guide our decisions and define the work that matters.

Children play beneath a section of Skyway Stage 3 in Manila, which helps connect southern and northern Metro Manila, to neighboring provinces, through a seamless expressway network.

Opposite: The train depot of MRT-7. The project connects with the existing MRT-3 and LRT-1 and will help ease everyday commutes for people coming from Bulacan and traveling across various points of Metro Manila.

part of the **everyday**

What keeps a nation moving is often easy to overlook.

The roads people take to work or school. The electricity that powers our homes, hospitals, businesses, and factories. The fuel that moves goods across the country. The food and drinks that are found in supermarkets, stores, restaurants, and at family tables every day.

Over the last few decades, our businesses have grown beyond their traditional roots into industries that now help support the broader flow of Philippine life, delivering multiplier benefits across the broader economy.

Magnolia poultry products being sold at a local market. Our Food Group is supported by an integrated and efficient production system that helps make quality, affordable food more accessible to Filipino families.

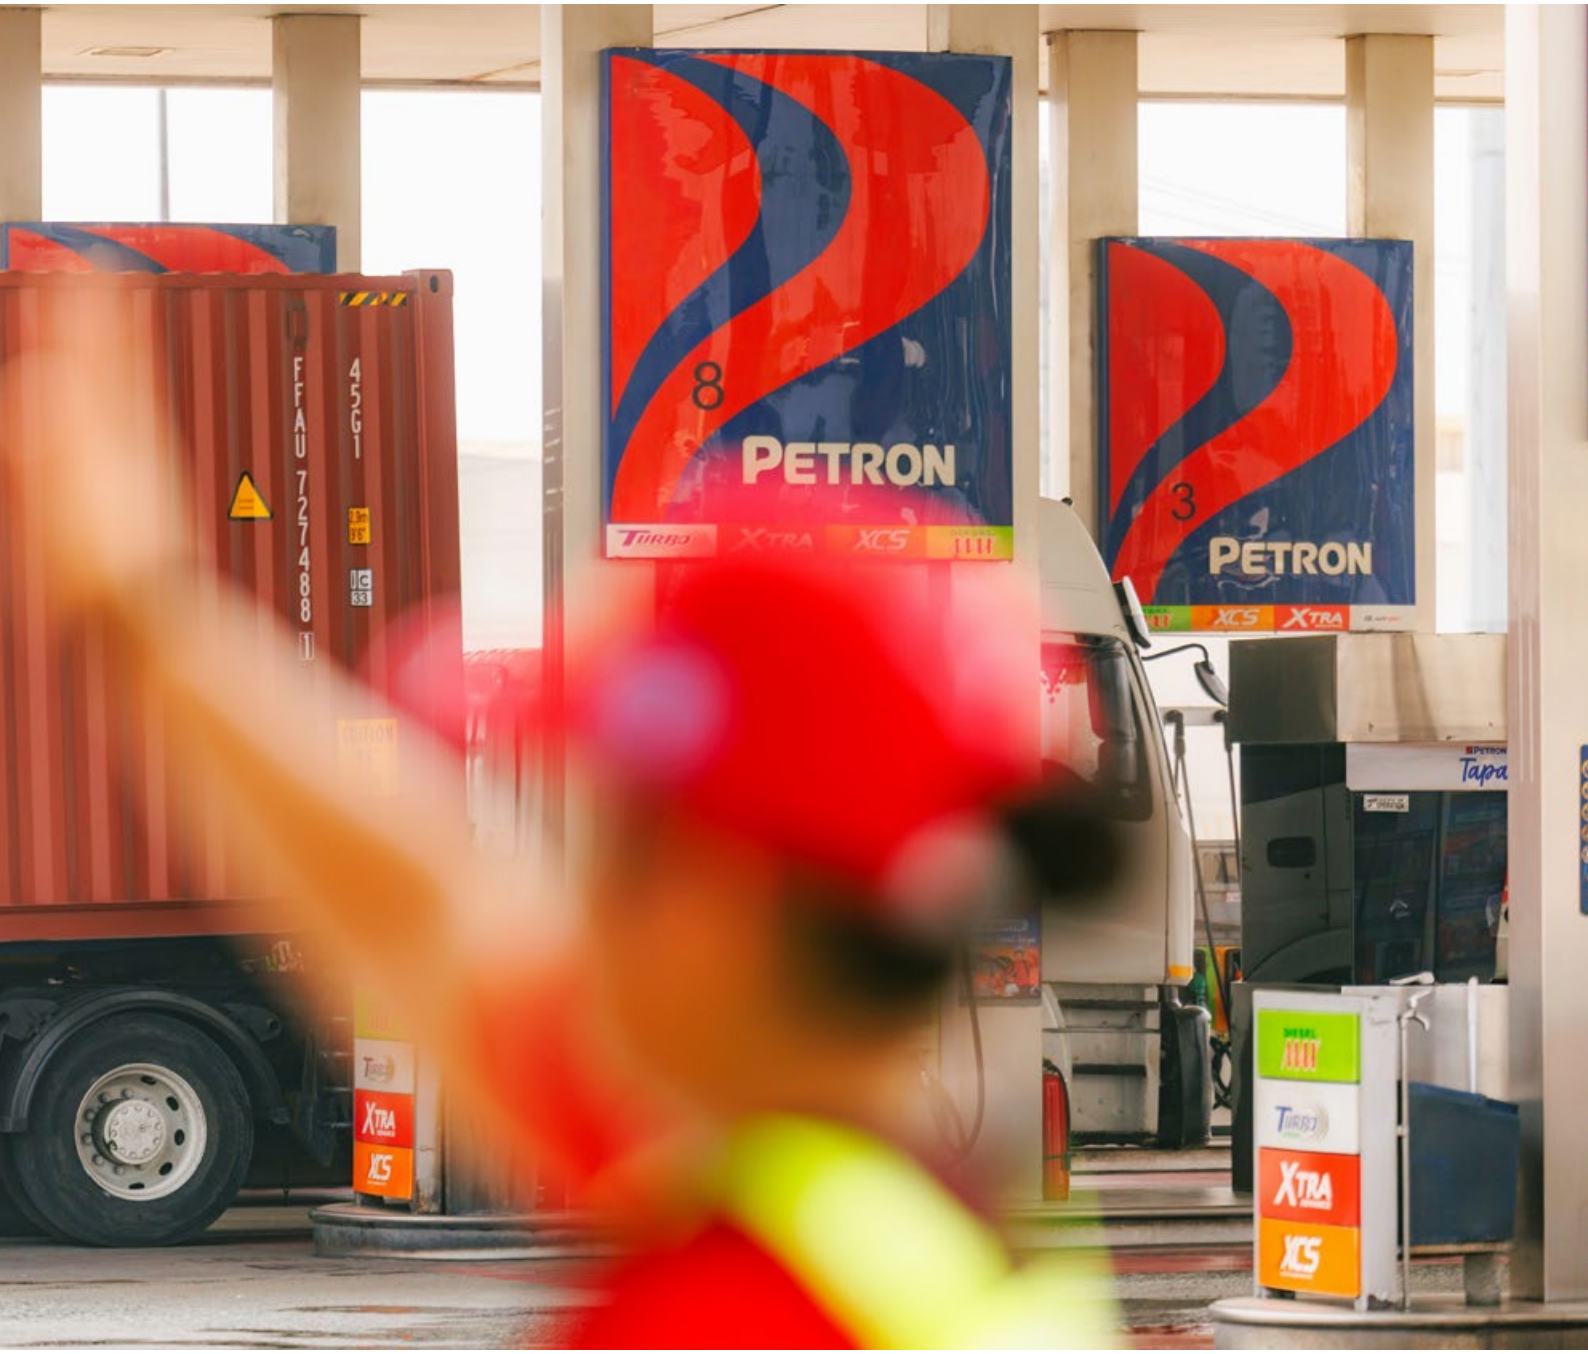

Food, Beverage, and Packaging remain our traditional core, while our Fuel and Oil, Power, Infrastructure, Cement, Logistics, and Banking businesses have expanded our reach and strengthened our role in supporting national growth.

Many of these businesses naturally reinforce one another. Our expressways support mobility and logistics. Our fuel stations serve transport networks across the country. These stations also serve as ideal locations for food chains and retail stores that carry and serve our products. Our infrastructure investments—including future railways and airports—further ease the movement of people and trade.

Petron's nationwide network of service stations plays an important role in supporting the country's fuel security and keeping people, goods, and industries moving across the Philippines.

Food, Beverage, and Packaging remain our traditional core, while our Fuel and Oil, Power, Infrastructure, Cement, Logistics, and Banking businesses have expanded our reach and strengthened our role in supporting national growth.

The South Luzon Expressway, widened to six-by-six lanes, is vital to the transport of people and goods to and from Southern Luzon—where agricultural and industrial centers, major ports, tourist attractions, and residential and lifestyle centers, are.

Our Power business helps ensure reliable electricity for industries and communities alike. Cement supports the continued building of cities, roads, and public infrastructure.

Even our environmental initiatives—from river rehabilitation, to reforestation and biodiversity programs across Central Luzon—support our efforts to strengthen economic and environmental resilience for future generations.

With many of the large-scale projects we began over the last decade now completed and contributing sustained value, we are better positioned to continue investing for the future.

Enduring icons: San Miguel Beer and Ginebra San Miguel are two of the country's most enduring, recognizable, and iconic brands—ever-present in everyday celebrations, big and small.

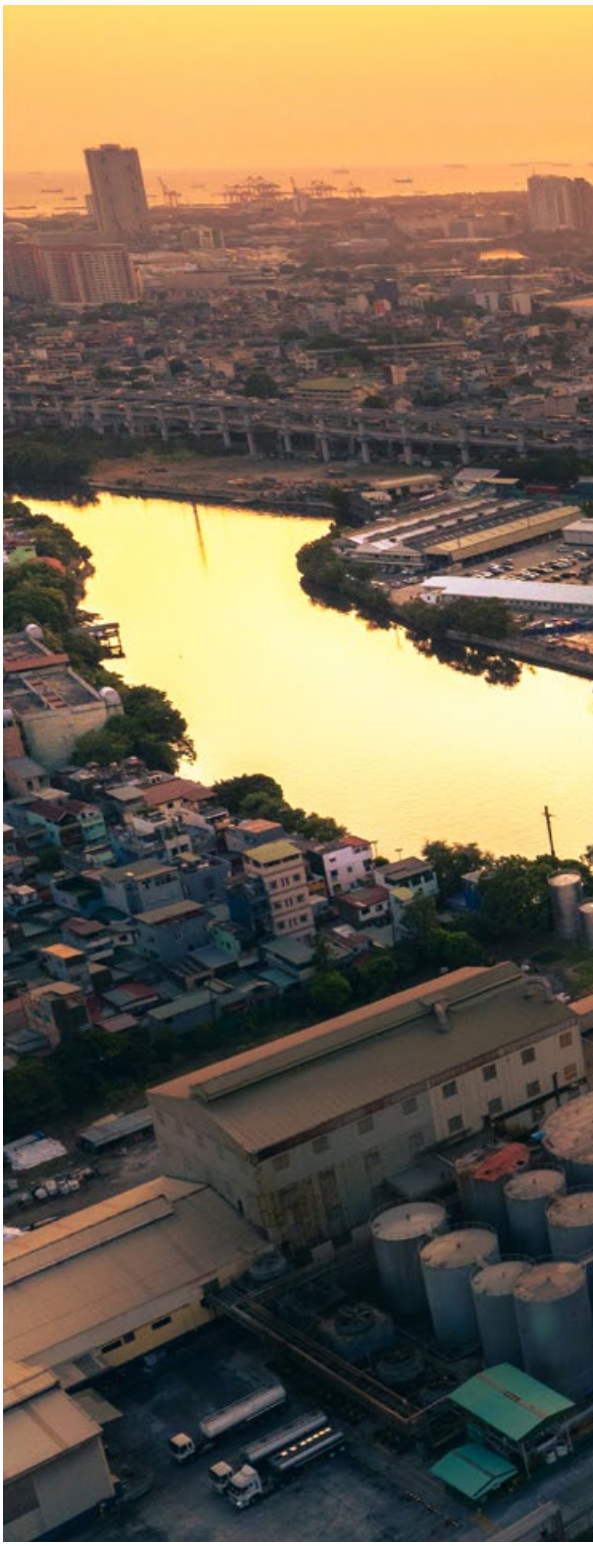

The work needed to make sure our essential products and services are within everyone's reach, is often unseen. But it is work that matters and makes a difference.

Decades ago, San Miguel's presence in everyday life was seen mostly through the reach of our products and brands generations of consumers knew and loved so well. Today, our role has become broader and more deeply embedded in the systems that help communities function every day.

And while much of what is built is highly visible, the work behind it often is not.

People see the built expressways, without seeing the years required to build them. We flip a switch and see the light turn on, but not the people working round the clock to ensure electricity is available on demand. Products reach markets and stores through the coordinated efforts of farmers, line employees, safety and quality officers, drivers, and distributors, all working within synchronized production cycles.

For us, this is the work that matters: steady, purposeful work that supports everyday life and contributes, in its own way, to nation-building.

Skyway Stage 3

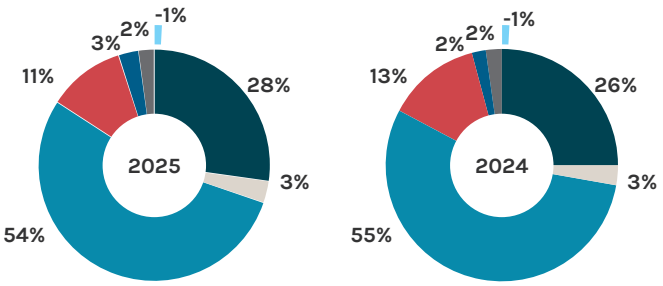

For us, this is the work that matters: steady, purposeful work that supports everyday life and contributes, in its own way, to nation-building.

Ultimately, our role is simple: to help make the lives of the Filipino move more reliably, efficiently, and sustainably through businesses that are essential, interconnected, and built for the long term.

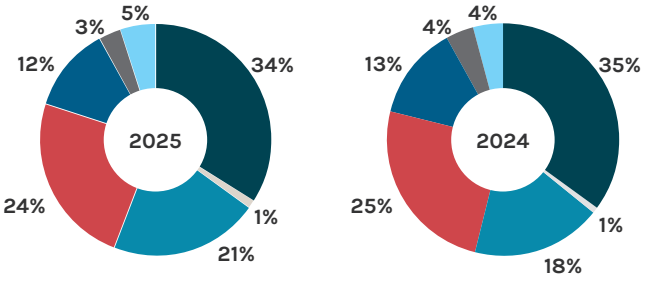

management **report**

With the Philippine economy slowing towards the end of 2025, fourth-quarter Gross Domestic Product eased to 3% — reflecting softer domestic demand, adverse weather, and a contraction in government spending following disruptions tied to governance issues.

OTHERS
POWER

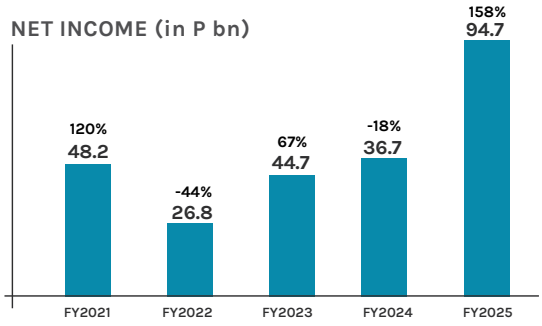

Consequently, full-year economic growth settled at 4.4%, down from 5.7% in 2024, marking the slowest pace since the post-pandemic recovery.

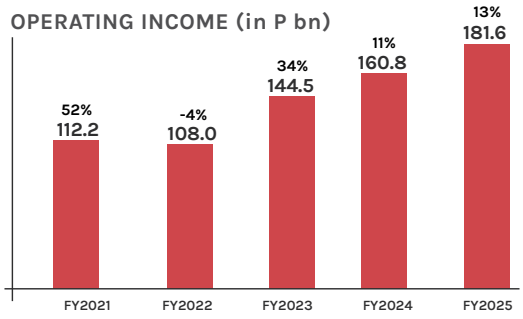

Inflation remained manageable, averaging 1.7% for the year, while interest rates began to decline toward year-end. However, these factors were not enough to fully sustain consumer momentum. Household spending growth slowed to 3.8%, reflecting softer consumption, reduced mobility, and economic disruptions caused by successive typhoons.

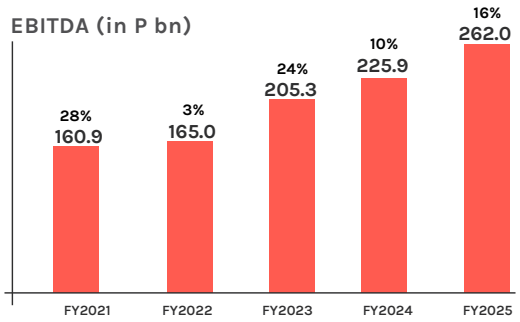

Amid these difficult operating conditions, San Miguel Corporation (SMC) generated consolidated sales of P1.5 trillion, a 6% decline compared with 2024. This is primarily due to several factors: lower average selling prices and sales volume for Petron Corporation; lower sales for San Miguel Global Power, following the deconsolidation of South Premiere Power Corp. (SPPC) effective January 27, 2025, and, to some extent, lower sales for the Cement business. The overall decrease in total revenue was, however, partially offset by the strong performance of the Food and Beverage business and steady volume growth for SMC Infrastructure.

Consolidated operating income increased by 13% to P181.6 billion, driven by growth in domestic sales volume, lower costs, and improved production efficiency at Petron; higher gross profit for San Miguel Foods and Ginebra San Miguel Inc. (GSMI) due to improved sales and cost management; better margins for San Miguel Global Power (SMGP), from contracted capacities with fuel passthrough arrangements, and sustained tollway revenue growth for SMC Infrastructure.

Consolidated net income rose significantly to P94.7 billion, compared with P36.7 billion in 2024. This was driven by a one-time gain from the fair valuation of investments in SPPC, Excellent Energy Resources Inc. (EERI), and Ilijan Primeline Industrial Estate Corp. (IPIEC) following the dilution of SMGP's ownership interest from 100% to 33%; the share in net income of EERI and SPPC, from its remaining 33% ownership interest. Also contributing to the rise in net income was overall improved operations across the Fuel and Oil, Food and Beverage, Energy, and Infrastructure businesses.

Sustainability remained integral to our company's long-term strategy. We advanced our sustainability agenda by strengthening climate risk management across the Group, completing a physical climate risk assessment, establishing our Roadmap to Net Zero, and integrating environmental, social, and governance considerations into capital investments to support resilience, decarbonization, and create long-term value.

Food and Beverage

San Miguel Food and Beverage, Inc. (SMFB) delivered solid results in 2025, driven by steady contributions from its divisions. For the full year, consolidated revenues reached P419.1 billion, a 5% increase year-on-year.

Consolidated operating income increased by 9% to P61.0 billion, and consolidated net income grew by 13% to P46.3 billion. These results reflect the strength of SMFB's diverse portfolio and the effective execution of its operating strategies.

San Miguel Brewery Inc. (SMB) recorded consolidated revenues of P155.4 billion, reflecting generally stable performance compared with the previous year.

Consolidated operating income of P32.9 billion and consolidated net income of P26.5 billion reflect its continued focus on disciplined cost management, portfolio optimization, and targeted investments in consumer engagement.

Domestic beer revenues reached P138.7 billion, despite continued pressure on consumer spending following successive excise tax increases implemented since 2020.

International operations remained a key contributor, with revenues increasing to US$290.5 million, supported by stronger volumes and continued growth in several international markets.

Overall, SMB continues to focus on strengthening brand equity, expanding distribution, and improving operational efficiency.

Ginebra San Miguel Inc. (GSMI) sustained its strong momentum in 2025, delivering another year of solid growth. Consolidated revenues increased 8% to P67.4 billion, owing to effective pricing and stable volumes. Consolidated operating income grew 21% to P10.4 billion, while consolidated net income rose by 20% to P8.7 billion.

GSMI also continued to strengthen its leadership in the spirits category, delivering its 11th consecutive year of market share gains and reaching its highest market share level over the past 14 years. This strong performance was supported by improved distillery efficiencies and lower raw material costs.

Overall, the results underscore the strength of GSMI's brand portfolio and distribution network, which continue to support its strong leadership position in the Philippine spirits market.

San Miguel Foods delivered a record year, posting its highest revenues, operating income, and net income to date. Consolidated revenues increased 6% to P196.3 billion, supported by stronger volumes and improved pricing across several segments.

Consolidated operating income rose 30% to P17.3 billion, while consolidated net income grew 38% to P11.6 billion, reflecting significant margin expansion during the year.

The improvement was driven by stronger results across most segments, particularly Protein and Flour, which benefited from favorable input costs and improved operating efficiencies.

Packaging

San Miguel Yamamura Packaging Corp. (SMYPC) reported stable results in 2025, with consolidated revenues of P40.4 billion. Higher revenue from the food and beverage sectors for glass containers, plastics, paper packaging, and metal closures, offset lower volumes in other packaging formats.

Despite flat revenues, consolidated income from operations increased 4% to P2.7 billion, driven by the continued implementation of cost containment measures and operational efficiency initiatives.

Power

San Miguel Global Power's (SMGP) consolidated revenues totaled P157.2 billion, 23% lower than the previous year, with offtake volumes down 20% to 29.2 million megawatt-hours. The decline was primarily due to the divestment and resulting deconsolidation of EERI and SPPC. Excluding this impact, volumes remained stable, supported by strong output from the Masinloc Power Plant, higher generation from the San Roque Hydroelectric Plant, and the full-year contribution of the 600-MW Mariveles Greenfield Power Plant, and battery energy storage system (BESS) facilities.

Consolidated operating income rose 8% to P43.8 billion, with operating margins expanding from 20% to 28% due to improved contracted margins and higher contributions from BESS facilities. Consolidated net income surged to P48.3 billion, up 290% year-on-year. Excluding the one-off gain, consolidated net income improved 113% to P26.4 billion.

The Power business continues to accelerate its energy transition strategy. Through major wins under the government's Green Energy Auction Program, SMGP secured substantial renewable capacity across hydropower and solar projects. These, together with new capacity additions expected in 2026, further strengthen SMGP's pursuit of its Net Zero objectives, supporting the country's clean energy transition.

Fuel and Oil

Petron ended 2025 with its strongest financial performance to date, delivering record consolidated net income of P15.6 billion, up by 84% year-on-year, driven by sustained domestic volume growth, greater productivity at its Philippine and Malaysian refineries, and improved cost savings.

Total volumes reached 137.9 million barrels, 1% lower than the 139.9 million barrels reported in the previous year.

While consolidated revenues fell 7% to P809.8 billion—primarily reflecting a 13% decline in Dubai crude prices to an average of US$69 per barrel in 2025—consolidated operating income surged 28% to P37.3 billion from the previous year's P29.2 billion.

Infrastructure

SMC Infrastructure maintained its growth trajectory, with consolidated revenues up 7% to P40.2 billion, driven by higher traffic volumes across all toll roads. Combined annual average daily traffic reached 1,079,889 vehicles, a 5% increase from 2024.

Consolidated operating income rose 9% to P22.1 billion, supported by strong revenues and effective operational and management cost control, while consolidated net income grew 5%, ending at P14.8 billion.

Development of major infrastructure projects is in full swing. On tollway projects, construction is progressing across priority projects, particularly the South Luzon Expressway (SLEX) TR4, now at 52.54% completion. Significant progress has been made on widening and expanding the Southern Tagalog Arterial Road, SLEX, the NAIA Expressway, and the Skyway.

Overall, the Mass Rail Transit 7 (MRT 7) project is 82.01% complete, with civil works and site development continuing.

Land development for the Manila International Airport (MIA) project in Bulacan remained on track and continued to advance toward completion. Since taking over operations of the Ninoy Aquino International Airport (NAIA) in September 2024, New NAIA Infra Corp. (NNIC), of which we are part, has delivered comprehensive terminal upgrades, modernized passenger processing systems, strengthened infrastructure partnerships, and improved ground transportation and traffic management. These improvements led to a 4% increase in passenger volume to 52 million in 2025, marking the airport's highest annual passenger volume to date.

Cement

The Cement business reported consolidated revenues of P33.2 billion in 2025, down 5% year-on-year on the back of weaker demand and lower average selling prices, amid the continued influx of traded imports. This decline was partially offset by stable sales volumes. Despite a lower consolidated operating income of P6.3 billion, margins held steady through ongoing operational efficiency and cost management initiatives.

financial **position**

Consolidated total assets as of December 31, 2025, amounted to P2.7 trillion, P49.2 billion higher than December 31, 2024. This increase was primarily due to an increase in cash and cash equivalents, investments and advances, investments in equity and debt instruments, and other intangible assets and contract assets. This was partially offset by decreases in trade and other receivables, inventories, prepaid taxes and licenses, and property, plant and equipment.

The increase in cash and cash equivalents by P58.0 billion was mainly due to cash generated from operations, proceeds from the redemption of investments in redeemable preferred shares of San Miguel Global Power, the availment of long-term borrowings, the issuance of capital securities, and the reissuance of treasury shares by SMC. This was reduced by the redemption of capital securities and preferred shares, capital expenditures for ongoing projects of the Infrastructure, Energy, and Food businesses; investment in a 32.98% equity interest in Linseed Field Corporation (LFC), net payment of short-term loans, and payments of interest, dividends, distributions, and lease liabilities.

The decrease in trade and other receivables, net by P19.4 billion, was mainly attributable to the net effect of the deconsolidation of SPPC, EERI, and IPIEC's receivables following the dilution of SMGP's ownership interest effective January 27, 2025, and lower receivables for Petron Malaysia from the Malaysian Government due to subsidy claims received. This was partially offset by higher trade receivables arising from increased year-end sales of Petron Singapore Trading Pte. Ltd., which remained outstanding as of December 31, 2025; bilateral and spot sales of Mariveles Power Generation Company (MPGC), and revenues from the reserves market and ancillary services of SMGP BESS.

Inventories declined by P32.6 billion, reflecting lower crude oil and finished product volumes at Petron, the deconsolidation of SPPC and EERI, and reduced materials and supplies, particularly in the Feeds segment of the Food business.

The decrease in total biological assets by P158 million was primarily driven by higher sales volumes in the Poultry segment.

The decrease in prepaid taxes and licenses by P22.9 billion resulted from the deconsolidation of SPPC and EERI, as well as lower excise tax claims, reflecting the filing of excise tax and VAT refund claims, and a decrease in deferred input VAT of Petron. The increase in investments and advances, net of P74.3 billion, mainly pertains to the 33% equity interests in SPPC, EERI, and IPIEC, and to an investment in a 32.98% equity interest in LFC.

Investments in equity and debt instruments rose by P26.8 billion, following the acquisition and subsequent revaluation of an investment in Meralco shares held by the Power business.

Property, plant, and equipment, net, declined by P83.0 billion, due to the deconsolidation of SPPC and EERI, partially offset by the costs of the ongoing Power projects.

The increase in investment property was, net by P8.5 billion was mainly due to the acquisition of land for the MIA project and to the new and renewed land leases for Petron service stations.

An increase in other intangible assets, net by P19.3 billion, was due to an addition in concession rights for the MIA project, and costs for various other ongoing infrastructure projects, partially offset by amortization during the year.

An increase in deferred tax assets of P1.2 billion was mainly due to a deferred income tax on unrealized losses from the revaluation of foreign currency-denominated long-term debt. This was offset by a reversal of deferred income tax expense on realized foreign exchange gains arising from the hedging and payment of foreign currency-denominated borrowings of SMC.

Contract assets increased by P13.5 billion, mainly attributable to costs incurred for the MRT 7 Project.

The increase in other noncurrent assets, net by P4.0 billion, pertains to additional advances to suppliers and contractors for various projects of the Energy business, and the recognition of net defined benefit retirement asset of SMC in 2025, resulting from unrealized gains on the market value of investments of San Miguel Corporation Retirement Plan.

A decrease in loans payable by P62.6 billion was primarily attributable to the net payment made by the Group.

A P35.0 billion decrease in accounts payable and accrued expenses owed largely to the net payment of trade and non-trade payables of the Power business, and the deconsolidation of trade and non-trade payables of SPPC and EERI.

The decrease in dividends and distributions payable by P521 million reflected the impact of payment in 2025 of dividends declared in November 2024 to Petron's preferred shareholders.

The increase in total long-term debt, net of debt issue costs, by P90.0 billion, was primarily due to the net availments made by the Group and translation adjustments on foreign currency-denominated loans.

The decrease in total lease liabilities of P6.7 billion was primarily due to payments made to Power Sector Assets and Liabilities Management Corporation (PSALM) by Sual Power Inc. (SPI) for the lease agreement on the land where the Sual Coal-fired Thermal Power Plant is currently situated, and by San Roque Hydropower Inc. (SRHI) under the IPPA Agreement.

The decrease in deferred tax liabilities by P5.6 billion stemmed mainly from the deconsolidation of SPPC, offset by Petron's utilization of Net Operating Loss Carry Over (NOLCO).

The decrease in capital securities by P24.2 billion represents SMC's redemption of US$500 million Senior Perpetual Capital Securities (SPCS).

The increase in equity reserves of P20.9 billion was mainly due to the fair valuation of the Power business' investment in Meralco shares.

The increase in appropriated retained earnings by P6.1 billion was attributable to appropriations made for the SLEX Widening Project by SMC SLEX, Inc., and the payment of loans by SMB in December 2029 and December 2031—partially reduced by a reversal of appropriation for loans paid in March 2025 by SMB.

The increase in unappropriated retained earnings by P40.0 billion was mainly due to net income attributable to equity holders of the Parent Company and gains recognized by SMGP on the redemption of investment in redeemable preferred shares of SPPC, EERI, and IPIEC. This was partially offset by dividends and distributions declared, the difference between the redemption price and carrying amount of the US$500-million SPCS issued by SMC on July 29, 2020, and net appropriations of retained earnings during the year.

The increase in equity attributable to equity holders of the Parent Company by P40.9 billion was mainly due to the share in the net income earned in 2025, a gain on the fair valuation of the investment in shares of stock of Meralco; net gain on the redemption of investments in redeemable preferred shares held by San Miguel Global Power, and reissuance of preferred treasury shares of SMC. These were reduced by the redemption of capital securities and preferred shares, dividends declared to holders of common and preferred shares, and distributions to holders of SPCS of SMC.

The increase in equity attributable to non-controlling interests (NCI) by P30.0 billion was mainly due to the net issuance of capital securities by SMGP and Petron, and to NCI's share of the Group's total comprehensive income, net of dividends and distributions declared to NCI.

corporate **governance**

San Miguel Corporation is committed to the highest standards of corporate governance. Good governance is key in effective decision making and in delivering on corporate strategies that generate shareholder value and safeguard the long-term interests of shareholders.

As a responsible corporate citizen, the Company has in place efficient policies and programs to ensure that we always do what is right when it comes to conducting the everyday business of the Company.

Our Board of Directors, led by our Chairman and Chief Executive Officer (Chairman and CEO) Mr. Ramon S. Ang, believes in conducting our business affairs in a fair and transparent manner and in maintaining the highest ethical standards in all the business dealings of the Company.

SHAREHOLDERS' RIGHTS

The Company recognizes that the most cogent proof of good corporate governance is that which is visible to the eyes of its investors.

Voting rights
Each common share in the name of the shareholder entitles such shareholder to one vote, which may be exercised in person or by proxy at shareholders' meetings, including the Annual General Stockholders' Meeting (AGSM). Common shareholders have the right to elect, remove, and replace directors, as well as vote on certain corporate acts specified in the Revised Corporation Code.

Preferred shareholders have the right to vote on matters involving certain corporate acts specified in the Revised Corporation Code. They enjoy certain preferences over holders of common shares in terms of dividends and in the event of liquidation of the Company.

Pre-emptive rights
Under the Company's amended articles of incorporation, as approved by the shareholders in a meeting held on May 17, 2009, and as approved by the Securities and Exchange Commission (SEC), shareholders do not have pre-emptive rights to the issuance of shares relating to equity-linked debt or other securities, any class of preferred shares, shares in payment of a previously contracted debt, or shares in exchange for property needed for corporate purposes. This is to give the Company greater flexibility in raising additional capital, managing its financial alternatives, and issuing financing instruments.

On May 31, 2010, the shareholders of the Company approved to amend the articles of incorporation to deny pre-emptive rights to any issuance of common shares. Such amendment of the articles of incorporation was approved by the SEC on August 10, 2010.

Subject to certain conditions, shareholders also do not have pre-emptive rights to shares issued, sold or disposed of by the Company to its officers and/or employees pursuant to a duly approved stock option, stock purchase, stock subscription or similar plans.

Right to Information
Shareholders are provided, through the Investor Relations Group headed by Ms. Niña Frances Therese B. Tenorio, VP and Head of Corporate Financial Planning, disclosures, announcements, and, upon request, periodic reports filed with the SEC.

All disclosures of the Company are likewise immediately available and downloadable at the Company's website upon disclosure to the Philippine Stock Exchange (PSE), the Philippine Dealing & Exchange Corp. (PDEx) and the SEC.

Dividends
Shareholders are entitled to receive dividends as the Board, in its discretion, may declare from time to time. However, the Company is required, subject to certain exceptions under the law, to declare dividends when the retained earnings are equal to or exceed its paid- up capital stock.

Cash dividends paid by the Board of Directors of the Parent Company amounted to P1.40 per common share both in 2024 and 2025.

Cash dividends paid by the Board of Directors of the Parent Company to the preferred shareholders in 2024 and 2025 are as follows:

	2024	2025
Series "2-F"[1]	P5.10540000	P3.82905000

STAKEHOLDER RELATIONS

San Miguel Corporation exercises transparency when dealing with shareholders, customers, employees, trade partners, creditors, and all other stakeholders. The Company ensures that these transactions adhere to fair business practices in order to establish long-term and mutually beneficial relationships.

Shareholder Meeting and Voting Procedures
Stockholders are informed at least 21 calendar days before the scheduled meeting of the date, time, and place of the validation of proxies, in accordance with the Revised Corporation Code. In 2025, Notices of the 2025 AGSM were sent to the stockholders on May 16, 2025, 26 days prior to the AGSM which was held on June 10, 2025. Voting procedures on matters presented for approval of the stockholders in the AGSM are set out in the Definitive Information Statement distributed to all shareholders of the Company.

Shareholder Meeting and Investor Relations
San Miguel Corporation responds to information requests from the investing community and keeps shareholders informed through timely disclosures to the PSE, PDEx and the SEC and through regular quarterly briefings, AGSMs, investor briefings and conferences, the Company's website, and responses to email and telephone queries. The Company's disclosures and other filings with the SEC, PSE and PDEx are available for viewing and download at the Company's website.

The Company, through the Investor Relations group under Corporate Finance, regularly holds briefings and meetings with investment and financial analysts.

DISCLOSURE AND TRANSPARENCY

San Miguel Corporation adheres to a high level of standard in its corporate disclosure and adopts transparency with respect to the Company's financial condition and state of corporate governance.

Ownership Structure
The top 20 shareholders of the Company, including the shareholdings of certain record and beneficial owners who own more than 5% of its capital stock, its directors and key officers, are disclosed annually in the Definitive Information Statement distributed to shareholders prior to the AGSM.

Financial Reporting
San Miguel Corporation provides the investing community with regular updates on operating and financial information through adequate and timely disclosures filed with the SEC, the PSE and the PDEx. Consolidated audited financial statements are submitted to the SEC, the PSE and PDEX on or before the prescribed period and are available to the shareholders prior to the AGSM.

San Miguel Corporation's financial statements conform to Philippine Accounting Standards and Philippine Financial Reporting Standards, which are all in compliance with International Accounting Standards.

Quarterly financial results, on the other hand, are released and are duly disclosed to the SEC, the PSE and PDEX in accordance with the prescribed rules. The results are also presented to financial and investment analysts through quarterly analysts' briefings. These disclosures are likewise posted on the Company's corporate website.

In addition to compliance with structural reportorial requirements, the Company discloses in a timely manner market-sensitive information such as dividend declarations, joint ventures and acquisitions, and the sale and divestment of significant assets that materially affect the share price performance of the Company.

Securities Dealing
The Company has adopted a policy which regulates the acquisition and disposal of Company shares by its directors, officers, and employees, and the use and disclosure of price-sensitive information by such persons. Under the policy, directors, officers, and employees who have knowledge or are in possession of material nonpublic information are prohibited from dealing in the Company's securities prior to disclosure of such information to the public.

The policy likewise prescribes the periods before and after public disclosure of structured and non-structured reports, during which trading in the Company's securities by persons who, by virtue of their functions and responsibilities, are considered to have knowledge or possession of material non-public information, is not allowed.

ACCOUNTABILITY AND AUDIT

The Audit and Risk Oversight Committee has oversight functions with respect to the external and internal auditors. The role and responsibilities of the Audit and Risk Oversight Committee are clearly defined in the Company's Manual on Corporate Governance and the Audit and Risk Oversight Committee Charter.

External Auditor
The accounting firm of R.G. Manabat & Co., accredited by the SEC, served as the Company's external auditors for the fiscal years 2024 and 2025.

The external auditor is selected and appointed by the shareholders upon the recommendation of the Board and subject to rotation every five years or earlier, in accordance with SEC regulations. The external auditor's main function is to facilitate the environment of good corporate governance, as reflected in the Company's financial records and reports, through the conduct of an independent annual audit on the Company's business, and rendition of an objective opinion on the reasonableness of such records and reports.

The external auditors attend the AGSM of the Company and respond to appropriate questions during the meeting. They also have the opportunity to make a statement if they so desire. In instances when the external auditor suspects fraud or error during the conduct of its audit, they are required to disclose and express their findings on the matter.

The Company paid the external auditor Audit Fees amounting to P11 million and P12 million, respectively, in 2024 and 2025.

Internal Audit
Internal audit is carried out by the San Miguel Group Audit (SMGA) which helps the Company accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. The SMGA directly reports to the Audit and Risk Oversight Committee.

The SMGA is responsible for identifying and evaluating significant risk exposures and contributes to the improvement of risk management and control systems by assessing the adequacy and effectiveness of controls covering the organization's governance, operations, and information systems. By evaluating their effectiveness and efficiency, and by promoting continuous improvement, the group maintains effective controls of their responsibilities and functions.

The Board approved and adopted an Internal Audit Charter of the Company on March 16, 2017, in compliance with the requirements of the SEC, and was amended on March 13, 2025.

BOARD OF DIRECTORS

Compliance with the principles of good corporate governance starts with the Company's Board of Directors. The Board is responsible for oversight of the business affairs and integrity of the Company; determination of the Company's mission, long term strategy, and objectives; the management of the Company's risks through evaluation, and ensuring the adequacy of the Company's internal controls and procedures.

It is the responsibility of the Board to foster and engender the long-term success of the Company and secure its sustained competitiveness in a manner consistent with its fiduciary responsibility, exercised in the best interest of the Company, its shareholders, and other stakeholders.

Composition
The Board consists of 15 members, each elected by the stockholders of common shares during the AGSM. The Board members hold office for one year until their successors are duly elected and qualified in accordance with the amended by-laws of the Company

The broad range of skills, expertise, and experience of the directors in the fields of management, economics, business, finance, accounting, and law, ensure comprehensive evaluation of, and sound judgment on, matters relevant to the Company's businesses and related interests. The names, profiles, and shareholdings of each director are found in the Definitive Information Statement, distributed prior to the AGSM.

The Board of Directors and the senior management of the Company have all undergone the requisite training on corporate governance.

Independent and Non-Executive Directors
The Company has three (3) independent directors who were nominated and elected on June 10, 2025,

namely: Mr. Douglas L. LuYm, Mr. Felipe M. Medalla and Mr. Margarito B. Teves. Messrs. LuYm, Medalla and Teves sit as independent and non-executive directors of the Company.

The Company defines an independent director as a person who, apart from their fees and shareholdings, has no business or relationship with the Corporation which could, or could reasonably be perceived to, materially interfere with the exercise of their independent judgment in carrying out their responsibilities as a director. An Independent Director submits to the Corporate Secretary a certification confirming that they possess all the qualifications and none of the disqualifications of an Independent Director at the time of their election and/or re-election as an Independent Director.

The Company strictly complies with SEC Memorandum Circular No. 4, Series of 2017 on the term limits of independent directors.

A majority of the members of the Board of Directors of the Company are non-executive directors.

Mr. Ramon S. Ang holds the position of Chairman and CEO, while Mr. John Paul L. Ang is Vice-Chairman, President and Chief Operating Officer (President and COO). These positions are held by separate individuals with their respective roles clearly defined to ensure independence, accountability and responsibility in the discharge of their duties. The Chairman and CEO attended the AGSM for 2025.

Board Performance

The Board holds regular meetings. To assist the directors in the discharge of their duties, each director is given access to the Corporate Secretary and Assistant Corporate Secretary, who serve as counsel to the board of directors and at the same time communicate with the Board, management, the Company's shareholders, and the investing public.

In 2025, the Board held nine meetings. Set out below is the record of attendance of the directors at these meetings and at the AGSM.

* Ms. Cecile L. Ang, Mr. Douglas L. LuYm, Mr. Joseph N. Pineda, Mr. Thomas A. Tan, and Mr. Bryan U. Villanueva were elected as Members of the Board of Directors during the Annual Stockholders' Meeting held on 10 June 2025.

Board Remuneration
The amended by-laws of the Company provide that the Board of Directors shall receive as compensation no more than 2% of the profits obtained during the year after deducting general expenses, remuneration to officers and employees, depreciation on buildings, machineries, transportation units, furniture, and other properties. Such compensation shall be apportioned among the directors in such manner as the Board deems proper. In 2010, the Board of Directors approved the increase in the per diems for each Board meeting attended by the members of the Board from P10,000 to P50,000, and from P10,000 to P20,000 for each committee meeting attended.

Board Committees
To assist the Board in complying with the principles of good corporate governance, the Board created five committees.

Executive Committee
The Executive Committee is currently composed of five directors, which includes the Chairman and CEO, and the President and COO. The Committee acts within the power and authority granted to it by the Board and is called upon when the Board is not in session to exercise the powers of the latter in the management of the Company—with the exception of the power to appoint any entity as general managers or management or technical consultants; to guarantee obligations of other corporations in which the Company has lawful interest; to appoint trustees who, for the benefit of the Company, may receive and retain such properties of the Company or entities in which it has interests; and to perform such acts as may be necessary to transfer ownership of such properties to trustees of the Company, and such other powers as may be specifically limited by the Board or by law.

In 2025, no meeting was held by the Executive Committee.

Corporate Governance Committee
The Corporate Governance Committee is currently composed of five voting directors—two of whom are independent. Mr. Felipe M. Medalla, an independent director, is the Chairman of the Committee.

The Corporate Governance Committee was constituted to aid the Board in the performance of its oversight responsibilities in the development and implementation of the corporate governance principles, policies, structures, and systems of the Corporation, and assist the Board in the performance of its corporate governance responsibilities.

In 2025, the Corporate Governance Committee held four meetings.

Audit and Risk Oversight Committee
The Audit and Risk Oversight Committee is currently composed of five members with three independent directors as members. Mr. Margarito B. Teves, an independent director, sits as Committee Chairman.

The Audit and Risk Oversight Committee performs oversight functions over the Company's financial reporting, internal control system, internal and external audit processes, and compliance with applicable laws and regulations, as well as oversight over the Company's enterprise risk management system to ensure its functionality and effectiveness.

The Audit and Risk Oversight Committee held four meetings in 2025, wherein the Committee reviewed and approved, among others, the Company's 2024 Consolidated Audited Financial Statements as reviewed by the external auditors, and the Company's unaudited financial statements for the first to the third quarters of the year 2025.

The Audit and Risk Oversight Committee has adopted an Audit and Risk Oversight Committee Charter in accordance with the prescribed audit and risk oversight committee charter of the SEC.

Related Party Transactions Committee
The Related Party Transactions Committee is currently composed of five members, three of whom are independent directors. The Related Party Transactions Committee is chaired by independent director, Felipe M. Medalla.

The Related Party Transactions Committee reviews all material related party transactions of the Company. The Committee held one meeting in 2025.

Sustainability Committee
The Sustainability Committee was created on July 6, 2023, and is currently chaired by independent director, Mr. Douglas L. LuYm.

The Sustainability Committee is tasked to assist the Board in fulfilling its oversight responsibilities in relation to the objectives, policies, and practices of the Company pertaining to sustainability. This function includes ensuring that the strategies, goals and principles of the Company are aligned with, promote and encourage its commitment toward sustainability.

In 2025, the Sustainability Committee had one meeting.

Board Committee Members

The members of each Board Committee and their attendance at the Board Committee meetings in 2025 are set out in the tables below. All the respective Chairpersons of the board committees attended the 2025 AGSM.

MANAGEMENT

Management is primarily responsible for the day-to-day operations and business of the Company. The annual compensation of the Chairman and CEO, the President and COO and the top senior executives of the company are set out in the Definitive Information Statement distributed to shareholders.

EMPLOYEE RELATIONS

Employees are provided an Employee Handbook and Code of Ethics which contain the policies and guidelines for the duties and responsibilities of an employee of San Miguel Corporation.

Through internal newsletters and company e-mails all facilitated by the Human Resources Department and the Corporate Affairs Office, employees are updated on material developments within the organization.

Career advancement and development is also provided by the Company through numerous training programs and seminars. The Company has also initiated activities centered on the safety, health and welfare of its employees. Benefits and privileges accruing to all regular employees are similarly discussed in the Employee Handbook.

CODE OF ETHICS

The Company's Code of Ethics sets out the fundamental standards of conduct and values consistent with the principles of good governance and business practices that shall guide and define the actions and decisions of the directors, officers, and employees of the Company. The principles and standards prescribed in the Code of Ethics apply to all directors, senior managers, and employees of the Company.

Procedures are well established for the communication and investigation of concerns regarding the Company's accounting, internal accounting controls, auditing, and financial reporting matters to the Audit and Risk Oversight Committee.

Whistle-blowing policy
The Company has an established whistle-blowing policy aimed at encouraging employees to speak out and call the attention of Management to any suspected wrongdoing which is contrary to the principles of the Code of Ethics and violations of the Company's rules and regulations.

The policy aims to protect the whistle-blower from retribution or retaliation, and provides a disincentive to passively allowing the commission of wrongful conduct.

The Whistle-blowing policy and other policies of the Company are available at the Company's website.

COMPLIANCE MONITORING

The Compliance Officer, Atty. Virgilio S. Jacinto, is responsible for monitoring compliance by the Company with the provisions and requirements of good corporate governance.

On April 14, 2010, the Board Directors amended its Manual of Corporate Governance in compliance with the Revised Code of Corporate Governance issued by the Securities and Exchange Commission, under its Memorandum Circular No. 6, Series of 2009. On March 27, 2014, the Board of Directors approved further amendments to the Manual to reflect the requirements of the SEC on the annual training requirement of directors and key officers of the Company, and the requirements on the reporting of compliance with the Manual.

On July 3, 2025, the Board of Directors of the Company approved further amendments to the Manual in relation to the number of independent directors to be appointed, the addition of the Sustainability Committee in the Manual, and the rule on the rotation of external auditors.

WEBSITE

Up-to-date information on the Company's corporate structure, products and services, results of business operations, financial statements, career opportunities, and other relevant information on the Company may be found at its website https://www.sanmiguel.com.ph.

The Board of Directors
San Miguel Corporation

REPORT OF THE AUDIT AND RISK OVERSIGHT COMMITTEE

For the year ended December 31, 2025

The Audit and Risk Oversight Committee assists the Board of Directors in its corporate governance and oversight responsibilities in relation to financial reporting, risk management, internal controls and internal and external audit processes and methodologies. In fulfillment of these responsibilities, the Audit and Risk Oversight Committee performed the following in 2025:

- endorsed for approval by the stockholders, and the stockholders approved the appointment of R.G. Manabat & Co. CPAs (formerly Manabat Sanagustin & Co. CPAs) as the Company's independent external auditors for 2025.
- reviewed and approved the terms of engagement of the external auditors, including the audit, audit-related and any non-audit services provided by the external auditors to the Company and the fees for such services, and ensured that the same did not impair the external auditors' independence and objectivity;
- reviewed and approved the scope of the audit and audit programs of the external auditor as well as the internal audit group of the Company, and have discussed the results of their audit processes and their findings and assessment of the Company's internal controls and financial reporting systems;
- reviewed, discussed and recommended for approval of the Board of Directors the Company's annual and quarterly consolidated financial statements, and the reports required to be submitted to regulatory agencies in connection with such consolidated financial statements, to ensure that the information contained in such statements and reports presents a true and balanced assessment of the Company's position and condition and comply with the regulatory requirements of the Securities and Exchange Commission; and
- reviewed the effectiveness and sufficiency of the Company's financial and internal controls, risk management systems, and control and governance processes, and ensured that, where applicable, necessary measures are taken to address any concern or issue arising therefrom.
- reported compliance to the Securities and Exchange Commission on the results of the accomplishment by the members of the Audit and Risk Oversight Committee of the Audit and Risk Oversight Committee Self-Rating Form in accordance with the Audit and Risk Oversight Committee Charter and in compliance with the requirements of the SEC Memorandum Circular No. 4, Series of 2012.

All the five members of the Audit and Risk Oversight Committee, three of whom are independent directors, are satisfied with the scope and appropriateness of the Committee's mandate and that the Committee substantially met its mandate in 2025.

SAN MIGUEL CORPORATION

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR CONSOLIDATED FINANCIAL STATEMENTS

The management of San Miguel Corporation (the "Company") is responsible for the preparation and fair presentation of the consolidated financial statements, including the schedules attached therein, for the years ended December 31, 2025, 2024 and 2023, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements, including the schedules attached therein, and submits the same to the stockholders.

R.G. Manabat & Co., the independent auditor appointed by the stockholders, has audited the consolidated financial statements of the Company in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
San Miguel Corporation
No. 40 San Miguel Avenue
Mandaluyong City

Opinion

We have audited the consolidated financial statements of San Miguel Corporation and Subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2025 and 2024, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2025, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2025, in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), as applicable to audits of the consolidated financial statements of public interest entities, together with the ethical requirements that are relevant to audits of the consolidated financial statements of public interest entities in the Philippines. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Firm Regulatory Registration & Accreditation:
PRC-BOA Registration No. 0003, valid until September 20, 2026
SEC Accreditation No. 0003-SEC, Group A, valid for the audit of annual financial statements for the year ended December 31, 2024 and until the audit of annual financial statements for the year ended December 31, 2025, pursuant to SEC Notice dated April 4, 2025
BSP Selected EAs of BSFIs-Group A, valid for five (5) years covering the audit of 2025 to 2029 financial statements under BSP Letter No. FSD VI-2025-02-0054g-FSD6L-External

Revenue recognition (P1,485,345 million).
Refer to Notes 6, 27 and 35 of the consolidated financial statements.

The risk
Revenue is an important measure used to evaluate the performance of the Group and is generated from various sources. It is accounted for when control of the goods or services is transferred to the customer over time or at a point in time, at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. While revenue recognition and measurement are not complex for the Group, revenues may be inappropriately recognized in order to improve business results and achieve revenue growth in line with the objectives of the Group, thus increasing the risk of material misstatement.

Our response
We performed the following audit procedures, among others, on revenue recognition:

- We evaluated and assessed the design and operating effectiveness of the key controls over the revenue process.
- We involved our information technology specialists, as applicable, to assist in the audit of automated controls, including interface controls among different information technology applications for the evaluation of the design and operating effectiveness of controls over the recording of revenue transactions.
- We vouched, on a sampling basis, sales transactions to supporting documentation such as sales invoices and delivery documents to ascertain that the revenue recognition criteria are met.
- We tested, on a sampling basis, sales transactions for the last month of the financial year and also the first month of the following financial year to supporting documentation such as sales invoices and delivery documents to assess whether these transactions are recorded in the appropriate financial year.
- We tested, on a sampling basis, journal entries posted to revenue accounts to identify unusual or irregular items.
- We tested, on a sampling basis, credit notes issued after the financial year, to identify and assess any credit notes that relate to sales transactions recognized during the financial year.

Valuation of Goodwill (P186,145 million).
Refer to Notes 4, 18 and 40 of the consolidated financial statements.

The risk
The Group has embarked on a diversification strategy and has expanded into new businesses through a number of acquisitions and investments resulting in the recognition of a significant amount of goodwill. The goodwill of the acquired businesses are reviewed annually to evaluate whether events or changes in circumstances affect the recoverability of the Group's investments.

The methods used in the annual impairment test of goodwill are complex and judgmental in nature, utilizing assumptions on future market and/or economic conditions. The assumptions used include future cash flow projections, growth rates, discount rates and sensitivity analyses, with a greater focus on more recent trends and current market interest rates, and less reliance on historical trends.

Our response
We performed the following audit procedures, among others, on the valuation of goodwill:

- We assessed management's determination of the recoverable amounts based on fair value less costs to sell or a valuation using cash flow projections (value in use) covering a five-year period based on long range plans approved by management. Cash flows beyond the five-year period are extrapolated using a constant growth rate determined for each individual cash-generating unit.

- We tested the reasonableness of the discounted cash flow model by comparing the Group's assumptions to externally derived data such as relevant industry information, projected economic growth, inflation and discount rates. Our own valuation specialist assisted us in evaluating the models used and assumptions applied.

- We performed our own sensitivity analyses on the key assumptions used in the models.

Valuation of Other Intangible Assets with Indefinite Useful Lives (P2,668 million).
Refer to Notes 4, 18, 36 and 40 of the consolidated financial statements.

The risk
The methods used in the annual impairment test for other intangible assets with indefinite useful lives are complex and judgmental in nature, utilizing assumptions on future market and/or economic conditions. These assumptions include future cash flow projections, growth rates, discount rates and sensitivity analyses, with a greater focus on more recent trends and current market interest rates, and less reliance on historical trends.

Our response
We performed the following audit procedures, among others, on the valuation of other intangible assets with indefinite useful lives:

- We assessed management's determination of the recoverable amounts based on a valuation using cash flow projections (value in use) covering a five-year period based on long range plans approved by management. Cash flows beyond the five-year period are extrapolated using a constant growth rate determined for each individual cash-generating unit.

- We tested the reasonableness of the discounted cash flow model by comparing the Group's assumptions to externally derived data such as relevant industry information, projected economic growth, inflation and discount rates. Our own valuation specialist assisted us in evaluating the models used and assumptions applied.

- We performed our own sensitivity analyses on the key assumptions used in the models.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2025, but does not include the consolidated financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2025 are expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon as part of our engagement to audit the consolidated financial statements.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

R.G. Manabat & Co.

KPMG

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

R.G. Manabat & Co.

KPMG

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Darwin P. Virocel.

SAN MIGUEL CORPORATION AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in Millions, Except Per Share Data and Number of Shares)

1. Reporting Entity

San Miguel Corporation (SMC or the Parent Company), a subsidiary of Top Frontier Investment Holdings, Inc. (Top Frontier or the Ultimate Parent Company), was incorporated on August 21, 1913. On March 16, 2012, the Philippine Securities and Exchange Commission (SEC) approved the amendment of the Articles of Incorporation and By-Laws of the Parent Company to extend the corporate term for another 50 years from August 21, 2013, as approved on the March 14, 2011 and June 7, 2011 meetings of the Parent Company's Board of Directors (BOD) and stockholders, respectively.

The Parent Company shall have a perpetual corporate term in accordance with the Revised Corporation Code of the Philippines (RCC) and the rules of the SEC.

Under Section 2 of SEC Memorandum Circular No. 22, Series of 2020, the corporate term of a corporation with certificate of incorporation issued prior to the effectivity of the RCC and which continue to exist, shall be deemed perpetual upon the effectivity of the RCC, without any action on the part of the corporation.

The Parent Company is a public company under Section 17.2 of the Securities Regulation Code. Its common and preferred shares are listed on The Philippine Stock Exchange, Inc. (PSE).

The accompanying consolidated financial statements comprise the financial statements of the Parent Company and its Subsidiaries and the Group's interests in associates and joint ventures (collectively referred to as the Group).

The Group is engaged in various businesses, including food and beverage, packaging, energy, fuel and oil, infrastructure, cement and real estate property management and development.

The registered office address of the Parent Company is No. 40 San Miguel Avenue, Mandaluyong City, Metro Manila, Philippines.

2. Basis of Preparation

Statement of Compliance

The accompanying consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards. PFRS Accounting Standards are based on International Financial Reporting Standards Accounting Standards issued by the International Accounting Standards Board (IASB). PFRS Accounting Standards consist of PFRS Accounting Standards, Philippine Accounting Standards (PAS) and Philippine Interpretations issued by the Philippine Financial and Sustainability Reporting Standards Council (FSRSC).

The consolidated financial statements were approved and authorized for issue in accordance with a resolution by the BOD on March 12, 2026.

Basis of Measurement

The consolidated financial statements of the Group have been prepared on a historical cost basis except for the following items which are measured on an alternative basis at each reporting date:

Items	Measurement Basis
Derivative financial instruments	Fair value
Financial assets at fair value through profit or loss (FVPL)	Fair value
Financial assets at fair value through other comprehensive income (FVOCI)	Fair value
Defined benefit retirement asset (liability)	Fair value of the plan assets less the present value of the defined benefit retirement obligation
Agricultural produce	Fair value less estimated costs to sell at the point of harvest

Functional and Presentation Currency

The consolidated financial statements are presented in Philippine Peso, which is the functional currency of the Parent Company. All financial information is rounded off to the nearest million (000,000), except when otherwise indicated.

Basis of Consolidation

The consolidated financial statements include the financial statements of the Parent Company and its subsidiaries. The major subsidiaries include the following:

(b) Ceased operations in October 2021 and is in the process of liquidation.

(c) Ceased operations in March 2020 and is in the process of liquidation.

(d) Petron is 52.71% and 50.10% indirectly owned by SMC through SRC and 19.11% and 18.16% directly owned by SMC as at December 31, 2025 and 2024, respectively.

(e) Consolidated to SMHC effective May 16, 2024.

(f) Consolidated to AAIBV effective December 2, 2025. Formerly Travis Investment Solution 56 S.à.r.l. The change in the corporate name was approved by the BOD of STHS on December 29, 2025.

(g) Formerly Davana Heights Development Corporation. The change in the corporate name was approved by the SEC on November 28, 2025.

(h) Petrogen is 74.94% directly owned by SMC and 25.06% indirectly owned by SMC through Petron.

A subsidiary is an entity controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

When the Group has less than majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including the contractual arrangement with the other vote holders of the investee, rights arising from other contractual arrangements and the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date when the Group obtains control and continues to be consolidated until the date when such control ceases.

A change in the ownership interest in a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, the Group: (i) derecognizes the assets (including goodwill) and liabilities of the subsidiary and the carrying amount of any non-controlling interests; (ii) recognizes the fair value of the consideration received and the fair value of any investment retained; (iii) reclassify the Parent Company's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities; and (iv) recognizes any resulting difference as a gain or loss, associated with the loss of control attributable to the controlling interest, in the consolidated statements of income.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using uniform accounting policies for like transactions and other events in similar circumstances. Intergroup balances and transactions, including intergroup unrealized profits and losses, are eliminated in preparing the consolidated financial statements.

Non-controlling interests represent the portion of profit or loss and net assets not attributable to the Parent Company and are presented in the consolidated statements of income, consolidated statements of comprehensive income and within equity in the consolidated statements of financial position, separately from the equity attributable to equity holders of the Parent Company.

Non-controlling interests include the interests not held by the Parent Company in its subsidiaries as follows: SMFB, SMYPC, SMYPIL, Petron, SMCTC, TADHC, AMTEX, AAIBV, SMPI, SMCSLC, Petrogen, AIBC and SMCACDC in 2025 and 2024 (Note 26).

3. Material Accounting Policy Information

The accounting policies set out below have been applied consistently to all periods presented in the consolidated financial statements, except for the changes in accounting policies as explained below.

The FSRSC approved the adoption of a number of new and amendments to standards as part of PFRS Accounting Standards.

Adoption of Amendments to Standards

The Group has adopted the Lack of Exchangeability (Amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates*) effective January 1, 2025. The amendments clarify that a currency is exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

When a currency is not exchangeable, an entity needs to estimate a spot rate that reflects the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions, using either an observable exchange rate without adjustment or another estimation technique.

The amendments require new disclosures to help users assess the impact of using an estimated exchange rate on the consolidated financial statements, including the nature and financial impacts of the currency not being exchangeable, the spot exchange rate used, the estimation process, and risks to the entity because the currency is not exchangeable.

The adoption of the amendments to standards did not have a material effect on the consolidated financial statements.

New and Amendments to Standards Not Yet Adopted

A number of new and amendments to standards are effective for annual reporting periods beginning after January 1, 2025, and have not been applied in preparing the consolidated financial statements.

The Group will adopt the following new and amendments to standards on the respective effective dates:

- Disclosures about Uncertainties in the Financial Statements (Amendments to Illustrative Examples on PFRS 7, *Financial Instruments: Disclosures,* PFRS 18, *Presentation and Disclosure in Financial Statements,* PAS 1, *Presentation of Financial Statements,* PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors,* PAS 36, *Impairment of Assets* and PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*). The amendments provide illustrative examples demonstrating how entities can apply PFRS Accounting Standards when reporting the effects of uncertainties in their financial statements. The examples use climate-related scenarios as practical illustrations, but the underlying principles apply more broadly to all uncertainties.

The illustrative examples are not an integral part of the PFRS Accounting Standards and do not have an effective date or transition requirements. Entities are expected to consider these examples in applying the disclosure requirements of the relevant standards on a timely basis.

- Classification and Measurement of Financial Instruments (Amendments to PFRS 9, *Financial Instruments* and PFRS 7). The amendments clarify that a financial liability is derecognized on the settlement date when the related obligation is discharged, cancelled or expires. The amendments also introduce an accounting policy option to derecognize financial liabilities settled through an electronic payment system before the settlement date, if certain specified conditions are met.

  The amendments also provide guidelines for assessing the contractual cash flow characteristics of financial assets that include environmental, social, and governance-linked features and other similar contingent features.

  Entities are required to disclose additional information about financial assets and financial liabilities with contingent features, and equity instruments classified at fair value through other comprehensive income.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early application permitted.

- Contracts Referencing Nature-dependent Electricity (Amendments to PFRS 9 and PFRS 7). The amendments clarify the application of the own-use exemption for contracts referencing electricity from nature-dependent renewable energy sources, amend the hedge accounting requirements to allow these contracts to be designated as hedging instruments if certain conditions are met, and introduce additional disclosure requirements on the impact of these contracts on the financial performance and future cash flow.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early application permitted.

- Annual Improvements to PFRS Accounting Standards - Volume 11. This cycle of improvements contains amendments to five standards, of which the following amendments are relevant to the Group:

  - Gain or Loss on Derecognition (Amendments to PFRS 7). The amendments replaced the reference to inputs that were not based on observable market data' in the obsolete paragraph 27A of PFRS 7, with reference to 'unobservable inputs' in paragraphs 72-73 of PFRS 13, *Fair Value Measurement*.

  - Derecognition of Lease Liabilities and Transaction Price (Amendments to PFRS 9). The amendments:

    - added a cross-reference to clarify that when a lessee has determined that a lease liability has been extinguished in accordance with PFRS 9, the lessee applies the requirement that the difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, shall be recognized in statement of income; and

    - replaced the term 'their transaction price (as defined in PFRS 15, *Revenue from Contracts with Customers*)' with 'the amount determined by applying PFRS 15' because a receivable might be initially measured at an amount that differs from the transaction price recognized as revenue, for example, when you recognize full amount for consideration that's unconditionally receivable but at the same time recognize expected refund liability with respect to retrospective rebates. Consequently, the definition of the transaction price has been deleted.

  The amendments apply for annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted. The amendment on derecognition of lease liabilities applies only to lease liabilities extinguished on or after the beginning of the annual reporting period in which the amendment is first applied.

- PFRS 18, replaces PAS 1. The new standard introduces the following key requirements:

  - Entities are required to classify all income and expenses into five categories in the statement of income: operating, investing, financing, income tax, and discontinued operations. Subtotals and totals are presented in the statement of income for operating profit or loss, profit or loss before financing and income taxes, and profit or loss.

  - Management-defined performance measures are disclosed in a single note to the financial statements.

  - Enhanced guidance is provided on how to group information in the financial statements.

  Consequential amendments to PAS 7, *Statement of Cash Flows*, require the use of the operating profit or loss subtotal as the starting point when presenting operating cash flows under the indirect method and eliminate the options for classifying interest and dividend cash flows.

  PFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, with retrospective application required. Early adoption is permitted.

- PFRS 17, *Insurance Contracts*, replaces the interim standard, PFRS 4, *Insurance Contracts*, and establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The new standard applies to all insurance contracts, regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

  PFRS 17 aims to increase transparency and to reduce diversity in the accounting for insurance contracts. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by a specific adaptation for contracts with direct participation features (the variable fee approach) and simplified approach (the premium allocation approach) mainly for short-duration contracts.

  On December 15, 2021, the FSRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two years after its effective date as decided by the IASB.

  On February 14, 2025, the FSRSC further deferred the date of initial application by two years, making PFRS 17 effective for annual reporting periods beginning on or after January 1, 2027, with comparative figures required. Early adoption is permitted. The Insurance Commission issued CL No. 2025-04, aligning with this deferral.

The Group continues to assess the impact of the above new and amendments to standards effective subsequent to 2025 on the consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

Current versus Noncurrent Classification

The Group presents assets and liabilities in the consolidated statements of financial position based on current and noncurrent classification. An asset is current when it is: (a) expected to be realized or intended to be sold or consumed in the normal operating cycle; (b) held primarily for the purpose of trading; (c) expected to be realized within 12 months after the reporting period; or (d) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

A liability is current when: (a) it is expected to be settled in the normal operating cycle; (b) it is held primarily for trading; (c) it is due to be settled within 12 months after the reporting period; or (d) there is no right to defer the settlement of the liability for at least 12 months after the reporting period.

The Group classifies all other assets and liabilities as noncurrent. Deferred tax assets and liabilities are classified as noncurrent.

Financial Instruments

Recognition and Initial Measurement. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Group recognizes a financial asset or a financial liability in the consolidated statements of financial position when it becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at the fair value of the consideration given or received. The initial measurement of financial instruments, except for financial assets and financial liabilities at FVPL, includes transaction costs. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial Assets

The Group classifies its financial assets, at initial recognition, as subsequently measured at amortized cost, FVOCI and FVPL. The classification depends on the contractual cash flow characteristics of the financial assets and the business model of the Group for managing the financial assets.

For purposes of subsequent measurement, financial assets are classified in the following categories: financial assets at amortized cost, financial assets at FVOCI (with or without recycling of cumulative gains and losses) and financial assets at FVPL.

Financial Assets at Amortized Cost. A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVPL:

- it is held within a business model with the objective of holding financial assets to collect contractual cash flows; and

- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognized in the consolidated statements of income when the financial asset is derecognized, modified or impaired.

The Group's cash and cash equivalents, trade and other receivables, investment in debt instruments at amortized cost, noncurrent receivables and deposits, and restricted cash are included under this category (Notes 7, 8, 11, 13, 20, 35, 41 and 42).

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Financial Assets at FVOCI. Investment in debt instruments is measured at FVOCI if it meets both of the following conditions and is not designated as at FVPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and

- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At initial recognition of an investment in equity instrument that is not held for trading, the Group may irrevocably elect to present subsequent changes in the fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Financial assets at FVOCI are subsequently measured at fair value. Changes in fair value are recognized in other comprehensive income.

Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment on investment in debt instruments are recognized in the consolidated statements of income. When investment in debt instruments at FVOCI is derecognized, the related accumulated gains or losses previously reported in the consolidated statements of changes in equity are transferred to and recognized in the consolidated statements of income.

Dividends earned on holding an investment in equity instrument are recognized as dividend income in the consolidated statements of income when the right to receive the payment has been established unless the dividend clearly represent a recovery of part of the cost of the investment. When investment in equity instruments at FVOCI is derecognized, the related accumulated gains or losses previously reported in the consolidated statements of changes in equity are never reclassified to the consolidated statements of income.

The Group's investments in equity and debt instruments at FVOCI are classified under this category (Notes 13, 20, 35, 41 and 42).

Financial Assets at FVPL. All financial assets not classified as measured at amortized cost or FVOCI are measured at FVPL. This includes derivative financial assets that are not designated as cash flow hedge. Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVPL.

At initial recognition, the Group may irrevocably designate a financial asset as at FVPL if the designation eliminates or significantly reduces an accounting mismatch that would otherwise arise from measuring assets or recognizing the gains and losses on different bases.

The Group carries financial assets at FVPL using their fair values. Attributable transaction costs are recognized in the consolidated statements of income as incurred. Changes in fair value and realized gains or losses are recognized in the consolidated statements of income. Fair value changes from derivatives accounted for as part of an effective cash flow hedge are recognized in other comprehensive income and presented in the consolidated statements of changes in equity. Any interest earned from investment in debt instrument designated as at FVPL is recognized in the consolidated statements of income. Any dividend income from investment in equity instrument is recognized in the consolidated statements of income when the right to receive payment has been established, unless the dividend clearly represents a recovery of part of the cost of the investment.

The Group's derivative assets that are not designated as cash flow hedge and investments in equity and debt instruments at FVPL are classified under this category (Notes 11, 13, 20, 35, 41 and 42).

Financial Liabilities

The Group determines the classification of its financial liabilities, at initial recognition, in the following categories: financial liabilities at FVPL and financial liabilities at amortized costs. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

Financial Liabilities at FVPL. Financial liabilities are classified under this category through the fair value option. Derivative instruments (including embedded derivatives) with negative fair values, except those covered by hedge accounting relationships, are also classified under this category.

The Group carries financial liabilities at FVPL using their fair values and reports fair value changes in the consolidated statements of income. Fair value changes from derivatives accounted for as part of an effective cash flow hedge are recognized in other comprehensive income and presented in the consolidated statements of changes in equity. Any interest expense incurred is recognized as part of "Interest expense and other financing charges" account in the consolidated statements of income.

The Group's derivative liabilities that are not designated as cash flow hedge are classified under this category (Notes 22, 24, 41 and 42).

Financial Liabilities at Amortized Costs. This category pertains to financial liabilities that are not designated or classified as at FVPL. After initial recognition, financial liabilities at amortized costs are measured using the effective interest method. Amortized cost is calculated by taking into account any premium or discount and any directly attributable transaction costs that are considered an integral part of the effective interest rate of the liability. The effective interest rate amortization is included in "Interest expense and other financing charges" account in the consolidated statements of income. Gains and losses are recognized in the consolidated statements of income when the liabilities are derecognized as well as through the amortization process.

Debt issue costs are considered as an adjustment to the effective yield of the related debt and are deferred and amortized using the effective interest method. When a loan is paid, the related unamortized debt issue costs at the date of repayment are recognized in the consolidated statements of income.

The Group's liabilities arising from its trade transactions or borrowings such as loans payable, accounts payable and accrued expenses, long-term debt, lease liabilities and other noncurrent liabilities are included under this category (Notes 21, 22, 23, 24, 36, 41 and 42).

Derecognition of Financial Assets and Financial Liabilities

Financial Assets. A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay them in full without material delay to a third party under a "passthrough" arrangement; and either: (a) has transferred substantially all the risks and rewards of the asset; or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statements of income.

Impairment of Financial Assets

The Group recognizes allowance for expected credit loss (ECL) on financial assets at amortized cost and investments in debt instruments at FVOCI.

ECLs are probability-weighted estimates of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive), discounted at the effective interest rate of the financial asset, and reflects reasonable and supportable information that is available without undue cost or effort about past events, current conditions and forecasts of future economic conditions.

The Group recognizes an allowance for impairment based on either 12-month or lifetime ECLs, depending on whether there has been a significant increase in credit risk since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group recognizes lifetime ECLs for receivables that do not contain significant financing components. The Group uses a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the borrowers and the economic environment.

At each reporting date, the Group assesses whether these financial assets at amortized cost and investments in debt instruments at FVOCI are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired include observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the restructuring of a financial asset by the Group on terms that the Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

The Group considers a financial asset to be in default when a counterparty fails to pay its contractual obligations, or there is a breach of other contractual terms, such as covenants.

The Group directly reduces the gross carrying amount of a financial asset when there is no reasonable expectation of recovering the contractual cash flows on a financial asset, either partially or in full. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

The ECLs on financial assets at amortized cost are recognized as allowance for impairment losses against the gross carrying amount of the financial asset, with the resulting impairment losses (or reversals) recognized in the consolidated statements of income. The ECLs on investments in debt instruments at FVOCI are recognized as accumulated impairment in other comprehensive income, with the resulting impairment losses (or reversals) recognized in the consolidated statements of income.

Classification of Financial Instruments between Liability and Equity
Financial instruments are classified as liability or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

A financial instrument is classified as liability if it provides for a contractual obligation to:

- deliver cash or another financial asset to another entity;
- exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

Derivative Financial Instruments and Hedge Accounting
The Group uses derivative financial instruments, such as forwards, swaps and options to manage its exposure on foreign currency, interest rate and commodity price risks. Derivative financial instruments are initially recognized at fair value on the date the derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Changes in the fair value of derivatives that are not designated as hedging instruments are recognized in the consolidated statements of income.

Freestanding Derivatives
The Group designates certain derivatives as hedging instruments to hedge the exposure to variability in cash flows associated with recognized liabilities arising from changes in foreign exchange rates and interest rates.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The Group also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedging instrument are expected to offset the changes in cash flows of the hedged item.

Cash Flow Hedge. When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and presented in the "Hedging reserve" account in the consolidated statements of changes in equity. The effective portion of changes in the fair value of the derivative that is recognized in other comprehensive income is limited to the cumulative change in fair value of the hedged item. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the consolidated statements of income.

The Group designates only the intrinsic value of options and the change in fair value of the spot element of forward contracts as the hedging instrument in cash flow hedging relationships. The change in fair value of the time value of options, the forward element of forward contracts and the foreign currency basis spread of financial instruments are separately accounted for as cost of hedging and recognized in other comprehensive income. The cost of hedging is removed from other comprehensive income and recognized in the consolidated statements of income, either over the period of the hedge if the hedge is time related, or when the hedged transaction affects the consolidated statements of income if the hedge is transaction-related.

When the hedged transaction subsequently results in the recognition of a non-financial item, the amount accumulated in equity is transferred and included in the initial cost of the hedged asset or liability. For all other hedged transactions, the amount accumulated in equity is reclassified to the consolidated statements of income as a reclassification adjustment in the same period or periods during which the hedged cash flows affect the consolidated statements of income.

If the hedge no longer meets the criteria for hedge accounting or the hedging instrument expires, is sold, is terminated, or is exercised, hedge accounting is discontinued prospectively. The amount that has been accumulated in equity is: (a) retained until it is included in the cost of non-financial item on initial recognition, for a hedge of a transaction resulting in the recognition of a non-financial item; or (b) reclassified to the consolidated statements of income as a reclassification adjustment in the same period or periods as the hedged cash flows affect the consolidated statements of income, for other cash flow hedges. If the hedged future cash flows are no longer expected to occur, the amounts that have been accumulated in equity are immediately reclassified to the consolidated statements of income.

The Group has outstanding derivatives accounted for as cash flow hedge as at December 31, 2025 and 2024 (Note 42).

Embedded Derivatives
The Group assesses whether embedded derivatives are required to be separated from the host contracts when the Group becomes a party to the contract.

An embedded derivative is separated from the host contract and accounted for as a derivative if all of the following conditions are met:

(a) the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract;

(b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and

(c) the hybrid or combined instrument is not recognized as at FVPL.

However, an embedded derivative is not separated if the host contract is a financial asset.

Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

Embedded derivatives that are bifurcated from the host contracts are accounted for either as financial assets or financial liabilities at FVPL.

The Group has embedded derivatives as at December 31, 2025 and 2024 (Note 42).

Inventories

Finished goods, goods in process, materials and supplies, raw land inventory and real estate projects are valued at the lower of cost and net realizable value.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Finished goods and goods in process	-	at cost, which includes direct materials and labor and a proportion of manufacturing overhead costs based on normal operating capacity but excluding borrowing costs; finished goods also include unrealized gain (loss) on fair valuation of agricultural produce; costs are determined using the moving-average method.
Petroleum products (except lubes and greases) and crude oil	-	at cost, which includes duties and taxes related to the acquisition of inventories; costs are determined using the first-in, first-out method.
Lubes and greases, blending components and polypropylene	-	at cost, which includes duties and taxes related to the acquisition of inventories; costs are determined using the moving-average method.
Raw land inventory	-	at cost, which includes acquisition costs of raw land intended for sale or development and other costs and expenses incurred to effect the transfer of title of the property; costs are determined using the specific identification of individual costs.
Real estate projects	-	at cost, which includes acquisition costs of property and other costs and expenses incurred to develop the property; costs are determined using the specific identification of individual costs.
Materials, supplies and others	-	at cost, using the specific identification method, first-in, first-out method or moving-average method.
Coal and Liquefied Natural Gas (LNG)	-	at cost, using the weighted average method.

Finished Goods. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

Goods in Process. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Petroleum Products, Crude Oil, Lubes and Greases, and Aftermarket Specialties. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs to complete and/or market and distribute.

Materials and Supplies, including Coal and LNG. Net realizable value is the current replacement cost.

Any write-down of inventories to net realizable value and all losses of inventories are recognized as expense in the year of write-down or loss occurrence. The amount of reversals of write-down of inventories arising from an increase in net realizable value, if any, are recognized as reduction in the amount of inventories recognized as expense in the year in which the reversal occurs.

Real Estate Projects. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Raw Land Inventory. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

Prepaid Expenses and Other Current Assets

Prepaid expenses represent expenses not yet incurred but already paid in cash. These are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are recognized in the consolidated statements of income as they are consumed or expire with the passage of time.

Other current assets pertain to assets which are expected to be realized within 12 months after the reporting period. Otherwise, these are classified as noncurrent assets.

Biological Assets and Agricultural Produce

The Group's biological assets include breeding stocks, growing hogs, poultry livestock and goods in process which are grouped according to their physical state, transformation capacity (breeding, growing or laying), as well as their particular stage in the production process.

Breeding stocks are carried at accumulated costs net of amortization and any impairment in value while growing hogs, poultry livestock and goods in process are carried at accumulated costs. The costs and expenses incurred up to the start of the productive stage are accumulated and amortized over the estimated productive lives of the breeding stocks. The Group uses this method of valuation since fair value cannot be measured reliably.

The Group's agricultural produce, which consists of grown broilers and marketable hogs harvested from the Group's biological assets, are measured at their fair value less estimated costs to sell at the point of harvest. The fair value of grown broilers is based on the quoted prices for harvested mature grown broilers in the market at the time of harvest. For marketable hogs, the fair value is based on the quoted prices in the market at any given time.

The Group, in general, does not carry any inventory of agricultural produce at any given time as these are either sold as live broilers and hogs or transferred to the different poultry or meat processing plants and immediately transformed into processed or dressed chicken and carcass.

The carrying amounts of the biological assets are reviewed for impairment when events or changes in circumstances indicate that the carrying amounts may not be recoverable.

Amortization is computed using the straight-line method over the following estimated productive lives of breeding stocks:

	Amortization Period
Hogs - sow	3 years or 6 births, whichever is shorter
Hogs - boar	2.5 - 3 years
Poultry breeding stock	38 - 42 weeks

Contract Assets

A contract asset is the right to consideration that is conditioned on something other than the passage of time, in exchange for goods or services that the Group has transferred to a customer. The contract asset is transferred to receivable when the right becomes unconditional.

A receivable represents the Group's right to an amount of consideration that is unconditional, only the passage of time is required before payment of the consideration is due.

Business Combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred at the acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included as part of "Selling and administrative expenses" account in the consolidated statements of income.

When the Group acquires a business, it assesses the financial assets and financial liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured at the acquisition date fair value and any resulting gain or loss is recognized in the consolidated statements of income.

The Group measures goodwill at the acquisition date as: a) the fair value of the consideration transferred; plus b) the recognized amount of any non-controlling interests in the acquiree; plus c) if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less d) the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed. When the excess is negative, a bargain purchase gain is recognized immediately in the consolidated statements of income. Subsequently, goodwill is measured at cost less any accumulated impairment in value. Goodwill is reviewed for impairment, annually or more frequently, if events or changes in circumstances indicate that the carrying amount may be impaired.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognized in the consolidated statements of income. Costs related to the acquisition, other than those associated with the issuance of debt or equity securities that the Group incurs in connection with a business combination, are expensed as incurred. Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognized in the consolidated statements of income.

- *Goodwill in a Business Combination*
  Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash-generating units, or groups of cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities are assigned to those units or groups of units.

  Each unit or group of units to which the goodwill is allocated:

  - represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and

  - is not larger than an operating segment determined in accordance with PFRS 8, *Operating Segments*.

  Impairment is determined by assessing the recoverable amount of the cash-generating unit or group of cash-generating units, to which the goodwill relates. Where the recoverable amount of the cash-generating unit or group of cash-generating units is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a cash-generating unit or group of cash-generating units and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained. An impairment loss with respect to goodwill is not reversed.

- *Intangible Assets Acquired in a Business Combination*
  The cost of an intangible asset acquired in a business combination is the fair value as at the date of acquisition, determined using discounted cash flows as a result of the asset being owned.

  Following initial recognition, intangible asset is carried at cost less any accumulated amortization and impairment losses, if any. The useful life of an intangible asset is assessed to be either finite or indefinite.

  An intangible asset with finite life is amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each reporting date. A change in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for as a change in accounting estimate. The amortization expense on intangible asset with finite life is recognized in the consolidated statements of income.

Business Combinations under Common Control
The Group accounts for business combinations involving entities that are ultimately controlled by the same ultimate parent before and after the business combination and the control is not transitory, using the pooling of interests method.

The assets and liabilities of the combining entities are reflected in the consolidated statements of financial position at their carrying amounts. No adjustments are made to reflect fair values, or recognize any new assets or liabilities, at the date of the combination. The only adjustments are those to align accounting policies between the combining entities.

No new goodwill is recognized as a result of the business combination. The only goodwill that is recognized is any existing goodwill relating to either of the combining entities. Any difference between the consideration paid or transferred and the equity acquired is recognized in equity.

The consolidated statements of income reflect the results of the combining entities for the full year, irrespective of when the combination took place.

Comparatives are presented as if the entities had been combined for the period that the entities were under common control.

Non-controlling Interests
The acquisitions of non-controlling interests are accounted for as transactions with owners in their capacity as owners and therefore no goodwill is recognized as a result of such transactions. Any difference between the purchase price and the net assets of the acquired entity is recognized in equity. The adjustments to non-controlling interests are based on a proportionate amount of the identifiable net assets of the subsidiary.

Investments in Shares of Stock of Associates and Joint Ventures
An associate is an entity in which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control is similar to those necessary to determine control over subsidiaries.

The Group's investments in shares of stock of associates and joint ventures are accounted for using the equity method.

Property, Plant and Equipment
Property, plant and equipment, except for land, are stated at cost less accumulated depreciation and any accumulated impairment in value. Such cost includes the cost of replacing part of the property, plant and equipment at the time the cost is incurred, if the recognition criteria are met, and excludes the costs of day-to-day servicing. Land is stated at cost less impairment in value, if any.

The initial cost of property, plant and equipment comprises its construction cost or purchase price, including import duties, taxes and any directly attributable costs in bringing the asset to its working condition and location for its intended use. Cost also includes related asset retirement obligation (ARO), if any. Expenditures incurred after the asset has been put into operation, such as repairs, maintenance and overhaul costs, are normally recognized as expense in the period the costs are incurred. Major repairs are capitalized as part of property, plant and equipment only when it is probable that future economic benefits associated with the items will flow to the Group and the cost of the items can be measured reliably.

Capital projects in progress (CPIP) represent the amount of accumulated expenditures on unfinished and/or ongoing projects. This includes the costs of construction and other direct costs. Borrowing costs that are directly attributable to the construction of plant and equipment are capitalized during the construction period. CPIP is not depreciated until such time that the relevant assets are ready for use.

Depreciation, which commence when the assets are available for their intended use, are computed using the straight-line method over the following estimated useful lives of the assets:

	Number of Years
Land improvements	5 - 50
Buildings and improvements	2 - 50
Power plants	5 - 42
Refinery and plant equipment	4 - 30
Service stations and other equipment	3 - 30
Equipment, furniture and fixtures	2 - 50
Mine properties	25 - 55
Leasehold improvements	2 - 50 or term of the lease, whichever is shorter

Depreciation of refinery and plant equipment used in production is computed based on the unit of production method (UPM) which considers the expected capacity over the estimated useful lives of these assets. UPM closely reflects the expected pattern of consumption of the future economic benefits embodied in these assets.

The remaining useful lives, residual values, and depreciation methods are reviewed and adjusted periodically, if appropriate, to ensure that such periods and methods of depreciation are consistent with the expected pattern of economic benefits from the items of property, plant and equipment.

The carrying amounts of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying amounts may not be recoverable.

Fully depreciated assets are retained in the accounts until they are no longer in use.

An item of property, plant and equipment is derecognized when either it has been disposed of or when it is permanently withdrawn from use and no future economic benefits are expected from its use or disposal. Any gain or loss arising from the retirement and disposal of an item of property, plant and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the consolidated statements of income in the period of retirement and disposal.

Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use:

- the Group has the right to obtain substantially all the economic benefits from use of the identified asset; and

- the Group has the right to direct the use of the identified asset.

Group as Lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date (i.e., the date the underlying asset is available for use). The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term, as follows:

	Number of Years
Land	2 - 999
Buildings and improvements	2 - 15
Power plants	29 - 43
Service stations and other equipment	10 - 12
Machinery and equipment	2 - 7

In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments, less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. The carrying amount of the lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or a change in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recognized in the consolidated statements of income if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases (i.e., lease that have a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low-value assets. The Group recognizes the lease payments associated with these leases as rent expense on a straight-line basis over the lease term.

Group as Lessor
The Group determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, the lease is classified as a finance lease; if not, it is classified as an operating lease. As part of the assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Group applies the recognition exemption, it classifies the sublease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies PFRS 15, to allocate the consideration in the contract.

The Group recognizes lease payments received under operating leases as rent income on a straight-line basis over the lease term.

Investment Property

Investment property consists of property held to earn rentals and/or for capital appreciation but not for sale in the ordinary course of business, used in the production or supply of goods or services or for administrative purposes. Investment property, except for land, is measured at cost including transaction costs less accumulated depreciation and any accumulated impairment in value. The carrying amount includes the cost of replacing part of an existing investment property at the time the cost is incurred, if the recognition criteria are met, and excludes the costs of day-to-day servicing of an investment property. Land is stated at cost less any impairment in value.

Depreciation, which commence when the assets are available for their intended use, are computed using the straight-line method over the following estimated useful lives of the assets:

	Number of Years
Land and leasehold improvements	5 - 50 or term of the lease, whichever is shorter
Buildings and improvements	2 - 50
Machinery and equipment	3 - 40
Right-of-use assets	2 - 50

The useful lives, residual values and depreciation method are reviewed and adjusted, if appropriate, at each reporting date.

Investment property is derecognized either when it has been disposed of or when it is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains and losses on the retirement and disposal of investment property are recognized in the consolidated statements of income in the period of retirement and disposal.

Transfers are made to investment property when, and only when, there is an actual change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is an actual change in use, evidenced by commencement of the owner-occupation or commencement of development with a view to sell.

For a transfer from investment property to owner-occupied property or inventories, the cost of property for subsequent accounting is its carrying amount at the date of change in use. If the property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset acquired in a business combination is its fair value at the date of acquisition. Subsequently, intangible assets are carried at cost less accumulated amortization and any accumulated impairment. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditures are recognized in the consolidated statements of income in the year in which the related expenditures are incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortized over the useful life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and the amortization method used for an intangible asset with a finite useful life are reviewed at least at each reporting date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimate. The amortization expense on intangible assets with finite lives is recognized in the consolidated statements of income consistent with the function of the intangible asset.

Except for mineral rights and evaluation asset, which is amortized using UPM method, amortization of other intangible assets with finite lives is computed using the straight-line method over the following estimated useful lives:

	Number of Years
Toll road concession rights	28 - 36
Airport concession rights	25 - 50
Water concession rights	25 - 30
Computer software and licenses	2 - 10

The Group assessed the useful lives of licenses and trademarks and brand names to be indefinite. Based on an analysis of all the relevant factors, there is no foreseeable limit to the period over which the assets are expected to generate cash inflows for the Group.

Licenses and trademarks and brand names with indefinite useful lives are tested for impairment annually, either individually or at the cash-generating unit level. Such intangibles are not amortized. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from the disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statements of income when the asset is derecognized.

Service Concession Arrangements
Public-to-private service concession arrangements where: (a) the grantor controls or regulates what services the entities in the Group can provide with the infrastructure, to whom it can provide them, and at what price; and (b) the grantor controls (through ownership, beneficial entitlement or otherwise) any significant residual interest in the infrastructure at the end of the term of the arrangement are accounted for under Philippine Interpretation IFRIC 12*, Service Concession Arrangements*. Infrastructures used in a public-to-private service concession arrangement for its entire useful life (whole-of-life assets) are within the scope of the Interpretation if the conditions in (a) are met.

The Interpretation applies to both: (i) infrastructure that the entities in the Group construct or acquire from a third party for the purpose of the service arrangement; and (ii) existing infrastructure to which the grantor gives the entities in the Group access for the purpose of the service arrangement.

Infrastructures within the scope of the Interpretation are not recognized as property, plant and equipment of the Group. Under the terms of the contractual arrangements within the scope of the Interpretation, an entity acts as a service provider. An entity constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure
(operation services) for a specified period of time.

An entity recognizes a financial asset to the extent that it has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction services. An entity recognizes an intangible asset to the extent that it receives a right (a license) to charge users of the public service.

When the applicable entity has contractual obligations to fulfill as a condition of its license: (i) to maintain the infrastructure to a specified level of serviceability; or (ii) to restore the infrastructure to a specified condition before it is handed over to the grantor at the end of the service arrangement, it recognizes and measures the contractual obligations in accordance with PAS 37, *Provision, Contingent Liabilities and Contingent Assets*, i.e., at the best estimate of the expenditure that would be required to settle the present obligation at the reporting date.

Borrowing costs attributable to the arrangement are recognized as expenses in the period in which they are incurred unless the applicable entities have a contractual right to receive an intangible asset (a right to charge users of the public service). In this case, borrowing costs attributable to the arrangement are capitalized during the construction phase of the arrangement.

The following are the concession rights covered by the service concession arrangements entered into by the Group:

- *Airport Concession Rights*
  Boracay Airport. The airport concession right pertains to the right granted by the Republic of the Philippines (ROP) to TADHC: (i) to operate the Caticlan Airport (the Airport Project or the Boracay Airport); (ii) to design and finance the Airport Project; and (iii) to operate and maintain the Airport Project during the concession period. This also includes the present value of the annual franchise fee, as defined in the Concession Agreement, payable to the ROP over the concession period of 25 years. Except for the portion that relates to the annual franchise fee, which is recognized immediately as intangible asset, the right is earned and recognized by the Group as the project progresses (Note 4).

  The airport concession right is carried at cost less accumulated amortization and any impairment in value. Amortization is computed using the straight-line method over the remaining concession periods and assessed for impairment whenever there is an indication that the asset may be impaired.

  The airport concession right is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gain or loss from derecognition of the airport concession rights are measured as the difference between the net disposal proceeds and the carrying amount of the asset, and is recognized in the consolidated statements of income.

  Manila International Airport (MIA). The airport concession right pertains to the right granted by the ROP to SMAI: (i) to operate; (ii) to design and finance; and (iii) to operate and maintain the MIA during the concession period.

  The airport concession right represents the design and construction costs incurred to obtain the right during the construction period. It is carried at cost less accumulated amortization and any impairment in value. Subsequent expenditures or replacement of parts of it, are normally recognized in profit or loss as these are incurred to maintain the expected future economic benefits embodied in the airport concession right unless it can be demonstrated that the expenditures will contribute to the increase in revenue from airport and toll operations which meet the definition of an intangible asset (Note 4).

  The airport concession right will be amortized on a straight-line basis over the period stated in the Concession Agreement which is approximately 50 years from issuance of the Certificate of Substantial Completion for the First Phase of the Project, and will be assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and method are reviewed at least at each reporting year-end or more frequently when an indication of impairment arises during the reporting year. Changes in the term of the contract or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period and method, as appropriate, and treated as changes in accounting estimates.

  The airport concession right will be derecognized upon turnover to the ROP. There will be no gain or loss upon derecognition as the concession right which is expected to be fully amortized by then and will be handed over to the ROP with no consideration.

- *Toll Road Concession Rights*. The Group's toll road concession rights represent the costs of construction and development, including borrowing costs, if any, during the construction period of the following projects:

  - South Luzon Expressway (SLEX);
  - South Luzon Expressway Toll Road-5;
  - Ninoy Aquino International Airport (NAIA) Expressway;
  - Skyway Stages 1 and 2 (Skyway);
  - Skyway Stage 3;
  - Skyway Stage 4;
  - Tarlac-Pangasinan-La Union Toll Expressway (TPLEX);
  - Southern Tagalog Arterial Road (STAR);
  - Pasig River Expressway (PAREX);
  - Northern Access Link Expressway (NALEX);
  - Southern Access Link Expressway (SALEX);
  - Pangasinan Link Expressway (PLEX);
  - Cavite-Batangas Expressway (CBEX);

- Nasugbu-Bauan Expressway (NBEX); and
- TPLEX Extension.

In exchange for the fulfillment of the Group's obligations under the Concession Agreement, the Group is given the right to operate the toll road facilities over the concession period. Toll road concession rights are recognized initially at the fair value of the construction services. Following initial recognition, the toll road concession rights are carried at cost less accumulated amortization and any impairment losses. Subsequent expenditures or replacement of parts of it are normally recognized in the consolidated statements of income as these are incurred to maintain the expected future economic benefits embodied in the toll road concession rights. Expenditures that will contribute to the increase in revenue from toll operations are recognized as an intangible asset.

The toll road concession rights are amortized using the straight-line method over the term of the Concession Agreement. The toll road concession rights are assessed for impairment whenever there is an indication that the toll road concession rights may be impaired.

The toll road concession rights will be derecognized upon turnover to the ROP. There will be no gain or loss upon derecognition of the toll road concession rights as these are expected to be fully amortized upon turnover to the ROP.

- *Water Concession Rights*
  Bulacan Bulk Water Supply. The water concession right pertains to the right granted by the Metropolitan Waterworks and Sewerage System (MWSS) to LCWDC as the concessionaire of the supply of treated bulk water, planning, financing, development, design, engineering and construction of facilities including the management, operation and maintenance in order to alleviate the chronic water shortage and provide potable water needs of the Province of Bulacan. The Concession Agreement is for a period of 30 years and may be extended for up to 50 years. The water concession right represents the upfront fee, cost of design, construction and development of the Bulacan Bulk Water Supply Project. The service concession right is not yet amortized until the construction is completed.

  The carrying amount of the water concession right is reviewed for impairment annually, or more frequently when an indication of impairment arises during the reporting year.

  The water concession right will be derecognized upon turnover to MWSS. There will be no gain or loss upon derecognition of the water concession right, as this is expected to be fully amortized upon turnover to MWSS.

  Obando and Bulakan Water Supply. Obando Water Company, Inc. (OWCI) and Bulakan Water Company, Inc. (BWCI) account for the service concession arrangement with Obando Water District (OWD) and Bulakan Water District (BWD), respectively, under the intangible asset model as it receives the right (license) to charge users of public service. OWCI and BWCI are granted the rights and authority to finance, design, construct, operate and maintain the water and sanitation services inside the Municipality of Obando and Bulakan, respectively.

  Service concession rights consist of the present value of the total estimated concession fee payments and the costs of rehabilitation works on the existing facilities pursuant to the Concession Agreement. Amortization commences once it is available for use and calculated on a straight-line basis over the remaining concession period.

  The carrying amounts of the concession rights are reviewed whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in asset market value, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends.

- *Metro Rail Transit Line 7 (MRT 7 Project).* The Group's capitalized project costs incurred for the MRT 7 Project is recognized as a financial asset as it does not convey to the Group the right to control the use of the public service infrastructure but only an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction services.

The Group can finance, design, test, commission, construct and operate and maintain the MRT 7 Project on behalf of the ROP in accordance with the terms specified in the Concession Agreement.

As payment, the ROP shall pay fixed amortization payment on a semi-annual basis in accordance with the scheduled payment described in the Concession Agreement (Note 36).

The amortization period and method are reviewed at least at each reporting date. Changes in the terms of the Concession Agreement or the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense is recognized in the consolidated statements of income in the expense category consistent with the function of the intangible asset.

Mineral Rights and Evaluation Assets
The Group's mineral rights and evaluation assets have finite lives and are carried at cost less accumulated amortization and any accumulated impairment.

Subsequent expenditures are capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures are recognized in the consolidated statements of income as incurred.

Amortization of mineral rights and evaluation assets is recognized in the consolidated statements of income based on UPM method utilizing only recoverable coal, limestone and shale reserves as the depletion base. In applying the UPM method, amortization is normally calculated using the quantity of material extracted from the mine in the period as a percentage of the total quantity of material to be extracted in current and future periods based on proved and probable reserves.

The Group's mineral rights and evaluation asset is amortized using UPM method over 25 years.

Gain or loss from derecognition of mineral rights and evaluation assets is measured as the difference between the net disposal proceeds and the carrying amount of the asset, and is recognized in the consolidated statements of income.

Deferred Exploration and Development Costs
Deferred exploration and development costs comprise of expenditures which are directly attributable to:

- researching and analyzing existing exploration data;
- conducting geological studies, exploratory drilling and sampling;
- examining and testing extraction and treatment methods; and
- compiling pre-feasibility and feasibility studies.

Deferred exploration and development costs also include expenditures incurred in acquiring mineral rights and evaluation assets, entry premiums paid to gain access to areas of interest and amounts payable to third parties to acquire interests in existing projects.

Exploration assets are reassessed on a regular basis and tested for impairment provided that at least one of the following conditions is met:

- the period for which the entity has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;

- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;

- such costs are expected to be recouped in full through successful development and exploration of the area of interest or alternatively, by its sale; or

- exploration and evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in relation to the area are continuing or planned for the future.

If the project proceeds to the development stage, the amounts included within deferred exploration and development costs are transferred to property, plant and equipment.

Returnable Containers
Returnable bottles, shells, pallets, and Liquefied Petroleum Gas (LPG) cylinders are measured at cost less accumulated depreciation and impairment, if any. These are presented as "Deferred containers - net" under "Other noncurrent assets - net" account in the consolidated statements of financial position and are depreciated over the estimated useful lives of 2 to 15 years. Depreciable amount is equal to cost less estimated residual value, equivalent to the deposit value. Depreciation of deferred containers is included under "Selling and administrative expenses" account in the consolidated statements of income.

The remaining useful lives, residual values and depreciation method are reviewed and adjusted periodically, if appropriate, to ensure that such periods and method of depreciation are consistent with the expected pattern of economic benefits from deferred containers.

The carrying amounts of deferred containers are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable.

Refundable containers deposits are collected from customers based on deposit value and refunded when the containers are returned to the Group in good condition. These deposits are presented as part of "Customers' deposits" under "Accounts payable and accrued expenses" account in the consolidated statements of financial position.

Impairment of Non-financial Assets
The carrying amounts of investments and advances, property, plant and equipment, right-of-use assets, investment property, biological assets, other intangible assets with finite useful lives, deferred containers, deferred exploration and development costs and idle assets are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. Goodwill, licenses and trademarks and brand names with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. If any such indication exists and if the carrying amount exceeds the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amounts. The recoverable amount of the asset is the greater of fair value less costs to sell and value in use. The fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less costs of disposal. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the consolidated statements of income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statements of income. After such a reversal, the depreciation and amortization charge are adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. An impairment loss with respect to goodwill is not reversed.

Contract Liabilities
A deferred income is the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a deferred income is recognized when the payment is made, or the payment is due (whichever is earlier). Deferred income is recognized as revenue when the Group performs under the contract.

Fair Value Measurements
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either: (a) in the principal market for the asset or liability; or (b) in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or most advantageous market must be accessible to the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: inputs for the asset or liability that are not based on observable market data.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing the categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

Provisions
Provisions are recognized when: (a) the Group has a present obligation (legal or constructive) as a result of past events; (b) it is probable (i.e., more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate of the amount of the obligation can be made. Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognized as a separate asset only when it is virtually certain that reimbursement will be received. The amount recognized for the reimbursement shall not exceed the amount of the provision. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Capital Stock and Additional Paid-in Capital
Common Shares
Common shares are classified as equity and are recognized at par value. Incremental costs directly attributable to the issuance of common shares, referred to as share issuance costs, and share options are recognized as a deduction from equity, net of any tax effects. Such costs are deducted from additional paid-in capital arising from the share issuance. If additional paid-in capital is insufficient to absorb the costs, the excess is charged against additional paid-in capital from previous stock issuances or directly to retained earnings, in that order.

Preferred Shares
Preferred shares are classified as equity if they are non-redeemable, or redeemable only at the option of the Parent Company, and any dividends thereon are discretionary. Dividends thereon are recognized as distributions within equity upon approval by the BOD of the Parent Company.

Preferred shares are classified as a liability if they are redeemable on a specific date or at the option of the shareholders, or if dividend payments are not discretionary. Dividends thereon are recognized as interest expense in the consolidated statements of income as accrued.

Additional Paid-in Capital
When the shares are sold at premium, the difference between the proceeds and the par value is credited to the "Additional paid-in capital" account. When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received. In case the shares are issued to extinguish or settle the liability of the Parent Company, the shares are measured either at the fair value of the shares issued or fair value of the liability settled, whichever is more reliably determinable.

Capital Securities
Redeemable Perpetual Securities (RPS) and Senior Perpetual Capital Securities (SPCS) are classified as equity when there is no contractual obligation to deliver cash or other financial assets to another person or entity or to exchange financial assets or financial liabilities with another person or entity that is potentially unfavorable to the issuer.

Incremental costs directly attributable to the issuance of RPS and SPCS are recognized as a deduction from equity, net of tax.

Equity Reserves
Equity reserves include mainly the effects of transactions with: (i) holders of capital securities; (ii) non-controlling interests and equity adjustments arising from changes in ownership interests in subsidiaries that do not result in loss of control, accounted for as equity transactions; (iii) changes in the fair value of investments in equity and debt instruments presented in other comprehensive income; (iv) foreign currency differences arising from the translation of the financial statements of foreign operations; (v) remeasurements of the net defined benefit retirement liability or asset comprising actuarial gains and losses, return on plan assets, and any change in the effect of the asset ceiling (excluding net interest) and (vi) the effective portion of the cumulative net change in the fair value of hedging instruments designated in cash flow including the cost of hedging.

Retained Earnings
Retained earnings represent the accumulated net income or losses, including any accumulated gains or losses that were reclassified from equity reserves upon the derecognition of related investments in equity instruments designated as financial assets at FVOCI, net of any dividends and distributions and other capital adjustments. Appropriated retained earnings represent that portion which is restricted and therefore not available for any dividend and distribution declaration.

Treasury Shares
Own equity instruments which are reacquired are carried at cost and deducted from equity. No gain or loss is recognized on the purchase, sale, reissuance or cancellation of the Parent Company's own equity instruments. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Revenue
The Group recognizes revenue from contracts with customers when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding amounts collected on behalf of third parties.

The transfer of control can occur over time or at a point in time. Revenue is recognized at a point in time unless one of the following criteria is met, in which case it is recognized over time: (a) the customer simultaneously receives and consumes the benefits as the Group performs its obligations; (b) the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or (c) the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

The Group assesses its revenue arrangements to determine if it is acting as principal or agent. The Group has concluded that it acts as a principal as it controls the goods or services before transferring to the customer.

The following specific recognition criteria must also be met before revenue is recognized:

Revenue from Sale of Food and Beverage, Packaging, Petroleum Products and Cement and Aggregates
Revenue is recognized at the point in time when control of the goods is transferred to the customer, which is normally upon delivery of the goods. Trade discounts and volume rebate do not result to significant variable consideration and are generally determined based on concluded sales transactions as at the end of each period. Payment is generally due within 30 to 60 days from delivery.

Revenue from sale of petroleum products is allocated between the consumer loyalty program and the other component of the sale. The allocation is based on the relative stand-alone selling price of the points. The amount allocated to the consumer loyalty program is deducted from revenue at the time points are awarded to the consumer.

A deferred liability on consumer loyalty program included under "Accounts payable and accrued expenses" account in the consolidated statements of financial position is set up until the Group has fulfilled its obligations to supply the discounted products under the terms of the program or when it is no longer probable that the points under the program will be redeemed. The deferred liability is based on the best estimate of future redemption profile. All the estimates are reviewed on an annual basis or more frequently, where there is an indication of a material change.

Revenue from Power Generation and Trading
Revenue from power generation and trading is recognized over time when actual power or capacity is generated, transmitted and/or made available to the customers, net of related discounts and adjustments.

Revenues from retail and other power-related services are recognized over time upon the supply of electricity to the customers. The Uniform Filing Requirements on the rate unbundling released by the Energy Regulatory Commission (ERC) on October 30, 2001 specified the following bill components: (a) generation charge; (b) transmission charge; (c) system loss charge; (d) distribution charge; (e) supply charge; (f) metering charge; (g) currency exchange rate adjustments; where applicable; and (h) interclass and life subsidies. Feed-in tariffs allowance, Value-added Tax (VAT) and universal charges are billed and collected on behalf of the national and local government and do not form part of the Group's revenue. Generation, transmission and system loss charges, which are part of revenues, are passthrough charges.

Revenue from Sale of Real Estate
Revenue from sale of real estate projects under pre-completion stage is recognized over time based on percentage of completion since the Group does not have an alternative use of the specific real estate property sold as the Group is precluded by the contract from redirecting the use of the property for a different purpose. Further, the Group has the right to payment for the development completed to date as the Group can choose to complete the development and enforce its rights to full payment under the contract even if the customer defaults on amortization payments. The Group determines the stage of completion based on surveys done by the Group's engineers and total costs to be incurred on a per unit basis. Revenue is recognized when 10% of the total contract price has already been collected.

Revenue from sale of completed real estate projects, and undeveloped land or raw land is recognized at a point in time. The Group recognizes in full the revenue and cost from sale of completed real estate projects and undeveloped land when 10% or more of the contract price is received.

If the transaction does not qualify for revenue recognition, the deposit method is applied until all conditions for recording the sale are met. Pending the recognition of revenue, payments received from customers are presented as "Customers' deposits" under "Accounts payable and accrued expenses" account in the consolidated statements of financial position.

Cancellation of real estate sales is accounted for on the year of forfeiture. The repossessed real estate projects are recognized at fair value less cost to repossess. Any gain or loss on cancellation is recognized as part of "Other income (charges) - net" account in the consolidated statements of income.

Revenue from Service Concession Arrangements
Revenue from toll operations is recognized upon the use by the road users of the toll road and is paid by way of cash or charge against Radio Frequency Identification account. Toll fees are set and regulated by the Toll Regulatory Board (TRB).

Landing, take-off and parking fees are recognized as the services are rendered over time which is the period from landing up to take-off of aircrafts.

Terminal fees are recognized upon receipt of fees charged to passengers for the use of airport and port terminals.

Revenue from port cargo handling and ancillary services is recognized as the services are rendered over time based on the quantity of items handled during the period multiplied by a predetermined rate.

Revenue from construction contracts is recognized over time based on the percentage of completion, measured by reference to the proportion of costs incurred to date to estimated total costs for each contract.

Revenue from Freight Services
Revenue from freight services is recognized as the services are rendered over time based on every voyage contracted with customers during the period multiplied by a predetermined rate.

Revenue from Other Sources
Revenue from Agricultural Produce. Revenue from initial recognition of agricultural produce is measured at fair value less estimated costs to sell at the point of harvest. Fair value is based on the relevant market price at the point of harvest.

Interest Income. Interest income is recognized using the effective interest method. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset.

Dividend Income. Dividend income is recognized when the Group's right to receive the payment is established.

Rent Income. Rent income is recognized on a straight-line basis over the related lease terms. Lease incentives granted are recognized as an integral part of the total rent income over the term of the lease.

Gain or Loss on Sale of Investments in Shares of Stock. Gain or loss is recognized when the Group disposes of its investment in shares of stock of a subsidiary, associate and joint venture and financial assets at FVPL. Gain or loss is computed as the difference between the proceeds of the disposed investment and its carrying amount, including the carrying amount of goodwill, if any.

Costs and Expenses
Costs and expenses are decreases in economic benefits during the reporting period in the form of outflows or decrease of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants. Expenses are recognized when incurred.

Borrowing Costs
Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Borrowing costs are capitalized until the assets are substantially ready for their intended use.

Investment income earned on the temporary investment of specific borrowings pending expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Research and Development Costs
Research costs are expensed as incurred. Development costs incurred on an individual project are carried forward when their future recoverability can be reasonably regarded as assured. Any expenditure carried forward is amortized in line with the expected future sales from the related project.

The carrying amount of development costs is reviewed for impairment annually when the related asset is not yet in use. Otherwise, this is reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable.

Employee Benefits

Short-term Employee Benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Retirement Costs

The net defined benefit retirement liability or asset is the aggregate of the present value of the amount of future benefit that employees have earned in return for their service in the current and prior periods, reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of economic benefits available in the form of reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit retirement plan is actuarially determined using the projected unit credit method. The projected unit credit method reflects services rendered by employees to the date of valuation and incorporates assumptions concerning projected salaries of employees. Actuarial gains and losses are recognized in full in the period in which they occur in other comprehensive income. Such actuarial gains and losses are also immediately recognized in equity and are not reclassified to profit or loss in subsequent period.

Defined benefit costs comprise the following:

- Service costs;
- Net interest on the defined benefit retirement liability or asset; and
- Remeasurements of defined benefit retirement liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the consolidated statements of income. Past service costs are recognized when plan amendment or curtailment occurs. Independent qualified actuary calculates these amounts periodically.

Net interest on the net defined benefit retirement liability or asset is the change during the period as a result of contributions and benefit payments, which is determined by applying the discount rate based on the government bonds to the net defined benefit retirement liability or asset. Net interest on the net defined benefit retirement liability or asset is recognized as expense or income in the consolidated statements of income.

Remeasurements of net defined benefit retirement liability or asset comprising actuarial gains and losses, return on plan assets, and any change in the effect of the asset ceiling (excluding net interest) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to consolidated statements of income in subsequent periods.

When the benefits of a plan are changed, or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the consolidated statements of income. The Group recognizes gains and losses on the settlement of a defined benefit retirement plan when the settlement occurs.

Foreign Currency

Foreign Currency Translations

Transactions in foreign currencies are initially recorded in the respective functional currencies of the Group entities at exchange rates on the dates of the transactions.

Monetary assets and monetary liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date.

Non-monetary assets and non-monetary liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate when the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on translation are recognized in the consolidated statements of income, except for differences arising on the translation of monetary items that in substance form part of a net investment in a foreign operation and hedging instruments in a qualifying cash flow hedge or hedge of a net investment in a foreign operation, which are recognized in other comprehensive income.

Foreign Operations
The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Philippine Peso at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Philippine Peso at average exchange rates for the period.

Foreign currency differences are recognized in other comprehensive income and presented in the "Translation reserve" account in the consolidated statements of changes in equity. However, if the operation is not a wholly-owned subsidiary, the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to the profit or loss as part of the gain or loss on disposal.

When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in shares of stock of an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognized in other comprehensive income and presented in the "Translation reserve" account in the consolidated statements of changes in equity.

Taxes
Current Tax. Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Current tax relating to items recognized directly in equity is recognized in equity and not in profit or loss. The Group periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and establishes provisions where appropriate.

Deferred Tax. Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- with respect to taxable temporary differences associated with investments in shares of stock of subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled, and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits - Minimum Corporate Income Tax (MCIT) and unused tax losses - Net Operating Loss Carry Over (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward benefits of MCIT and NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- with respect to deductible temporary differences associated with investments in shares of stock of subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current tax and deferred tax are recognized in the consolidated statements of income, except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

VAT. Revenues, expenses and assets are recognized net of the amount of VAT, except:

- where the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and

- receivables and payables that are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of "Prepaid taxes and licenses" or "Income and other taxes payable" accounts in the consolidated statements of financial position.

Assets Held for Sale

The Group classifies noncurrent assets, or disposal groups comprising assets and liabilities as held for sale or distribution, if their carrying amounts will be recovered primarily through sale or distribution rather than through continuing use. The assets or disposal groups are generally measured at the lower of their carrying amount and fair value less costs to sell or distribute, except for some assets which are covered by other standards. Any impairment loss on a disposal group is allocated first to goodwill, and then to the remaining assets and liabilities on *pro rata* basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets, investment property or biological assets, which continue to be measured in accordance with the Group's accounting policies. Impairment losses on initial classification as held for sale or distribution and subsequent gains and losses on remeasurement are recognized in the consolidated statements of income. Gains are not recognized in excess of any cumulative impairment losses.

The criteria for held for sale or distribution is regarded as met only when the sale or distribution is highly probable, and the asset or disposal group is available for immediate sale or distribution in its present condition. Actions required to complete the sale, or distribution should indicate that it is unlikely that significant changes to the sale or distribution will be made or that the decision on distribution or sale will be withdrawn. Management must be committed to the sale or distribution within one year from the date of classification.

Intangible assets, property, plant and equipment and investment property once classified as held for sale or distribution are not amortized or depreciated. In addition, equity accounting of equity-accounted investees ceases once classified as held for sale or distribution.

Assets and liabilities classified as held for sale or distribution are presented separately as current items in the consolidated statements of financial position.

Related Parties
Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities.

Basic and Diluted Earnings Per Common Share (EPS)
Basic EPS is computed by dividing the net income for the period attributable to equity holders of the Parent Company, net of dividends on preferred shares and distributions to holders of RPS and SPCS, by the weighted average number of issued and outstanding common shares during the period, with retroactive adjustment for any stock dividends declared.

Diluted EPS is computed in the same manner, adjusted for the effect of all potential dilutive debt or equity instruments.

Operating Segments
The Group's operating segments are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on operating segments is presented in Note 6 to the consolidated financial statements. The Chief Executive Officer (the chief operating decision maker) reviews management reports on a regular basis.

The measurement policies the Group used for segment reporting under PFRS 8 are the same as those used in the consolidated financial statements. There have been no changes in the measurement methods used to determine reported segment profit or loss from prior periods.

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

Contingencies
Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed in the notes to the consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to the consolidated financial statements when an inflow of economic benefits is probable.

Events After the Reporting Date
Post year-end events that provide additional information about the Group's financial position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

4. Use of Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRS Accounting Standards requires management to exercise judgments, make accounting estimates and use assumptions that affect the application of accounting policies and the amounts of assets, liabilities, income and expenses reported in the consolidated financial statements at the reporting date. However, uncertainty about these judgments, estimates and assumptions could result in an outcome that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions are recognized in the period in which the judgments and estimates are revised and in any future period affected.

Judgments
In the process of applying the accounting policies, the Group has made the following judgments, apart from those involving estimations, which have significant effect on the amounts recognized in the consolidated financial statements:

Measurement of Biological Assets. Breeding stocks are carried at accumulated costs net of amortization and any impairment in value while growing hogs, poultry livestock and goods in process are carried at accumulated costs. The costs and expenses incurred up to the start of the productive stage are accumulated and amortized over the estimated productive lives of the breeding stocks. The Group uses this method of valuation since fair value cannot be measured reliably. The Group's biological assets or any similar assets prior to point of harvest have no active market available in the Philippine poultry and hog industries. Further, the existing sector benchmarks are determined to be irrelevant and the estimates (i.e., revenues due to highly volatile prices, input costs and efficiency values) necessary to compute for the present value of expected net cash flows comprise a wide range of data which will not result in a reliable basis for determining the fair value.

Determining the Lease Term of Contracts with Renewal Options - Group as Lessee. The Group determines the lease term as the non-cancellable term of the lease, together with any period covered by an option to extend the lease if it is reasonably certain to be exercised.

The Group has several lease contracts that include extension options. At lease commencement date, the Group applies judgment in evaluating whether it is reasonably certain to exercise the option to renew the lease by considering all relevant factors that create an economic incentive for it to exercise the renewal option. The Group reassesses whether it is reasonably certain to exercise the options if there is a significant event or change in circumstances within its control.

Identification of Distinct Performance Obligation. The Group assesses the goods or services promised in a contract with a customer and identifies as a performance obligation either: (a) a good or service (or a bundle of goods or services) that is distinct; or (b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer. The Group has determined that it has distinct performance obligations other than the sale of petroleum products such as the provision of technical support and consumer loyalty program and allocates the transaction price into these several performance obligations.

Applicability of Philippine Interpretation IFRIC 12. In accounting for the Group's transactions in connection with its Concession Agreement with the ROP, significant judgment was applied to determine the most appropriate accounting policy to use.

Management used Philippine Interpretation IFRIC 12 as guide and determined that the Concession Agreement is within the scope of the interpretation since it specifically indicated that the ROP will regulate what services the Group must provide, at what prices these services will be offered, and that at the end of the concession period, the entire infrastructure, as defined in the Concession Agreement, will be turned over to the ROP (Note 36).

Management determined that the consideration receivable from the ROP, in exchange for the fulfillment of the Group's obligations under the Concession Agreement, may either be an intangible asset in the form of a right (license) to charge fees to users or financial asset in the form of an unconditional right to receive cash or another financial asset. Judgment was further exercised by management in determining the cost components of acquiring the right. Further reference to the terms of the Concession Agreement (Note 36) was made to determine such costs.

a. *Airport Concession Rights*
   Boracay Airport. The airport concession right consists of: (i) Airport Project cost; (ii) present value of infrastructure restoration obligation (IRO); and (iii) present value of total franchise fees over 25 years and its subsequent amortization.

   (i) The Airport Project cost is recognized as part of intangible assets as the construction progresses. The cost-to-cost method was used as management believes that the actual cost of construction is most relevant in determining the amount that should be recognized as cost of the intangible asset at each reporting date as opposed to cost plus and other methods of percentage-of-completion.

   (ii) The present value of the IRO is capitalized as part of "Airport concession rights" under "Other intangible assets - net" account in the consolidated statements of financial position (Note 18).

(iii) The present value of the obligation to pay annual franchise fees over 25 years has been immediately recognized as part of intangible assets because the right related to it has already been granted and is already being enjoyed by the Group as evidenced by its taking over the operations of the Boracay Airport during the last quarter of 2010. Consequently, management has started amortizing the related value of the intangible asset and the corresponding obligation has likewise been recognized.

MIA. The airport concession right consists of the pre-design costs, consultancy fees and other directly attributable costs incurred in the development of the project.

b. *Toll Road Concession Rights*. The Group's toll road concession rights represent the costs of construction and development, including borrowing costs, if any, during the construction period of the following projects: (i) SLEX; (ii) NAIA Expressway; (iii) Skyway; (iv) TPLEX; (v) STAR; (vi) PAREX; (vii) NALEX; (viii) SALEX; (ix) PLEX; (x) CBEX; (xi) NBEX; and (xii) TPLEX Extension.

Pursuant to the Concession Agreements, any stage or phase or ancillary facilities thereof, of a fixed and permanent nature, shall be owned by the ROP.

c. *Water Concession Rights.* The Group's water concession rights represent the right to collect charges from water service providers and third-party purchasers availing of a public service, grant control or regulate the price and transfer significant residual interest of the water treatment facilities at the end of the Concession Agreement.

d. *MRT 7 Project.* The Concession Agreement related to the MRT 7 Project does not convey to the Group the right to control the use of the public service infrastructure but only an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor for the construction services. Management determined that the consideration receivable from the ROP, in exchange for the fulfillment of the obligation under the Concession Agreement, is a financial asset in the form of an unconditional right to receive cash or another financial asset.

Difference in judgment in respect to the accounting treatment of the transactions would materially affect the assets, liabilities and operating results of the Group.

Recognition of Profit Margin on the Airport and Toll Road Concession Arrangements. The Group has not recognized any profit margin on the construction of the airport and toll road projects as it believes that the fair value of the intangible asset reasonably approximates the cost. The Group also believes that the profit margin of its contractors on the rehabilitation of the existing airport and its subsequent upgrade is enough to cover any difference between the fair value and the carrying amount of the intangible asset.

Recognition of Revenue from Sale of Real Estate and Raw Land. The Group recognizes its revenue from sale of real estate projects and raw land in full when 10% or more of the total contract price is received and when development of the real estate property is 100% completed. Management believes that the revenue recognition criterion on percentage of collection is appropriate based on the Group's assessment of the collection history from customers and the number of back-out sales in prior years. Buyer's interest in the property is considered to have vested when the payment of at least 10% of the contract price was received from the buyer and the Group ascertained the buyer's commitment to complete the payment of the total contract price.

Distinction Between Investment Property and Owner-occupied Property. The Group determines whether a property qualifies as investment property or owner-occupied property. In making its judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by the Group. Owner-occupied properties generate cash flows that are attributable not only to the property but also to the other assets used in marketing or administrative functions. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in marketing or for administrative purposes. If the portions can be sold separately (or leased out separately under finance lease), the Group accounts for the portions separately. If the portions cannot be sold separately, the property is accounted for as investment property only if an insignificant portion is held for use in the supply of services or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The Group considers each property separately in making its judgment.

Classification of Redeemable Preferred Shares. Based on the features of the preferred shares of TADHC, particularly on mandatory redemption, management determined that the shares are, in substance, financial liabilities. Accordingly, these were presented as part of "Accounts payable and accrued expenses" account in the consolidated statements of financial position as at December 31, 2025 and 2024 (Note 22).

Evaluating Control over its Investees. Determining whether the Group has control in an investee requires significant judgment. Although the Group owns less than 50% of the voting rights of BPI, management has determined that the Group has control in this entity by virtue of its exposure and rights to variable returns from its involvement in this investee and its ability to affect those returns through its power over the investee.

The Group is entitled to receive substantially all of the returns related to BPI's operations and net assets after providing the fixed returns for preferred shareholders under the articles of incorporation and has the current ability to direct BPI's activities that most significantly affect the returns.

Classification of Joint Arrangements. The Group has determined that it has rights only to the net assets of the joint arrangements based on the structure, legal form, contractual terms and other facts and circumstances of the arrangement. As such, the Group classified its joint arrangements in Angat Hydropower Corporation (Angat Hydro) and KWPP Holdings Corporation (KWPP) as at December 31, 2025 and 2024 as joint ventures (Note 12).

Adequacy of Tax Liabilities. The Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretation of tax laws and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Group to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Classification of Financial Instruments. The Group exercises judgments in classifying financial instruments, or its component parts, on initial recognition as a financial asset, a financial liability, or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the consolidated statements of financial position.

The Group uses its judgment in determining the classification of financial assets based on its business model in which assets are managed and their cash flow characteristics. The classification and fair values of financial assets and financial liabilities are presented in Note 42.

Contingencies. The Group is currently involved in various pending claims and lawsuits which could be decided in favor of or against the Group. The Group's estimate of the probable costs for the resolution of these pending claims and lawsuits has been developed in consultation with in-house as well as outside legal counsel handling the prosecution and defense of these matters and is based on an analysis of potential results. The Group currently does not believe that these pending claims and lawsuits will have a material adverse effect on its financial position and financial performance. It is possible, however, that future financial performance could be materially affected by the changes in the estimates or in the effectiveness of strategies relating to these proceedings (Note 45).

Estimates and Assumptions

The key estimates and assumptions used in the consolidated financial statements are based upon the Group's evaluation of relevant facts and circumstances as at the date of the consolidated financial statements. Actual results could differ from such estimates.

Assessment of ECL on Trade Receivables. The Group, applying the simplified approach in the computation of ECL, initially uses a provision matrix based on historical default rates for trade receivables for at least two years. The Group also uses appropriate groupings if its historical credit loss experience shows significantly different loss patterns for different customers. The Group then adjusts the historical credit loss experience with forward-looking information on the basis of current observable data affecting each customer to reflect the effects of current and forecasted economic conditions.

The Group has assessed that the forward-looking default rate component of its ECL is not material because substantial amount of trade receivables are normally collected within one year. Moreover, based on management's assessment, current conditions and forward-looking information do not indicate a significant increase in credit risk exposure of the Group from its trade receivables.

Trade receivables written off amounted to P116 and P25 in 2025 and 2024, respectively. The allowance for impairment losses on trade receivables amounted to P5,344 and P5,924 as at December 31, 2025 and 2024, respectively. The carrying amount of trade receivables amounted to P175,587 and P191,937 as at December 31, 2025 and 2024, respectively (Note 8).

Assessment of ECL on Other Financial Assets at Amortized Cost. The Group determines the allowance for ECL using general approach based on the probability-weighted estimate of the present value of all cash shortfalls over the expected life of other financial assets at amortized cost. ECL is provided for credit losses that result from possible default events within the next 12 months unless there has been a significant increase in credit risk since initial recognition in which case ECL is provided based on lifetime ECL.

When determining if there has been a significant increase in credit risk, the Group considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- actual or expected external and internal credit rating downgrade;
- existing or forecasted adverse changes in business, financial or economic conditions; and
- actual or expected significant adverse changes in the operating results of the borrower.

The Group also considers financial assets at day one to be the latest point at which lifetime ECL should be recognized unless it can demonstrate that this does not represent a significant risk in credit risk such as when non-payment was an administrative oversight rather than resulting from financial difficulty of the borrower.

The Group has assessed that the ECL on other financial assets at amortized cost is not material because the transactions with respect to these financial assets were entered into by the Group only with reputable financial institutions and companies with good credit standing and relatively low risk of defaults.

The carrying amounts of other financial assets at amortized cost are as follows:

	Note	**2025**	2024
Other Financial Assets at Amortized Cost			
Cash and cash equivalents (excluding cash on hand)	*7, 41*	**P345,694**	P287,803
Other current receivables - net (included under "Trade and other receivables - net" account)	*8*	**71,972**	75,044
Financial assets at amortized cost (included under "Prepaid expenses and other current assets" and "Investments in equity and debt instruments" accounts)	*11, 13, 41, 42*	**12,205**	12,180
Noncurrent receivables and deposits - net (included under "Other noncurrent assets - net" account)	*20, 41, 42*	**6,155**	8,797
Restricted cash (included under "Prepaid expenses and other current assets" and "Other noncurrent assets - net" accounts)	*11, 20, 41, 42*	**28,777**	23,822

The allowance for impairment losses on other current receivables, included as part of "Trade and other receivables - net" account and noncurrent receivables and deposits included as part of "Other noncurrent assets - net" account in the consolidated statements of financial position, amounted to P11,467 and P268, respectively, as at December 31, 2025, and P9,419 and P590, respectively, as at December 31, 2024 (Notes 8, 20 and 41).

Fair Value Measurements. A number of the Group's accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has the overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values. The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third-party information is used to measure fair values, then the valuation team assesses the evidence obtained to support the conclusion that such valuations meet the requirements of PFRS Accounting Standards, including the level in the fair value hierarchy in which such valuations should be classified.

The Group uses market observable data when measuring the fair value of an asset or liability. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques (Note 3).

If the inputs used to measure the fair value of an asset or a liability can be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy based on the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

The methods and assumptions used to estimate the fair values for both financial and non-financial assets and liabilities are discussed in Notes 9, 11, 12, 13, 16, 17, 18, 20, 22, 37 and 42.

Write-down of Inventory. The Group writes down the cost of inventory to net realizable value whenever net realizable value becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes.

Estimates of net realizable value are based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to be realized. These estimates take into consideration fluctuations of price or cost directly relating to events occurring after the reporting date to the extent that such events confirm conditions existing at the reporting date.

The write-down of inventories amounted to P2,415 and P1,605 as at December 31, 2025 and 2024, respectively (Note 9).

The carrying amounts of inventories amounted to P145,800 and P178,355 as at December 31, 2025 and 2024, respectively (Note 9).

Estimated Useful Lives of Property, Plant and Equipment, Right-of-Use Assets, Investment Property and Deferred Containers. The Group estimates the useful lives of property, plant and equipment, right-of-use assets, investment property and deferred containers based on the period over which the assets are expected to be available for use. The estimated useful lives of property, plant and equipment, right-of-use assets, investment property and deferred containers are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets.

In addition, estimation of the useful lives of property, plant and equipment, right-of-use assets, investment property and deferred containers is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future financial performance could be materially affected by changes in estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

A reduction in the estimated useful lives of property, plant and equipment, right-of-use assets, investment property and deferred containers would increase the recorded cost of sales and selling and administrative expenses and decrease noncurrent assets.

There is no change in the estimated useful lives of property, plant and equipment, right-of-use assets, investment property and deferred containers based on management's review at the reporting date.

Property, plant and equipment, net of accumulated depreciation, amounted to P825,637 and P907,069 as at December 31, 2025 and 2024, respectively. Accumulated depreciation of property, plant and equipment amounted to P370,391 and P332,242 as at December 31, 2025 and 2024, respectively (Note 14).

Right-of-use assets, net of accumulated depreciation, amounted to P44,305 and P43,395 as at December 31, 2025 and 2024, respectively. Accumulated depreciation of right-of-use assets amounted to P14,474 and P12,445 as at December 31, 2025 and 2024, respectively (Note 15).

Investment property, net of accumulated depreciation, amounted to P96,608 and P87,931 as at December 31, 2025 and 2024, respectively. Accumulated depreciation of investment property amounted to P29,445 and P26,111 as at December 31, 2025 and 2024, respectively (Note 16).

Deferred containers, net of accumulated depreciation, included as part of "Other noncurrent assets - net" account in the consolidated statements of financial position amounted to P22,583 and P21,188 as at December 31, 2025 and 2024, respectively. Accumulated depreciation of deferred containers amounted to P28,590 and P25,096 as at December 31, 2025 and 2024, respectively (Note 20).

Estimated Useful Lives of Intangible Assets. The useful lives of intangible assets are assessed at the individual asset level as having either a finite or indefinite life. Intangible assets are regarded as having an indefinite useful life when, based on analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the Group.

Intangible assets with finite useful lives, net of accumulated amortization, included as part of "Other intangible assets - net" account in the consolidated statements of financial position amounted to P357,213 and P338,075 as at December 31, 2025 and 2024, respectively. Accumulated amortization of intangible assets with finite useful lives amounted to P81,822 and P73,285 as at December 31, 2025 and 2024, respectively (Note 18).

Estimated Useful Lives of Intangible Assets - Concession Rights. The Group estimates the useful lives of toll road, airport, port and water concession rights based on the period over which the assets are expected to be available for use. The Group has not included any renewal period because of uncertainty of the probability of securing renewal contract at the end of the original contract term as at the reporting date.

The amortization period and method are reviewed when there are changes in the expected term of the contract or the expected pattern of consumption of future economic benefits embodied in the asset.

The combined carrying amounts of toll road, airport and water concession rights amounted to P325,252 and P305,582 as at December 31, 2025 and 2024, respectively (Note 18).

Impairment of Goodwill, Licenses and Trademarks and Brand Names with Indefinite Useful Lives. The Group determines whether goodwill, licenses and trademarks and brand names are impaired at least annually. This requires the estimation of value in use of the cash-generating units to which goodwill is allocated and the value in use of the licenses and trademarks and brand names. Estimating value in use requires management to make an estimate of the expected future cash flows from the cash-generating unit and from the licenses and trademarks and brand names and to choose a suitable discount rate to calculate the present value of those cash flows.

The carrying amount of goodwill amounted to P186,145 and P184,994 as at December 31, 2025 and 2024, respectively (Note 18).

The combined carrying amounts of licenses and trademarks and brand names amounted to P2,668 and P2,460 as at December 31, 2025 and 2024, respectively (Note 18).

Acquisition Accounting. At the time of acquisition, the Group considers whether the acquisition represents an acquisition of a business or a group of assets. The Group accounts for an acquisition as a business combination if it acquires an integrated set of business processes in addition to the group of assets acquired.

The Group accounts for acquired businesses using the acquisition method of accounting which requires that the assets acquired, and the liabilities assumed are recognized at the date of acquisition based on their respective fair values.

The application of the acquisition method requires certain estimates and assumptions concerning the determination of the fair values of acquired intangible assets and property, plant and equipment, as well as liabilities assumed at the acquisition date. Moreover, the useful lives of the acquired intangible assets and property, plant and equipment must be determined. Accordingly, for significant acquisitions, the Group obtains assistance from valuation specialists. The valuations are based on information available at the acquisition date.

The carrying amount of goodwill arising from business combinations amounted to P1,488 in 2024. No goodwill was recognized from business combinations in 2025 (Notes 18 and 40).

Assessment of Production Start Date. The Group assesses the stage of development of the mine site to determine the start of production phase or the substantial completion of mining site development or production. The criteria used to assess the start date are determined based on the unique nature of each mine construction project, such as the complexity of the project and its location. The Group considers various relevant criteria to assess when the production phase is considered to have commenced. The criteria used to identify the production start date include, but are not limited to:

- Level of capital expenditure incurred compared with construction cost estimate;
- Completion of a reasonable period of testing of the property, plant and equipment; and
- Ability to sustain ongoing production of limestone.

When a mine development project moves into the production phase, the capitalization of certain mine development costs ceases and costs are either capitalized as part of the cost of inventory or expensed, except for costs that qualify for capitalization relating to mining asset additions or improvements, mine development, or mineable reserve development. It is also at this point that depreciation or amortization commences.

Capitalization of Exploration and Evaluation Expenditures. The Group makes judgments in determining whether there are future economic benefits from either future exploration or sale of mineral reserves to capitalize exploration and evaluation expenditures. The Group further applies estimates and assumptions about future events and circumstances to determine whether an economically viable extraction operation can be established.

No impairment loss on deferred exploration and evaluation costs was recognized in 2025, 2024 and 2023.

Deferred exploration and development costs included as part of "Other noncurrent assets - net" account in the consolidated statements of financial position amounted to P92 as at December 31, 2025 and 2024 (Notes 20 and 36).

Recognition of Deferred Tax Assets. The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The Group's assessment on the recognition of deferred tax assets on deductible temporary differences and carryforward benefits of MCIT and NOLCO is based on the projected taxable income in the following periods.

Deferred tax assets amounted to P23,196 and P22,045 as at December 31, 2025 and 2024, respectively (Note 25).

Impairment of Non-financial Assets. PFRS Accounting Standards requires that an impairment review be performed on investments and advances, property, plant and equipment, right-of-use assets, investment property, biological assets, other intangible assets with finite useful lives, deferred containers, deferred exploration and development costs and idle assets when events or changes in circumstances indicate that the carrying amount may not be recoverable. Determining the recoverable amounts of these assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets. While it is believed that the assumptions used in the estimation of fair values reflected in the consolidated financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable amounts and any resulting impairment loss could have a material adverse impact on the financial performance.

Accumulated impairment on investments and advances, property, plant and equipment, right-of-use assets, investment property, other intangible assets with finite useful lives and deferred containers amounted to P18,857 and P17,149 as at December 31, 2025 and 2024, respectively (Notes 12, 14, 15, 16, 18 and 20).

The combined carrying amounts of investments and advances, property, plant and equipment, right-of-use assets, investment property, biological assets - net of current portion, other intangible assets with finite useful lives, deferred containers, deferred exploration and development costs and idle assets amounted to P1,459,298 and P1,438,328 as at December 31, 2025 and 2024, respectively (Notes 12, 14, 15, 16, 17, 18 and 20).

Estimating the Incremental Borrowing Rate. The Group cannot readily determine the interest rate implicit in the leases. Therefore, it uses its relevant incremental borrowing rate to measure lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The incremental borrowing rate, therefore, reflects what the Group would have to pay, which requires estimation when no observable rates are available and to make adjustments to reflect the terms and conditions of the lease. The Group estimates the incremental borrowing rate using observable inputs (such as market interest rates) when available and is required to consider certain contract and entity-specific estimates.

The Group's lease liabilities amounted to P35,831 and P42,545 as at December 31, 2025 and 2024, respectively (Notes 36, 40, 41 and 42).

Present Value of Defined Benefit Retirement Obligation. The present value of the defined benefit retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. These assumptions are described in Note 37 to the consolidated financial statements and include discount rate and salary increase rate.

The Group determines the appropriate discount rate at the end of each reporting period. It is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement obligations. In determining the appropriate discount rate, the Group considers the interest rates on government bonds that are denominated in the currency in which the benefits will be paid. The terms to maturity of these bonds should approximate the terms of the related retirement obligation.

Other key assumptions for the defined benefit retirement obligation are based in part on current market conditions.

While it is believed that the assumptions of the Group are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the defined benefit retirement obligation of the Group.

The present value of defined benefit retirement obligation amounted to P41,229 and P39,710 as at December 31, 2025 and 2024, respectively (Note 37).

ARO. The Group has ARO arising from refinery, power plants, leased service stations, terminals, blending plant and leased properties. Determining ARO requires estimation of the costs of dismantling, installing and restoring leased properties to their original condition. The Group determined the amount of the ARO by obtaining estimates of dismantling costs from the proponent responsible for the operation of the asset, discounted at the Group's current credit-adjusted risk-free rate ranging from 3.28% to 12.64% and 3.24% to 12.64% as at December 31, 2025 and 2024, respectively, depending on the life of the capitalized costs. While it is believed that the assumptions used in the estimation of such costs are reasonable, significant changes in these assumptions may materially affect the recorded expense or obligation in future periods.

The ARO amounted to P2,732 and P2,078 as at December 31, 2025 and 2024, respectively (Notes 22 and 24).

Present Value of Annual Franchise Fee and IRO - Airport Concession Arrangement. Portion of the amount recognized as airport concession right of TADHC as at December 31, 2025 and 2024 pertains to the present value of the annual franchise fee payable to the ROP over the concession period. The recognition of the present value of the IRO is capitalized as part of "Airport concession rights" under "Other intangible assets - net" account in the consolidated statements of financial position (Note 18).

The present values of the annual franchise fee and IRO were determined based on the future value of the obligations discounted at the Group's internal borrowing rate which is believed to be a reasonable approximation of the applicable credit-adjusted risk-free market borrowing rate.

A significant change in such internal borrowing rate used in discounting the estimated cost would result in a significant change in the amount of liabilities recognized with a corresponding effect in profit or loss.

The present value of the annual franchise fees payable to the ROP over 25 years discounted using the 9% internal borrowing rate in 2025 and 2024, included as part of "Airport concession rights" under "Other intangible assets - net" account in the consolidated statements of financial position amounted to P46 and P50 as at December 31, 2025 and 2024, respectively (Note 18).

The cost of infrastructure maintenance and restoration represents the present value of TADHC's IRO recognized and is presented as part of IRO under "Other noncurrent liabilities" account in the consolidated statements of financial position amounting to P103 and P100 as at December 31, 2025 and 2024, respectively (Note 24).

Percentage-of-Completion - Airport, Toll Road and Water Concession Arrangements. The Group determines the percentage-of-completion of the contract by computing the proportion of actual contract costs incurred to date, to the latest estimated total airport, toll road and water project cost. The Group reviews and revises, when necessary, the estimate of airport, toll road and water project cost as it progresses, to appropriately adjust the amount of construction cost and revenue recognized at the end of each reporting period. Construction revenue and construction costs, reported as part of "Other income (charges) - net" account in the consolidated statements of income, amounted to P42,241, P57,772 and P60,606 in 2025, 2024 and 2023, respectively (Note 34).

Accrual for Repairs and Maintenance - Toll Road Concession Arrangements. The Group recognizes accruals for repairs and maintenance based on estimates of periodic costs, generally estimated to be every five to ten years as at December 31, 2025 and 2024, or the expected period to restore the toll road facilities to a level of serviceability and to maintain its good condition before the turnover to the ROP. This is based on the best estimate of management to be the amount expected to be incurred to settle the obligation, discounted using a pre-tax rate, ranging from 5.04% to 9.00% and 6.00% to 6.18% as at December 31, 2025 and 2024, respectively, that reflects the current market assessment of the time value of money.

The accrual for repairs and maintenance, included as part of "IRO" under "Other noncurrent liabilities" account in the consolidated statements of financial position, amounted to P1,608 and P1,111 as at December 31, 2025 and 2024, respectively (Note 24).

The current portion included as part of "Accounts payable and accrued expenses" account amounted to P339 and P581 as at December 31, 2025 and 2024, respectively (Note 22).

5. Investments in Subsidiaries

The following are the developments relating to the Parent Company's investments:

Infrastructure

- SMHC

  On April 20 and May 11, 2023, SMHC and the Parent Company executed Subscription Agreements to subscribe to an additional 5,500,000 common shares of SMHC for a total subscription price of P8,250 or P1,500.00 per common share. The Parent Company paid P7,227 in 2023, while the balance of the subscription price amounting to P1,023 was paid in 2024.

  On March 1 and July 17, 2024, SMHC and the Parent Company executed Subscription Agreements to subscribe to an additional 2,500,000 common shares of SMHC for a total subscription price of P3,750 or P1,500.00 per common share. The Parent Company paid P3,212 in 2024.

- SMAI

  On December 26, 2024, SMAI and the Parent Company executed a Subscription Agreement to subscribe to an additional 3,960,000,000 Series "2" Preferred Shares for a total subscription price of P23,760 or P6.00 per preferred share, which was fully paid in 2024.

  On October 22 and December 26, 2025, SMAI and the Parent Company executed Subscription Agreements to subscribe to an additional 1,166,671,982 Series "2" Preferred Shares for a total subscription price of P7,000 or P6.00 per preferred share. The Parent Company paid P6,730 in 2025.

The preferred shares issued by SMAI are non-voting, may be convertible into common shares as determined by the BOD of SMAI, may be redeemable at the sole option of SMAI at a price and at such time that the BOD of SMAI shall determine. The preferred shares are entitled to dividends as declared by the BOD of SMAI. In the event of liquidation, dissolution, bankruptcy, or winding up of the affairs of SMAI, the holders of preferred shares that are outstanding at that time shall enjoy preference in the payment. Furthermore, holders of preferred shares have no pre-emptive right to any issue of disposition of any stocks of any class of SMAI.

Fuel and Oil

- Repurchase of RPS

  On September 25 and October 2, 2024, Petron partially repurchased US$40 (P2,003) and US$20 (P1,001), respectively, which were subscribed by the Parent Company on July 22, 2020.

  On April 4 and August 14, 2025, Petron partially repurchased US$10 (P501) and US$42 (P2,078), respectively, which were subscribed by the Parent Company on July 22 and August 10, 2020.

  The RPS have no fixed redemption date and are redeemable in whole, or in part, at their principal amounts together with any accrued, unpaid, or deferred distributions, at Petron's option on any distribution payment date after 90 days from issuance date.

Real Estate

- SMPI

  a) Subscription of Common Shares

     On March 4 and May 8, 2024, the BOD and stockholders of SMPI, respectively, approved the additional increase in its authorized capital stock from P15,000 divided into 1,500,000,000 common shares to P17,000 divided into 1,700,000,000 common shares, both with a par value of P10.00 per common share. On March 4, 2024, SMPI and the Parent Company executed a Subscription Agreement to subscribe to an additional 50,000,000 common shares of SMPI from the proposed increase in authorized capital stock for a total subscription price of P1,000 or P20.00 per common share, which was fully paid in 2024.

     On June 20, 2025, SMPI and the Parent Company executed a Subscription Agreement to subscribe to an additional 80,000,000 common shares of SMPI from the proposed increase in authorized capital stock for a total subscription price of P1,600 or P20.00 per common share. The Parent Company paid P1,540 in 2024, while the balance of the subscription price amounting to P60 was paid in 2025.

     The application for the Amendment of Articles of Incorporation for the increase in authorized capital stock of SMPI was filed with the SEC on June 9, 2025 and was approved on June 17, 2025.

     On June 20, June 30 and September 30, 2025, SMPI and the Parent Company executed Subscription Agreements to subscribe to a total of an additional 70,000,000 common shares of SMPI from the unissued capital stock for a total subscription price of P1,400 or P20.00 per common share, which was fully paid in 2025.

     On May 6 and May 14, 2025, the BOD and stockholders of SMPI, respectively, approved the additional increase in its authorized capital stock from P17,000 divided into 1,700,000,000 common shares to P20,600 divided into 2,060,000,000 common shares, both with a par value of P10.00 per common share. On May 6, 2025, SMPI and the Parent Company executed a Subscription Agreement to subscribe to an additional 90,000,000 common shares of SMPI from the proposed increase in authorized capital stock for a total subscription price of P1,800 or P20.00 per common share, which was fully paid in 2025.

     The application for the Amendment of Articles of Incorporation for the increase in authorized capital stock of SMPI was filed with the SEC on October 8, 2025 and was approved on October 9, 2025.

     On November 4, 2025, SMPI and the Parent Company executed a Subscription Agreement to subscribe to an additional 68,489,798 common shares of SMPI for a subscription price of P1,369 or P20.00 per common share, which was fully paid in 2025.

b) Sale of Elite Montagne Realty Corp. (Elite) and Rapidshare Realty and Development Corporation (Rapidshare)

On June 11 and October 7, 2024, SMPI entered into Share Purchase Agreement with third parties for the sale of its investments in Elite and Rapidshare, respectively, for a total consideration of P2,542. Out of the said amount, P2,537 was paid in 2024, while the balance was paid in 2025.

The Group recognized gain on sale amounting to P1,903, presented as part of "Gain on sale of investments and property and equipment" account in the consolidated statement of income for the year ended December 31, 2024.

- FVHI

On August 25, 2022, the BOD and stockholders of FVHI approved the additional increase in its authorized capital stock from P1,750 divided into 17,500,000 common shares to P4,250 divided into 42,500,000 common shares, both with a par value of P100.00 per common share. On the same date, FVHI and the Parent Company executed a Subscription Agreement to subscribe to an additional 12,500,000 common shares of FVHI from the proposed increase in authorized capital stock for a total subscription price of P2,500 or P200.00 per common share. The Parent Company paid P495 and P1,935 in 2022 and 2023, respectively, while the balance of the subscription price amounting to P70 was paid in 2024.

The application for the Amendment of Articles of Incorporation for the increase in authorized capital stock of FVHI was filed with the SEC on June 27, 2024, and was approved on July 1, 2024.

On December 16, 2024, FVHI and the Parent Company executed a Subscription Agreement to subscribe to an additional 8,800,000 common shares of FVHI for a total subscription price of P1,760 or P200.00 per common share. The Parent Company paid P1,747 in 2024, while the balance of the subscription price amounting to P13 was paid in 2025.

On October 28, 2025, the BOD and stockholders of FVHI approved the additional increase in its authorized capital stock from P4,250 divided into 42,500,000 common shares to P6,000 divided into 60,000,000 common shares, both with a par value of P100.00 per common share.

On December 15, 2025, FVHI and the Parent Company executed a Subscription Agreement to subscribe to an additional 3,700,000 common shares from the remaining unissued capital stock of FVHI for a total subscription price of P740 or P200.00 per common share, which was fully paid in 2025.

On December 15, 2025, FVHI and the Parent Company executed a Subscription Agreement to subscribe to an additional 6,900,000 common shares of FVHI from the proposed increase in authorized capital stock for a total subscription price of P1,380 or P200.00 per common share. The Parent Company paid P583 as at December 31, 2025.

- WHC

On December 4, 2023, WHC and the Parent Company executed a Subscription Agreement to subscribe to an additional 123,500,000 common shares of WHC for a subscription price of P247 or P2.00 per common share. The Parent Company paid P224 in 2023, while the balance of the subscription price amounting to P23 was paid in 2024.

On December 16, 2024, WHC and the Parent Company executed a Subscription Agreement to subscribe to an additional 177,500,000 common shares of WHC at a subscription price of P355 or P2.00 per common share, which was fully paid in 2024.

On December 16, 2024, the BOD and stockholders of WHC approved the additional increase in its authorized capital stock from P1,000 divided into 1,000,000,000 common shares to P1,300 divided into 1,300,000,000 common shares, both with a par value of P1.00 per common share. On the same date, WHC and the Parent Company executed a Subscription Agreement to subscribe to an additional 186,560,000 common shares of WHC from the proposed increase in authorized capital stock for a total subscription price of P373 or P2.00 per common share, which was fully paid in 2024.

On December 22, 2025, WHC and the Parent Company executed a Subscription Agreement to subscribe to an additional 113,440,000 common shares of WHC from the proposed increase in the authorized capital stock for a subscription price of P227 or P2.00 per common share, which was fully paid in 2025.

The application for the Amendment of Articles of Incorporation for the increase in authorized capital stock of WHC was filed with the SEC on January 21, 2026 and was approved on January 22, 2026.

On December 22, 2025, the BOD and stockholders of WHC approved the additional increase in its authorized capital stock from P1,300 divided into 1,300,000,000 common shares to P2,800 divided into 2,800,000,000 common shares, both with a par value of P1.00 per common share. On the same date, WHC and the Parent Company executed a Subscription Agreement to subscribe to an additional 595,000,000 common shares of WHC from the proposed increase in authorized capital stock for a total subscription price of P1,190 or P2.00 per common share. The Parent Company paid P1,101 as at December 31, 2025.

Energy

- Deconsolidation of South Premiere Power Corp. (SPPC), Excellent Energy Resources Inc. (EERI) and Ilijan Primeline Industrial Estate, Inc. (IPIEC)

  On March 1, 2024, Meralco PowerGen Corporation (MGen, a subsidiary of Manila Electric Company [Meralco]) and Therma NatGas Power, Inc. (TNGP, a subsidiary of Aboitiz Power Corporation [AboitizPower]), through their jointly owned entity, Chromite Gas Holdings Inc. (CGHI), entered into binding agreements with San Miguel Global Power and its relevant subsidiaries, for MGen and TNGP to jointly invest for a 67% equity interest in San Miguel Global Power's gas-fired power plants, namely (i) the brownfield 1,278 megawatts (MW) Ilijan Power Plant owned by SPPC, (ii) the greenfield 1,320 MW Batangas Combined Cycle Power Plant (BCCPP) owned by EERI and (iii) land owned by IPIEC where the gas-fired power plant and related facilities of EERI as well as the Batangas LNG Terminal are located.

  The transaction had a customary closing conditions and was issued the requisite regulatory approvals, including the review and approval of the Philippine Competition Commission (PCC). On May 17, 2024, Top Frontier filed its application for the approval of the transaction with the PCC. On December 23, 2024, the PCC publicly disclosed its approval of the acquisition of power facilities and Batangas LNG Terminal by MGen, TNGP and San Miguel Global Power, subject to certain commitments from the parties aimed at ensuring fair competition and promoting transparency in the power industry.

  On January 27, 2025, the investment of 67% equity interests in SPPC, EERI and IPIEC by CGHI was completed, pursuant to the agreements executed on March 1, 2024, with San Miguel Global Power.

  As a result of this transaction, San Miguel Global Power's equity interests in SPPC, EERI and IPIEC were diluted from 100% to 33%, thereby resulting to a loss of control and deconsolidation of the assets and liabilities of the three subsidiaries from the books of San Miguel Global Power, and the recognition of the 33% equity interests retained in SPPC, EERI and IPIEC at their fair market values totaling to P52,706, classified as "Investments in shares of stock of associates and joint ventures - at equity" under "Investment and advances - net" account in the consolidated statement of financial position as at December 31, 2025 (Note 12), and the resulting revaluation gain of P21,933, included as part of "Other income (charges) - net" account, in the consolidated statement of income for the year ended December 31, 2025 (Note 34).

  The following summarizes the accounts derecognized at the deconsolidation date:

	2025
Current assets	**P62,420**
Noncurrent assets	**99,364**
Current liabilities	**(71,748)**
Noncurrent liabilities	**(59,263)**
Total	**P30,773**

Subsequently, SPPC, EERI and IPIEC redeemed and paid their respective redeemable preferred shares issued to San Miguel Global Power in cash totaling to P78,717. Moreover, SPPC assigned certain receivables and payables, with a carrying value of P8,233 and P1,889, respectively, to San Miguel Global Power as part of the consideration for the redemption. Consequently, San Miguel Global Power recognized a net gain on investments in equity instruments amounting to P22,262 (net of tax amounting to P688), presented as part of "Net gain on financial assets at fair value through other comprehensive income" account in the consolidated statement of comprehensive income for the year ended December 31, 2025.

- Subscription of Common Shares

  On March 6, 2025, San Miguel Global Power and the Parent Company executed a Subscription Agreement to subscribe to an additional 950,796,000 common shares of San Miguel Global Power from the unissued capital stock for a total subscription price of P28,524 or P30.00 per common share, which was fully paid in 2025.

  On March 6 and April 14, 2025, the BOD and stockholders of San Miguel Global Power, respectively, approved the additional increase in the authorized capital stock from P3,774 divided into 3,774,400,000 common shares to P7,800 divided into 7,800,000,000 common shares, both with a par value of P1.00 per common share. On the same date, San Miguel Global Power and the Parent Company executed a Subscription Agreement to subscribe to an additional 1,011,093,800 common shares of San Miguel Global Power from the proposed increase in authorized capital stock for a total subscription price of P30,333 or P30.00 per common share, which was fully paid in 2025.

  The application for the Amendment of Articles of Incorporation for the increase in authorized capital stock of San Miguel Global Power was filed with the SEC on May 9, 2025 and was approved on May 16, 2025.

- Redemption of Redeemable Perpetual Capital Securities (RPCS)

  On April 7, 2025, San Miguel Global Power redeemed the US$507 (P27,972) and P29,760 RPCS, which were issued to the Parent Company on various dates in 2023 and 2022.

  The RPCS are direct, unconditional, unsecured and subordinated capital securities with no fixed redemption date. San Miguel Global Power and SMGP BESS have the right to defer distribution under certain conditions.

Others

- SMCSLC

  On November 28, 2024, SMCSLC and the Parent Company executed a Subscription Agreement to subscribe to an additional 142,940,000 common shares of SMCSLC for a total subscription price of P3,002 or P21.00 per common share, which was fully paid in 2024.

- SMITS

  On December 9, 2024, SMITS and the Parent Company executed a Subscription Agreement to subscribe to an additional 442,500 common shares of SMITS for a total subscription price of P708 or P1,600.00 per common share, which was fully paid in 2024.

6. Segment Information

Operating Segments
The reporting format of the Group's operating segments is determined based on the Group's risks and rates of return which are affected predominantly by differences in the products and services produced. The operating businesses are organized and managed separately according to the nature of the products produced and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group's reportable segments are food and beverage, packaging, energy, fuel and oil, infrastructure, cement, and real estate.

The food and beverage segment is engaged in: (i) the processing and marketing of branded value-added refrigerated processed meats, canned meats, ready-to-eat viands, seafood and plant-based food products, the manufacture and marketing of butter, margarine, cheese, milk, ice cream and salad aids, the marketing of flour mixes, and the importation and marketing of coffee products (collectively known as "Prepared and Packaged Food"); (ii) the production and sale of feeds, veterinary medicine and pet care products ("Animal Nutrition and Health"); (iii) poultry and livestock farming, and the processing and sale of poultry and fresh meats ("Protein"); and (iv) the milling, production and marketing of flour and bakery ingredients, grain terminal handling, food service, and international operations ("Others"). It is also engaged in the production, marketing and selling of fermented, malt-based and non-alcoholic beverages within the Philippines and several foreign markets; and production of hard liquor in the form of gin, Chinese wine, brandy, rum, vodka and other liquor variants which are available nationwide, while some are exported to select countries.

The packaging segment is involved in the production and marketing of packaging products including, among others, glass containers, glass molds, polyethylene terephthalate (PET) bottles and preforms, PET recycling, plastic closures, corrugated cartons, woven polypropylene, kraft sacks and paperboard, pallets, flexible packaging, plastic crates, plastic floorings, plastic films, plastic trays, plastic pails and tubs, metal closures and two-piece aluminum cans, woven products, industrial laminates and radiant barriers. It is also involved in crate and plastic pallet leasing, PET bottle filling graphics design, packaging research and testing, packaging development and consultation, contract packaging and trading.

The energy segment sells, retails and distributes power, through power supply agreements (PSAs), retail supply contracts (RSCs), ancillary service procurement agreements (ASPA) and other power-related service agreements, either directly to customers [other generators, distribution utilities (DU), including Meralco, electric cooperatives, industrial customers and National Grid Corporation of the Philippines (NGCP)] or through the Philippine Wholesale Electricity Spot Market (WESM).

The fuel and oil segment is engaged in refining crude oil and marketing and distribution of refined petroleum products.

The infrastructure segment holds long-term concessions in the infrastructure sector in the Philippines. It is engaged in the management and operation, as well as construction and development of various infrastructure projects such as major toll roads, airports, railways and bulk water.

The cement segment is primarily engaged in the manufacturing, marketing and distribution of cement products.

The real estate segment is primarily engaged in leasing, sale of real estate, management services, and hotel operations.

Segment Assets and Liabilities
Segment assets include all operating assets used by a segment and consist primarily of operating cash, receivables, inventories, biological assets, property, plant and equipment and concession rights, net of allowances, accumulated depreciation and amortization and impairment. Segment liabilities include all operating liabilities and consist primarily of accounts payable and accrued expenses and other noncurrent liabilities, excluding interest payable. Segment assets and liabilities do not include deferred taxes.

Inter-segment Transactions
Segment revenues, expenses and performance include sales and purchases between operating segments. Such transactions are eliminated in consolidation.

Major Customer
The Group does not have a single external customer from which sales revenue generated amounted to 10% or more of the total revenues of the Group.

Disaggregation of Revenue

The following table shows the disaggregation of revenue by timing of revenue recognition and the reconciliation of the disaggregated revenue with the Group's reportable segments:

	Food and Beverage			Packaging			Energy			Fuel and Oil			Infrastructure			Cement			Real Estate and Others			Consolidated		
	2025	2024	2023	**2025**	2024	2023	**2025**	2024	2023	**2025**	2024	2023	**2025**	2024	2023	**2025**	2024	2023	**2025**	2024	2023	**2025**	2024	2023
Timing of Revenue Recognition																								
Sales recognized at point in time	**P418,673**	P400,578	P379,593	**P23,445**	P23,802	P24,000	**P -**	P -	P -	**P800,396**	P858,757	P785,207	**P -**	P -	P -	**P32,517**	P34,208	P36,588	**P15,706**	P19,252	P22,945	**P1,290,737**	P1,336,597	P1,248,333

7. Cash and Cash Equivalents

Cash and cash equivalents consist of:

	Note	**2025**	2024
Cash in banks and on hand		**P113,895**	P75,153
Short-term investments		**237,820**	218,524
	4, 41, 42	**P351,715**	P293,677

Cash in banks earn interest at bank deposit rates. Short-term investments include demand deposits which can be withdrawn at any time depending on the immediate cash requirements of the Group and earn interest at short-term investment rates.

The Group's cash and cash equivalents earned interest income amounting to P13,048, P12,207 and P11,397 in 2025, 2024 and 2023, respectively (Note 33).

8. Trade and Other Receivables

Trade and other receivables consist of:

	Note	**2025**	2024
Trade		**P179,993**	P196,886
Non-trade		**73,024**	74,600
Amounts owed by related parties	*35, 37*	**11,353**	10,838
		264,370	282,324
Less allowance for impairment losses	*4*	**16,811**	15,343
	4, 41, 42	**P247,559**	P266,981

Trade receivables are non-interest bearing and are generally on a 30 to 60-day term.

Non-trade receivables include claims from the Government, interest receivable, claims receivable, contracts receivable and others.

a. Claims from the Government consist of duty drawback, VAT and specific tax claims, subsidy receivables from the Government of Malaysia under the Automatic Pricing Mechanism and due from Power Sector Assets and Liabilities Management Corporation (PSALM). Due from PSALM amounting to US$60 pertains to SPPC's performance bond pursuant to the Ilijan Independent Power Producer (IPP) Administration (IPPA) Agreements that was drawn by PSALM in September 2015. The validity of PSALM's action was the subject of a case filed by SPPC with the Regional Trial Court (RTC) of Mandaluyong City which was ruled in favor of SPPC on June 13, 2025. PSALM filed an appeal to this decision before the Court of Appeals which remains pending to date (Note 45). In January 2025, this receivable from PSALM was transferred by SPPC to San Miguel Global Power pursuant to an agreement executed by both parties (Note 5).

b. Receivables recognized by SPI for WESM transactions as well as the cost of fuel, market fees and other charges related to the dispatch of the excess capacity of the Sual Power Plant.

   On March 5, 2022, SPI entered into a Settlement Agreement with Team (Philippines) Energy Corporation (TPEC) and Team Sual Corporation (TSC) that aimed to resolve all pending disputes on the dispatch of the excess capacity of the Sual Power Plant, including the claims of TPEC and SPI on historic imbalances arising from WESM transactions, cost of fuel, market fees and other charges. Pursuant to said agreement, SPI, TPEC and TSC have agreed to cause the dismissal of all ongoing cases and settle the historic imbalances, and the corresponding amounts claimed relative to the excess capacity of the Sual Power Plant in five equal annual installments from 2022 up to 2026.

   As at December 31, 2024, the receivables recognized by SPI in accordance with the Settlement Agreement amounted to P1,103, with noncurrent portion amounting to P549, presented as part of "Other noncurrent assets - net" account in the consolidated statement of financial position (Note 20).

On February 25, 2025, the parties agreed to fully settle all pending obligations under the Settlement Agreement through the prepayment of the remaining balance of P1,149 (inclusive of interest income amounting to P46). Such amount was collected in full from TPEC on March 3, 2025.

c. Receivables recognized by Albay Power and Energy Corp. from Albay Electric Cooperative, Inc. following the termination of the concession agreement on November 21, 2022 amounted to P1,641 as at December 31, 2025 and 2024 (Note 36). As at December 31, 2025, the said receivable has been fully provided with allowance.

Amounts owed by related parties include trade receivables amounting to P938 and P975 as at December 31, 2025 and 2024, respectively.

The movements in the allowance for impairment losses are as follows:

	Note	**2025**	2024
Balance at beginning of year		**P15,343**	P13,120
Charges for the year	*29, 34*	**1,996**	2,241
Amounts written off	*4*	**(138)**	(117)
Deconsolidation of subsidiaries, translation adjustments and others	*5*	**(390)**	99
Balance at end of year		**P16,811**	P15,343

9. Inventories

Inventories consist of:

	Note	**2025**	2024
At net realizable value:			
Finished goods and goods in process (including petroleum products)		**P86,336**	P111,765
Materials and supplies (including coal)		**54,706**	60,800
At cost:			
Raw land inventory and real estate projects		**4,758**	5,790
	4	**P145,800**	P178,355

The cost of finished goods and goods in process amounted to P87,734 and P112,395 as at December 31, 2025 and 2024, respectively.

If the Group used the moving-average method (instead of the first-in, first-out method, which is the Group's policy), the cost of petroleum, crude oil and other petroleum products would have increased by P298 and decreased by P130 as at December 31, 2025 and 2024, respectively.

The cost of materials and supplies amounted to P55,723 and P61,775 as at December 31, 2025 and 2024, respectively.

Inventories (including distribution or transshipment costs) charged to cost of sales amounted to P879,570, P1,008,671 and P921,860 in 2025, 2024 and 2023, respectively (Note 28).

The movements in the allowance for write-down of inventories to net realizable value and inventory obsolescence are as follows:

	Note	**2025**	2024
Balance at beginning of year		**P1,605**	P1,686
Provisions - net	*28, 29*	**1,193**	293
Write-off and others		**(383)**	(374)
Balance at end of year	*4*	**P2,415**	P1,605

Provisions for inventory losses amounted to P1,224 and P296 in 2025 and 2024, respectively. Reversals of provision for inventory losses pertain to inventories sold amounting to P31 and P3 in 2025 and 2024, respectively. Provisions for inventory losses, net of reversals, are included as part of "Cost of sales" and "Selling and administrative expenses" accounts in the consolidated statements of income (Notes 28 and 29).

The fair value of agricultural produce less costs to sell, which formed part of the cost of finished goods inventory, amounted to P133 and P138 as at December 31, 2025 and 2024, respectively, with corresponding costs at point of harvest amounting to P106 and P113, respectively. Net unrealized gain on fair valuation of agricultural produce amounted to P27, P25 and P8 in 2025, 2024 and 2023, respectively (Note 27).

The fair values of marketable hogs and grown broilers, which comprise the Group's agricultural produce, are categorized as Level 1 and Level 3, respectively, in the fair value hierarchy based on the inputs used in the valuation techniques.

The valuation model used is based on the following: (a) quoted prices for harvested mature grown broilers at the time of harvest; and (b) quoted prices in the market at any given time for marketable hogs; provided that there has been no significant change in economic circumstances between the date of the transactions and the reporting date. Costs to sell are estimated based on the most recent transaction and is deducted from the fair value to measure the fair value of agricultural produce at point of harvest. The estimated fair value would increase (decrease) if weight and quality premiums increase (decrease) (Note 4).

The net realizable value of raw land inventory and real estate projects is higher than the carrying amount as at December 31, 2025 and 2024, based on management's assessment.

The fair value of raw land inventory amounted to P29,614 and P29,533 as at December 31, 2025 and 2024, respectively. The fair value has been categorized as Level 3 in the fair value hierarchy based on the inputs used in the valuation techniques (Note 4).

In estimating the fair value of the raw land inventory, management takes into account the market participant's ability to generate economic benefits by using the assets in their highest and best use. Based on management assessment, the best use of the Group's raw land inventory is its current use.

The Level 3 fair value of raw land inventory was derived using the observable recent transaction prices for similar raw land inventory in nearby locations adjusted for differences in key attributes such as property size, zoning, and accessibility. The most significant input into this valuation approach is the price per square meter, hence, the higher the price per square meter, the higher the fair value (Note 4).

10. Prepaid Taxes and Licenses

Prepaid taxes and licenses consist of:

	Note	**2025**	2024
Prepaid taxes and licenses		**P69,773**	P74,953
Input VAT		**33,332**	51,069
	25	**P103,105**	P126,022

Prepaid taxes and licenses consist mainly of real property tax paid in advance, unused creditable withholding taxes, excise tax and excess tax credits which can be utilized as a deduction against future income tax payable.

Input VAT arises mainly from purchases of goods and services which will be applied to output VAT in the normal course of business.

11. Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consist of:

	Note	**2025**	2024
Restricted cash - current	*4, 20, 41, 42*	**P22,512**	P18,422
Prepaid expenses	*35*	**4,023**	3,641
Advances to contractors and suppliers		**1,410**	6,731
Derivative assets	*41, 42*	**1,364**	1,198
Prepaid insurance		**670**	476
Financial assets at amortized cost - current portion	*4, 13, 41, 42*	**601**	576
Financial assets at FVPL	*13, 35, 41, 42*	**398**	438
Prepaid rent		**202**	227
Catalyst		**178**	180
PSALM monthly fee outage credits		**-**	96
Others	*35, 36, 37*	**331**	173
		P31,689	P32,158

Restricted cash - current represents mainly: (i) cash in banks maintained by SMC NAIAX, SMCTC, MMSS3, SMC MRT 7, LCWDC, and TADHC in accordance with the specific purposes and terms as required under certain loan and concession agreements. Certain loan agreements provide that the Security Trustee shall have control over and the exclusive right of withdrawal from the restricted bank accounts; and (ii) funds maintained in various financial institutions, as (a) cash flow waterfall accounts required under the respective credit facilities of SMGP BESS, LPI, MPI, MPGC and MPCL, (b) environmental guarantee fund for remittance to the Department of Environment and Natural Resources (DENR) and (c) financial benefits to host communities, as required by law.

PSALM monthly fee outage credits pertain to the approved reduction in SPI's future monthly fees payable to PSALM resulting from the outages of the Sual Power Plant in 2024.

Financial assets at FVPL include investment in debt securities under investment management agreement with Bank of Commerce (BankCom) amounting to P49 as at December 31, 2024 (Note 35).

Prepaid rent pertains to advance rent paid for short-term and low valued leases, in accordance with the provision of the lease agreements.

"Others" consist mainly of advance payments for certain land acquisitions which are intended for future development.

The methods and assumptions used to estimate the fair values of derivative assets and financial assets at FVPL are discussed in Note 42.

12. Investments and Advances

The movements in investments and advances are as follows:

	Note	**2025**	2024
Investments in Shares of Stock of Associates and Joint Ventures - at Equity			
Acquisition Cost			
Balance at beginning of year		**P25,516**	P21,290
Additions	*5*	**13,439**	4,224

		94,216	28,986
Advances for Investments	*5*	**33,042**	23,962
	4	**P127,258**	P52,948

Investments in Shares of Stock of Associates

a. SPPC, EERI, IPIEC and Linseed Field Corporation (LFC)

The Parent Company through San Miguel Global Power owns 33% equity interest of SPPC, EERI and IPIEC, and 32.98% equity interest of LFC as at December 31, 2025.

On January 27, 2025, San Miguel Global Power completed the following transactions with CGHI: (a) investment by CGHI of 67% equity interests in SPPC, EERI and IPIEC, which resulted to the dilution of San Miguel Global Power's ownership interest in each of the three subsidiaries from 100% to 33%; and (b) acquisition by CGHI and San Miguel Global Power of 67% and 32.98% equity interest, respectively, in LFC.

San Miguel Global Power paid P4,340 for the acquisition of 32.98% equity interests in LFC, classified as "Investments in shares of stock of associates and joint ventures" under "Investment and advances - net" account in the consolidated statement of financial position as at December 31, 2025.

For the year ended December 31, 2025, the Group recognized share in net earnings of EERI, SPPC, IPIEC and LFC amounting to P8,708, presented under "Equity in net earnings of associates and joint ventures" account in the consolidated statement of income.

For the year ended December 31, 2025, the Group recognized share in the movement of equity reserves of EERI, SPPC, IPIEC and LFC amounting to P11,456.

SPPC, EERI and IPIEC respectively own the brownfield 1,278 MW Ilijan Power Plant, the greenfield 1,320 MW BCCPP and the land on which EERI's gas-fired power plant and related facilities, as well as the Batangas LNG Terminal are located. LFC owns the Batangas LNG Terminal, which receives, stores and processes LNG to fuel for SPPC's Ilijan Power Plant and for EERI's BCCPP.

b. BankCom

The Parent Company through SMPI and SMCEC owns 31.94% and 4.87% equity interest in BankCom, respectively, as at December 31, 2025 and 2024.

As at December 31, 2025 and 2024, the fair value of the indirect equity investment by the Parent Company in common shares of stock of BankCom amounted to P4,752 and P3,486, respectively.

BankCom provides services such as deposit products, loans and trade finance, domestic and foreign fund transfers, foreign exchange, credit card and trust services.

c. Manila North Harbour Port, Inc. (MNHPI)

The Parent Company through SMHC owns 50% of the outstanding capital stock of MNHPI as at December 31, 2025 and 2024. MNHPI is the terminal operator of Manila North Harbor, a 60.96-hectare port facility situated at Tondo, City of Manila. The port has a total berth length of 5,758 meters and 36 berths which can accommodate all types of vessels such as containerized and non-container type vessels.

d. New NAIA Infra Corp. (NNIC)

The Parent Company through SMHC owns 33% of the outstanding capital stock of NNIC as at December 31, 2025 and 2024. NNIC was incorporated on February 15, 2024 primarily to engage in development, expansion, rehabilitation, operation, management and maintenance activities of international and domestic airports, airfields and facilities appurtenant thereto for passenger and cargo as may be authorized by the Civil Aviation Authority of the Philippines (CAAP) or other appropriate government agency.

On March 18, 2024, NNIC was awarded by the Government of the ROP through the Department of Transportation (DOTr), and MIA Authority to rehabilitate, operate, expand and maintain the country's main international gateway, the NAIA, which covers improvements to its runway, main terminals and other facilities for a term of 15 years, with a ten-year extension subject to performance review.

On September 14, 2024, NNIC took over the management and operations of NAIA upon receipt of Notice to Start Operation and Maintenance and Certificate of Turnover of Existing Assets.

Investments in Shares of Stock of Joint Ventures

Angat Hydro and KWPP

PVEI, a subsidiary of San Miguel Global Power has an existing joint venture agreement with Korea Water Resources Corporation (K-Water), covering the acquisition, rehabilitation, operation and maintenance of the 218 MW Angat Hydroelectric Power Plant (Angat Power Plant) which was previously awarded by PSALM to K-Water.

PVEI holds 30,541,470 shares or 60% of the outstanding capital stock of Angat Hydro and 75 shares representing 60% of KWPP outstanding capital stock. PVEI and K-Water are jointly in control of the management and operation of Angat Hydro and KWPP.

Advances for Investments

a. SMPI made advances to future investees amounting to P139 as at December 31, 2025 and 2024. These advances will be applied against future stock subscriptions of SMPI to the investee companies.

Impairment loss recognized on the advances for investments amounted to P3, P12 and P498 in 2025, 2024 and 2023, respectively (Note 34).

b. San Miguel Global Power and its subsidiaries made deposits to certain landholding companies amounting to P20,988 and P14,307 as at December 31, 2025 and 2024, respectively. These deposits will be applied against future stock subscriptions.

c. Other advances pertain to deposits made to certain companies which will be applied against future stock subscriptions.

The details of the Group's material investments in shares of stock of associates and joint ventures which are accounted for using the equity method are as follows:

	December 31, 2025							December 31, 2024					
	SPPC, EERI, IPIEC and LFC	**Angat Hydro and KWPP**	**BankCom**	**MNHPI**	**NNIC**	**Others**	**Total**	Angat Hydro and KWPP	BankCom	MNHPI	NNIC	Others	Total

13. Investments in Equity and Debt Instruments

Investments in equity and debt instruments consist of:

	Note	**2025**	2024
Government and other debt securities		**P13,303**	P13,286
Equity securities		**34,056**	7,311
Proprietary membership shares and others		**1,502**	1,467
	4, 41, 42	**48,861**	22,064
Less current portion	*11*	**999**	1,014
		P47,862	P21,050

Government and Other Debt Securities
Government and other debt securities include:

a. Petrogen's investment in government securities classified as financial asset at amortized cost, deposited with the Bureau of Treasury in accordance with the provisions of the Insurance Code, for the benefit and security of its policyholders and creditors amounting to P705 and P680 as at December 31, 2025 and 2024, respectively. The investments in government securities bear fixed annual interest rates ranging from 3.38% to 7.85% in 2025 and 2.63% to 6.25% in 2024 and with maturities up to 2027 (Note 33).

b. Investment in debt securities under investment management agreement with BankCom entered into by SMB and GSMI classified as financial assets at amortized cost amounting to a total of P3,500 as at December 31, 2025 and 2024 and by Petrogen classified as financial assets at FVOCI amounting to P700 and P669 as at December 31, 2025 and 2024, respectively (Note 35).

   The investments in debt securities bear annual average interest rate of 6.90% in 2025 and 2024 and with maturities up to 2029 (Notes 33 and 35).

   Income earned from the investments in government and other debt securities amounted to P1,723, P974 and P964 in 2025, 2024 and 2023, respectively (Notes 33, 34 and 35).

Equity Securities
Equity securities include:

a. Parent Company's investment in the shares of stock of Top Frontier, consists of 2,561,031 common shares amounting to P143 and P162 as at December 31, 2025 and 2024, respectively.

b. Parent Company's investment in BankCom through SMCEC, consists of 416,666,670 Series 1 Preferred Shares amounting to P132.00 per preferred share or P5,500 as at December 31, 2025 and (Note 35).

   Dividend income from the investment in preferred shares of stock of BankCom amounted to P220 and P303 in 2025 and 2024, respectively, presented as part of "Dividend income" under "Other income (charges) - net" account in the consolidated statements of income (Notes 34 and 35).

   The preferred shares are non-voting, except as provided by law, perpetual or non-redeemable, cumulative, convertible to common shares at the option of the holders, subject to requirements under laws, rules and regulations, have preference over common shares in case of liquidation, dissolution, or winding up of the affairs of BankCom and subject to the other terms and conditions as may be fixed by the BOD of BankCom, required under regulations, and to the extent permitted by applicable law.

c. San Miguel Global Power's investment in the shares of stock of Meralco, consists of 46,596,596 common shares amounting to P574.00 per share or P26,746 as at December 31, 2025. Consequently, San Miguel Global Power recognized a revaluation gain of P22,445, presented under "Net gain on financial assets at fair value through other comprehensive income" account in the consolidated statement of comprehensive income for the year ended December 31, 2025.

Dividend income from the investment in common stock of Meralco amounted to P501 in 2025, presented as part of "Dividend income" under "Other income (charges) - net" account in the consolidated statement of income (Note 34).

d. San Miguel Global Power's investment in SPPC, EERI, IPIEC, and LFC consists of 110,000 redeemable preferred shares amounting to P11 as at December 31, 2025 (Note 35).

The redeemable preferred shares are: (i) redeemable at the option of the issuer at the issue price, after all dividends to which it is entitled have been fully paid, and, once redeemed, shall not be reissuable; (ii) entitled to dividends as determined by the BOD of issuer; (iii) shall have preference in the distribution of dividends over common shares/all other classes of shares; and (iv) no voting rights except on fundamental matters prescribed under Section 6 of the RCC.

The Group has irrevocably elected to classify these investments as financial assets at FVOCI as it intends to hold these investments for strategic purposes.

The Group recognized gain on financial assets at FVOCI amounting to P44,672, P243 and P155 in 2025, 2024 and 2023, respectively, in the consolidated statements of comprehensive income.

The movements in investments in equity and debt instruments are as follows:

	Note	**2025**	2024
Balance at beginning of year		**P22,064**	P20,983
Additions		**5,008**	2,107
Fair value gain		**22,507**	340
Amortization of premium		**13**	15
Redemption/disposals		**(732)**	(1,384)
Currency translation adjustments and others		**1**	3
Balance at end of year	*4, 11, 41, 42*	**P48,861**	P22,064

The investments in equity and debt instruments are classified as follows:

	Note	**2025**	2024
Noncurrent			
Financial assets at FVOCI		**P35,770**	P8,988
Financial assets at amortized cost	*4*	**11,604**	11,604
Financial assets at FVPL		**488**	458
		47,862	21,050

"Equipment, furniture and fixtures" includes machinery, transportation equipment, office equipment and tools and small equipment.

Total depreciation and impairment losses recognized in the consolidated statements of income amounted to P43,988, P36,818 and P32,247 in 2025, 2024 and 2023, respectively (Notes 30 and 34). These amounts include annual amortization of capitalized borrowing costs amounting to P1,678, P1,252 and P1,213 in 2025, 2024 and 2023, respectively.

Reclassifications and others mainly pertain to: (a) the Sual Coal-fired Thermal Power Plant, which was reclassified from "Right-of-use assets - net" account following the expiration of its IPPA Agreement with PSALM and its turnover to SPI in October 2024 (Notes 15 and 36); (b) the full settlement of all obligations under the Settlement Agreement with TPEC and TSC in March 2025 (Note 18); (c) transfers to investment property due to change in usage as evidenced by ending of owner-occupation or commencement of operating lease to another party (Note 16); and (d) reclassifications from capital projects in progress account to specific property, plant and equipment accounts.

In 2024, Petron recognized the reversal of the conveyance of land declared as property dividends in 1993 amounting to P143 equivalent to the net book value of the land at the time of dividend declaration. The land was recognized as part of "Property, plant and equipment" and "Investment property" accounts at P110 and P33, respectively, presented as part of "Additions" (Notes 16 and 45).

Additions to property, plant and equipment in 2025 and 2024, include noncash or unpaid portion of payables amounting to P11,177 and P18,244, respectively, which represent noncash investing activities.

The Group has capitalized borrowing costs amounting to P2,881 and P5,061 in 2025 and 2024, respectively. The capitalization rates used to determine the amount of interest eligible for capitalization ranged from 2.95% to 8.28% and 2.81% to 9.43% in 2025 and 2024, respectively. The unamortized capitalized borrowing costs amounted to P31,385 and P30,182 as at December 31, 2025 and 2024, respectively.

Certain fully depreciated property, plant and equipment with aggregate costs of P129,922 and P116,544 as at December 31, 2025 and 2024, respectively are still being used in the Group's operations.

As at December 31, 2025 and 2024, certain property, plant and equipment amounting to P294,127 and P269,015, respectively, were pledged as security for syndicated project finance loans (Note 23).

15. Right-of-Use Assets

Right-of-use assets consist of:

	Note	Land	Buildings and Improvements	Power Plants	Service Stations and Other Equipment	Machinery and Equipment	Total

The Group recognized right-of-use assets for leases of office space, warehouse, factory facilities and parcels of land. The leases typically run for a period of 2 to 50 years. Some leases contain an option to renew at the end of the lease term and are subjected to reviews to reflect current market rentals. The renewal option provides operational flexibility in managing the leased asset portfolio and aligns the business needs of the Group.

Total depreciation recognized in the consolidated statements of income amounted to P2,118, P4,351 and P4,899 in 2025, 2024 and 2023, respectively (Note 30).

The remeasurements pertain mainly to the change in the estimated dismantling costs of ARO during the year (Note 4).

The reclassifications and others in 2024 mainly relates to the Sual Coal-fired Thermal Power Plant which was reclassified to “Property, plant and equipment - net" account following the expiration of the IPPA Agreement between SPPC and PSALM and its turnover to SPI in October 2024 (Notes 14 and 36) and the reversal of right-of-use assets recognized previously by Petron due to pretermination of the lease contracts with Philippine National Oil Company (PNOC) as a result of the conveyance of the landholdings (Note 45).

No impairment loss was recognized in 2025, 2024 and 2023.

The Group recognized interest expense related to these leases amounting to P2,200, P2,803 and P3,772 in 2025, 2024 and 2023, respectively (Note 32).

The Group also has certain leases of property and equipment with lease terms of 12 months or less and leases of equipment with low value. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases. The expenses relating to short-term leases, leases of low-value assets and variable lease payments that do not depend on an index or a rate amounted to P118, P15 and P4,018, respectively, in 2025, P169, P18 and P3,621, respectively, in 2024, and P194, P8 and P3,294, respectively, in 2023 (Notes 28 and 29).

The Group had total cash outflows for leases of P18,246, P26,610 and P28,222 in 2025, 2024 and 2023, respectively.

16. Investment Property

Total depreciation recognized in the consolidated statements of income amounted to P2,269, P2,140 and P2,046 in 2025, 2024 and 2023, respectively (Note 30).

The reclassification relates to the change in usage as evidenced by ending of owner-occupation or commencement of operating lease to another party which was reclassified from "Property, plant and equipment - net" account mainly by SMPI and Multi-Ventures Investment Holdings, Inc. (Note 14).

Additions in investment property in 2024 include land recognized by Petron arising from the reversal of the reconveyance of land declared as property dividends in 1993 amounting to P33 (Notes 14 and 45).

Impairment loss of P153, P2 and P14 was recognized in 2025, 2024 and 2023, respectively (Note 34).

There are no other direct selling and administrative expenses other than depreciation and real property taxes arising from investment property that generated income in 2025, 2024 and 2023.

The fair value of investment property amounting to P214,939 and P187,191 as at December 31, 2025 and 2024, respectively, has been categorized as Level 3 in the fair value hierarchy based on the inputs used in the valuation techniques (Note 4).

The fair value of investment property was determined by external, independent property appraisers having appropriate recognized professional qualifications and recent experience in the location and category of the property being valued. The independent appraisers provide the fair value of the Group's investment property on a regular basis.

Valuation Technique and Significant Unobservable Inputs
The valuation of investment property applied the following approaches:

Cost Approach. This approach is based on the principle of substitution, which holds that an informed buyer would not pay more for a given property than the cost of an equally desirable alternative. The methodology of this approach is a set of procedures that estimate the current reproduction cost of the improvements, deducts accrued depreciation from all sources, and adds the value of investment property.

Sales Comparison Approach. The market value was determined using the Sales Comparison Approach. The comparative approach considers the sale of similar or substitute property, registered within the vicinity, and the related market data. The estimated value is established by process involving comparison. The property being valued is then compared with sales of similar property that have been transacted in the market. Listings and offerings may also be considered. The observable inputs to determine the market value of the property are the following: location characteristics; size; time element; quality and prospective use; bargaining allowance and marketability.

Income Approach. The rental value of the subject property was determined using the Income Approach. Under the Income Approach, the market value of the property is determined first, and then the proper capitalization rate is applied to arrive at its rental value. The rental value of the property is determined based on what a prudent lessor or a prospective lessee are willing to pay for its use and occupancy considering the prevailing rental rates of similar property and/or rate of return a prudent lessor generally expects on the return on its investment. A study of current market conditions indicates that the return on capital for similar real estate investment ranges from 2% to 7%.

17. Biological Assets

Biological assets consist of:

	Note	2025	2024
Current:			
Growing stocks		**P2,218**	P2,446
Goods in process		**856**	795
		3,074	3,241
Noncurrent:			
Breeding stocks - net		**2,661**	2,652
	4	**P5,735**	P5,893

Growing stocks pertain to growing broilers and hogs, while goods in process pertain to hatching eggs.

The amortization of breeding stocks recognized in the consolidated statements of income amounted to P3,508, P3,339 and P4,054 in 2025, 2024 and 2023, respectively (Note 30).

The movements in biological assets are as follows:

	Note	2025	2024
Cost			
Balance at beginning of year		**P5,907**	P6,210
Increase (decrease) due to:			
Production		**66,888**	61,112
Purchases		**1,437**	897
Mortality		**(280)**	(338)
Harvest		**(64,681)**	(58,580)
Retirement		**(3,515)**	(3,394)
Balance at end of year		**5,756**	5,907
Accumulated Amortization			
Balance at beginning of year		**14**	28
Amortization	*30*	**3,508**	3,339
Retirement		**(3,501)**	(3,353)
Balance at end of year		**21**	14
Carrying Amount		**P5,735**	P5,893

The Group harvested approximately 600.6 million and 574.0 million kilograms of grown broilers in 2025 and 2024, respectively, and 0.03 million heads of marketable hogs in 2025 and 2024.

The aggregate fair value less estimated costs to sell of agricultural produce harvested during the year, determined at point of harvest amounted to P66,193 and P61,738 in 2025 and 2024, respectively.

18. Goodwill and Other Intangible Assets

Goodwill and other intangible assets consist of:

	2025	2024
Goodwill	**P186,145**	P184,994
Other intangible assets	**359,842**	340,496
	P545,987	P525,490

The movements in goodwill are as follows:

	Note	**2025**	2024
Gross Carrying Amount			
Balance at beginning of year		**P186,814**	P184,660
Additions	*40*	**-**	1,488

The Group has capitalized borrowing costs amounting to P43 and P30 in 2025 and 2024, respectively. The capitalization rates used to determine the amount of interest eligible for capitalization ranged from 6.76% to 8.20% and 8.81% to 8.91% in 2025 and 2024, respectively. The unamortized capitalized borrowing costs amounted to P39 as at December 31, 2025 and 2024.

Goodwill, licenses and trademarks and brand names with indefinite lives acquired through business combinations, have been allocated to individual cash-generating units, for impairment testing as follows:

	2025		2024	
	Goodwill	**Licenses, Trademarks and Brand Names**	Goodwill	Licenses, Trademarks and Brand Names
Energy	**P69,944**	**P -**	P69,944	P -

Food and beverage	**3,639**	**2,668**	3,639	2,460
Others	**74**	**-**	74	-
Total	**P186,145**	**P2,668**	P184,994	P2,460

The recoverable amount of goodwill has been determined based on fair value less costs to sell or a valuation using cash flow projections (value in use) covering a five-year period based on long range plans approved by management. The values assigned to the key assumptions represent management's assessment of future trends in the relevant industries and were based on historical data from both external and internal sources. Cash flows beyond the five-year period are extrapolated using a constant growth rate determined per individual cash-generating unit to arrive at its terminal value. The growth rates used, which range from 1% to 7% and 1% to 10% in 2025 and 2024, respectively, are based on strategies developed for each business and include the Group's expectations of market developments and past historical performance. The discount rates applied to after tax cash flow projections ranged from 5% to 10% and 6% to 10% in 2025 and 2024, respectively. The discount rate also imputes the risk of the cash-generating units compared to the respective risk of the overall market and equity risk premium. The recoverable amount of goodwill has been categorized as Level 3 in the fair value hierarchy based on the inputs used in the valuation technique (Note 4).

No impairment loss was recognized for goodwill in 2025 and 2024. Impairment loss recognized in 2023 amounted to P188 (Notes 4 and 34).

The recoverable amount of licenses, trademarks and brand names has been determined based on a valuation using cash flow projections (value in use) covering a five-year period based on long range plans approved by management. The values assigned to the key assumptions represent management's assessment of future trends in the relevant industries and were based on historical data from both external and internal sources. Cash flows beyond the five-year period are extrapolated using a constant growth rate determined per individual cash-generating unit to arrive at its terminal value. The growth rates used, which range from 2% to 6% and 2% to 5% in 2025 and 2024, respectively, are based on strategies developed for each business and include the Group's expectations of market developments and past historical performance. The discount rates applied to after tax cash flow projections ranged from 6% to 12% and 7% to 12% in 2025 and 2024, respectively. The recoverable amount of trademarks and brand names has been categorized as Level 3 in the fair value hierarchy based on the inputs used in the valuation technique (Note 4).

Management's calculations are updated to reflect the most recent developments as at the reporting date. Management's expectations reflect performance to date and are based on its experience in times of recession and consistent with the assumptions that a market participant would make.

No impairment loss was recognized for licenses, trademarks and brand names in 2025, 2024 and 2023.

Other than the items on which impairment losses were already recognized, management believes that any reasonably possible change in the key assumptions on which the recoverable amount is based would not cause its carrying amount to exceed its recoverable amount.

- *Gross Margins*. Gross margins are based on average values achieved in the period immediately before the budget period. These are increases over the budget period for anticipated efficiency improvements. Values assigned to key assumptions reflect past experience, except for efficiency improvement.

- *Discount Rates*. The Group uses the weighted-average cost of capital as the discount rate, which reflects management's estimate of the risk specific to each unit. This is the benchmark used by management to assess operating performance and to evaluate future investment proposals.

- *Raw Material Price Inflation.* Consumer price forecast is obtained from indices during the budget period from which raw materials are purchased. Values assigned to key assumptions are consistent with external sources of information.

As at December 31, 2025 and 2024, certain other intangible assets amounting to P73,833 and P96,021, respectively, were pledged as security for syndicated project finance loans (Note 23).

19. Contract Assets

Contract assets consist of:

	2025	2024
Balance at beginning of year	**P56,028**	P39,138
Additions	**8,931**	12,166
Recoupment of advances	**1,232**	1,220
Others	**3,372**	3,504
Balance at end of year	**P69,563**	P56,028

Contract asset represents the conditional right of the Group to receive the consideration under the Concession Agreement upon substantial completion of the MRT 7 Project. The contract asset is reclassified to financial asset and/or an intangible asset based on the relevant terms of the Concession Agreement.

The recoupment of advances is based on the progress billings made by the contractors for the percentage of accomplishment of their work. The Group made advances to contractors prior to the execution of the Accession Agreement in 2017.

The MRT 7 Project is an integrated transportation system which consists of a highway, Intermodal Transport Terminal and Metro Rail Transit System, including a depot and rolling stock, aimed to address the transportation needs of passengers and to alleviate traffic in Metro Manila, particularly traffic going to and coming from North Luzon.

"Others" consist mainly of capitalized expenditures.

20. Other Noncurrent Assets

Other noncurrent assets consist of:

	Note	**2025**	2024
Advances to contractors and suppliers		**P29,695**	P27,005
Deferred containers - net	*4*	**22,058**	20,643

Retirement/reclassifications		**(280)**	(383)
Balance at end of year		**525**	545
		P22,058	P20,643

In 2024, Petron reassessed its accounting policy for LPG cylinders which had previously been recognized as an outright expense. Petron considered its legal ownership of LPG cylinders, compliance with regulatory requirements under the LPG Industry Regulation Act and alignment with the recent interpretation of the SEC on the matter. The LPG cylinders were recognized as part of "Deferred containers - net" account amounting to P3,176 presented as part of "Additions" in 2024.

Noncurrent receivables and deposits include amounts owed by related parties amounting to P3,240 and P4,412 as at December 31, 2025 and 2024, respectively (Note 35) and are presented net of allowance for impairment losses amounting to P268 and P590 as at December 31, 2025 and 2024, respectively (Note 4).

Restricted cash mainly represents:

i. MPCL's cash flow waterfall accounts and environmental guarantee fund amounting to P3,148 and P2,974 as at December 31, 2025 and 2024, respectively;

ii. LPI, MPGC and SMGP BESS' cash flow waterfall accounts amounting to P2,301 and P1,654 as at December 31, 2025 and 2024, respectively;

iii. Cash in bank maintained by NCC in accordance with the specific purpose and term as required under its loan agreement, amounting to P578 and P554 as at December 31, 2025 and 2024, respectively;

iv. Rehabilitation funds established by Solid North Mineral Corp. (SNMC), NCC and ECC in compliance with DENR Administrative Order No. 2005-07 for environmental protection and enhancement amounting to P179 and P157 as at December 31, 2025 and 2024, respectively; and

v. Deposit in escrow by ECC for a pending legal case amounting to P59 and P56 as at December 31, 2025 and 2024, respectively.

The methods and assumptions used to estimate the fair values of noncurrent receivables and deposits, and restricted cash are discussed in Note 42.

"Others" include marketing assistance to dealers and other noncurrent prepaid expenses.

21. Loans Payable

Loans payable consist of:

	Note	2025	2024
Parent Company			
Peso-denominated		**P25,575**	P49,903
Foreign currency-denominated		**41,013**	17,323
Subsidiaries			
Peso-denominated		**162,741**	201,697
Foreign currency-denominated		**1,263**	24,307
	40, 41, 42	**P230,592**	P293,230

Loans payable mainly represent unsecured Peso and foreign currency-denominated amounts obtained from local and foreign banks. Interest rates per annum for Peso-denominated loans ranged from 4.00% to 7.05% and from 3.96% to 8.32% in 2025 and 2024, respectively. Interest rates per annum for foreign currency-denominated loans ranged from 3.71% to 6.16% and 3.96% to 8.00% in 2025 and 2024, respectively (Note 32).

Loans payable include interest-bearing amounts payable to BankCom amounting to P2,131 and P6,941 as at December 31, 2025 and 2024, respectively (Note 35).

The movements in debt issue costs are as follows:

	Note	2025	2024
Balance at beginning of year		**P31**	P -
Additions		**345**	63
Amortization	*32*	**(236)**	(32)
Balance at end of year		**P140**	P31

22. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of:

	Note	2025	2024
Trade	*36*	**P118,220**	P120,062
Non-trade		**101,051**	135,587
Customers' deposits		**14,893**	14,101
Accrued interest payable		**6,321**	6,215
Accrued payroll		**6,059**	6,105
Amounts owed to related parties	*35*	**2,826**	2,066
Derivative liabilities	*41, 42*	**1,999**	1,890
Deferred liability on consumer loyalty program		**1,054**	831
Retention payable		**398**	947
Current portion of IRO	*4*	**339**	581
Retirement liabilities	*37*	**104**	170
Deferred income		**90**	83
Redeemable preferred shares	*4*	**19**	19
Others		**650**	381
	41, 42	**P254,023**	P289,038

Trade payables are non-interest bearing and are generally on a 30 to 60-day term.

Non-trade payables include liability relating to power rate adjustments, payables to contractors, guarantee deposits, freight, contracted services, rent and other payable to third parties.

Redeemable Preferred Shares. These represent the preferred shares of TADHC issued in 2010. The preferred shares are cumulative, non-voting, redeemable and with liquidation preference. The shares are preferred as to dividends, which are given in the form of coupons, at the rate of 90% of the applicable base rate (i.e., one year Bloomberg Valuation or BVAL). The dividends are cumulative from and after the date of issue of the preferred shares, whether or not in any period the amount is covered by available unrestricted retained earnings.

The preferred shares are required to be redeemed at the end of the ten-year period from and after the issuance of the preferred shares by paying the principal amount, plus all unpaid coupons (at the sole option of TADHC, the preferred shares may be redeemed earlier in whole or in part).

In the event of liquidation, dissolution, bankruptcy or winding up of the affairs of TADHC, the holders of the preferred shares are entitled to be paid in full, an amount equivalent to the issue price of such preferred shares plus all accumulated and unpaid dividends up to the current dividend period or proportionately to the extent of the remaining assets of TADHC, before any assets of TADHC will be paid or distributed to the holders of the common shares.

As at December 31, 2025 and 2024, the preferred shares remain outstanding as other requirements prior to redemption are pending from the shareholders.

"Others" include ARO, accruals for materials, repairs and maintenance, advertising, handling, contracted labor, supplies and various other payables.

The methods and assumptions used to estimate the fair value of derivative liabilities are discussed in Note 42.

23. Long-Term Debt

Long-term debt consists of:

	2025	2024
Parent Company		
Peso-denominated Bonds:		
Fixed interest rate of 7.4458%, 7.8467% and 8.489% maturing in 2028, 2029 and 2032, respectively (a)	**P59,603**	P59,446
Fixed interest rate of 5.2704% and 5.8434% maturing in 2027 and 2029, respectively (b)	**29,820**	29,758
Fixed interest rate of 7.2584% and 7.7197% maturing in 2031 and 2034, respectively (c)	**19,777**	19,748
Fixed interest rate of 7.465% maturing in 2027 (d)	**18,693**	18,652
Fixed interest rate of 5.7613% and 7.125% maturing in 2027 and 2028, respectively (e)	**10,413**	12,835
Peso-denominated Term Notes:		
Fixed interest rate of 6.9375% with maturities up to 2026 (f)	**14,950**	15,089
Fixed interest rate of 6.3% maturing in 2028 (g)	**5,646**	-
Fixed interest rate of 7.4998% with maturities up to 2029 (h)	**5,060**	5,104
Foreign Currency-denominated Term Notes:		
Fixed interest rate of 6.55% maturing in 2028 (i)	**8,784**	8,630
Fixed interest rate of 6.68% maturing in 2029 (j)	**8,771**	8,619
Floating interest rate based on Secured Overnight Financing Rate (SOFR) plus margin, maturing in 2029 (k)	**115,461**	112,973
Floating interest rate based on SOFR plus margin, with maturities up to 2035 (l)	**109,275**	108,534

Forward

	2025	2024
Floating interest rate based on SOFR plus margin, maturing in 2028 (m)	**P77,205**	P75,553
Floating interest rate based on SOFR plus margin, maturing in 2026 (n)	**52,685**	51,564
Floating interest rate based on SOFR plus margin, maturing in 2027 (o)	**40,879**	40,016
Floating interest rate based on Tokyo Overnight Average Rate (TONA) plus margin, maturing in 2028 and 2030 (p)	**22,646**	-

a. The amount represents the P60,000 fixed rate bonds issued by the Parent Company consisting of: (i) five-year and three months Series L Bonds, due in 2028 with an interest rate of 7.4458% per annum; (ii) seven-year Series M Bonds, due in 2029 with an interest rate of 7.8467% per annum; and (iii) ten-year Series N Bonds, due in 2032 with an interest rate of 8.489% per annum. The Bonds were listed on the Philippine Dealing & Exchange Corp. (PDEx). Interest is payable every 14th of March, June, September and December of each year.

The proceeds of the issuance of the bonds were used for: (i) the optional redemption of the Parent Company's Series "2" Preferred Shares - Subseries "2-H"; (ii) the repayment of the Peso-denominated short-term loan facilities that were used to pay the Series A and Series D Bonds; (iii) the payment of Series E Bonds; and (iv) the refinancing of certain US Dollar-denominated obligations.

Unamortized debt issue costs amounted to P397 and P554 as at December 31, 2025 and 2024, respectively.

b. The amount represents the first tranche of the P60,000 Shelf Registered Fixed Rate Bonds issued by the Parent Company amounting to P30,000. The Bonds were listed on the PDEx.

The first tranche of the fixed rate bonds listed on March 4, 2022, consists of: (i) five-year Series J Bonds, due in 2027 with an interest rate of 5.2704% per annum; and (ii) seven-year Series K Bonds, due in 2029 with an interest rate of 5.8434% per annum. Interest is payable every 4th of March, June, September and December of each year.

The proceeds of the issuance of the bonds were used for refinancing the Parent Company's short-term loan facilities and other general corporate purposes.

Unamortized debt issue costs amounted to P180 and P242 as at December 31, 2025 and 2024, respectively.

c. The amount represents the first tranche of the P50,000 Shelf Registered Fixed Rate Bonds issued by the Parent Company amounting to P20,000. The Bonds were listed on the PDEx.

The first tranche of the fixed rate bonds listed on July 3, 2024, consists of: (i) six-year and six months Series O Bonds, due in 2031 with an interest rate of 7.2584% per annum; and (ii) ten-year Series P Bonds, due in 2034 with an interest rate of 7.7197% per annum. Interest is payable every 3rd of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used for the partial payment of Series I Bonds, for additional investment in the MIA Project and other airport-related projects in Bulacan and the repayment of Series F Bonds on March 19, 2025.

Unamortized debt issue costs amounted to P223 and P252 as at December 31, 2025 and 2024, respectively.

d. The amount represents the first tranche of the P50,000 Shelf Registered Fixed Rate Bonds issued by the Parent Company amounting to P30,000. The Bonds were listed on the PDEx.

The first tranche of the fixed rate bonds listed on July 8, 2021, comprises six-year Series I Bonds, due in 2027 with an interest rate of 3.3832% per annum and with a put option on the part of the bondholder on the third anniversary of its issue date. Interest is payable every 8th of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used to repay existing obligations.

The Parent Company partially paid P11,240 of the Series I Bonds on July 8, 2024, as a result of the Put Option Exercise by the exercising Series I Bondholders. The remaining balance of the Series I Fixed Rate Peso-denominated Bonds was repriced at 7.465% per annum from 3.3832% per annum effective July 8, 2024, until maturity on July 8, 2027.

Unamortized debt issue costs amounted to P67 and P108 as at December 31, 2025 and 2024, respectively.

e. The amount represents the first, third and fourth tranche of the P60,000 Shelf Registered Fixed Rate Bonds issued by the Parent Company amounting to P20,000, P20,000 and P10,000, respectively. The Bonds were listed on the PDEx.

- The first tranche of the fixed rate bonds listed on March 1, 2017 amounting to P20,000 consists of: (i) five-year Series A Bonds, due in 2022 with an interest rate of 4.8243% per annum; (ii) seven-year Series B Bonds, due in 2024 with an interest rate of 5.284% per annum; and (iii) ten-year Series C Bonds, due in 2027 with an interest rate of 5.7613% per annum. Interest is payable every 1st of March, June, September and December of each year.

- The third tranche of the fixed rate bonds listed on March 19, 2018 amounting to P20,000 consists of: (i) five-year Series E Bonds, due in 2023 with an interest rate of 6.25% per annum; (ii) seven-year Series F Bonds, due in 2025 with an interest rate of 6.625% per annum; and (iii) ten-year Series G Bonds, due in 2028 with an interest rate of 7.125% per annum. Interest is payable every 19th of March, June, September and December of each year.

- The fourth tranche of the fixed rate bonds listed on October 4, 2019 amounting to P10,000 comprises five-year Series H Bonds, due in 2024 with an interest rate of 5.55% per annum. Interest is payable every 4th of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used to partially refinance various loans.

The Parent Company paid the P7,294 Series B Bonds, P10,000 Series H Bonds and P2,438 Series F Bonds on March 1, 2024, October 4, 2024 and March 19, 2025, respectively.

Unamortized debt issue costs amounted to P26 and P42 as at December 31, 2025 and 2024, respectively.

f. The amount represents the drawdown by the Parent Company on June 24, 2019 from its term loan facility dated June 20, 2019 amounting to P16,000. The loan is amortized over seven years and is subject to a fixed interest rate of 6.9375% per annum payable quarterly. The proceeds of the loan were used for general corporate purposes.

The Parent Company paid the scheduled amortizations amounting to P1,040 and P880 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P10 and P31 as at December 31, 2025 and 2024, respectively.

g. The amount represents the P5,700 Fixed-Rate Corporate Notes due in 2028 issued by the Parent Company on December 23, 2025. The Fixed-Rate Notes were listed on the same day with the PDEx, with an interest rate of 6.3% per annum payable every 23rd of March, June, September and December of each year. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P54 as at December 31, 2025.

h. The amount represents the drawdown by the Parent Company on June 30, 2023 from its term loan facility dated June 26, 2023 amounting to P5,200. The loan is amortized over six years and is subject to a fixed interest rate of 7.4998% per annum payable semi-annually and with a put option on the part of the lender on the third anniversary of the first drawdown date. The proceeds of the loan were used for the refinancing of Corona Virus Disease 2019 response activities during the period 2020 to 2022.

The Parent Company paid the scheduled amortization amounting to P104 and P52 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P36 and P44 as at December 31, 2025 and 2024, respectively.

i. The amount represents the drawdown by the Parent Company on July 31, 2023 from its term loan facility dated July 21, 2019 amounting to US$150. The term of the loan is for five years and is subject to a fixed interest rate of 6.55% per annum, payable quarterly. The proceeds of the loan were used for general corporate purposes including the refinancing of external indebtedness, as well as related fees and expenses and payment of other transaction-related fees, costs and expenses of the facility.

   Unamortized debt issue costs amounted to P34 and P47 as at December 31, 2025 and 2024, respectively.

j. The amount represents the drawdown by the Parent Company on May 17, 2024 from its term loan facility dated May 13, 2024 amounting to US$150. The term of the loan is for five years and is subject to a fixed interest rate of 6.68% per annum, payable quarterly. The proceeds of the loan were used for general corporate purposes.

   Unamortized debt issue costs amounted to P47 and P58 as at December 31, 2025 and 2024, respectively.

k. The amount represents the drawdown by the Parent Company on September 27, 2024 from its term loan facility dated February 8, 2024 amounting to US$2,000. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used to refinance the matured loans drawn by the Parent Company amounting to US$50 and US$1,950 on December 27, 2019 and March 19, 2020, respectively.

   Unamortized debt issue costs amounted to P2,119 and P2,717 as at December 31, 2025 and 2024, respectively.

l. The amount represents the drawdown by the Parent Company of US$1,984 on various dates in 2025, 2024, 2023 and 2022 from its US$2,165 term loan facility dated March 31, 2022. The term of the loan is for 13 years and is subject to a floating interest rate. The proceeds of the loan were used to fund the land development works of the MIA Project in Bulacan.

   The Parent Company paid the scheduled amortization amounting to US$102 as at December 31, 2025.

   Unamortized debt issue costs amounted to P1,407 and P1,535 as at December 31, 2025 and 2024, respectively.

m. The amount represents the drawdown by the Parent Company of US$1,330 on various dates in 2023 from its term loan facility dated May 21, 2023. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes including the refinancing of external indebtedness, as well as related fees and expenses and payment of other transaction-related fees, costs and expenses of the facility.

   Unamortized debt issue costs amounted to P986 and P1,381 as at December 31, 2025 and 2024, respectively.

n. The amount represents the drawdown by the Parent Company on various dates in 2022 and 2021 from its term loan facility dated October 21, 2021 amounting to US$900. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

   Unamortized debt issue costs amounted to P226 and P497 as at December 31, 2025 and 2024, respectively.

o. The amount represents the drawdown by the Parent Company on various dates in 2022 from its term loan facility dated March 28, 2022 amounting to US$700. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

   Unamortized debt issue costs amounted to P274 and P475 as at December 31, 2025 and 2024, respectively.

p. The amount represents the drawdown by the Parent Company on May 8, 2025 of Facility A and Facility B from its term loan facilities dated March 13, 2025 in the aggregate amount of JPY61,600. The term of Facility A is three years, with an option to extend for an additional two years, while the term of Facility B is five years. Both facilities are subject to floating interest rates. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P470 as at December 31, 2025.

q. The amount represents the drawdown by the Parent Company on September 20, 2023 from its term loan facility dated September 12, 2023 amounting to US$300. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used to refinance a total of US$300 term loans availed in 2018.

Unamortized debt issue costs amounted to P227 and P300 as at December 31, 2025 and 2024, respectively.

r. The amount represents the drawdown by the Parent Company on December 3, 2025 from its term loan facility dated August 22, 2025 amounting to US$300. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P252 as at December 31, 2025.

s. The amount represents the drawdown by the Parent Company on November 15 and 24, 2023 of US$200 and US$100, respectively, from its term loan facility dated November 6, 2023 amounting to US$300. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes including the refinancing of external indebtedness, as well as related fees and expenses and payment of other transaction-related fees, costs and expenses of the facility.

Unamortized debt issue costs amounted to P282 and P367 as at December 31, 2025 and 2024, respectively.

t. The amount represents the drawdown of Facility A by the Parent Company totaling US$300 on July 1, August 5 and October 15, 2025, from its term loan facilities dated February 26, 2025 in the aggregate amount of US$600. The term of the Tranche A Facility is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P763 as at December 31, 2025.

u. The amount represents the drawdown by the Parent Company on July 10, 2023 from its term loan facility dated June 27, 2023 amounting to US$200. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes including the refinancing of external indebtedness, as well as related fees and expenses and payment of other transaction-related fees, costs and expenses of the facility.

Unamortized debt issue costs amounted to P156 and P200 as at December 31, 2025 and 2024, respectively.

v. The amount represents the drawdown by the Parent Company on December 23, 2021 from its term loan facility dated December 13, 2021 amounting to US$100. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P16 and P33 as at December 31, 2025 and 2024, respectively.

w. The amount represents the drawdown by the Parent Company on August 2, 2022 from its term loan facility dated May 27, 2022 amounting to US$100. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P22 and P36 as at December 31, 2025 and 2024, respectively.

x. The amount represents the drawdown by the Parent Company on August 2, 2024 from its term loan facility dated July 26, 2024 amounting to US$50. The term of the loan is for five years and is subject to a floating interest rate. The proceeds of the loan were used for general corporate purposes.

Unamortized debt issue costs amounted to P23 and P28 as at December 31, 2025 and 2024, respectively.

y. The amount represents the first tranche of the P60,000 Shelf Registered Fixed Rate Bonds issued by San Miguel Global Power amounting to P40,000 on July 26, 2022. The Bonds were listed on the PDEx.

The Bonds consists of: (i) three-year Series K Bonds due in 2025 with an interest rate of 5.9077% per annum; (ii) five-year and nine months Series L Bonds due in 2028 with an interest rate of 7.1051% per annum; and (iii) ten-year Series M Bonds due in 2032 with an interest rate of 8.0288% per annum. Interest is payable every 26th of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used: (i) to partially finance San Miguel Global Power's investments in power-related assets, particularly the LNG projects and related assets, coal power plant projects, Battery Energy Storage Systems (BESS) and solar power plant projects; (ii) for general corporate purposes; and (iii) for payment of transaction-related fees, costs and expenses.

San Miguel Global Power paid the P5,000 Series K Bonds on July 28, 2025.

Unamortized debt issue costs amounted to P263 and P350 as at December 31, 2025 and 2024, respectively.

z. The amount represents the P35,000 fixed rate bonds issued by SMC Tollways on December 5, 2024, divided into: (i) five-year and three months Series A Bonds, due in 2030 with an interest rate of 6.4783% per annum; (ii) seven-year Series B Bonds, due in 2031 with an interest rate of 6.7026% per annum; and (iii) ten-year Series C Bonds, due 2034 with an interest rate of 6.9331% per annum. Interest is payable every 5th of March, June, September and December of each year. The Bonds were listed on the PDEx.

The proceeds of the issuance of the bonds were used for the prepayment of existing indebtedness and to fund capital expenditure requirements of the Skyway Project and the SMC Skyway Stage 3 Project.

Unamortized debt issue costs amounted to P421 and P471 as at December 31, 2025 and 2024, respectively.

aa. The amount represents the P32,000 Fixed Rate Peso-denominated Bonds issued by Petron on July 7, 2025, divided into: (i) Series G Bonds due in 2030 with an interest rate of 6.5945% per annum; (ii) Series H Bonds due in 2032 with an interest rate of 6.9761% per annum; and (iii) Series I Bonds due in 2035 with an interest rate of 7.3896% per annum. Interest is payable every 7th of January, April, July, and October of each year.

The proceeds of the issuance of the bonds were used for the payment of Series D and Series E Fixed Rate Peso-denominated Bonds, repayment of other existing indebtedness and for general corporate purposes. The Bonds were listed on the PDEx.

Unamortized debt issue costs amounted to P397 as at December 31, 2025.

ab. The amount represents the first tranche of the P50,000 Shelf Registered Fixed Rate Bonds issued by Petron on October 12, 2021 amounting to P18,000. The Bonds were listed on the PDEx.

The first tranche of the fixed rate bonds amounting to P18,000, consist of four-year Series E Bonds, due in 2025 with an interest rate of 3.4408% per annum and six-year Series F Bonds, due in 2027 with an interest rate of 4.3368% per annum. Interest is payable every 12th of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used primarily for the redemption of its outstanding Series A Bonds, partial financing of the power plant project and payment of existing indebtedness.

Petron paid the P9,000 Series E Bonds on October 12, 2025.

Unamortized debt issue costs amounted to P38 and P83 as at December 31, 2025 and 2024, respectively.

ac. The amount represents the P15,000 fixed rate bonds issued by SMFB on March 10, 2020, divided into five-year Series A Bonds, due in 2025 with an interest rate of 5.05% per annum, and seven-year Series B Bonds, due in 2027 with an interest rate of 5.25% per annum. Interest is payable every 10th of March, June, September and December of each year. The Bonds were listed on the PDEx.

The proceeds of the issuance of the bonds were used to redeem the outstanding Series "2" Perpetual Preferred Shares of SMFB and payment of transaction-related fees, costs and expenses.

SMFB paid the P8,000 Series A Bonds on March 10, 2025.

Unamortized debt issue costs amounted to P18 and P37 as at December 31, 2025 and 2024, respectively.

ad. The amount represents the balance of the first tranche of the P60,000 Shelf Registered Fixed Rate Bonds issued by San Miguel Global Power on April 24, 2019 amounting to P16,155. The Bonds were listed on the PDEx.

The Bonds consist of: (i) five-year Series I Bonds, due in 2024 with an interest rate of 7.1783% per annum; and (ii) seven-year Series J Bonds, due in 2026 with an interest rate of 7.60% per annum. Interest is payable every 24th of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used for refinancing of maturing long-term and short-term loans, investments in power-related assets and payment of transaction-related expenses.

San Miguel Global Power paid the P9,232 Series I Bonds on April 24, 2024.

Unamortized debt issue costs amounted to P5 and P21 as at December 31, 2025 and 2024, respectively.

ae. The amount represents the balance of the P15,000 fixed rate bonds issued by San Miguel Global Power on July 11, 2016, comprises ten-year Series C Bonds amounting to P4,756, due in 2026 with an interest rate of 5.1792% per annum. Interest is payable every 11th of January, April, July and October of each year. The Bonds were listed on the PDEx.

The proceeds of the issuance of the bonds were used to refinance the US$300 short-term loan that matured on July 25, 2016, which were used for the redemption of the US$300 bond in January 2016.

Unamortized debt issue costs amounted to P4 and P10 as at December 31, 2025 and 2024, respectively.

af. The amount represents the balance of the first tranche of the P35,000 Shelf Registered Fixed Rate Bonds issued by San Miguel Global Power on December 22, 2017 amounting to P10,087. The Bonds were listed on the PDEx.

The Bonds consist of: (i) seven-year Series E Bonds, due in 2024 with an interest rate of 6.25% per annum; and (ii) ten-year Series F Bonds, due in 2027 with an interest rate of 6.625% per annum. Interest is payable every 22nd of March, June, September and December of each year.

The proceeds of the issuance of the bonds were used to refinance Peso-denominated short-term loans.

San Miguel Global Power paid the P6,478 Series E Bonds on December 23, 2024.

Unamortized debt issue costs amounted to P10 and P15 as at December 31, 2025 and 2024, respectively.

ag. The amount represents the second tranche of the P40,000 Shelf Registered Fixed Rate Bonds issued by Petron amounting to P20,000 on October 19, 2018. The Bonds were listed on the PDEx.

The second tranche of the fixed rate bonds listed on October 19, 2018 amounting to P20,000, consists of: (i) five-year and six months Series C Bonds, due in 2024 with an interest rate of 7.8183% per annum; and (ii) seven-year Series D Bonds, due in 2025 with an interest rate of 8.0551% per annum. Interest is payable every 19th of January, April, July and October of each year.

The proceeds of the issuance of the bonds were used for the payment of short-term loans, redemption of a portion of Petron's Undated Subordinated Capital Securities and for general corporate purposes.

Petron paid the P13,200 Series C Bonds and P6,800 Series D Bonds on April 19, 2024 and October 19, 2025, respectively.

Unamortized debt issue costs amounted to P12 as at December 31, 2024.

ah. The amount represents the balance of the P7,300 fixed rate bonds issued by SMC SLEX on May 22, 2015, comprises ten-year Series C Bonds amounting to P2,500, due in 2025 with an interest rate of 6.4872% per annum. Interest is payable every 22nd of February, May, August and November of each year. The Bonds were listed on the PDEx.

The proceeds of the issuance of bonds were used to prepay the Peso-denominated Corporate Notes drawn in 2012.

SMC SLEX paid the bonds on May 22, 2025.

Unamortized debt issue costs amounted P2 as at December 31, 2024.

ai. The amount represents the drawdown by MPGC from its Omnibus Loan and Security Agreement (OLSA) with various banks dated December 17, 2024 amounting to P32,500 and P9,400 on December 27, 2024 and March 27, 2025, respectively. The loan is subject to a fixed interest rate of 7.5758% and 8.0808% per annum and payable quarterly up to December 2034. The proceeds of the loan were used to finance the Mariveles Greenfield Power Plant project.

The drawdown includes payable to BankCom amounting to P7,500 as at December 31, 2025 and 2024 (Note 35).

Unamortized debt issue costs amounted to P566 and P646 as at December 31, 2025 and 2024, respectively.

aj. The amount represents the drawdown by SMGP BESS from its P40,000 OLSA with various banks dated October 23, 2023 amounting to P28,000 and P12,000 on October 27, 2023, and March 25, 2024, respectively. The loan is subject to fixed interest rates of 8.2104% and 7.7497% per annum and payable quarterly up to October 2033. The proceeds of the loan were used for the purchase of outstanding perpetual securities issued to the Parent Company and repayment of reimbursable advances from San Miguel Global Power, both of which were used to finance payments for interest, design, construction and the operation of its BESS projects, and cover transaction-related costs, fees and expenses.

Payments made amounted to P3,000 and P1,000 as at December 31, 2025 and 2024, respectively.

The drawdown includes payable to BankCom amounting to P5,365 and P5,655 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P428 and P497 as at December 31, 2025 and 2024, respectively.

ak. The amount represents the drawdown by SMEII on July 14, 2023 from its term loan facility dated July 12, 2023 amounting to P30,000. The loan is amortized over ten years up to May 2033 and is subject to a fixed interest rate of 7.1913% per annum. The proceeds of the loan were used for refinancing of existing short-term loan and/or other general corporate purposes.

Payments made amounted to P3,600 and P1,200 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P142 and P175 as at December 31, 2025 and 2024, respectively.

al. The amount represents the drawdown by LPI from its P44,000 OLSA with various banks dated June 22, 2017. The loan consists of Tranche A amounting to P42,000 and Tranche B amounting to P2,000 drawn on June 28, 2017 and January 31, 2018, respectively. The loan is payable quarterly up to June 2029.

The proceeds of the loan were used for the settlement of the US$360 short-term loan, acquisition of the Phase II Limay Greenfield Power Plant, repayment of shareholder advances and payment of transaction-related fees and expenses.

Payments made amounted to P17,721 and P14,338 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P182 and P247 as at December 31, 2025 and 2024, respectively.

am. The amount represents the drawdown by SMC SLEX amounting to P2,500 and P10,000 on May 19, 2025 and December 12, 2024, respectively, from its term loan facility dated December 9, 2024 amounting to P12,500. The loan is subject to a fixed interest rate of 7.3232% per annum and will mature on June 11, 2032. The proceeds of the loan were used to pay Series C Fixed Rate Bonds on May 22, 2025 and to refinance existing debt obligations.

Payments made amounted to P62 as at December 31, 2025.

The drawdown includes payable to BankCom amounting to P622 and P500 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P104 and P127 as at December 31, 2025 and 2024, respectively.

an. The amount represents the loan drawn by MMSS3 from its P31,000 OLSA with various banks dated December 15, 2014.

The proceeds of the loan were used to partially finance the design, construction and operation and maintenance of the Skyway Stage 3 Project. The loan is payable in 35 unequal consecutive quarterly installments starting on the earlier of March 30, 2020 or one quarter after issuance of toll operation certificate by TRB. Final repayment date is 12 years after initial drawdown date.

Payments made amounted to P18,758 and P13,203 as at December 31, 2025 and 2024, respectively.

The drawdown includes payable to BankCom amounting to P1,461 and P2,124 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P31 and P66 as at December 31, 2025 and 2024, respectively.

ao. The amount represents the loan drawn by MPI from its P21,300 12-year OLSA with various banks dated August 9, 2018.

The proceeds of the loan were used by MPI for the repayment of the short-term loan used to fund the design, construction and operation of the Davao Greenfield Power Plant and payment of transaction-related fees and expenses. On August 17, 2025, the applicable fixed interest rate on the outstanding balance of the loan facility was repriced from 8.2443% to 8.5915% per annum, pursuant to the terms of the OLSA.

Payments made amounted to P9,075 and P7,778 as at December 31, 2025 and 2024, respectively.

The drawdown includes payable to BankCom amounting to P1,837 and P2,031 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P67 and P112 as at December 31, 2025 and 2024, respectively.

ap. The amount represents the loans drawn by SMB on March 30, 2021 from its loan facilities amounting to P12,000 with various banks. The loans are subject to fixed interest rates, where P10,000 and P2,000 will mature on March 30, 2026 and March 30, 2028, respectively. The proceeds of the loans were used for the payment of Series G Bonds.

Payments made amounted to P100 and P79 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P9 and P27 as at December 31, 2025 and 2024, respectively.

aq. The amount represents the P10,200 Fixed Rate Notes issued by San Miguel Global Power on August 11, 2025. The notes were divided into: (i) P1,625 with an interest rate of 6.75% per annum due in 2028; (ii) P3,438 with an interest rate of 6.875% per annum due in 2030; (iii) P433 with an interest rate of 7.00% per annum due in 2032; and (iv) P4,704 with an interest rate of 7.125% per annum due in 2035. The notes were enrolled with the PDEx.

The proceeds of the notes were used to refinance existing obligations and for general corporate purposes.

Unamortized debt issue costs amounted to P99 as at December 31, 2025.

ar. The amount represents the loan drawn by SMB amounting to P5,000 and P5,000 on December 20, 2022 and February 21, 2023 from its P10,000 term loan facility executed with a local bank on December 19, 2022. The loan is subject to a fixed, repriced interest rate of 6.9253% per annum. The loan is payable in five years and four years and ten months and will mature in December 2027.

The proceeds of the loan were used to partially finance capital expenditures.

Unamortized debt issue costs amounted to P34 and P49 as at December 31, 2025 and 2024, respectively.

as. The amount represents the loans drawn by SMB amounting to P5,000, P2,000 and P3,000 from its P10,000 unsecured term loan facility executed with various local banks on December 10, 2024. The P5,000 loan is subject to a fixed interest rate of 6.5719% per annum while the P2,000 and P3,000 loans are subject to a fixed interest rate of 6.5719% per annum for one year, subject to repricing on the first and third anniversary from the initial drawdown date. Following the first anniversary of the drawdown, the interest rate of P5,000 was repriced to 5.7971%, while the P2,000 and P3,000 loans were repriced to 5.8003% per annum. The P5,000 and P2,000 are payable in five years and will mature in December 2029, while the P3,000 is payable in seven years and will mature in December 2031.

The proceeds of the loan were used to refinance existing debt obligations.

Unamortized debt issue costs amounted to P63 and P75 as at December 31, 2025 and 2024, respectively.

at. The amount represents the loan drawn by NCC on various dates in 2023, 2022 and 2021 from the P12,500 OLSA with various banks dated June 22, 2021.

The loan is subject to a fixed interest rate of 4.8356% per annum and is payable in 34 unequal quarterly installments commencing on the seventh quarter from initial advance. Final repayment date is ten years from initial advance.

The proceeds of the loan were used to partially finance the development, design, construction, completion and operation of the cement plant in Sison, Pangasinan, repay the reimbursable sponsor advances and finance the transaction costs, other taxes, costs and operation expenses and other financing costs incurred in availing the loan.

Payments made amounted to P2,525 and P1,125 as at December 31, 2025 and 2024, respectively.

The drawdown includes payable to BankCom amounting to P1,756 and P2,002 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P100 and P129 as at December 31, 2025 and 2024, respectively.

au. The amount represents the drawdown by SSHCI on December 12, 2024 from its term loan facility dated December 9, 2024 amounting to P10,000. The loan is subject to a fixed interest rate of 7.5758% per annum and will mature on June 11, 2032. The proceeds of the loan were used to partially finance its existing debt obligations under the original loan facility.

Payments made amounted to P50 as at December 31, 2025.

The drawdown includes payable to BankCom amounting to P498 and P500 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P81 and P117 as at December 31, 2025 and 2024, respectively.

av. The amount represents the loan drawn by SMFI amounting to P8,000 and P10,000 in 2020 and 2019, respectively, from its term loan facility dated December 9, 2019 amounting to P18,000. The loan is amortized for ten years and is subject to a floating interest rate based on BVAL plus margin or BSP TDF overnight rate plus margin, whichever is higher with a one-time option to convert to a fixed interest rate. The proceeds of the loan were used to refinance its existing short-term obligations, fund capital expansion projects and for other general corporate purposes.

On December 14, 2020, SMFI exercised its one-time option to convert its P10,000 loan to a fixed interest rate of 3.5483% per annum.

Payments made for the fixed interest loan amounted to P447 and P298 as at December 31, 2025 and 2024, respectively.

Payments made for the floating interest loan amounted to P358 and P238 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs for the fixed interest loan amounted to P32 and P40 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs for the floating interest loan amounted to P26 and P33 as at December 31, 2025 and 2024, respectively.

aw. The amount represents the drawdown by San Miguel Global Power on July 19, 2024 amounting to P9,750 from its P10,000 term loan facility dated July 14, 2024. The loan is subject to a fixed interest rate of 7.9276% per annum and will mature in June 2029. The proceeds of the loan were used to refinance an existing loan.

Payments made amounted to P500 as at December 31, 2025.

Unamortized debt issue costs amounted to P45 and P66 as at December 31, 2025 and 2024, respectively.

ax. The amount represents the drawdown by San Miguel Global Power from its P10,000 term loan facility on June 15 and August 8, 2023 amounting to P5,000 and P2,500, respectively. The loan is subject to fixed interest rates of 7.968% and 8.541% per annum and will mature in June 2028. The proceeds of the loan were used to: (a) partially refinance maturing debt obligations; (b) fund general corporate purposes, including investments in LNG and BESS; and (c) cover transaction-related costs, fees and expenses.

Unamortized debt issue costs amounted to P36 and P49 as at December 31, 2025 and 2024, respectively.

ay. The amount represents the drawdown by PF-Hormel on September 29, 2021 from its loan facilities with various banks dated September 23, 2021 amounting to P7,000. The loan will mature on September 29, 2026 and is subject to a fixed interest rate of 3.846% per annum. The proceeds of the loan were used for refinancing of existing indebtedness and general corporate purposes.

Unamortized debt issue costs amounted to P8 and P19 as at December 31, 2025 and 2024, respectively.

az. The amount represents the drawdown by Petron on March 6, 2024 from its term loan facility dated January 16, 2024 amounting to P7,000. The loan is amortized over five years with two years grace period, after which the total principal will be amortized in seven equal semi-annual installments beginning March 6, 2026. The loan is subject to interest payable in semi-annual amortizations with fixed interest rate of 7.4941% per annum for the first two years and will thereafter be repriced to a new fixed rate until maturity on March 6, 2029. The proceeds of the loan were used to partially redeem Series C Offer Bonds on April 19, 2024.

Unamortized debt issue costs amounted to P27 and P41 as at December 31, 2025 and 2024, respectively.

ba. The amount represents the drawdown by SMCTC on December 19, 2019 amounting to P12,000 from its P42,000 Second Amendment to the OLSA with various local banks dated December 16, 2019.

The proceeds of the loan were used for consolidation of project loans, re-leveraging the project, repayment of certain shareholder advance and partial financing of operation and maintenance of the project. The loan is payable in 39 quarterly installments commencing on the third month from initial drawdown. Final repayment date shall be ten years after receipt.

The loan is subject to repricing on the fifth year from date of initial drawdown.

Payments made amounted to P5,160 and P3,780 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P31 and P47 as at December 31, 2025 and 2024, respectively.

bb. The amount represents the loan drawn by SMFB on March 7 and August 18, 2025, amounting to P5,000 and P4,200 subject to fixed and floating interest rates respectively, from its term loan facility amounting to P10,000. The loan is amortized for seven years. The proceeds of the loans were used for the payment on March 10, 2025, of the Series A Fixed Rate Peso-denominated Bonds and for general corporate purposes.

Payments made for the floating interest loan amounted to P46 as at December 31, 2025.

Unamortized debt issue costs for the fixed and floating interest loans amounted to P35 and P28, respectively as at December 31, 2025.

bc. The amount represents the drawdown by SMYPC on January 30, 2025 from its term loan facility dated January 17, 2025 amounting to P5,000. The loan is subject to a fixed interest rate of 7.0004% and with a term of five years. The proceeds of the loan were used to partially refinance maturing obligations and fund general corporate requirements.

Payments made amounted to P553 as at December 31, 2025.

Unamortized debt issue costs amounted to P28 as at December 31, 2025.

bd. The amount represents the drawdown by Petron on May 19, 2022 from its term loan facility dated May 16, 2022 amounting to P5,000. The facility is subject to a fixed interest rate of 7.1663% per annum and amortized over five years with a two-year grace period, after which the total principal will be amortized in seven semi-annual payments beginning May 19, 2024. The proceeds of the loan were used for partial financing of the power plant project.

Payments made amounted to P1,000 and P500 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P10 and P17 as at December 31, 2025 and 2024, respectively.

be. The amount represents the drawdown by SMB on May 15, 2025 from its term loan facility dated April 29, 2025 amounting to P4,000 with a term of five years subject to a fixed interest rate of 6.1858% per annum. The proceeds of the loan were used to refinance existing debt obligations.

Unamortized debt issue costs amounted to P27 as at December 31, 2025.

bf. The amount represents the loans drawn by SMB from a local bank on April 1, 2022 from its term loan facility dated March 21, 2022 amounting to P4,000 with a term of three years subject to a fixed interest rate of 4.6332% per annum and P3,000 with a term of five years subject to a fixed interest rate of 5.7513% per annum, payable quarterly. The proceeds of the loan were used to pay the Series F Bonds which matured on April 2, 2022.

Payments made amounted to P4,000 as at December 31, 2025.

Unamortized debt issue costs amounted to P6 and P14 as at December 31, 2025 and 2024, respectively.

bg. The amount represents the drawdown by LCWDC in 2018 amounting to P4,200 from its P5,400 OLSA with various local banks dated September 16, 2016. The loan bears a fixed interest rate of 8.7815% per annum, subject to repricing on the seventh year from the initial drawdown date. The proceeds of the loan were used for the Bulacan Bulk Water Supply Project.

Payments made amounted to P1,596 and P1,176 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P7 and P13 as at December 31, 2025 and 2024, respectively.

bh. The amount represents the drawdown by SMCSLC on July 14, 2021 from its term loan facilities with various banks amounting to P2,000. The loan will mature on July 14, 2026, and is subject to a fixed interest rate of 4.20% per annum payable quarterly. The proceeds of the loan were used to refinance existing indebtedness and for general corporate purposes.

Unamortized debt issue costs amounted to P2 and P5 as at December 31, 2025 and 2024, respectively.

bi. The amount represents the drawdown by Petron on June 15, 2022 from its term loan facility dated June 10, 2022 amounting to P5,000. The facility is subject to a fixed interest rate of 7.4206% per annum and amortized over five years with a 15-month grace period, after which the total principal will be amortized in 16 equal quarterly payments beginning September 15, 2023. The proceeds of the loan were used to partially pay its US Dollar-denominated term loan.

Payments made amounted to P3,125 and P1,875 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P4 and P11 as at December 31, 2025 and 2024, respectively.

bj. The amount represents the drawdown by Petron on June 16, 2022 from its term loan facility dated June 7, 2022 amounting to P5,000. The facility is subject to a fixed interest rate of 7.5496% per annum and amortized over five years with a 15-month grace period, after which the total principal will be amortized in 16 equal quarterly payments beginning September 16, 2023. The proceeds of the loan were used to pay its US Dollar-denominated term loan and various loan facilities.

Payments made amounted to P3,125 and P1,875 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P4 and P11 as at December 31, 2025 and 2024, respectively.

bk. The amount represents the P2,000 seven-year term loan availed by SMMI on December 19, 2019 from its term loan facility dated December 11, 2019. The loan is amortized for seven years and is subject to a floating interest rate based on BVAL plus margin with a one-time option to convert to a fixed interest rate within two years. The proceeds of the loan were used to refinance existing short-term loans, fund its capital expenditure requirements for the upgrade or expansion of its production facilities and/or finance other general corporate requirements.

On December 19, 2020, SMMI exercised its option to convert the interest rate from floating to fixed. As a result, the interest rate was fixed at 3.284% per annum.

Payments made amounted to P160 and P107 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P2 and P4 as at December 31, 2025 and 2024, respectively.

bl. The amount represents the drawdown by SIDC on December 23, 2025 amounting to P1,000 from its P10,700 term loan facility with local banks dated December 18, 2025. The loan is amortized over eight years and six months and is subject to fixed interest rates of 6.8182% and 6.7399% per annum. The proceeds of the loan were used to partially finance the STAR Widening Project, refinance existing debt and finance all related transaction fees, costs and expenses.

Unamortized debt issue costs amounted to P5 as at December 31, 2025.

bm. The amount represents the drawdown by BWCI on various dates in 2023 amounting to a total of P130 from its P200 OLSA dated January 20, 2023. The loan is amortized over ten years and is subject to a fixed interest rate payable quarterly. The loan will mature on January 31, 2033.

Unamortized debt issue costs amounted to P1 and P1 as at December 31, 2025 and 2024, respectively.

bn. The amount represents the drawdown by San Miguel Global Power on May 28, 2021 from its term loan facility dated April 19, 2024 amounting to P5,000. The principal repayment is in semi-annual installments up to May 2025 and is subject to a fixed interest rate of 5.00% per annum payable quarterly. The proceeds of the loan were used for general corporate purposes.

Payments made amounted to P175 as at December 31, 2024.

The loan was fully paid on May 28, 2025.

Unamortized debt issue costs amounted to P6 as at December 31, 2024.

bo. The amount represents the drawdown by Petron on September 8, 2022 from its term loan facility dated September 5, 2022 amounting to P2,375. The loan is subject to a fixed interest rate of 6.492% per annum and matured on September 8, 2025. The proceeds of the loan were used to pay existing indebtedness.

The loan was fully paid on September 8, 2025.

Unamortized debt issue costs amounted to P5 as at December 31, 2024.

bp. The amount represents the drawdown by SMYPC on January 30, 2020, from its term loan facility dated January 23, 2020 amounting to P5,000. The loan matured on January 30, 2025 and is subject to a fixed interest rate of 5.1657% per annum payable quarterly. The proceeds of the loan were used to refinance existing short-term loans.

Payments made amounted to P3,500 as at December 31, 2024.

The loan was fully paid on January 30, 2025.

bq. The amount represents the drawdown by Petron on April 27, 2020 from its term loan facility dated April 3, 2020 amounting to P5,000. The loan is amortized over five years and is subject to a fixed interest rate of 4.59% per annum payable quarterly. The proceeds of the loan were used for general corporate purposes.

Payments made amounted to P4,375 as at December 31, 2024.

The loan was fully paid on April 28, 2025.

br. The amount represents the drawdown by Petron on September 30, 2022 from its term loan facility dated September 5, 2022 amounting to P625. The loan is subject to a fixed interest rate of 6.8672% per annum and with a term of three years. The proceeds of the loan were used to pay existing indebtedness.

The loan was fully paid on September 28, 2025.

Unamortized debt issue costs amounted to P1 as at December 31, 2024.

bs. The amount represents the drawdown by SMC MRT 7 on various dates in 2023, 2024 and 2025 amounting to P14,300, P16,400 and P13,700, respectively, from the P100,000 OLSA with various banks dated May 18, 2023. The loan is subject to a floating interest rate and with a term of 15 years. The proceeds of the loan were used to finance the MRT 7 Project.

The drawdown includes payable to BankCom amounting to P2,886 and P1,996 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P617 and P445 as at December 31, 2025 and 2024, respectively.

bt. The amount represents the drawdown by Petron on April 18, 2024 from its unsecured term loan facility dated April 15, 2024 amounting to P5,000. The loan is amortized over five years with two-year and six months grace period, after which the total principal will be amortized in six equal semi-annual installments beginning October 18, 2026. The loan is subject to a floating interest rate payable in semi-annual amortizations. The proceeds of the loan were used to partially redeem Series C Bonds on April 19, 2024.

Unamortized debt issue costs amounted to P22 and P31 as at December 31, 2025 and 2024, respectively.

bu. The amount represents the outstanding balance from the amended Omnibus Refinancing Agreement (ORA) executed by MPCL with local banks on January 17, 2023 (the "Amended ORA") amounting to P8,155. The loan is subject to a floating interest rate with maturities up to January 2030. MPCL holds a one-time right to convert the loan into a fixed interest rate borrowing on the second anniversary as allowed under the terms of the agreement.

Payments made amounted to P3,206 and P2,041 as at December 31, 2025 and 2024, respectively.

The drawdown includes payable to BankCom amounting to P2,985 and P3,687 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P41 and P64 as at December 31, 2025 and 2024, respectively.

bv. The amount represents the drawdown by Petron on February 28, 2025 from its term loan facility dated February 26, 2025 amounting to P5,000. The loan is amortized over five years with ten equal semiannual installments beginning August 28, 2025. The loan is subject to a floating interest rate, payable quarterly. The proceeds of the loan were used to refinance the bridge loan availed in 2024.

Payments made amounted to P500 as at December 31, 2025.

Unamortized debt issue costs amounted to P27 as at December 31, 2025.

bw. The amount represents the drawdowns made by SMC NAIAX on various dates from 2022 to 2024 totaling P5,072, and in 2025 amounting to P584, from the P5,656 OLSA with various banks dated December 21, 2022. Proceeds of the loan were used mainly to refinance the remaining balance of the old loan facility, finance its investments, expansion, and capital expenditure programs in the Projects; and cover transaction costs, fees and expenses in connection with or arising from the making of the term loan facility. The loan is payable in 30 equal quarterly installments commencing on the third month from initial drawdown date. Final repayment date is seven years and six months from the signing date of the OLSA.

The loan is subject to annual repricing from the date of initial drawdown.

Payments made amounted to P1,503 and P834 as at December 31, 2025 and 2024, respectively.

The drawdown includes payable to BankCom amounting to P1,246 and P1,272 as at December 31, 2025 and 2024, respectively (Note 35).

Unamortized debt issue costs amounted to P33 and P39 as at December 31, 2025 and 2024, respectively.

bx. The amount represents total outstanding loan drawn in various tranches by MPCL from its Omnibus Expansion Financing Agreement with various local banks dated December 1, 2015, to finance the construction of the additional 335 MW Coal-fired plant within MPCL existing facilities. The loan is divided into fixed interest tranche amounting to US$395 as at December 31, 2025 and 2024 and floating interest tranche based on six-month SOFR plus margin amounting to US$130 as at December 31, 2025 and 2024. The loan has maturities up to December 15, 2030. On December 16, 2023, the applicable fixed interest rate on the outstanding balance of the loan facility was repriced from 5.5959% to 8.331%, pursuant to the terms of the agreement.

Payments made for the fixed interest tranche amounted to US$133 and US$107 as at December 31, 2025 and 2024, respectively, while the payments made for the floating interest tranche amounted to US$44 and US$35 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs for the fixed interest tranche amounted to P109 and P140 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs for the floating interest tranche amounted to P36 and P46 as at December 31, 2025 and 2024, respectively.

by. The amount represents the drawdown by Petron on August 29, 2025 from its term loan facility dated August 14, 2025 amounting to US$200. The loan is payable semi-annually over five years starting on August 29, 2027 and is subject to a fixed interest rate at 5.74% per annum. The proceeds of the loan were partially used to repay outstanding indebtedness and fund general corporate purposes.

Unamortized debt issue costs amounted to P79 as at December 31, 2025.

bz. The amount represents the drawdown by Petron on various dates in 2024 from its term loan facility dated July 11, 2024 amounting to a total of US$500. The loan is amortized over five years with two-year grace period, after which the total principal will be amortized in seven equal semi-annual installments beginning July 11, 2026. The facility is subject to a floating interest rate based on SOFR plus a spread, repriced every one, three or six months. The proceeds of the loan were used to partially repay outstanding debt obligations and settle liabilities for crude oil importations.

Unamortized debt issue costs amounted to P400 and P575 as at December 31, 2025 and 2024, respectively.

ca. The amount represents the balance of the US$300 five-year term loan availed in tranches by San Miguel Global Power on March 12 and June 7, 2021. These were drawn from a Syndication Agreement executed on May 21, 2021 which amended the Facility Agreement dated March 9, 2021, increasing the loan facility from US$200 to US$300. The loan is subject to a floating interest rate based on SOFR plus margin and will mature in March 2026. The proceeds of the loan were used as repayment of Facility A Loan that matured on March 12, 2021, and the payment of Series A Bonds in July 2021.

Unamortized debt issue costs amounted to P17 and P105 as at December 31, 2025 and 2024, respectively.

cb. The amount represents the drawdown of San Miguel Global Power on August 26, 2022, from its term loan facility dated August 18, 2022 amounting to US$300. The term of the loan is for five years and is subject to a floating interest rate based on SOFR plus margin and will mature in August 2027. The proceeds of the loan were used for general corporate purposes, including capital expenditures and refinancing of loans, and payment of other transaction-related fees, costs and expenses of the facility.

Unamortized debt issue costs amounted to P171 and P269 as at December 31, 2025 and 2024, respectively.

cc. The amount represents the drawdown of San Miguel Global Power on September 9, 2024 from its three-year term loan facility dated August 30, 2024 amounting to US$200, with option to increase up to US$300 executed on August 30, 2024 with a foreign bank. On October 9, 2024, San Miguel Global Power exercised its option and availed of the additional US$100 from the facility agreement. The loan is subject to a floating interest rate based on SOFR plus margin and will mature on August 30, 2027. The proceeds of the loan were used to refinance existing loan obligations.

Unamortized debt issue costs amounted to P260 and P400 as at December 31, 2025 and 2024, respectively.

cd. The amount represents the drawdowns by Petron in November and December 2022 amounting to US$267 and US$228 loans, respectively, from its US$550 term loan facility dated November 8, 2022. The loan is amortized over five years with a two-year grace period, after which the total principal will be amortized in seven equal semi-annual installments beginning November 8, 2024. The facility is subject to a floating interest rate based on SOFR plus a spread, repriced every one, three or six months. The proceeds of the loan were used to partially prepay the US$800 term loan facility availed in 2019 and the US$150 term loan availed in 2020.

In 2023, Petron drew an additional US$55 to partially prepay JPY15,000 and US$800 term loan facilities.

On February 17, 2023, Petron increased its term loan facility from $550 to US$669 and availed US$88 from the additional US$119 loan facility in May 2023 to fully pre-terminate the US$800 term loan facility. In August 2023, the remaining US$31 was drawn to pay Petron's P7,000 Series B Bonds on October 27, 2023.

Payments made amounted to US$435 and US$192 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P192 and P474 as at December 31, 2025 and 2024, respectively.

ce. The amount represents the drawdown of San Miguel Global Power amounting to US$100 on May 19, 2025. This was drawn from a US$100 credit facility, with option to increase up to US$150, executed on May 13, 2025 with a group of foreign banks. The loan is subject to a floating interest rate based on SOFR plus margin and will mature in May 2028. The loan proceeds were used to refinance the US$100 term loan that matured in May 2025.

On July 3, 2025, San Miguel Global Power availed of an additional US$50 from the aforesaid credit facility. The proceeds from the additional loan were used for general corporate purposes and transaction-related fees, costs, and expenses in relation to the facility.

Unamortized debt issue costs amounted to P142 as at December 31, 2025.

cf. The amount represents the drawdown of San Miguel Global Power amounting to US$100 on May 19, 2025 from its term loan facility dated May 9, 2025. The loan is subject to a floating interest rate based on SOFR plus margin and will mature in May 2030. The proceeds of the loan were used for general corporate purposes, including advances for capital expenditures, and payment of transaction-related fees, costs, and expenses in relation to the facility.

Unamortized debt issue costs amounted to P91 as at December 31, 2025.

cg. The amount represents the drawdown of Petron on July 13, 2023 from its term loan facility amounting to US$225. The facility was signed on March 28, 2023, which subsequently increased from US$150 to US$225 on June 8, 2023. The facility is amortized over five years with a two-year grace period, after which the total principal will be amortized in seven equal semi-annual installments beginning on March 28, 2025. The facility is subject to a floating interest rate based on SOFR plus a spread, repriced every one, three or six months. The proceeds of the US$225 Facility were used to partially refinance the redemption of US$500 SPCS.

Payments made amounted to US$129 and US$45 as at December 31, 2025 and 2024, respectively.

Unamortized debt issue costs amounted to P127 and P185 as at December 31, 2025 and 2024, respectively.

ch. The amount represents the drawdown by SMYA amounting to AU$45 on July 22, 2024 from its syndicated facility agreement executed with various banks. The loan is subject to a floating interest rate and will mature in July 2027 but has an option to extend until July 2029. The proceeds of the loan were used to refinance existing indebtedness.

Payments made amounted to AU$1 as at December 31, 2025.

Unamortized debt issue costs amounted to P8 and P14 as at December 31, 2025 and 2024, respectively.

ci. The amount represents the drawdown by SMYA on November 11, 2022 amounting to AU$10. The loan is amortized over five years and is subject to interest based on BBSY rate plus margin. The proceeds of the loan were used to finance short-term obligations and general corporate purposes.

Payments made amounted to AU$4 and AU$2 as at December 31, 2025 and 2024, respectively.

cj. The amount represents the loan drawn by SMYA on February 25, 2021 amounting to AU$5. The loan is amortized over five years and is subject to interest based on BBSY rate plus margin. The proceeds of the loan were used to refinance maturing short-term obligations and general corporate purposes.

Payments made amounted to AU$4 and AU$3 as at December 31, 2025 and 2024, respectively.

ck. The amount represents drawdown by San Miguel Global Power on May 24, 2022 from its term loan facility dated May 18, 2022 amounting to US$100. The term of the loan is three years and is subject to a floating interest rate based on SOFR plus margin and matured in May 2025. The proceeds of the loan were used for working capital requirements relating to expansion projects, for general corporate purposes, and payment of other transaction-related fees, costs and expenses of the facility.

The loan was fully paid on May 19, 2025.

Unamortized debt issue costs amounted to P15 as at December 31, 2024.

cl. The amount represents drawdown by San Miguel Global Power on October 31, 2023, from its term loan facility dated October 24, 2023 amounting to US$50. The loan is subject to a floating interest rate based on SOFR plus margin and was set to mature in April 2025. The proceeds of the loan were used for loan refinancing and payment of other transaction-related fees, costs and expenses of the facility.

The loan was fully paid on February 10, 2025.

Unamortized debt issue costs amounted to P12 as at December 31, 2024.

cm. The amount represents the drawdown by Petron on April 22, 2020 from its term loan facility dated March 27, 2020 amounting to JPY15,000 with various banks. The loan is amortized over five years and is subject to a floating interest rate based on JPY LIBOR plus a spread payable every one, three or six months as selected by the borrower. Due to the global discontinuation of JPY LIBOR by December 31, 2021, an amendment was made to the JPY Facility adopting the TONA as the new benchmark rate. Beginning December 29, 2021, the floating interest rate on the JPY15,000 facility is based on TONA plus a spread, repriced every one, three or six months. The proceeds of the loan were used to partially prepay its US$1,000 term loan facility.

Payments made amounted to JPY12,857 as at December 31, 2024.

The loan was fully paid on March 27, 2025.

Unamortized debt issue costs amounted to P2 as at December 31, 2024.

The gross amount of long-term debt payable to BankCom amounted to P26,154 and P27,267 as at December 31, 2025 and 2024, respectively (Note 35).

The debt agreements contain, among others, covenants relating to merger and consolidation, negative pledge, maintenance of certain financial ratios, working capital requirements, restrictions on loans and guarantees, disposal of a substantial portion of assets, significant changes in the ownership or control of subsidiaries, payments of dividends and redemption of capital stock.

The Group is required to comply with the following financial ratios:

Parent Company	Consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) to consolidated total interest expense	Not less than 2.00:1.00
	Consolidated net debt to consolidated total equity	Does not exceed 2.10:1.00
Major subsidiaries:		
Petron	Net leverage	Not to exceed 6.50
	Consolidated gross debt to consolidated net worth	Not to exceed 2.75
San Miguel Global Power	Net debt to equity	Not more than 3.25x
	Interest coverage	Not less than 2.25x
SMFB	Consolidated debt to consolidated equity	Not more than 3.50x
	Consolidated total EBITDA to consolidated interest expense	Not less than 2.00x

The Group is in compliance with the covenants of the debt agreements as at December 31, 2025 and 2024.

Long-term debt includes syndicated project finance loans amounting to P139,096 and P141,287 as at December 31, 2025 and 2024, respectively, which were secured by certain property, plant and equipment and other intangible assets (Notes 14 and 18).

The movements in debt issue costs are as follows:

	Note	**2025**	2024
Balance at beginning of year		**P15,413**	P13,250
Additions		**2,946**	6,310
Amortization	*32*	**(4,069)**	(3,821)
Reclassification, capitalized and others		**(195)**	(326)
Balance at end of year		**P14,095**	P15,413

Repayment Schedule
The annual maturities of long-term debt are as follows:

Year	Gross Amount	Debt Issue Costs	Net
2026	P177,695	P1,409	P176,286
2027	240,864	3,044	237,820
2028	283,087	2,027	281,060
2029	253,894	2,944	250,950
2030 and thereafter	415,851	4,671	411,180
Total	**P1,371,391**	**P14,095**	**P1,357,296**

Contractual terms of the Group's interest-bearing loans and borrowings and exposure to interest rate, foreign currency and liquidity risks are discussed in Note 41.

24. Other Noncurrent Liabilities

Other noncurrent liabilities consist of:

	Note	2025	2024
Retirement liabilities - noncurrent	*37*	**P12,360**	P12,380
ARO	*4*	**2,665**	2,021
Retention payable - noncurrent		**2,529**	4,109
Deferred income		**2,101**	1,809
IRO	*4*	**1,711**	1,211
Derivative liabilities - noncurrent	*4, 41, 42*	**790**	127
Obligation to ROP - service concession agreement	*4, 36*	**688**	713
Customers' deposits	*41, 42*	**464**	418
Cash bonds		**427**	426
Mine rehabilitation obligation (MRO) and decommissioning	*4*	**113**	142
Amounts owed to related parties	*35*	**4**	2
Others		**1,531**	1,400
	41, 42	**P25,383**	P24,758

Deferred income primarily represents downpayments received by the Group in connection with executed agreements for the sale of various lots to third parties.

"Others" include liability to contractors and suppliers.

25. Income Taxes

The components of income tax expense are shown below:

	2025	2024	2023
Current	**P27,781**	P24,386	P21,678
Deferred	**1,714**	3,106	6,730
	P29,495	P27,492	P28,408

The movements of deferred tax assets and liabilities are accounted for as follows:

2025	Balance at January 1	Recognized in Profit or Loss	Recognized in Other Comprehensive Income	Deconsolidation of Subsidiaries and Others	Balance at December 31
Allowance for impairment losses on trade and other receivables and inventory	**P1,842**	**P273**	**P -**	**(P113)**	**P2,002**

	(P9,870)	(P3,106)	P566	(P406)	(P12,816)

The above amounts are reported in the consolidated statements of financial position as follows:

	Note	**2025**	2024
Deferred tax assets	*4*	**P23,196**	P22,045
Deferred tax liabilities		**(29,303)**	(34,861)
		(P6,107)	(P12,816)

As at December 31, 2025, the NOLCO of the Group, which are presented as part of "Deferred tax assets" account in the consolidated statement of financial position, that can be claimed as deduction from future taxable income are as follows:

Year Incurred/Paid	Carryforward Benefits Up To	NOLCO
2023	December 31, 2026	**P4,816**
2024	December 31, 2027	**708**
2025	December 31, 2028	**3,552**
		P9,076

As at December 31, 2025, the MCIT of the Group, which are presented as part of "Deferred tax assets" account in the consolidated statement of financial position, that can be claimed as deduction from corporate income tax due are as follows:

Year Incurred/Paid	Carryforward Benefits Up To	MCIT
2023	December 31, 2026	**P520**
2024	December 31, 2027	**893**
2025	December 31, 2028	**1,020**
		P2,433

As at December 31, 2025 and 2024, deferred tax assets in respect of NOLCO and others amounting to P25,412 and P58,182, respectively, has not been recognized because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

The reconciliation between the statutory income tax rate on income before income tax and the Group's effective income tax rate is as follows:

	2025	2024	2023
Statutory income tax rate	**25.00%**	25.00%	25.00%
Increase (decrease) in income tax rate resulting from:			
Interest income subject to final tax	**(3.25%)**	(5.73%)	(4.80%)
Equity in net earnings of associates and joint ventures	**(2.31%)**	(0.92%)	(0.59%)
Gain on sale of investments subject to final or capital gains tax	**(0.20%)**	(0.85%)	(0.03%)
Others, mainly income subject to different tax rates - net	**4.51%**	25.34%	19.28%
Effective income tax rate	**23.75%**	42.84%	38.86%

**Percentages are computed based on amounts in nearest peso.*

RA No. 11534 or the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act
The CREATE Act, which seeks to reduce the corporate income tax rates and to rationalize the current fiscal incentives by making it time-bound, targeted and performance-based, was passed on March 26, 2021 and took effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation on April 11, 2021.

Key provisions of the CREATE Act which have an impact on the Group are: (i) reduction of Regular Corporate Income Tax (RCIT) rate from 30% to 25% for domestic and resident foreign corporations effective July 1, 2020; (ii) reduction of MCIT rate from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023; and (iii) repeal of the imposition of improperly accumulated earnings tax. The rate of MCIT reverted to 2% based on gross income starting July 1, 2023.

Accordingly, current and deferred taxes as at and for the year ended December 31, 2025 and 2024 were computed and measured using the applicable income tax rates.

RA No. 12066 or the CREATE to Maximize Opportunities for Reinvigorating the Economy (CREATE MORE) Act
The CREATE MORE Act, which seeks to improve the country's fiscal incentives policies by clarifying issues in the implementation of the CREATE Act, took effect on November 28, 2024. Key provisions of the CREATE MORE Act which have an impact on the Group are: (i) reduction of RCIT rate from 25% to 20% and expanded deductions for Registered Business Enterprises (RBEs) under the Enhanced Deductions Regime; and (ii) broadened eligibility and extended period of incentives for RBEs.

International Tax Reform - Pillar Two Model Rules
The Group has adopted the amendments to PAS 12, *Income Taxes*, relating to the International Tax Reform - Pillar Two Model Rules. These amendments provide a mandatory temporary exception from the recognition and disclosure of deferred taxes arising from Pillar Two income taxes. Accordingly, no deferred tax assets or liabilities have been recognized in respect of Pillar Two legislation.

The Group is a member of the broader Top Frontier Group. Pillar Two legislation has been enacted or substantively enacted in certain jurisdictions where the Top Frontier Group operates. As of December 31, 2025, the legislation has been in effect in Australia, Hong Kong, Indonesia, Japan, Malaysia, Mauritius, the Netherlands, New Zealand, Singapore, Thailand and Vietnam while not yet effective in the Philippines, Bermuda, the British Virgin Islands, the Cayman Islands, China and Taiwan.

The Top Frontier Group is within the scope of the enacted or substantively enacted legislation and has performed a Transitional Country-by-Country (CbCR) Safe Harbor (TCSH) assessment to identify jurisdictions that may be excluded from detailed Pillar Two computations. The assessment was based on the most recent tax filings, CbCR reports and financial statements of the relevant entities. All jurisdictions met the TCSH criteria, except for Bermuda, Hong Kong, Singapore, and New Zealand. Full Pillar Two computations are currently being undertaken for these jurisdictions.

In line with the assessment of the Top Frontier Group, a provision for top-up tax has been recognized to the extent that it is reasonably estimable. The computation remains subject to refinement pending the Top Frontier Group's finalization of detailed calculations and any additional guidance or clarifications from relevant tax authorities

26. Equity

a. Amendments to the Articles of Incorporation

On July 23, 2009, during the annual stockholders' meeting of the Parent Company, the stockholders approved the amendments to the Articles of Incorporation for the declassification of the common shares of the Parent Company. The authorized capital stock of the Parent Company amounting to P22,500 was divided into 2,034,000,000 Class "A" common shares, 1,356,000,000 Class "B" common shares with a par value of P5.00 per share and 1,110,000,000 Series "1" Preferred Shares with a par value of P5.00 per share, and defined the terms and features of the Series "1" Preferred Shares. The SEC approved the amendments to the Amended Articles of Incorporation of the Parent Company on August 20, 2009.

During the April 18, 2012 and June 14, 2012 meetings of the BOD and stockholders of the Parent Company, respectively, the BOD and stockholders approved the amendments to the Articles of Incorporation of the Parent Company, to increase the authorized capital stock of the Parent Company from P22,500 to P30,000 as follows: (a) the increase in the number of the common shares from 3,390,000,000 common shares to 3,790,000,000, or an increase of 400,000,000 common shares; and (b) the creation and issuance of 1,100,000,000 Series "2" Preferred Shares with a par value of P5.00 per share.

On September 21, 2012, the SEC approved the amendment to the Articles of Incorporation of the Parent Company to increase the authorized capital stock, and consequently creating the Series "2" Preferred Shares.

On June 9, 2015, during the annual stockholders meeting of the Parent Company, the stockholders approved the amendment to Article VII of the Amended Articles of Incorporation of the Parent Company to reclassify 810,000,000 Series "1" Preferred Shares to Series "2" Preferred Shares, consisting of 691,099,686 Series "1" preferred treasury shares to Series "2" preferred treasury shares and 118,900,314 Series "1" preferred unissued shares to Series "2" preferred unissued shares. With the approved reclassification, the resulting distribution of the preferred shares of the Parent Company was 300,000,000 for Series "1" Preferred Shares and 1,910,000,000 for Series "2" Preferred Shares. The stockholders also approved the issuance of the Series "2" Preferred Shares subject to the passage of Enabling Resolutions containing the details of the terms and conditions of the issuance.

The amendment to Article VII of the Amended Articles of Incorporation of the Parent Company to reclassify 810,000,000 Series "1" Preferred Shares to Series "2" Preferred Shares was approved by the SEC on July 14, 2015.

On June 11, 2024 and August 8, 2024, the BOD and stockholders of the Parent Company, respectively, approved the amendment of the Articles of Incorporation of the Parent Company to reclassify 300,000,000 Series "1" Preferred Shares to Series "2" Preferred Shares. The purpose of the reclassification is to allow the Parent Company to issue additional preferred shares as a new subseries of Series "2" Preferred Shares under the more flexible terms and conditions of the Series "2" Preferred Shares.

The Amended Articles of Incorporation of the Parent Company reflecting the amendments were approved by the SEC on February 25, 2025.

On January 16 and March 27, 2025, the BOD and stockholders of the Parent Company approved and ratified, respectively, the amendments to the Articles of Incorporation of the Parent Company, specifically: (a) the reclassification of the 904,752,537 common shares currently held as treasury shares, into Series "2" Preferred Shares held in treasury; and (b) the amendment of the authorized capital stock of the Parent Company from P30,000 with a par value of P5.00 per share or 6,000,000,000 shares divided into 3,790,000,000 common shares and 2,210,000,000 Series "2" Preferred Shares to 2,885,247,463 common shares and 3,114,752,537 Series "2" Preferred Shares.

The Amended Articles of Incorporation of the Parent Company reflecting the amendments were approved by the SEC on July 7, 2025.

b. Capital Stock

Common Shares
On July 27, 2010, the BOD of the Parent Company approved the offer to issue approximately 1,000,000,000 common shares (from the unissued capital stock and treasury shares) at a price of not less than P75.00 per share.

Effective August 26, 2010, all Class "A" common shares and Class "B" common shares of the Parent Company were declassified and are considered as common shares without distinction, as approved by the SEC. Both are available to foreign investors, subject to the foreign ownership limit.

The Parent Company has a total of 33,048 and 33,162 common shareholders as at December 31, 2025 and 2024, respectively.

The number of issued and outstanding shares of common stock are as follows:

	2025	2024	2023
Issued shares	**2,383,896,588**	3,288,649,125	3,288,649,125
Less treasury shares	**-**	904,752,537	904,752,537
Issued and outstanding shares	**2,383,896,588**	2,383,896,588	2,383,896,588

Preferred Shares

i. Series "1" Preferred Shares

Series "1" Preferred Shares have a par value of P5.00 per share and are entitled to receive cash dividends upon declaration by and at the sole option of the BOD of the Parent Company at a fixed rate of 8% per annum calculated in respect of each Series "1" Preferred Share by reference to the Issue Price thereof in respect of each dividend period.

Series "1" Preferred Shares are non-voting except as provided for under the Corporation Code. The Series "1" Preferred Shares are redeemable in whole or in part, at the sole option of the Parent Company, at the end of three years from the issue date at P75.00 plus any accumulated and unpaid cash dividends.

All shares rank equally with regard to the residual assets of the Parent Company, except that holders of preferred shares participate only to the extent of the issue price of the shares plus any accumulated and unpaid cash dividends.

On July 23, 2009, the stockholders of the Parent Company approved the Offer by the Parent Company to exchange existing common shares of up to approximately 35% of the issued and outstanding capital stock of the Parent Company with Series "1" Preferred Shares. The exchange ratio was one common share for one Series "1" Preferred Share and the qualified shareholders of record as at July 2, 2009, were vested with the right to participate on the exchange.

On October 5, 2009, the Parent Company completed the exchange of 476,296,752 Class "A" Common Shares and 396,876,601 Class "B" Common Shares for Series "1" Preferred Shares.

On October 15, 2009, the BOD of the Parent Company approved the issuance, through private placement, of up to 226,800,000 Series "1" Preferred Shares.

On December 22, 2009, the Parent Company issued 97,333,000 Series "1" Preferred Shares to qualified buyers and by way of private placement to not more than 19 non-qualified buyers at the issue price of P75.00 per Series "1" Preferred Share.

On December 8, 2010 and October 3, 2011, the Parent Company listed 873,173,353 and 97,333,000 Series "1" Preferred Shares worth P65,488 and P7,300, respectively.

On August 13, 2012, the BOD of the Parent Company approved the redemption of Series "1" Preferred Shares at a redemption price of P75.00 per share.

On October 5, 2012, 970,506,353 Series "1" Preferred Shares were reverted to treasury.

On April 14, 2015, the Parent Company reissued 279,406,667 Series "1" Preferred Shares held in treasury in the name of certain subscribers at P75.00 per share. The Series "1" Preferred Shares became tradable on the PSE beginning June 10, 2015.

On March 12, 2020, the BOD of the Parent Company approved the redemption of Series "1" Preferred Shares at a redemption price of P75.00 per share.

On April 14, 2020, 279,406,667 Series "1" Preferred Shares were reverted to treasury.

On February 25, 2025, 300,000,000 Series "1" Preferred Shares, of which 279,406,667 are treasury shares and 20,593,333 are unissued, were reclassified to Series "2" Preferred Shares.

The Parent Company has no issued and outstanding Series "1" Preferred Shares as at December 31, 2025.

ii. Series "2" Preferred Shares

Subseries 2-A, Subseries 2-B and Subseries 2-C
In September 2012, the Parent Company issued 1,067,000,000 Series "2" Preferred Shares at the issue price of P75.00 per share. The said Series "2" Preferred Shares worth P80,025 were listed on the PSE on September 28, 2012. The SEC approved the registration and issued a permit to sell on August 10, 2012. The Series "2" Preferred Shares were issued in three subseries (Subseries "2-A", Subseries "2-B" and Subseries "2-C") and are Peso-denominated, perpetual, cumulative, non-participating and non-voting.

The Parent Company has the redemption option starting on the third, fifth and seventh year and every dividend payment thereafter, with a step-up rate effective on the fifth, seventh and tenth year, respectively, if the shares are not redeemed. Dividend rates are 7.500%, 7.625% and 8.000% per annum for Subseries "2-A", Subseries "2-B" and Subseries "2-C" Preferred Shares, respectively.

On September 21, 2015, the Parent Company redeemed its 721,012,400 Series "2" Preferred Shares - Subseries "2-A" at a redemption price of P75.00 per share. Unpaid cash dividends were also settled. The Parent Company paid P54,076 to the holders of Subseries "2-A" Preferred Shares. The redemption was approved by the BOD of the Parent Company on August 20, 2015.

On September 23, 2019, the Parent Company redeemed its 90,428,200 Series "2" Preferred Shares - Subseries "2-B" at a redemption price of P75.00 per share. The Parent Company paid P6,782 to the holders of Subseries "2-B" Preferred Shares. The redemption was approved by the BOD of the Parent Company on September 12, 2019.

On September 21, 2021, the Parent Company redeemed its outstanding 255,559,400 Series "2" Preferred Shares - Subseries "2-C" at a redemption price of P75.00 per share. The Parent Company paid P19,167 to the holders of Subseries "2-C" Preferred Shares. The redemption was approved by the BOD of the Parent Company on August 5, 2021.

On September 11, 2025, the BOD of the Parent Company approved the delisting of 565,445,086 Series "2" Subseries "2-A", 90,428,200 Series "2" Subseries "2-B" and 255,559,400 Series "2" Subseries "2-C" Preferred Shares redeemed in September 2015, 2019 and 2021, respectively.

These preferred shares are no longer outstanding after their redemption by the Parent Company which resulted in the suspension by the PSE of the trading of these Series "2" Preferred Shares. Upon redemption, the said shares reverted to the Parent Company's treasury shares and, subsequently, have been reissued by the Parent Company as different subseries of Series "2" Preferred Shares, under separate applications for listing. With such reissuance and listing, the delisting of the Series "2" Subseries "2-A", Subseries "2-B" and Subseries "2-C" Preferred Shares is appropriate.

The Parent Company has no outstanding and issued Series "2" Subseries "2-A", Subseries "2-B" and Subseries "2-C" Preferred Shares as at December 31, 2025 and 2024.

Subseries 2-D, Subseries 2-E and Subseries 2-F
On September 21, 2015, the Parent Company issued and listed on the PSE 446,667,000 Series "2" Preferred Shares held in treasury in three subseries (Subseries "2-D", Subseries "2-E" and Subseries "2-F") and are Peso-denominated, perpetual, cumulative, non-participating and non-voting. Dividend rates are 5.9431%, 6.3255% and 6.8072% per annum for Subseries "2-D", Subseries "2-E" and Subseries "2-F" Preferred Shares, respectively. The SEC approved the registration and issued a permit to sell on August 6, 2015.

On September 21, 2020, the Parent Company redeemed its 89,333,400 Series "2" Preferred Shares - Subseries "2-D" at a redemption price of P75.00 per share. Unpaid cash dividends were also settled. The Parent Company paid P6,700 to the holders of Subseries "2-D" Preferred Shares. The redemption was approved by the BOD of the Parent Company on August 6, 2020.

On September 11, 2025, the BOD of the Parent Company approved the delisting of 89,333,400 Series "2" Subseries "2-D" Preferred Shares redeemed in September 2020.

These preferred shares are no longer outstanding after their redemption by the Parent Company which resulted in the suspension by the PSE of the trading of these Series "2" Preferred Shares. Upon redemption, the said shares reverted to the Parent Company's treasury shares and, subsequently, have been reissued by the Parent Company as different subseries of Series "2" Preferred Shares, under separate applications for listing. With such reissuance and listing, the delisting of the Series "2" Subseries "2-D" is appropriate.

On September 21, 2021, the Parent Company redeemed its 134,000,100 Series "2" Preferred Shares - Subseries "2-E" at a redemption price of P75.00 per share. Unpaid cash dividends were also settled. The Parent Company paid P10,050 to the holders of Subseries "2-E" Preferred Shares. The redemption was approved by the BOD of the Parent Company on August 5, 2021.

The Subseries "2-F" Preferred Shares include 1,333,500 shares amounting to P100 held by a subsidiary, which were reclassified to treasury shares upon consolidation of the subsidiary on December 14, 2022.

On September 22, 2025, the Parent Company redeemed its 223,333,500 Series "2" Preferred Shares - Subseries "2-F" (including the 1,333,500 shares held by a subsidiary) at a redemption price of P75.00 per share. Unpaid cash dividends were also settled. The redemption was approved by the BOD of the Parent Company on August 7, 2025.

The Parent Company has no outstanding and issued Series "2" Subseries "2-D" as at December 31, 2025.

From the 134,000,100 Subseries "2-E" Preferred Shares, 57,527,894 shares are no longer outstanding but they remain issued as they are still in held in treasury, while the balance of 76,472,206 shares were reissued as Subseries "2-O" Preferred Shares.

As at December 31, 2025, the Subseries "2-F" Preferred Shares are no longer outstanding but they remain issued as they are still held in treasury.

Subseries 2-G, Subseries 2-H and Subseries 2-I
On February 24, 2016, the BOD of the PSE approved the listing application of the Parent Company of up to 975,571,800 shares of Series "2" Preferred Shares under shelf registration (the Shelf Registered Shares) and the offering of up to 400,000,000 shares of Series "2" Preferred Shares (the First Tranche) with a par value of P5.00 per share and an offer price of P75.00 per share. The SEC approved the Shelf Registered Shares and issued a permit to sell on March 8, 2016.

The Parent Company offered the "First Tranche" of up to: (i) 280,000,000 shares of Series "2" Preferred Shares consisting of Subseries "2-G", Subseries "2-H" and Subseries "2-I"; and (ii) 120,000,000 shares of Series "2" Preferred Shares to cover the oversubscription option. The First Tranche was reissued and offered from the Series "2" Preferred Shares Subseries held in treasury. The First Tranche was issued on March 30, 2016 which was also the listing date of the Shelf Registered Shares.

Dividend rates are 6.5793%, 6.3222% and 6.3355% per annum for Subseries "2-G", Subseries "2-H" and Subseries "2-I" Preferred Shares, respectively.

Following the completion of the Parent Company's follow-on offering of 280,000,000 Series "2" Preferred Shares, with an oversubscription option of 120,000,000 Series "2" Preferred Shares, the Parent Company reissued the Series "2" Preferred Shares held in treasury, as follows: (i) 244,432,686 Series "2" Preferred Shares; and (ii) 155,567,314 Subseries "2-A" Preferred Shares (collectively, the "Offer Shares"). The Series "2" Preferred Shares were Series "1" Preferred Shares held in treasury that were reclassified to Series "2" Preferred Shares on June 9, 2015.

The remaining 575,571,800 Shelf Registered Shares were no longer issued due to the expiration of the shelf registration, which is a period of three years from the date of approval.

On March 30, 2021, the Parent Company redeemed its 66,666,600 Series "2" Preferred Shares - Subseries "2-G" at a redemption price of P75.00 per share plus any unpaid cash dividends. The Parent Company paid P5,000 to the holders of Subseries "2-G" Preferred Shares. The redemption was approved by the BOD of the Parent Company on March 11, 2021.

On December 21, 2022, the Parent Company redeemed its 164,000,000 Series "2" Preferred Shares - Subseries "2-H" at a redemption price of P75.00 per share. Unpaid cash dividends were also settled. The Parent Company paid P12,300 to the holders of Subseries "2-H" Preferred Shares. The redemption was approved by the BOD of the Parent Company on September 22, 2022.

As at December 31, 2025 and 2024, only the 169,333,400 Series "2" Preferred Shares - Subseries "2-I" remain outstanding and issued, and the Subseries "2-G" and Subseries "2-H" Preferred Shares are no longer outstanding, but they remain issued as they are still held in treasury.

Subseries 2-J, Subseries 2-K, Subseries 2-P, Subseries 2-Q, Subseries 2-R
On September 30, 2020, the BOD of the PSE approved the listing application of the Parent Company of up to 533,333,334 Series "2" Preferred Shares under shelf registration (the Shelf Registered Shares) and the offering of up to 266,666,667 Series "2" Preferred Shares (the First Tranche) with a par value of P5.00 per share and an offer price of P75.00 per share. The SEC approved and rendered effective the shelf registration of the Shelf Registered Shares on October 9, 2020 and issued a permit to sell the First Tranche on the same date.

The Parent Company offered the First Tranche consisting of: (i) 133,333,400 Subseries "2-J" Preferred Shares; and (ii) an Oversubscription Option of up to 133,333,267 Subseries "2-J" Preferred Shares at an offer price of P75.00 per share. The First Tranche consisting of 266,666,667 Subseries "2-J" Preferred Shares was issued on October 29, 2020, which was also the date when the First Tranche was listed on the PSE.

The Parent Company offered a Second Tranche of the Shelf Registered Shares, consisting of: (i) 133,333,400 Subseries "2-K" Preferred Shares; and (ii) an Oversubscription Option of up to 133,333,267 Subseries "2-K" Preferred Shares at an offer price of P75.00 per share. The Second Tranche consisting of 183,904,900 Subseries "2-K" Preferred Shares was issued and listed on the PSE on December 10, 2020.

Dividend rates are 4.75% and 4.50% per annum for Subseries "2-J" and Subseries "2-K" Preferred Shares, respectively.

On August 7, 2025, the BOD of the Parent Company approved the offer exchange to the holders of 266,666,667 Subseries "2-J" Preferred Shares and 183,904,900 Subseries "2-K" Preferred Shares (collectively, the "Exchange Share") at a rate of one Exchange Share to one of any of the Series "2" Preferred Shares, to be reissued in three subseries (Subseries "2-P", Subseries "2-Q" and Subseries "2-R"), which will be reissued from the treasury Series "2" Preferred Shares of the Parent Company.

On October 10, 2025, an aggregate of 251,474,020 Exchange Shares, consisting of 173,760,520 Subseries "2-J" Preferred Shares and 77,713,500 Subseries "2-K" Preferred Shares were tendered to the Parent Company in exchange for 171,370,380 Subseries "2-P" Preferred Shares, 53,815,840 Subseries "2-Q" Preferred Shares, and 26,287,800 Subseries "2-R" Preferred Shares. On October 24, 2025, the Parent Company issued and listed on the PSE the Series "2" Subseries "2-P", Subseries "2-Q" and Subseries "2-R" Preferred Shares.

On October 29 and December 10, 2025, the Parent Company redeemed the remaining 92,906,147 Subseries "2-J" and 106,191,400 Subseries "2-K" Preferred Shares, respectively. The redemption price was the issue price of P75.00 per share. Unpaid cash dividends were also settled. The redemption was approved by the BOD of the Parent Company on August 7, 2025.

As at December 31, 2025, the Subseries "2-J" and Subseries "2-K" Preferred Shares are no longer outstanding but they remain issued as they are still held in treasury.

Subseries 2-M
On August 23, 2023, the Parent Company issued 173,333,325 Subseries "2-M" Preferred Shares via private placement at an offer price of P75.00 per share, with a fixed dividend rate of 8.375% per annum. Subseries "2-M" Preferred Shares were listed on the PSE on August 29, 2023. The Subseries "2-M" Preferred Shares are cumulative, non-voting, non-participating, non-convertible, redeemable, Peso-denominated preferred shares issued out of the treasury shares of the Parent Company.

Subseries 2-L, Subseries 2-N and Subseries 2-O
On October 17, 2023, the BOD of the PSE approved the shelf registration application of the Parent Company of up to 866,666,700 Series "2" cumulative, non-voting, non-participating, non-convertible, redeemable and reissuable (the Shelf Registered Shares) and with an offer Supplement for the First Tranche of 400,000,000 Subseries "2-L", Subseries "2-N" and Subseries "2-O" Preferred Shares (the "Base Offer Shares") and an Oversubscription Option of up to 266,666,700 Subseries "2-L", Subseries "2-N" and Subseries "2-O" Preferred Shares, with a par value of P5.00 per share and an offer price of P75.00 per share. The SEC approved and rendered effective the shelf registration of the Shelf Registered Shares on November 9, 2023 and issued a permit to sell the First Tranche on the same date.

On December 1, 2023, the First Tranche consisting of 165,358,600 Subseries "2-L" Preferred Shares, 100,115,100 Subseries "2-N" Preferred Shares, and 187,859,700 Subseries "2-O" Preferred Shares was issued and listed on the PSE.

Dividend rates are 7.9145%, 8.3466% and 8.5936% per annum for Subseries "2-L", Subseries "2-N" and Subseries "2-O" Preferred Shares, respectively.

Subseries 2-S, Subseries 2-T and Subseries 2-U
On October 24, 2025, the Parent Company issued and listed on the PSE 179,837,540 Series "2" Subseries "2-S" Preferred Shares, 73,983,880 Subseries "2-T" Preferred Shares and 146,178,580 Subseries "2-U" Preferred Shares, under the 866,666,700 Series "2" Shelf Registered Preferred Shares. The Subseries "2-S", Subseries "2-T" and Subseries "2-U" Preferred Shares were issued at P75.00 per share, for a total amount of P30,000, with dividend rates per annum of 6.965%, 7.256% and 7.536%, respectively.

The Offer Shares are perpetual and have no fixed final maturity date.

The shares are cumulative, non-voting, non-participating, non-convertible, redeemable, reissuable, Philippine Peso-denominated, perpetual Series "2" Preferred Shares, issued out of the Parent Company's treasury shares.

The Parent Company incurred share issuance costs amounting to P291, P26 and P251 in 2025, 2024 and 2023, respectively.

The Parent Company has 1,494,784,745 and 288,194,494, including the 1,333,500 preferred shares held by a subsidiary in 2024, Series "2" Preferred Shares held in treasury as at December 31, 2025 and 2024, respectively.

The Parent Company has 1,447,474,145 and 1,469,905,192 outstanding Series "2" Preferred Shares as at December 31, 2025 and 2024, respectively.

The Parent Company has a total of 172 and 290 preferred shareholders as at December 31, 2025 and 2024, respectively.

c. Treasury Shares

Treasury shares consist of:

	2025	2024	2023
Preferred	**P111,345**	P42,670	P42,670
Common	**-**	67,093	67,093
	P111,345	P109,763	P109,763

Common Shares

The Parent Company has no outstanding common shares held in treasury as at December 31, 2025. As at December 31,2024 and 2023, the Parent Company has 904,752,537 common shares held in treasury.

1. In the Entry of Judgment received on January 27, 2015, the Supreme Court entered in the Book of Entries of Judgments the Resolution of September 4, 2012 in G.R. Nos. 177857-58 and 178193 wherein the Supreme Court clarified that the 753,848,312 SMC Series "1" Preferred Shares of the Coconut Industry Investment Fund (CIIF) companies converted from the CIIF block of SMC shares, with all the dividend earnings as well as all increments arising therefrom shall now be the subject matter of the January 29, 2012 Decision and declared owned by the Government and used only for the benefit of all coconut farmers and for the development of the coconut industry. Thus, the fallo of the Decision dated January 24, 2012 was accordingly modified.

   On October 5, 2016, the Supreme Court of the Philippines in G.R. Nos. 177857-58 and 178193 issued a Judgment denying the "Manifestation and Omnibus Motion" filed by the Presidential Commission on Good Government to amend the Resolution Promulgated on September 4, 2012 to Include the "Treasury Shares" Which are Part and Parcel of the 33,133,266 CIIF Block of SMC Shares of 1983 Decreed by the Sandiganbayan, and Sustained by the Honorable Court, as Owned by the Government. The denial of the motion is without prejudice to the right of the ROP to file the appropriate action or proceeding to determine the legal right of the Parent Company to the 25,450,000 treasury shares of the Parent Company. On November 29, 2016, the Supreme Court denied with finality the Motion for Reconsideration of the ROP. To date, no such further action or proceeding has been filed by the ROP relating to the 25,450,000 Treasury Shares of the Parent Company.

2. In 2009, 873,173,353 common shares reverted to treasury were acquired through the exchange of common shares to preferred shares, on a one-for-one basis, at P75.00 per share amounting to P65,488.

3. On May 5, 2011, the Parent Company completed the secondary offering of its common shares. The offer consists of 110,320,000 shares of stock of the Parent Company consisting of 27,580,000 common shares from the treasury shares of the Parent Company and 82,740,000 SMC common shares held by Top Frontier, priced at P110.00 per share.

4. Also on May 5, 2011, US$600 worth of exchangeable bonds of the Parent Company sold to overseas investors were simultaneously listed on the Singapore Exchange Securities Trading Limited (SGX-ST). The exchangeable bonds have a maturity of three years, a coupon of 2% per annum and a conversion premium of 25% of the offer price. The exchangeable bonds are exchangeable for common shares to be reissued from the treasury shares of the Parent Company. The initial exchange price for the exchange of the exchangeable bonds into common shares is P137.50 per share.

   On December 5, 2011, 765,451 common shares were delivered to the bondholders of the Parent Company's exchangeable bonds who exercised their exchange rights under the terms and conditions of the bonds at an exchange price of P113.24 per share. Subsequently on December 8, 2011 and February 10 and 16, 2012, the delivered common shares of stock of the Parent Company were transacted and crossed on the PSE via a special block sale in relation to the issuance of common shares pursuant to the US$600 exchangeable bonds of the Parent Company.

   In 2014, 2013 and 2012, additional 1,077,573, 6,540,959 and 1,410,604 common shares, respectively, were delivered to the bondholders of the Parent Company's exchangeable bonds who exercised their exchange rights under the terms and conditions of the bonds at exchange prices ranging from P80.44 to P113.24 per share. The additional common shares of stock of the Parent Company were transacted and crossed on the PSE on various dates via special block sales.

   A total of 9,794,587 common shares were issued to the bondholders of the Parent Company's exchangeable bonds as at December 31, 2014.

5. In 2014 and 2013, 68,150 common shares and 3,410,250 common shares, respectively, under the Parent Company's Employee Stock Purchase Plan (ESPP) were cancelled and held in treasury shares.

   In 2016, the Parent Company discontinued the ESPP.

6. On July 7, 2025, the SEC approved the reclassification of the 904,752,537 common shares held as treasury shares into Series "2" Preferred Shares held in treasury. Consequently, the P67,093 "Treasury stock - common" was reclassified to "Treasury stock - preferred", both under "Treasury stock" account in the consolidated statement of financial position as at December 31, 2025.

d. Capital Securities

SPCS

On December 5, 2019, the BOD approved the establishment of a medium term note programme amounting to US$3,000 (the "Programme"), and the issuance of US$500 perpetual securities out of the Programme. The Programme and the initial issuance of perpetual securities were both registered on the SGX-ST.

The Programme will be available for a medium term and will allow the Parent Company to tap the financial market for funding through the issuance of securities, including but not limited to corporate notes, bonds, and perpetual securities and other similar instruments at different currencies (other than Philippine Peso). The establishment of the Programme will give the Parent Company ready access to funding and will give the Parent Company the flexibility to fund its contemplated investments and projects such as the MRT 7 construction, the MIA, as well as the refinancing of its existing obligations and for other general corporate purposes. All instruments and securities that will be issued out of the Programme shall be exempt securities and shall not be required to be registered with the PSE.

On July 29, 2020, the Parent Company issued US$500 (P24,595) SPCS at an issue price of 100%, with a rate of distribution of 5.5% per annum, payable every January 29 and July 29 of each year. The securities were issued under the Programme. The net proceeds were used to finance investments and various projects, to refinance existing obligations and for general corporate purposes.

On July 29, 2025, the Parent Company redeemed all the outstanding US$500 SPCS at an amount equivalent to its face value.

The redemption of US$500 SPCS was approved by the BOD of the Parent Company on June 10, 2025. The Parent Company recognized a loss of P4,444 on the redemption presented as part of "Retained earnings" account in the consolidated statement of changes in equity as at December 31, 2025.

e. Unappropriated Retained Earnings

The unappropriated retained earnings of the Parent Company are restricted in the amount of P67,093 in 2024 and 2023, representing the cost of common shares held in treasury.

The unappropriated retained earnings of the Group include the accumulated earnings in subsidiaries and equity in net earnings of associates and joint ventures not available for declaration as dividends until declared by the respective investees.

f. Appropriated Retained Earnings

The BOD of certain subsidiaries approved additional appropriations amounting to P16,894, P30,222 and P34,817 in 2025, 2024 and 2023, respectively, to finance future capital expenditure projects. Reversal of appropriations amounted to P10,812, P37,543 and P18,651 in 2025, 2024 and 2023, respectively.

g. Non-controlling Interests

Non-controlling interests consist of:

	2025	2024
Capital securities of subsidiaries	**P240,256**	P222,343
Share in the net assets of subsidiaries	**138,880**	126,768
Preferred shares of subsidiaries	**44,823**	44,823
	P423,959	P393,934

The following are the developments relating to the capital securities and preferred shares of subsidiaries:

Energy

- San Miguel Global Power

  a) Issuance of SPCS

  The outstanding SPCS of San Miguel Global Power are as follows:

Date of Issuance	**Initial Rate of Distribution Per Annum**	**Balance as at December 31, 2025**	
July 24 and August 11, 2025	**8.95%**	**US$515**	**P28,786**
December 2, 2024 and February 19, 2025	**8.125%**	**600**	**34,632**
September 12 and 30, 2024	**8.75%**	**900**	**49,849**
June 9 and September 15, 2021	**5.45%**	**683**	**32,417**
January 21, 2020	**5.70%**	**301**	**15,106**
		US$2,999	**P160,790**

**Net of directly attributable transaction costs.*

Date of Issuance	Initial Rate of Distribution Per Annum	Balance as at December 31, 2024	
December 2, 2024	8.125%	US$500	P28,882
September 12 and 30, 2024	8.75%	900	49,849
June 9 and September 15, 2021	5.45%	683	32,417
October 21 and December 15, 2020	7.00%	193	9,613
January 21, 2020	5.70%	494	24,807
November 5, 2019	5.95%	113	5,627
		US$2,883	P151,195

**Net of directly attributable transaction costs.*

On February 19, 2025, San Miguel Global Power completed the issuance of another US$100 SPCS (equivalent to P5,750 net of directly attributable transaction costs amounting to P88), at an issue price of 100.503% plus an amount corresponding to accrued distribution from (and including) December 2, 2024 to (but excluding) February 19, 2025. The US$100 SPCS is consolidated into and form a single series with the US$500 SPCS issued on December 2, 2024, bringing the total securities to US$600. The US$100 SPCS are identical in all respects with the US$500 SPCS, other than with respect to the date of issuance and issue price.

The net proceeds from the issuance of the US$100 SPCS were used for the redemption of the outstanding 7.00% SPCS issued in October and December 2020.

On July 24, 2025, San Miguel Global Power completed the issuance of US$400 SPCS (equivalent to P22,329, net of directly attributable transaction costs amounting to P331), at an issue price of 100%, with an initial rate of distribution of 8.95% per annum.

The US$400 SPCS consists of the following:

(i) US$223 (equivalent to P12,459, net of directly attributable transaction costs amounting to P185) in aggregate principal amount of SPCS (the "Concurrent Exchange Offers") issued in exchange for the remaining 7.00% SPCS issued on October 21 and December 15, 2020, and 5.70% SPCS issued on January 21, 2020 (collectively, the "Remaining Existing Securities"), with a carrying value equivalent to P11,143; and

(ii) US$177 (equivalent to P9,870, net of directly attributable transaction costs amounting to P146) in aggregate principal amount of new securities (the "Additional New Securities").

The net proceeds from the issuance of the Additional New Securities were applied to the following: (i) costs and expenses related to the Concurrent Exchange Offers, including payment of accrued distribution amounts in respect of the Remaining Existing Securities accepted for exchange pursuant and subject to, the terms and conditions of the Concurrent Exchange Offers; (ii) costs and expenses related to the issuance of the Additional New Securities; (iii) purchase, repurchase and/or redemption of all Remaining Existing Securities following the Concurrent Exchange Offers; and (iv) for pre-development costs of solar and hydropower energy projects, and capital expenditures related to BESS projects.

As a result of the foregoing exchange, the movements in the Remaining Existing Securities are as follows:

Title of Existing Securities	Principal of Existing Securities	Accepted Exchange Offers	Remaining Principal of Existing Securities	Amount in Philippine Peso*
7.00% SPCS issued on October 21 and December 15, 2020	US$193	(US$30)	US$163	P8,171
5.70% SPCS issued on January 21, 2020	494	(193)	301	15,106
	US$687	**(US$223)**	**US$464**	**P23,277**

**Net of transaction costs.*

The difference between the price and the carrying value of the outstanding Remaining Existing Securities accepted pursuant to the Concurrent Exchange Offers amounted to P1,501 and was recognized as part of the "Equity reserves" account in the consolidated statements of financial position.

On August 11, 2025, San Miguel Global Power completed the issuance of US$115 SPCS (equivalent to P6,457, net of directly attributable transaction costs amounting to P103) at an issue price of 100% plus an amount corresponding to accrued distributions from (and including) July 24, 2025 to (but excluding) August 11, 2025.

The US$115 SPCS is consolidated into and form a single series with the US$400 SPCS issued on July 24, 2025, bringing the total securities to US$515. The US$400 SPCS and US$115 SPCS are identical in all respects, other than with respect to the date of issuance.

San Miguel Global Power used the net proceeds towards (i) the partial purchase, repurchase and/or redemption of the remaining outstanding SPCS issued in October and December 2020 and in January 2020, and (ii) for pre-development costs of solar and hydropower energy projects and capital expenditures related to BESS projects.

The US$100, US$400 and US$115 SPCS were listed on the SGX-ST on February 20, July 25 and August 12, 2025, respectively.

On August 27 and November 14, 2024, San Miguel Global Power announced on the SGX-ST website the following:

a. that it will undertake to invite eligible holders of San Miguel Global Power's outstanding US Dollar-denominated SPCS listed with the SGX-ST (collectively, the "Existing Securities"): (i) 7.00% SPCS issued on October 21 and December 15, 2020; (ii) 5.70% SPCS issued on January 21, 2020; and (iii) 5.95% SPCS issued on November 5, 2019

   (1) to offer to exchange some or all of its Existing Securities for new US Dollar-denominated SPCS to be issued by San Miguel Global Power (the "2024 Exchange Offers"); and

   (2) to tender for purchase for cash some or all of its Existing Securities up to an aggregate nominal amount and at a purchase price, to be determined by San Miguel Global Power (the "Tender Offers", and together with the 2024 Exchange Offers, the "Offers"); and

b. that it will undertake the offer and issuance of up to US$600 in SPCS or such other amount as San Miguel Global Power may later determine (collectively together with the Tender Offers, the "Additional New Securities").

On September 12, 2024, San Miguel Global Power completed the issuance of US$800 SPCS (equivalent to P44,300, net of directly attributable transaction costs amounting to P660) at an issue price of 100%, with an initial rate of distribution of 8.75% per annum and step-up date of September 12, 2029.

The US$800 SPCS consist of the following:

(i) US$532 (equivalent to P29,456, net of directly attributable transaction costs amounting to P439) in aggregate principal amount of SPCS issued in exchange for Existing Securities (with a carrying value of P25,801) pursuant to the 2024 Exchange Offers; and

(ii) US$268 (equivalent to P14,844, net of directly attributable transaction costs amounting to P221) in aggregate principal amount of Additional New Securities. The proceeds of the issuance of SPCS covered the purchase of Existing Securities, amounting to US$157 (with a carrying value equivalent to P7,679), accepted pursuant to the Tender Offers.

On September 30, 2024, San Miguel Global Power completed the issuance of US$100 SPCS (equivalent to P5,549, net of directly attributable transaction costs amounting to P54) at an issue price of 100% plus an amount corresponding to accrued distribution from and including September 12, 2024 to, but excluding, September 30, 2024.

The US$100 SPCS is consolidated into and form a single series with the US$800 SPCS issued on September 12, 2024, bringing the total securities to US$900. The US$800 SPCS and US$100 SPCS are identical in all respects, other than with respect to the date of issuance and issue price.

On December 2, 2024, San Miguel Global Power completed the issuance of US$500 SPCS (equivalent to P28,882, net of directly attributable transaction costs amounting to P445) at an issue price of 100%, with an initial rate of distribution of 8.125% per annum and step-up date of March 2, 2030.

The US$500 SPCS consist of the following:

(i) US$274 (equivalent to P15,823, net of directly attributable transaction costs amounting to P244) in aggregate principal amount of SPCS issued in exchange for Existing Securities (with a carrying value of P13,402) pursuant to the 2024 Exchange Offers; and

(ii) US$226 (equivalent to P13,059, net of directly attributable transaction costs amounting to P201) in aggregate principal amount of Additional New Securities. The proceeds of the issuance of SPCS partly covered the purchase of Existing Securities, amounting to US$46 (with a carrying value equivalent to P2,236), accepted pursuant to the Tender Offers.

As a result of the foregoing, the movements in the Existing Securities are as follows:

Title of Existing Securities	Principal of Existing Securities	Accepted Exchange Offers	Accepted Tender Offers	Remaining Principal of Existing Securities	Amount in Philippine Peso*
7.00% SPCS issued on October 21 and December 15, 2020	US$723	(US$436)	(US$94)	US$193	P9,613
5.70% SPCS issued on January 21, 2020	594	(100)	-	494	24,807
5.95% SPCS issued on November 5, 2019	492	(270)	(109)	113	5,627
	US$1,809	**(US$806)**	**(US$203)**	**US$800**	**P40,047**

**Net of transaction costs.*

The difference between the price and net carrying value of the Existing Securities accepted pursuant to the Offers amounted to P8,574 and was recognized as part of the "Equity reserves" account in the consolidated statements of financial position.

The net proceeds of the issuances of the Additional New Securities and the US$100 SPCS were applied to the following: (i) costs and expenses related to the 2024 Exchange Offers, including payment of accrued distribution amount in respect of the Existing Securities accepted for exchange pursuant to the terms and conditions of the 2024 Exchange Offers; (ii) costs and expenses related to the Tender Offers, including payment of the purchase price and the accrued distribution amount in respect of the Existing Securities accepted for purchase pursuant to the terms and conditions of the Tender Offers; and (iii) for pre-development costs of solar energy projects and BESS projects.

The US$800, US$100 and US$500 SPCS were listed on the SGX-ST on September 13, October 1 and December 3, 2024, respectively.

The Securities were offered to holders of Existing Securities pursuant to the Offers and were sold mainly offshore and to a limited number of qualified buyers in the Philippines. Hence, the Offers and sale of the Securities qualified as exempt transactions for which no confirmation of exemption from the registration requirements of the Securities Regulation Code were required to be filed with the SEC.

The holders of the Securities have conferred a right to receive distributions on a semi-annual basis from their issuance dates at the initial rate of distribution, subject to the step-up rate. San Miguel Global Power has a right to defer this distribution under certain conditions.

The Securities constitute direct, unconditional, unsecured and unsubordinated obligations of San Miguel Global Power with no fixed redemption date and are redeemable in whole, but not in part, at San Miguel Global Power's option on the step-up date, or any distribution payment date thereafter or upon the occurrence of certain other events, at the principal amounts of the Securities plus any accrued, unpaid or deferred distribution.

b) Redemption of SPCS

- On May 9, 2025, San Miguel Global Power completed the redemption of its US$113 remaining securities (with a net carrying value of P5,627), out of the US$500 SPCS issued in November 2019.

- On October 17, 2025, San Miguel Global Power completed the redemption of its US$163 remaining securities (with a net carrying value of P8,171), out of the US$750 SPCS issued in October and December 2020.

  The securities were redeemed at a price equal to its principal amount pursuant to the terms and conditions of the securities. Any unpaid distributions up to (but excluding) the redemption date was also settled. The difference between the price paid and the carrying value of securities redeemed amounted to P1,977 and was recognized as part of the "Equity reserves" account in the consolidated statements of financial position.

- On April 23, 2024, San Miguel Global Power completed the redemption of its US$783 remaining securities (with a net carrying value of P40,187) out of the US$800 SPCS issued in April and July 2019, at the redemption price equal to its principal amount and settled the distributions related thereto pursuant to the terms and conditions of the securities.

  The difference between the price paid and the carrying value of the US$783 securities amounted to P4,853 and was recognized as part of the "Equity reserves" account in the consolidated statement of financial position.

  The US$783 securities were redeemed using in part the proceeds of the RPS issued in April 2024 and cash generated from operations.

c) Issuance of RPCS

On April 19, 2024, San Miguel Global Power issued US$800 RPCS to a third party (equivalent to P43,432, net of directly attributable transaction costs amounting to P2,688) at an issue price of 100%, with an initial rate of distribution of 8.5% per annum. Proceeds of the issuance were used for general corporate purposes, including capital expenditures and refinancing of maturing obligations.

Fuel and Oil

- Petron

a) Exchange, Tender and Issuance of SPCS

On September 22, 2025, Petron completed the issuance of US$475 SPCS (P26,794) at an issue price of 100% consisting of US$333 (P18,795) securities pursuant to exchange offer and US$142 (P7,999) new securities issued for cash. The securities were listed on the SGX-ST on September 23, 2025. The net proceeds were used to finance costs and expenses relating to the exchange and tender offer and issuance of the SPCS, and for general corporate purposes.

Concurrently, Petron has completed the settlement of US$333 (P15,890) securities tendered for exchange and US$54 (P2,585) securities tendered for purchase, both of which form part of the US$550 SPCS issued in April 2021.

Holders of the SPCS are conferred a right to receive distribution on a semi-annual basis from their issue date at the rate of 7.35% per annum, subject to a step-up rate. Petron has the sole and absolute discretion to defer payment of any or all of the distribution.

The SPCS have no fixed redemption date and are redeemable in whole, but not in part, at their principal amounts together with any accrued, unpaid, or deferred distributions, at Petron's option on or after September 28, 2028 or on any distribution payment date thereafter or upon the occurrence of certain other events.

The SPCS were offered to institutional lenders not exceeding 19 or to not more than 19 non-qualified buyers or to any number of qualified buyers in the Philippines as defined in the Securities Regulation Code and their offer and sale and therefore qualified as exempt transactions pursuant to Sections 10.1(k) and 10.1(l) of the Securities Regulation Code. Hence, no confirmation of exemption from the registration requirements of the Securities Regulation Code was required to be filed with the SEC.

b) Redemption of SPCS

On January 19, 2023, Petron redeemed US$22 (P1,118) from US$500 SPCS issued in 2018 at a purchase price of US$927.00 per US$1,000.00 in principal amount.

On July 19, 2023, the remaining outstanding SPCS with an aggregate amount of US$478 (P23,763) was fully redeemed at a purchase price of US$1,000.00 per US$1,000.00 in principal amount. Following such redemption, distributions ceased to accrue and the redeemed securities were cancelled and delisted from the SGX-ST.

The difference between the price paid and the net carrying amount of the SPCS redeemed amounting to P1,538, net of transaction costs, was recognized as part of "Equity reserves" account in the consolidated statements of financial position as at December 31, 2025 and 2024.

c) Redemption of Series 3A Preferred Shares

On December 26, 2024, Petron redeemed its 13,403,000 Series 3A Preferred Shares issued on June 25, 2019 at a redemption price of P1,000.00 per share or a total of P13,403. The redemption was approved by the BOD of Petron on June 26, 2024.

d) Issuance of Series 4 Preferred Shares

On July 7, 2023, Petron issued and listed on the PSE 5,000,000 Series 4A, 2,995,000 Series 4B, and 6,005,000 Series 4C Preferred Shares (inclusive of the oversubscription of 1,500,000 shares) under the 50,000,000 Series 4 Shelf Registered Preferred Shares at an issue price of P1,000.00 per share or for a total amount of P14,000. The Series 4 Shelf Registered Preferred Shares, which were approved for issue by the SEC on June 14, 2023, are cumulative, deferrable, non-voting, non-participating, non-convertible, redeemable, and reissuable Peso-denominated perpetual preferred shares. The net proceeds were used to partly fund the full redemption on July 19, 2023 of the remaining US$478 SPCS issued in 2018.

Petron has the redemption option starting on the second and half, third and fifth year or on any dividend payment date thereafter for Series 4A, Series 4B and Series 4C Preferred Shares, respectively. Dividend rates are 6.7079%, 6.7972% and 7.0861% per annum for Series 4A, Series 4B and Series 4C Preferred Shares, respectively.

On September 23, 2024, Petron issued and listed on the PSE additional 16,830,000 Series 4 Preferred Shares at an offer price of P1,000.00 per share for a total amount of P16,830. The additional Series 4 Preferred Shares were issued in two subseries: (i) 8,500,000 Series 4D Preferred Shares; and (ii) 8,330,000 Series 4E Preferred Shares. The Series 4D and 4E Preferred Shares are cumulative, deferrable, non-voting, non-participating, non-convertible, redeemable, and reissuable Peso-denominated perpetual preferred shares.

Petron has the redemption option starting on the third and fifth year from listing date or on any dividend payment date thereafter for Series 4D and 4E Preferred Shares, respectively. Series 4D and 4E Preferred Shares have dividend rates of 6.8364% and 7.1032% per annum, respectively. Cash dividends are payable quarterly every March 23, June 23, September 23 and December 23 of each year, as and if declared by Petron's BOD. The net proceeds were used to fully redeem Petron's Series 3A Preferred Shares on December 26, 2024, refinance maturing obligations, and fund general corporate purposes, including the purchase of crude oil inventory.

The details of material share in the net assets of subsidiaries are as follows:

	December 31, 2025		December 31, 2024	
	Petron	**SMFB**	Petron	SMFB
Percentage of non-controlling interests	**28.18%**	**11.24%**	31.74%	11.24%
Carrying amount of non-controlling interests	**P20,718**	**P80,752**	P17,232	P75,254
Net income attributable to non-controlling interests	**P3,741**	**P19,472**	P1,031	P18,010
Other comprehensive income attributable to non-controlling interests	**P2,575**	**P343**	P1,251	P553
Dividends paid to non-controlling interests	**P426**	**P14,314**	P511	P13,778

The following are the audited condensed financial information of subsidiaries with material non-controlling interests:

	December 31, 2025		December 31, 2024	
	Petron	**SMFB**	Petron	SMFB
Current assets	**P238,666**	**P146,262**	P255,873	P144,192

Professional fees		**2,613**	3,162	2,899
Repairs and maintenance		**2,030**	2,624	1,908
Impairment loss	8, 9, 14, 16, 20	**2,007**	2,323	319
Supplies		**1,128**	1,208	945
Communications, light and water		**1,042**	885	930
Rent	15	**896**	690	478
Research and development		**68**	89	80
Others		**268**	1,945	792
		P51,061	P54,019	P46,937

30. Depreciation and Amortization

Depreciation and amortization are distributed as follows:

	Note	2025	2024	2023
Cost of sales:				
Property, plant and equipment	14	**P37,592**	P31,048	P27,091
Other intangible assets	18	**8,147**	7,985	7,813
Right-of-use assets	15	**1,292**	3,575	3,950
Biological assets and others	16, 17, 20	**3,952**	3,819	4,536
	28	**50,983**	46,427	43,390
Selling and administrative expenses:				
Property, plant and equipment	14	**5,230**	4,924	5,076
Right-of-use assets	15	**826**	776	949
Investment property, deferred containers and others	16, 18, 20	**8,244**	7,205	6,442
	29	**14,300**	12,905	12,467
		P65,283	P59,332	P55,857

"Others" include depreciation of investment property and amortization of catalyst in cost of sales, and depreciation of idle assets and amortization of computer software and licenses in selling and administrative expenses.

31. Personnel Expenses

Personnel expenses consist of:

	Note	2025	2024	2023
Salaries and wages		**P36,290**	P33,229	P29,863
Retirement costs	*37*	**2,399**	2,088	1,787
Other employee benefits		**20,024**	17,216	15,468
		P58,713	P52,533	P47,118

Personnel expenses are distributed as follows:

	Note	2025	2024	2023
Cost of sales	*28*	**P20,474**	P17,720	P15,347
Selling expenses	*29*	**16,237**	15,081	13,769
Administrative expenses	*29*	**22,002**	19,732	18,002
		P58,713	P52,533	P47,118

32. Interest Expense and Other Financing Charges

Interest expense and other financing charges consist of:

	Note	2025	2024	2023
Interest expense		**P90,621**	P91,505	P83,083
Other financing charges	*21, 23, 37*	**9,647**	7,908	8,220
		P100,268	P99,413	P91,303

Amortization of debt issue costs included as part of "Other financing charges" amounted to P4,305, P3,853 and P4,002 in 2025, 2024 and 2023, respectively (Notes 21 and 23).

Interest expense on loans payable, long-term debt and lease liabilities is as follows:

	Note	2025	2024	2023
Loans payable	*21*	**P15,335**	P17,713	P15,400
Long-term debt	*23*	**73,086**	70,989	63,911
Lease liabilities	*15, 36*	**2,200**	2,803	3,772
		P90,621	P91,505	P83,083

33. Interest Income

Interest income consists of:

	Note	**2025**	2024	2023
Interest from short-term investments, cash in banks and others	*7, 13, 37*	**P15,550**	P14,042	P13,206
Interest from amounts owed by related parties	*13, 35, 37*	**606**	662	821
		P16,156	P14,704	P14,027

34. Other Income (Charges)

Other income (charges) consists of:

	Note	**2025**	2024	2023
Construction revenue (a)	*4, 18, 36*	**P42,241**	P57,772	P60,606
Gain on fair valuation of investment (b)	*5*	**21,933**	-	-
Miscellaneous gain (c)	*45*	**963**	3,509	2,291
Dividend income	*13, 35*	**740**	330	25
Rent income		**638**	552	364
Construction costs (a)	*4, 18, 36*	**(42,241)**	(57,772)	(60,606)
Gain (loss) on foreign exchange - net	*41*	**(8,709)**	(20,514)	2,485
Provision on impairment (d)	*8, 12, 14, 18, 20*	**(1,644)**	(1,688)	(780)
Gain (loss) on derivatives - net	*42*	**(1,008)**	614	(1,379)
Others - net (e)	*4, 36*	**1,327**	718	1,080
		P14,240	(P16,479)	P4,086

a. The construction revenue recognized in profit or loss approximates the construction costs recognized. When it is probable that the total contract costs will exceed total contract revenue, the expected loss is recognized as an expense immediately.

   Construction costs are recognized by reference to the stage of completion of the construction activity of toll road, airport, port, and water concession rights as at the reporting date.

b. Gain on fair valuation of the retained investment in SPPC, EERI and IPIEC was recognized, following the dilution of San Miguel Global Power's ownership interest from 100% to 33%.

c. Miscellaneous gain mainly consists of:

   SMB
   In 2025, SMB recognized income from the return of container deposits amounting to P597.

   Petron
   Petron recognized income from the write-on of LPG cylinder deposits amounting to P335 in 2025 and reversal of ARO and pretermination of lease related to the reconveyance of landholdings from PNOC amounting to P1,794 and P1,715, respectively, in 2024.

   GSMI
   In 2023, GSMI recognized income from the assignment of products rights amounting to P1,530.

SMB and the Parent Company
The Group recognized income from the Tax Credit Certificates (TCC) issued by the Bureau of Internal Revenue (BIR) in relation to the claims for refund filed for overpayment of excise taxes for San Mig Light amounting to P30 and P761 in 2025 and 2023, respectively (Note 45).

d. Provision on impairment mainly consists of:

NCC
In 2023, NCC decided to shut down the operations of the old cement line, except for assets involved in the crushing process and the facilities shared between the old and new cement lines. The decision to shut down is considered as an impairment indicator in the assets under the old cement line. Based on NCC's impairment assessment, the resulting recoverable amount is lower than the carrying amount of assets under the old cement line. Accordingly, impairment loss amounting to P577 was recognized in 2025.

Petron
In 2025, Petron recognized impairment loss in relation to: (i) damage to Petron Malaysia's product jetty facility caused by Tropical Storm Senyar in November 2025, as well as LPG cylinders in circulation that are not expected to be recovered amounting to P255; and (ii) three service stations and a leasehold land in Malaysia as their recoverable amounts were lower than their carrying amounts amounting to P153.

SMBHK
In 2024, SMBHK identified a shortfall in the actual results against previous forecasts due to various factors, including but not limited to, a decline in demand for its own brewed products in light of fierce market competition and more outbound travel spending. Indicators of impairment existed for the noncurrent assets employed in the manufacturing operations in Hong Kong, comprising primarily the production plant and machinery.

SMBHK determined the recoverable amount of the cash-generating unit to which these assets belong to be P1,706 as at December 31, 2024, which is lower than the carrying amount. Based on SMBHK management's assessment, impairment loss of P673 was recognized in property, plant and equipment employed in SMBHK's production plant.

SMFI
In 2024, impairment loss amounting to P784 was recognized by SMFI due to discontinued project hog farm operations and indefinitely suspended capital projects. This was based on management's assessment that the recoverable amount of certain idle assets consisting of buildings and improvements, and machinery and equipment is lower than the carrying amount.

SMYA
The Group's packaging operations in Australia particularly the wine filling and bottling operations is being challenged by the ongoing restrictions imposed by China on importations from Australia, including wines. In 2021, China imposed a punitive tariff on Australian wines which severely impacted the Australian wine industry. The ongoing trade restriction and the lingering effect of COVID-19 led to the decline in demand for products of SMYA compared to forecasted revenues. Management has determined that the carrying amount of the cash-generating unit is higher than the recoverable value. Accordingly, impairment loss of P188 in 2023 was recognized by SMYA.

SMPI
SMPI made advances to future investees that will be applied against future stock subscriptions. Management assessed that the carrying amount of advances for investments may not be recoverable in full. Accordingly, additional impairment losses amounting to P3, P12 and P498 were recognized in 2025, 2024 and 2023, respectively (Note 12).

e. "Others" consist of casualty loss, expenses of closed facilities, management income, royalty income, commission income, insurance claims, income from pretermination of lease, and changes in fair value of financial assets at FVPL.

35. Related Party Disclosures

The Parent Company, certain subsidiaries and their shareholders, associates and joint ventures purchase products and services from one another in the normal course of business. The Related Party Transactions Policy of the Parent Company requires approval of the BOD for related party transactions amounting to at least ten percent (10%) of the total consolidated assets based on its latest audited financial statements.

Amounts owed by/owed to related parties are expected to be collected/settled in cash. Annual assessment is undertaken by examining the financial position of the related parties and the economic conditions in the market in which they operate.

The following are the transactions with related parties and the outstanding balances as at December 31:

	Note	Year	Revenue from Related Parties	Purchases from Related Parties	Amounts Owed by Related Parties	Amounts Owed to Related Parties	Terms	Conditions
Ultimate Parent Company	*8, 38*	**2025**	**P8**	**P -**	**P -**	**P516**	Settled on dividend payment date	Unsecured

Total		2024	P3,662	P5,321	P25,782	P36,835		

1. Revenue consists of sale of power, fuel and other products and services to related parties.

2. Purchases consist of purchase of inventories, power and other products and services from related parties.

3. On March 18, 2025, Petron repurchased all of the 459,156,097 common shares held by PCERP pursuant to the common share buyback program approved by the BOD on March 4, 2025 via a block sale aggregating to P1,119.

4. Amounts owed by related parties consist of current and noncurrent receivable, advances to suppliers and deposits and share in expenses.

    a) Amounts owed by related parties include interest bearing receivable from the Ultimate Parent Company related to the remaining balance of the consideration for the sale of Clariden Holdings, Inc. (Clariden) amounting to P2,312 and the assignment of certain receivables of the Ultimate Parent Company amounting to P725.

(i) *Amounts owed by the Ultimate Parent Company amounting to P2,312:* On September 27, 2019, SMC and Top Frontier agreed in writing that the second payment amounting to P1,099, plus 5.75% interest rate per annum of any portion thereof unpaid, and the final payment amounting to P1,213, plus 6.00% per annum of any portion thereof unpaid, shall be payable and the interest shall be accrued, on the first anniversary of commercial operations of the Nonoc Project or such extended date as may be mutually agreed by the parties in writing.

(ii) *Amounts owed by the Ultimate Parent Company amounting to P725:* On September 27, 2019, the parties agreed in writing that the amounts plus 5.75% interest rate per annum of any portion thereof unpaid shall be payable and the interest shall be accrued, upon commencement of commercial operations of the Nonoc Project.

The Nonoc Project is primarily focused in extracting nickel deposits in Nonoc Island, Surigao City, Surigao del Norte, and is undertaken by Philnico Industrial Corporation, Pacific Nickel Philippines, Inc., and Philnico Processing Corp., all indirect subsidiaries of Clariden. As at December 31, 2025 and 2024, the Nonoc Project has not yet started commercial operations.

These amounts are included as part of noncurrent receivables and deposits under "Other noncurrent assets - net" account in the consolidated statements of financial position as at December 31, 2025 and 2024 (Note 20).

b) The Parent Company has advances to and receivables from San Miguel Corporation Retirement Plan (SMCRP) amounting to P6,064 and P6,311 as at December 31, 2025 and 2024, respectively, included as part of "Amounts owed by related parties" under "Trade and other receivables - net" account in the consolidated statements of financial position (Note 8). Portion of the advances are subject to interest of 5.75% per annum. Interest income earned from the advances amounted to P182, P189 and P188 in 2025, 2024 and 2023, respectively (Notes 33 and 37).

c) Petron has advances to PCERP amounting to P982 as at December 31, 2024, included as part of "Amounts owed by related parties" under "Trade and other receivables - net" account in the consolidated statements of financial position, which was fully paid on March 20, 2025 (Note 8). Portion of the advances are subject to interest of 5% per annum. Interest income earned from the advances amounted to P10 in 2025 and P45 in 2024 and 2023 (Notes 33 and 37).

d) Amounts owed by related parties include advances for investment which will be applied against future stock subscription amounting to P7,158 and P814, presented as part of "Investments and Advances - net" in the consolidated statements of financial position as at December 31, 2025 and 2024, respectively (Note 12).

e) Amounts owed by associates include investments in equity and debt instruments under an investment management agreement with BankCom for a total amount of P9,711 and P9,718 as at December 31, 2025 and 2024, respectively, presented as part of "Prepaid expenses and other current assets" and "Investments in equity and debt instruments" accounts in the consolidated statements of financial position (Notes 11 and 13). Income earned from investments in equity and debt instruments amounted to P545, P627 and P466 in 2025, 2024 and 2023, respectively (Notes 33 and 34).

f) Amounts owed by related parties include interest-bearing receivable from joint ventures amounting to P621 included as part of "Trade and other receivables - net" account in the consolidated statements of financial position (Note 8). Allowance for impairment losses pertaining to these receivables amounted to P621 as at December 31, 2025 and 2024. Interest income earned from the receivable amounted to P14, P13 and P30 in 2025, 2024 and 2023, respectively (Note 33).

g) Amounts owed by joint ventures include the interest-bearing loans granted to Angat Hydro by PVEI amounting to P284 and P1,485 as at December 31, 2025 and 2024, respectively, presented as part of "Trade and other receivables - net" and "Other noncurrent assets - net" accounts in the consolidated statements of financial position (Notes 8 and 20). Interest income earned from the advances amounted to P52, P81 and P77 in 2025, 2024 and 2023, respectively (Note 33).

h) Amounts owed by related parties include the receivable from Far East Holdings, Inc. on the assignment by ECC of the advances for future investment in KB Space Holdings, Inc. amounting to P1,200 and P1,300, as at December 31, 2025 and 2024, respectively, presented as part of "Trade and other receivables - net" account in the consolidated statements of financial position (Note 8).

5. Amounts owed to related parties consist of trade payables, professional fees and lease obligations. Amounts owed to a related party for the lease of office space presented as part of "Lease liabilities - current portion" amounted to P107 and P9 as at December 31, 2025 and 2024, respectively, and as part of "Lease liabilities - net of current portion" amounted to P1,425 and P35 as at December 31, 2025 and 2024, respectively. The amount owed to the Ultimate Parent Company pertains to dividends payable (Note 38).

   The interest-bearing loans payable to BankCom presented as part of "Loans payable" account amounting to P2,131 and P6,941 and "Long-term debt" account amounting to P26,154 and P27,267 in the consolidated statements of financial position as at December 31, 2025 and 2024, respectively (Notes 21 and 23). Interest expense incurred on the loans amounted to P2,111, P1,394 and P1,447 in 2025, 2024 and 2023, respectively.

   The amounts owed to associates include syndicated project finance loans amounting to P25,036 and P26,267 as at December 31, 2025 and 2024, respectively, which were secured by certain property, plant and equipment and other intangible assets (Notes 14 and 18).

   The compensation of key management personnel of the Group, by benefit type, follows:

	Note	**2025**	2024	2023
Short-term employee benefits		**P624**	P659	P544
Retirement benefits	*37*	**57**	57	47
		P681	P716	P591

There were no known transactions with parties that fall outside the definition "related parties" under PAS 24, *Related Party Disclosures*, but with whom SMC or its related parties have a relationship that enables the parties to negotiate terms of material transactions that may not be available from other, more clearly independent parties on an arm's length basis.

36. Significant Agreements and Lease Commitments

Significant Agreements

- Energy
  - *IPPA Agreements*

    As a result of the biddings conducted by PSALM for the appointment of the IPP Administrator for the capacity of the following power plants, the Group was declared the winning bidder to act as IPP Administrator through the following appointed subsidiaries:

Subsidiary	Power Plant	Location
SPI	Sual Coal - Fired Power Station (Sual Power Plant)	Sual, Pangasinan Province
SRHI	San Roque Hydroelectric Multi-purpose Power Plant (San Roque Power Plant)	San Roque, Pangasinan Province

The IPPA Agreements are with the conformity of the National Power Corporation (NPC), a government-owned and controlled corporation created by virtue of RA No. 6395, as amended, whereby NPC confirms, acknowledges, approves and agrees to the terms of the IPPA Agreements and further confirms that for so long as it remains the counterparty of the IPP, it will comply with its obligations and exercise its rights and remedies under the original agreement with the IPP at the request and instruction of PSALM.

The IPPA Agreements include, among others, the following common salient rights and obligations:

i. the right and obligation to manage and control the capacity of the power plant for its own account and at its own cost and risks;

ii. the right to trade, sell or otherwise deal with the capacity (whether pursuant to the spot market, bilateral contracts with third parties or otherwise) and contract for or offer related ancillary services, in all cases for its own account and at its own cost and risks. Such rights shall carry the rights to receive revenues arising from such activities without obligation to account therefore to PSALM or any third party;

iii. the right to receive a transfer of the power plant upon termination of the IPPA Agreement at the end of the cooperation period or in case of buy-out;

iv. previously for SPI, the right to receive an assignment of NPC's interest in existing short-term bilateral power supply contracts and the obligation to supply and deliver, at its own cost, fuel required by the IPP and necessary for the Sual Power Plant to generate the electricity required to be produced by the IPP;

v. maintain the performance bond in full force and effect with a qualified bank; and

vi. the obligation to pay PSALM the monthly payments and energy fees in respect of all electricity generated from the capacity, net of outages.

SPI served as the IPP Administrator for the Sual Power Plant from November 2009 until the end of the IPPA Agreement term on October 24, 2024. Accordingly, PSALM turned over the Sual Power Plant to SPI on October 25, 2024 (Notes 14 and 15).

Pursuant to the IPPA Agreements, SRHI has to pay PSALM monthly payments for 18 years until April 26, 2028 and SPI for 15 years until October 1, 2024. Energy fees amounted to P1,723, P1,574, and P1,641 in 2025, 2024 and 2023, respectively (Note 28). SRHI renewed its performance bonds amounting US$20 which will expire on January 25, 2027.

The lease liabilities of SHRI are carried at amortized cost using the US Dollar and Philippine Peso discount rates of 3.30% and 7.90%, respectively.

The discount determined at the inception of the agreement is amortized over the period of the IPPA Agreements and recognized as part of "Interest expense and other financing charges" account in the consolidated statements of income. Interest expense amounted to P801, P1,347 and P2,421 in 2025, 2024 and 2023, respectively (Note 32).

The power plants under the remaining IPPA lease arrangements with PSALM, presented as part of "Right-of-use assets - net" account in the consolidated statements of financial position, amounted to P27,437 and P28,441 as at December 31, 2025 and 2024, respectively (Note 15).

Maturity analysis of lease payments as at December 31, 2025 and 2024 are disclosed in Note 41.

- *Land Lease Agreement with PSALM*

SPPC
On April 4, 2022, SPPC entered into a long-term lease agreement with PSALM for parcels of land with an aggregate area of 242,445.50 square meters. The leased premises shall be used for the operation, management, expansion and maintenance of the Ilijan Power Plant. The lease term is for a period of 25 years, which commenced upon the expiration of the IPPA Agreement between PSALM and SPPC in June 2022, and is subject to renewal upon mutual agreement of both parties.

Subsequently, upon the request of SPPC, PSALM issued a certification for the inclusion in the lease agreement of certain parcels of land, with an aggregate area of 24,116 square meters, where the Ilijan switchyard is located.

In 2022, SPPC paid in advance the total lease charges amounting to P1,823 covering the entire leased premises and whole duration of the lease term.

On April 17, 2023, SPPC paid a consent fee amounting to P104 to PSALM for the planned lease of 37,870 square meters of land to NGCP.

On July 26, 2024, an agreement was executed with PSALM for the purchase by SPPC of a portion of the leased premises, with an area of 258,701 square meters, for a total consideration of P1,210 (inclusive of the unamortized balance of the advance rental paid in 2022). Consequently, the total area covered by the long-term lease agreement was reduced to 7,860.50 square meters.

SPI
On October 25, 2024, SPI entered into a long-term lease agreement with PSALM covering certain parcels of land with an aggregate area of 2,887,329 square meters. The leased premises shall be used for the operation, management, expansion and maintenance of the Sual Power Plant. The lease term is for 25 years commencing in October 2024, upon expiration of the IPPA Agreement between SPI and PSALM, and is subject to renewal upon mutual agreement of both parties.

The total lease charges, covering the entire leased premises and whole duration of the lease term, was fully paid in advance by SPI in October 2024 and in March 2025 for P277 and P6,459, respectively.

MPCL
MPCL has an existing lease agreement with PSALM covering certain parcels of land, with an area 183,747 square meters, located in Barangay Bani, Masinloc, Zambales. The lease agreement includes an assignable option in favor of MPCL to purchase the leased premises and will expire on April 11, 2028.

The land under lease agreements with PSALM, presented under "Right-of-use assets - net" account in the consolidated statements of financial position, amounted to P6,823 and P7,223 as at December 31, 2025 and 2024, respectively (Note 15).

- *Market Participation Agreements (MPA)*

SPI, SRHI, SPPC, LPI, MPI, and MPCL each entered into separate MPAs with the Philippine Electricity Market Corporation (PEMC) to satisfy the conditions contained in the Philippine WESM Rules on WESM membership and to set forth the rights and obligations of a WESM member.

The relevant parties in each of the MPAs acknowledged that PEMC was entering into the agreement in its capacity as both governing arm and autonomous group market operator of the WESM, and that in due time the market operator functions shall be transferred to an independent market operator (IMO) pursuant to RA No. 9136, otherwise known as the "Electric Power Industry Reform Act of 2001" (EPIRA). The parties further agreed that upon such transfer, all rights, obligations, and authority of PEMC under the MPA shall also pertain to the IMO and that all references to PEMC shall also refer to such IMO.

Upon the initiative of the DOE and PEMC, Independent Electricity Market Operator of the Philippines (IEMOP) was incorporated and assumed the functions and obligations as the market operator of the WESM commencing on September 26, 2018. Consequently, SPI, SRHI, SPPC, LPI, MPI and MPCL each entered into separate Supplemental MPAs with PEMC and IEMOP for the transfer of rights of the market operator to IEMOP. SMGP Kabankalan, SMGP BESS, MPGC and EERI also entered into separate MPAs with IEMOP and PEMC upon commencement of their commercial operations.

Under the WESM Rules, the cost of administering and operating the WESM shall be recovered through a charge imposed on all WESM members or transactions, as approved by the ERC. Market fees charged by IEMOP to the relevant subsidiaries amounted to P1,245, P1,102 and P372 in 2025, 2024 and 2023, respectively (Note 28).

MPCL and LPI each has a guarantee, in the form of surety bond or standby letter of credit, to secure the full and prompt performance of obligations for its transactions as a Direct Member and trading participant in the WESM which is valid until July 31, 2025 and October 24, 2026, respectively.

- *PSAs and RSCs*

  SPI, SPPC, SRHI, MPI, LPI, MPCL, MPGC and EERI have offtake contracts such as PSAs and RSCs with various counterparties to sell electricity produced by the power plants. Counterparties for PSAs include DUs, electric cooperatives, third party Retail Electricity Suppliers (RES) and other entities.

  Counterparties for RSCs are contestable customers, or large industrial users who have been certified contestable by the ERC.

  The consolidated sales of the Group include long-term offtake contracts, which may have provisions for take-or-pay, passing on fuel costs, foreign exchange differentials or certain other fixed costs and minimum offtake level. Most of the agreements provide for renewals or extensions subject to mutually agreed terms and conditions by the parties and applicable rules and regulations. Tariff structures vary depending on the customer and their needs, with some having structures based on energy-based pricing or capacity-based pricing.

  For capacity-based contracts, the customers are charged with the capacity fees based on the contracted capacity plus the energy fees for the associated energy taken during the month. As stipulated in the contracts, energy-based contracts on the other hand are based on the actual energy consumption of customers using the basic energy charge and/or adjustments.

  SPI, SPPC, SRHI, MPI, LPI, MPCL and MPGC can also purchase power from WESM or other power generation companies during periods when power generated from the power plants is not sufficient to meet the customers' power requirements. Power purchases amounted to P23,257, P29,665 and P25,250 in 2025, 2024 and 2023, respectively (Note 28).

  The Group regularly participates in competitive selection process (CSPs) to contract its capacity. In a CSP conducted by Meralco on January 5 and January 23, 2024, EERI, MPGC and SPPC emerged as winning bidders for the supply of 2,700 MW out of the 3,000 MW power requirement of Meralco with 1,200 MW, 300 MW and 1,200 MW in offered capacities, respectively, for a term of 15 years. With the issuance by the ERC of a Notice of Resolution on December 10, 2024 providing for the approval of the PSA of EERI, Unit 1 and Unit 2 of the BCCPP were declared operational in December 2024 and January 2025, respectively, for the supply of 400 MW each to Meralco. On May 9, 2024, the ERC granted provisional authority to implement the PSA of SPPC with Meralco initially covering 910 MW which commenced in June 2024. The PSA of MPGC with Meralco commenced in June 2025 after securing the approval of ERC.

  On March 20, 2024, LPI also executed a PSA with Meralco, pursuant to a CSP conducted on February 26, 2024, for an interim supply of 400 MW baseload power requirement, which took effect starting in August 2024 until February 2025.

  On July 31, 2024, Meralco awarded in favor of SRHI a PSA for the supply of 340 MW (net) renewable energy mid-merit supply capacity to be sourced from the San Roque Hydroelectric Power Plant for a term of ten years, which commenced in September 2025.

  In another CSP conducted by Meralco on August 28, 2024, MPCL emerged as the winning bidder to supply 500 MW out of the 600 MW baseload power requirement of Meralco for a term of 15 years. The PSA commenced in August 2025.

- *ASPA*

  i. On May 2, 2023, MPCL entered into an ASPA with NGCP for a period of five years to allocate the 8 megawatt-hour (MWh) capacity of the Masinloc Phase 1 BESS as contingency reserve. On August 15, 2023, the ERC granted provisional authority to MPCL for the implementation of the ASPA which commenced on September 9, 2023.

  ii. On May 6, 2021, SMGP Kabankalan entered into an ASPA with NGCP for a period of five years commencing on January 26, 2022, allocating its 20 MWh Kabankalan 1 BESS to provide ancillary services to the Visayas grid based on the Provisional Authority granted by the ERC.

iii. On May 2, 2023, SMGP BESS entered into several ASPAs with NGCP for its 330 MWh BESS located in various sites nationwide, to provide ancillary services for a period of five years, of which 220 MWh and 110 MWh commenced operations in 2023 and March 2024, respectively, following the Provisional Authority granted by the ERC on the relevant ASPA.

- *Coal Supply Agreements*

  SPI, MPI, LPI, MPCL and MPGC have supply agreements with various coal suppliers for the coal requirements of the power plants.

- *LNG Supply Agreements*

  SPPC and EERI have supply agreements with various LNG suppliers for the natural gas requirements of the Ilijan Power Plant and BCCPP.

- *Engineering, Procurement, and Construction (EPC) Contracts*

  MPCL and SMGP BESS have EPC agreements with various third-party contractors for the ongoing construction of its respective power plants and BESS projects.

- *Distribution Wheeling Service (DWS) Agreements*

  As RES, LPI, MPI and MPCL each entered into DWS Agreements with certain DUs for the conveyance of electricity through its distribution systems in order to supply the power requirements of their respective contestable customers. The agreements are valid and binding upon execution unless terminated by either party.

  The DWS charges from the DUs are passed on to the contestable customers who have opted for a single billing arrangement as provided in the ERC Supplemental Switching Rules.

- *Agreement for the use of LNG Terminal*

  On May 26, 2023, SPPC entered into a Novation Agreement with SMCGP Transpower Pte. Ltd. (SMCGP Transpower). This agreement involved the transfer and assignment to SPPC of all the rights and obligations held by SMCGP Transpower under its Terminal Use Agreement (TUA) with LFC dated April 11, 2022.

  EERI, LFC, and SPPC, entered into an Amendment Agreement dated October 22, 2024, wherein EERI was made a party to the TUA and shall have the same rights, obligations, and liabilities granted to SPPC under the TUA.

- Fuel and Oil

  - *Supply Agreements*

    Petron has assigned all its rights and obligations to PSTPL (as Assignee) to have a term contract to purchase Petron's crude oil requirements from Saudi Arabian Oil Company (Saudi Aramco), Kuwait Petroleum Corporation (KPC), Chevron USA Inc. Singapore Branch (Chevron) and Shell International Eastern Trading Company (SIETCO). The contract with Saudi Aramco is from January 1, 2025 to December 31, 2025 with automatic annual extension thereafter, unless terminated at the option of either party, upon at least 60 days written notice. The contract with Saudi Aramco has been extended for another year. The contract with KPC from January 1, 2025 to December 31, 2025 was renewed from January 1, 2026 to December 31, 2026. The contract with Chevron is from December 1, 2024 to November 30, 2025 and was renewed from February 1, 2026 to January 31, 2027. The contract with SIETCO is for three years from November 6, 2023.

PMRMB acquires crude oil and condensate for its Port Dickson Refinery from various sources through a combination of term purchase contracts and spot market purchases. PMRMB has a term supply contract for Tapis crude oil and Terengganu condensate with Exxon Mobile Exploration and Production Malaysia Inc. ("EMEPMI") for a period of two years until March 2026 supplemented by other short-term supply contracts and spot crude purchases. As at December 31, 2025, about 45% of the crude and condensate volume is sourced from EMEPMI, while the balance from other term and spot purchases. Pricing is determined through a formula that is linked to international industry benchmarks. PMRMB also utilizes Port Dickson Refinery spare capacity for crude processing arrangement of third parties to optimize utilization and benefits.

Outstanding liabilities of the Group for such purchases are shown as part of "Accounts payable and accrued expenses" account in the consolidated statements of financial position as at December 31, 2025 and 2024 (Note 22).

- *Lease Agreement with PNOC*

  On September 30, 2009, Petron through NVRC entered into a 30-year lease with PNOC without rent-free period, covering a property which it shall use as site for its refinery, commencing on January 1, 2010 and ending on December 31, 2039. Based on the latest valuation of the property conducted by a third-party appraiser acceptable to both parties, the annual rental shall be P238 retroactive to year 2022, payable on the 15th day of January each year without the necessity of demand. This lease is subject to renewal options and annual escalation clauses of 3% per annum to be applied starting 2018 until the next re-appraisal is conducted. The leased premises shall be reappraised every fifth year in which the new rental rate shall be determined equivalent to 5% of the reappraised value, and still subject to annual escalation clause of 3% for the four years following the re-appraisal.

  As at December 31, 2025, said lease contract along with the lease contracts for its bulk plants and service stations which are the subject landholdings of the rescinded deeds of conveyance were considered deemed canceled with the Supreme Court's ruling in favor of Petron (Note 45). As at December 31, 2025 and 2024, Petron leases other parcels of land from PNOC for its pipeline right-of-way and service stations.

- Infrastructure

  - *Airport Concession Agreement*

    i. Boracay Airport

    The ROP awarded TADHC the Airport Project through a Notice of Award (NOA) issued on May 15, 2009. The Airport Project is proposed to be implemented through a Contract-Add-Operate and Transfer Arrangement, a variant of the Build-Operate-Transfer (BOT) contractual arrangement under RA No. 6957, as amended by RA No. 7718, otherwise known as the BOT Law, and its Revised Implementing Rules and Regulations.

    On June 22, 2009, TADHC entered into a Concession Agreement with the ROP, through the DOTr and CAAP. Based on the Concession Agreement, TADHC has been granted with the concession of the Airport Project which includes the development and upgrade of the Caticlan Airport (marketed and promoted as Boracay Airport) as an international airport. Subject to existing law, the Concession Agreement also grants to TADHC the franchise to operate and maintain the Boracay Airport up to the end of the concession period, which is for a period of 25 years (as may be renewed or extended for another 25 years upon written agreement of the parties), and to collect the fees, rentals and other charges as may be determined in accordance with the Concession Agreement.

The salient features of the Concession Agreement are presented below:

1. The operations and management of the Boracay Airport shall be transferred to TADHC, provided that the ROP shall retain the operations and control of air traffic services, national security matters, immigration, customs and other governmental functions and the regulatory powers insofar as aviation security, standards and regulations are concerned at the Boracay Airport.

2. As concessionaire, TADHC shall have full responsibility in all aspects of the operation and maintenance of the Boracay Airport and shall collect the regulated and other fees generated from it and from the end users. To guarantee faithful performance of its obligations in respect to the operation and maintenance of the Boracay Airport, TADHC shall post in favor of the ROP, an Operations and Maintenance Performance Security (OMPS) amounting to P25, which must be valid for the entire concession period of 25 years. As at December 31, 2025, TADHC has yet to pay the OMPS as the Airport Project has not yet entered the In-Service Date.

3. Immediately upon receiving the Notice to Commence Implementation (NCI) and provided all conditions precedent in the Concession Agreement are fulfilled or waived, TADHC shall start all the activities necessary to upgrade and rehabilitate the Boracay Airport into a larger and more technologically advanced aviation facility to allow international airport operations.

4. TADHC shall finance the cost of the Airport Project, while maintaining a debt-to-equity ratio of 70:30. TADHC's estimated capital commitment to develop the Airport Project amounts to P2,500, including possible advances to the ROP for the right of way up to the amount of P466. Such ratio is complied with as TADHC fully issued its authorized capital stock as a leverage to the loan obtained (Notes 23 and 35).

5. TADHC shall also post a P250 Work Performance Security in favor of the ROP as guarantee for faithful performance by TADHC of the works required to be carried out in connection with the construction and completion of civil, structural, sanitary, mechanical, electrical and architectural infrastructure. This performance security shall be partially released by the ROP from time to time to the extent of the percentage-of-completion of the Airport Project. TADHC has paid P0.8 premiums in 2025 and 2024 for the Work Performance Security and is included as part of "Airport concession rights" under "Other intangible assets" account in the consolidated statements of financial position (Note 18). The unamortized portion is included as part of "Prepaid expenses and other current assets" account in the consolidated statements of financial position (Note 11).

6. In consideration for allowing TADHC to operate and manage the Boracay Airport, TADHC shall pay the ROP P8 annually. The first payment shall be made immediately upon the turnover by the ROP of the operations and management of the Boracay Airport to TADHC, and every year thereafter until the end of the concession period. The operations and management of the Boracay Airport was turned over to TADHC on October 16, 2010.

After fulfillment of all contractual and legal requirements, the Concession Agreement became effective on December 7, 2009. The NCI issued to TADHC by the DOTr was accepted by TADHC on December 18, 2009.

In accordance with the license granted by the ROP, as expressly indicated in the Concession Agreement, TADHC presently operates the Boracay Airport. TADHC completed the rehabilitation of the existing airport terminal building and facilities on June 25, 2011. Construction work for the extension of runway to 1,800 meters has been completed in 2016. The construction of the new terminal building is ongoing and expected to be completed in 2027.

ii. MIA

On August 14, 2019, the ROP, through the DOTr, issued a NOA to SMHC, awarding the MIA Project. In accordance with the NOA, SMAI was registered by SMHC as the concessionaire.

The MIA Project shall create a gateway for international and domestic travel, with the necessary ancillary facilities to support the creation of a new airport city outside Metro Manila to decongest the existing road networks and provide an alternative higher capacity airport facility.

A. Concession Agreement

On September 18, 2019, SMAI entered into a Concession Agreement with the ROP, through the DOTr, for the right to finance, design, construct, supply, complete, test, commission and eventually operate and maintain the MIA Project for a period of 50 years commencing on the business day immediately following the issuance of the Certificate of Substantial Completion for the first implementation phase.

The salient features of the Concession Agreement are presented below:

1. The MIA shall consist of airfield facilities, passenger and cargo terminal buildings, airline support facilities, airport support facilities, airport access and parking facility, as well as an airport toll road which will connect the MIA to the North Luzon Expressway. The MIA will be implemented in three phases, with increasing capacity for each phase completed.

2. Commercial operation of the first implementation phase of the MIA is expected to commence within a period of five years from the issuance of the Certificate of Substantial Completion for the said first phase, with the remaining two implementation phases subject to the timely submission and approval of the required documentation for the various components of each phase.

3. SMAI shall turnover a total area of 100 hectares of land to the ROP as Government Center Land Area. SMAI and ROP shall execute the necessary documents to transfer full ownership thereof in favor of the ROP.

4. SMAI shall be responsible for the acquisition of sufficient title to, or procurement of possession and use of, and unrestricted access to and quiet enjoyment of, the airport site and airport toll road site, as well as the removal or abatement of all liens, encumbrances and hazardous substances within the airport site and the airport toll road site.

5. SMAI shall provide proper maintenance of the MIA's facilities and ensure that all airport facilities and airport toll road are in the condition required upon turnover to the ROP at the end of the concession period.

6. All revenues derived from the operations, maintenance and management of the MIA shall accrue to SMAI, including the income collected and received from all business or commercial ventures and activities consistent with the MIA's operations.

B. Legislative Franchise

On December 20, 2020, RA No. 11506 lapsed into law, granting SMAI a franchise to construct, develop, establish, operate and maintain a domestic and international airport in the municipality of Bulakan and to construct, develop, establish, operate and maintain an adjacent Airport City. The franchise is for a period of 50 years.

The salient features of RA No. 11506 are as follows:

1. SMAI shall be exempt from any and all direct and indirect taxes and fees of any kind, nature or description, which emanate exclusively from the construction, development, establishment and operation of the airport and Airport City, including but not limited to income taxes, value-added taxes, excise taxes, customs duties and tariffs, and business taxes, among others, during the ten-year construction period. After such ten-year construction period and during the remaining term of the franchise, SMAI shall be exempt from income taxes and taxes on real estate, buildings and personal property until it is determined by the BIR that SMAI has fully recovered its investment costs on the airport and on the Airport City.

2. After SMAI has fully recovered its investment costs on the Airport City, as determined by the BIR, SMAI shall be entitled to generate income from the Airport City equivalent to an internal rate of return (IRR) of 12% per annum. Any amount in excess of the 12% IRR shall be remitted to the national government.

3. SMAI is also required to offer at least 20% of its outstanding capital stock to any securities exchange in the Philippines to encourage public participation within 5 years from the determination of the BIR that SMAI has fully recovered its investment costs.

- *MRT 7 Concession Agreement*

The ROP awarded ULC BVI the financing, design, construction, supply, completion, testing, commissioning and operation and maintenance of the MRT 7 Project through a NOA issued on January 31, 2008. The MRT 7 Project is an integrated transportation system, under a Build-Gradual Transfer-Operate, Maintain and Manage scheme, which is a modified Build-Transfer-Operate arrangement under RA No. 6957, as amended by RA No. 7718, otherwise known as the BOT Law, and its Revised Implementing Rules and Regulations, to address the transportation needs of passengers and to alleviate traffic in Metro Manila, particularly traffic going to and coming from North Luzon.

On June 18, 2008, ULC BVI entered into the MRT 7 Agreement or Concession Agreement with the ROP through the DOTr, for a 25-year concession period, subject to extensions as may be provided for under the Concession Agreement and by law. Based on the Concession Agreement, ULC BVI has been granted the right to finance, design, test, commission, construct and operate and maintain the MRT 7 Project, which consists of a highway, Intermodal Transport Terminal and Metro Rail Transit System including the depot and rolling stock.

The ROP through the DOTr granted ULC BVI the following rights under the Concession Agreement:

- To finance, design, construct, supply, complete and commission the MRT 7 Project;
- To designate a Facility Operator and/or a Maintenance Provider to Operate and Maintain the MRT 7 Project;
- To receive the Amortization Payments and the Revenue Share as specified in the Concession Agreement;
- To charge and collect the Agreed Fares or the Actual Fares and/or to receive the Fare Differential, if any;
- Development Rights as specified in the Concession Agreement; and
- To do any and all acts which are proper, necessary or incidental to the exercise of any of the above rights and the performance of its obligations under the Concession Agreement.

The salient features of the Concession Agreement are presented below:

1. The MRT 7 Project cost shall be financed by ULC BVI through debt and equity at a ratio of approximately 75:25 and in accordance with existing BSP regulations on foreign financing components, if any. Based on the Concession Agreement, ULC BVI's estimated capital commitment to develop the MRT 7 Project amounts to US$1,236, adjusted to 2008 prices at US$1,540 per National Economic and Development Authority Investment Coordination Committee approval on July 14, 2014.

2. ULC BVI shall post a Performance Security for Construction and Operations and Maintenance in favor of the ROP as guarantee for faithful performance by ULC BVI to develop the MRT 7 Project. This performance security for operations and maintenance shall be reduced every year of the concession period to the amounts as specified in the Concession Agreement.

3. All rail-based revenues above 11.90% internal rate of return of ULC BVI for the MRT 7 Project over the cooperation period, which means the period covering the construction and concession period, shall be shared equally by ULC BVI and the ROP at the end of the concession period. All rail-based revenues above 14% internal rate of return shall wholly accrue to the ROP.

4. As payment for the gradual transfer of the ownership of the assets of the MRT 7 Project, the ROP shall pay ULC BVI a fixed amortization payment on a semi-annual basis in accordance with the schedule of payment described in the Concession Agreement. The ROP's amortization payment to ULC BVI shall start when the MRT 7 Project is substantially completed.

5. For every semi-annual full payment made by the ROP through the DOTr, and actually received by ULC BVI, the latter shall issue a Certificate of Transfer of Ownership, in favor of the former representing a pro-indiviso interest in the assets of the MRT 7 Project in proportion to the amortization payment made over the total amortization payment to be made during the concession period. After the end of the concession period but provided that all the amortization payment and other amounts due to ULC BVI under the Concession Agreement shall have been fully paid, settled and otherwise received by ULC BVI, full ownership of the assets of the MRT 7 Project shall be transferred to it, free from all liens and encumbrances.

6. The amortization payments shall be adjusted pursuant to the escalation formula based on parametric formula for price adjustment reflecting changes in the prices of labor, materials and equipment necessary in the implementation/completion of the MRT 7 Project both local and at the country where the equipment/components shall be sourced.

7. Net passenger revenue shall be shared by the ROP and ULC BVI on a 30:70 basis.

8. The ROP grants ULC BVI the exclusive and irrevocable commercial Development Rights (including the right to lease or sublease or assign interests in, and to collect and receive any and all income from, but not limited to, advertising, installation of cables, telephone lines, fiber optics or water mains, water lines and other business or commercial ventures or activities over all areas and aspects of the MRT 7 Project with commercial development potentials) from the effectivity date of the Concession Agreement until the end of the concession period, which can be extended for another 25 years, subject to the ROP's approval. In consideration of the Development Rights granted, ULC BVI or its assignee shall pay the ROP 20% of the net income before tax actually realized from the exercise of the Development Rights.

9. Upon the expiration of the concession period and payment in full of the amortization payments and the other obligations of the ROP through the DOTr, the Concession Agreement shall be deemed terminated, and all the rights and obligations thereunder shall correspondingly cease to exist, other than all rights and obligations accrued prior to the date of such expiration including, without limitation, the obligations of ROP through the DOTr to make termination payments in accordance with the Concession Agreement and following expiration of the concession period, the Development Rights of ULC BVI pursuant to the Concession Agreement shall survive.

10. If ULC BVI and ROP through the DOTr are not able to agree on the solution to be adopted in an appropriate Variation Order within the period specified in the Concession Agreement, then ULC BVI may proceed to terminate the Concession Agreement. Also, if either of ULC BVI and ROP through the DOTr intends to terminate the Concession Agreement, by mutual agreement under the Concession Agreement, it shall give a notice of intention to terminate to the other. Following receipt of the Intent Notice, the parties shall meet for a period of up to eight weeks and endeavor to agree on the terms, conditions arrangements, and the necessary payments for such termination. If at the expiration of the said period, ULC BVI and ROP through the DOTr are unable to agree on and execute an agreement for the mutual termination of the Concession Agreement, the same shall remain valid and in effect.

On July 23, 2014, the ROP through the DOTr confirmed their obligations under the MRT 7 Agreement dated June 18, 2008 through the Performance Undertaking issued by the Department of Finance (DOF), which was received by ULC BVI on August 19, 2014. The Performance Undertaking is a recognition of the obligations of the ROP through the DOTr under the Concession Agreement, particularly the remittance of semi-annual amortization payment in favor of ULC BVI. The issuance of the Performance Undertaking triggers the obligation of ULC BVI to achieve financial closure within 18 months from the date of the receipt of the Performance Undertaking. Within the aforementioned period, ULC BVI achieved Financial Closure, as defined in the MRT 7 Agreement. There were no changes in the terms of the Concession Agreement in 2025.

On April 20, 2016, ULC BVI through the Parent Company, led the ground breaking ceremony for the MRT 7 Project.

Pursuant to Section 19.1 of the Concession Agreement, on September 30, 2016, ULC BVI sent a request letter to the ROP through the DOTr to secure the latter's prior approval in relation to the intention of ULC BVI to assign all its rights and obligations under the Concession Agreement to SMC MRT 7, the designated special purpose company for the MRT 7 Project. The assignment of the rights and obligations from ULC BVI to SMC MRT 7 will be achieved through execution of the Accession Agreement. Based on the Concession Agreement, ULC BVI may assign its rights, title, interests or obligations therein, provided that the following conditions are met:

- The assignment will not in any way diminish ULC BVI's principal liability under the Concession Agreement; and

- ULC BVI secures from ROP, through the DOTr, its prior approval, which shall not be unreasonably withheld.

In addition, the letter dated September 30, 2016 from ULC BVI also requested that upon submission by SMC MRT 7 of the lenders' recognition that the Financing Agreements for the MRT 7 Project is for its benefit, the DOTr shall cause the amendment of the Performance Undertaking dated July 23, 2014 by changing the addressee and beneficiary thereof from ULC BVI to SMC MRT 7.

On December 12, 2016, the ROP through the DOTr gave its consent to the assignment of all the rights and obligations of ULC BVI under the Concession Agreement to SMC MRT 7.

Following the DOTr's approval, SMC MRT 7 and ULC BVI carried out the Accession Agreement on January 12, 2017.

The MRT 7 Project's civil works and electrical and mechanical works are ongoing as at December 31, 2025.

- *Toll Road Concession Agreements*

  i. SLEX

  On February 1, 2006, SMC SLEX executed the Supplemental Toll Operation Agreement (STOA) with MATES, Philippine National Construction Corporation (PNCC) and the ROP through the TRB. The STOA authorizes SMC SLEX by virtue of a joint venture to carry out the rehabilitation, construction and expansion of the SLEX, comprising of: Toll Road (TR)1 (Alabang viaduct); TR2 (Filinvest to Calamba, Laguna); TR3 (Calamba, Laguna to Sto. Tomas, Batangas) and TR4 (Sto. Tomas, Batangas to Lucena City). The concession granted shall expire 30 years from February 1, 2006.

  On December 14, 2010, the TRB issued the Toll Operations Certificate for Phase 1 of the SLEX i.e., TR1, TR2 and TR3, and approved the implementation of the initial toll rate starting April 1, 2011.

  In 2012, SMC SLEX received a letter from the DOF informing SMC SLEX of the conveyance by PNCC to the ROP of its shares of stock in SMC SLEX, by way of deed of assignment. Moreover, SMC SLEX also received the Declarations of Trust signed by the individual nominees of PNCC, in favor of the ROP, in which each nominee affirmed their holding of single, qualifying share in SMC SLEX in favor of the ROP.

  On July 21, 2015, SMC SLEX entered into a Memorandum of Agreement (MOA) with Ayala Corporation (AC), on the inter-operability of the SLEX and Muntinlupa-Cavite Expressway (MCX, formerly Daang Hari-SLEX Connector Road). AC is the concession holder of MCX while MCX Tollway, Inc. is the facility operator of MCX.

  The MOA on inter-operability provides the framework that will govern the interface and integration of the technical operations and toll operation systems between the MCX and the SLEX, to ensure seamless travel access into MCX and SLEX for road users. MCX opened and operated as a toll expressway on July 24, 2015.

  The TR4 Project covers the construction of a new 66.74-kilometer (km) four-lane toll road that will extend the SLEX operating toll roads from TR3 in Sto. Tomas, Batangas to Lucena City in Quezon Province per the STOA and Final Engineering Design.

  In 2019, SMC SLEX commenced the construction of TR4 and is ongoing as at December 31, 2025.

  ii. SLEXTR5

  On June 3, 2022, a STOA was executed by and among the ROP as the Grantor, acting by and through the TRB, PNCC, SLEXTR5 as the Investor, and MATES as the Operator, wherein the SLEXTR5 was granted the exclusive right, privilege, responsibility, and obligation to design and construct the TR5 Project, and to finance the same, while MATES was granted the exclusive right, privilege, responsibility, and obligation to operate and maintain the TR5 Project.

  The TR5 Project is a 420-km extension of SLEX from Lucena City, Quezon to Matnog, Sorsogon.

  The TR5 Project shall be owned by the ROP, without prejudice to the rights and the entitlements of SLEXTR5 and MATES under the STOA. The legal transfer of ownership of the TR5 Project to the ROP shall be deemed to occur automatically on a continuous basis in accordance with the progress of the construction thereof.

  The franchise period for the TR5 Project shall be 30 consecutive years commencing from the issuance of the Toll Operation Certificate or the Toll Operation Permit for the entire TR5 Project to SLEXTR5 and/or MATES.

iii. NAIA Expressway

On July 8, 2013, SMC NAIAX entered into a Concession Agreement with the ROP, through the Department of Public Works and Highways (DPWH), wherein SMC NAIAX was granted the right to finance, design, construct, operate and maintain the NAIA Expressway Project. The NAIA Expressway Project links the three NAIA terminals to the Skyway, the Manila-Cavite Toll Expressway and the Entertainment City of the Philippine Amusement and Gaming Corporation.

On September 22, 2016, SMC NAIAX started commercial operations of NAIA Expressway upon receipt of the Toll Operations Permit from the TRB. The Toll Operations Permit for Phase II A and B was issued on September 9, 2016 and December 19, 2016, respectively.

On March 11, 2024, the TRB issued an Amended Toll Operation Permit for Phase II B with the inclusion of the Tramo Ramp provision to the NAIAX Phase II Project.

At the end of the concession period, SMC NAIAX shall turnover the NAIA Expressway to the DPWH in the condition required for turnover as described in the Minimum Performance Standards Specifications of the Concession Agreement.

iv. Skyway

On June 10, 1994, PNCC, the franchise holder for the construction, operations and maintenance of the Metro Manila Expressway, including any and all extensions, linkages or stretches thereof, such as the proposed Metro Manila Skyway, and PT Citra Lamtoro Gung Persada (Citra), as joint proponents, submitted to the ROP through the TRB, the Joint Investment Proposal covering not only the proposed Metro Manila Skyway but also the planned Metro Manila Tollway. The Joint Investment Proposal embodied, among others, that Citra in cooperation with PNCC committed itself to finance, design and construct the Metro Manila Skyway in three stages, consisting of: (a) South Metro Manila Skyway (SMMS) as Stages 1 and 2; (b) North Metro Manila Skyway and the Central Metro Manila Skyway as Stage 3; and (c) Metro Manila Tollway as Stage 4. The Joint Investment Proposal was approved by the TRB on November 27, 1995.

- Skyway Stages 1 and 2

  The STOA for SMMS was executed on November 27, 1995 by and among SMC Skyway, PNCC and the ROP acting through the TRB. Under the STOA, the design and the construction of the SMMS and the financing thereof, shall be the primary and exclusive privilege, responsibility and obligation of SMC Skyway as investor. On the other hand, the operations and maintenance of the SMMS shall be the primary and exclusive privilege, responsibility and obligation of PNCC, through its wholly-owned subsidiary, the PNCC Skyway Corporation (PSC).

  On July 18, 2007, the STOA was amended (Amended STOA), to cover among others, the implementation of Stage 2 of the SMMS (Stage 2); the functional and financial integration of Stage 1 of the SMMS (Stage 1) and Stage 2 upon the completion of the construction of Stage 2; and the grant of right to SMC Skyway to nominate to the TRB a qualified party to perform the operations and maintenance of the SMMS to replace PSC. SMC Skyway, PNCC and PSC then entered into a MOA for the successful and seamless turnover of the operations and maintenance responsibilities for the SMMS from PSC to SOMCO.

  The SMMS shall be owned by the ROP, without prejudice to the rights and entitlement of SMC Skyway and SOMCO under the Amended STOA. The legal transfer of ownership of the SMMS to the ROP shall be deemed to occur automatically on a continuous basis in accordance with the progress of its construction. The toll revenues are shared or distributed among SMC Skyway, SOMCO and PNCC for the operations and maintenance of the SMMS.

  The 30-year franchise period for the Integrated Stage 1 and Stage 2 commenced on April 25, 2011.

Under the Amended STOA, SMC Skyway may file an application to adjust the toll rates which shall be of two kinds, namely periodic and provisional adjustments. Periodic adjustments for the Integrated Stage 1 and Stage 2 may be applied for every year. SMC Skyway may file an application for provisional adjustment upon the occurrence of any of the following: (a) a force majeure event and/or additional cost of any required repair or reconstruction works arising out of force majeure, to the extent that such additional cost is not covered by insurance; or (b) a significant currency devaluation. A currency devaluation shall be deemed significant if it results in a depreciation of the value of the Philippine Peso relative to the US Dollar by at least five percent. The applicable exchange rate shall be the exchange rate between the currencies in effect as at the date of approval of the prevailing preceding toll rate.

- Skyway Stage 3

The Stage 3 STOA was executed on July 8, 2013 by and among the ROP as the Grantor, acting by and through the TRB, PNCC, MMSS3 as the Investor, and Central Metro Manila Skyway Corporation (CMMSC) as the Operator, wherein MMSS3 was granted the primary and exclusive privilege, responsibility and obligation to design and construct the Skyway Stage 3 Project, and to finance the same, while CMMSC was granted the primary and exclusive privilege, responsibility and obligation to operate and maintain the Skyway Stage 3 Project.

The Skyway Stage 3 Project is an elevated roadway with the entire length of approximately 17.93 km from Buendia Avenue in Makati to Balintawak, Quezon City and will connect to the existing Skyway Stage 1 and 2. This is envisioned to inter-connect the northern and southern areas of Metro Manila to help decongest traffic in Metro Manila and stimulate the growth of trade and industry in Luzon, outside of Metro Manila.

The Skyway Stage 3 Project shall be owned by the ROP, without prejudice to the rights and the entitlements of MMSS3 and CMMSC under the Stage 3 STOA. The legal transfer of ownership of the Skyway Stage 3 Project to the ROP shall be deemed to occur automatically on a continuous basis in accordance with the progress of the construction thereof.

The franchise period for the Skyway Stage 3 Project is 30 consecutive years commencing from the issuance of the Toll Operation Certificate for the entire Skyway Stage 3 Project to MMSS3 and/or CMMSC.

MMSS3 and CMMSC shall enter into a revenue sharing agreement to set forth the terms and conditions of their sharing of the toll revenues from the Skyway Stage 3 Project.

On December 29, 2020, the Skyway Stage 3 Project was partially opened to the public. It was formally inaugurated and opened to motorists on January 14, 2021, free of toll fee. On July 1, 2021, MMSS3 received the Toll Operation Permit and started its full toll operation.

- Skyway Stage 4

On July 14, 2014, the Stage 4 STOA was executed by and among the ROP as the Grantor, acting through the TRB, PNCC, MMSS4 as the Investor, and Metro O&M Corporation (MOMCO) as the Operator. MMSS4 was granted the primary and exclusive privilege, responsibility and obligation to finance the design and construction of Skyway Stage 4 Project, while MOMCO was granted the primary and exclusive privilege, responsibility, and obligation to operate and maintain the same.

The Skyway Stage 4 Project shall be owned by the ROP, without prejudice to the rights and the entitlements of MMSS4 and MOMCO under the Stage 4 STOA. The legal transfer of ownership shall be deemed to occur automatically on a continuous basis in accordance with the progress of the construction thereof. The 30-year concession period shall commence from the date of issuance of the Toll Operation Certificate by the TRB to MMSS4 and/or MOMCO.

As at December 31, 2025, the Skyway Stage 4 Project is in the inception of its construction stage.

v. TPLEX

SMCTC entered into a Concession Agreement with the ROP through the DPWH and the TRB to finance, design, construct, operate and maintain and impose and collect tolls from the users of the TPLEX Project. The TPLEX Project is a toll expressway from La Paz, Tarlac to Rosario, La Union which is approximately 89.21 km and consists of four-lane expressway with nine toll plazas from start to end.

The TPLEX Project shall be owned by the ROP without prejudice to the rights and entitlement of SMCTC. The legal transfer of ownership of the TPLEX Project shall be deemed to occur automatically on a continuous basis in accordance with the progress of construction and upon issuance of the Certificate of Substantial Completion for each segment of the TPLEX Project.

The toll revenue collected from the operation of the TPLEX Project is the property of SMCTC. SMCTC shall have the right to assign or to enter into such agreements with regard to the toll revenue and its collection, custody, security and safekeeping.

The concession period shall be for a term of 35 years starting from the effective date of the Concession Agreement and may be extended.

On October 31, 2013, SMCTC opened the first section of the TPLEX Project from Tarlac to Gerona. The Section 1B from Gerona to Rosales was opened to motorists on December 23, 2013. The 30.31 km stretch from Gerona to Carmen was fully operational on April 16, 2014. The 14.91 km stretch from Carmen (Tomana) to Urdaneta was fully operational starting February 17, 2015.

On July 28, 2016, the Segment 7A (Urdaneta to Binalonan) was opened. Segment 7B (Binalonan to Pozorrubio) was opened to motorists on December 7, 2017, while Segment 8 (Pozorrubio to Rosario), which is the final phase of the TPLEX Project, was completed and became operational on July 15, 2020.

vi. STAR

On June 18, 1998, SIDC and the ROP, individually and collectively through the DPWH and the TRB, entered into a Toll Concession Agreement covering the STAR Project. The STAR Project consists of two stages as follows:

Stage	Project Description
Stage I	Operations and maintenance of the 22.16 km toll road from Sto. Tomas, Batangas to Lipa City, Batangas
Stage II (Phases I and II)	Finance, design, construction, operations and maintenance of the 19.74 km toll road from Lipa City, Batangas to Batangas City, Batangas

Under the Toll Concession Agreement, the STAR Project and any stage or phase or ancillary facilities thereof of a fixed and permanent nature shall be owned by the ROP, without prejudice to the rights and entitlements of SIDC. The legal transfer of ownership of the STAR Project and/or any stage, phase or ancillary thereof shall be deemed to occur automatically on a continuous basis in accordance with the progress of the construction and upon the ROP's issuance of the Certificate of Substantial Completion. The right of way shall be titled in the ROP's name regardless of the construction.

In December 2006, the Toll Concession Agreement was amended to extend the original concession period from 30 years beginning January 1, 2000, to 36 years and shall be valid until December 31, 2035.

The TRB issued the Toll Operations Certificate for Stage II Phase II on December 13, 2016.

vii. PAREX

On November 29, 2019, the PNCC and SMHC, as joint proponents, submitted to the ROP through the TRB, the Joint Investment Proposal covering the PAREX Project. The said proposal embodied, among others, that SMHC in cooperation with PNCC committed itself to finance, design and construct the PAREX Project in three segments. The Joint Investment Proposal was approved by the TRB on March 4, 2020 and the STOA was executed on September 21, 2021 by and among PREC, SOMCO, PNCC and the ROP acting through the TRB. Under the STOA, the design and the construction of the PAREX Project and the financing thereof, shall be the primary and exclusive privilege, responsibility and obligation of PREC as investor. Whereas the operations and maintenance of the PAREX Project shall be the primary and exclusive privilege, responsibility, and obligation of SOMCO as operator.

The PAREX Project shall consist of three segments:

Segment I	-	Radial Road No. 10 to Skyway Stage 3 to Plaza Azul, approximately 5.740 km
Segment II	-	Skyway Stage 3 to San Juan River Circumferential Road No. 5 (C-5), approximately 7.325 km
Segment III	-	C-5 to Southeast Metro Manila Expressway or (C-6), approximately 6.300 km

The PAREX shall be owned by the ROP, without prejudice to the rights and entitlement of PREC and SOMCO under the STOA. The legal transfer of ownership of the PAREX to the ROP shall be deemed to occur automatically on a continuous basis in accordance with the progress of construction. The toll revenues are shared or distributed between PREC and SOMCO for the operations and maintenance of the PAREX.

The 30-year franchise period shall commence from the issuance of the Toll Operation Certificate.

Under the STOA, PREC may file an application to adjust the toll rates which shall be of two kinds, namely periodic and contingency. Periodic adjustments can be applied every two years of the existing toll rate to a new toll rate on the respective toll review date. On the other hand, contingency adjustment can be applied upon the occurrence of a force majeure event and/or additional cost of any required repair or reconstruction works arising out of force majeure to the extent not covered by insurance.

viii. NALEX

On March 21, 2022, a STOA was executed by and among the ROP as the Grantor, acting by and through the TRB, PNCC, NALEC as the Investor, and SOMCO as the Operator, wherein NALEC was granted the exclusive right, privilege, responsibility and obligation to design and construct the NALEX Project, and to finance the same, while SOMCO was granted the exclusive right, privilege, responsibility, and obligation to operate and maintain the NALEX Project.

The NALEX Project is a mixed at-grade and elevated viaduct expressway, with the entire length of approximately 136.4 km from Balintawak, Quezon City to Tarlac City, that will link the existing Skyway Stage 3 to TPLEX.

The NALEX Project shall be owned by the ROP, without prejudice to the rights and the entitlements of NALEC and SOMCO under the STOA. The legal transfer of ownership of the NALEX Project to the ROP shall be deemed to occur automatically on a continuous basis in accordance with the progress of the construction thereof.

The franchise period for the NALEX Project shall be 30 consecutive years commencing from the issuance of the Toll Operation Certificate or the Toll Operation Permit for the entire NALEX Project to NALEC and/or SOMCO.

ix. SALEX

On June 20, 2022, a STOA was executed by and among the ROP as the Grantor, acting by and through the TRB, PNCC, SALEC as the Investor, and SOMCO as the Operator, wherein SALEC was granted the exclusive right, privilege, responsibility and obligation to design and construct the SALEX Project, and to finance the same, while SOMCO was granted the exclusive right, privilege, responsibility, and obligation to operate and maintain the SALEX Project.

The SALEX Project is a mixed at-grade and elevated viaduct expressway, with an entire length of approximately 40.65 km, that will link the existing Skyway Stage 3, PAREX, NAIA Expressway to the MIA.

The SALEX Project shall be owned by the ROP, without prejudice to the rights and the entitlements of SALEC and SOMCO under the STOA. The legal transfer of ownership of the SALEX Project to the ROP shall be deemed to occur automatically on a continuous basis in accordance with the progress of the construction thereof.

The franchise period for the SALEX Project shall be 30 consecutive years commencing from the issuance of the Toll Operation Certificate or the Toll Operation Permit for the entire SALEX Project to SALEC and/or SOMCO.

x. PLEX

On October 19, 2023, SMC PLEX entered into a Tollway Concession Agreement (TCA) with the Provincial Government of Pangasinan (PGP). Under the TCA, the PLEX Project will include the financing, engineering, design, construction, operation, and maintenance of a 76.8 km toll road. Subject to existing law, the TCA also grants to SMC PLEX the franchise to operate and maintain the PLEX Project up to the end of the concession period, which is for a period of 35 years (as may be renewed or extended upon written agreement of the parties), and to collect the toll fees, rentals and other charges, as may be determined in accordance with the TCA.

The following are the salient features of the TCA:

1. The PLEX Phase 1 involves the financing, engineering, design, construction, operation, and maintenance of a 42.76 km toll road. The PLEX Project covers the construction of a four-lane expressway composing of three Segments and a spur road as follows: (a) Segment 1: Binalonan - Manaoag (6.90 km); (b) Segment 2: Manaoag - Calasiao (11.30 km); (c) Segment 2-A: Calasiao Spur (2.39 km); and (d) Segment 3: Calasiao - Lingayen (22.17 km).

2. PLEX Phase 2 is approximately a 34.04 km toll road, from Lingayen, Pangasinan to Alaminos, Pangasinan. PLEX Phase 2 covers the construction of a four-lane expressway beginning from the end of PLEX Phase 1.

3. SMC PLEX shall have the right to designate an operator, with prior consent of the PGP, to operate and maintain the PLEX Project.

4. To guarantee the faithful performance by SMC PLEX of the construction of the PLEX Project, PLEX shall post in favor of the Grantor, prior to the Construction Commencement Date, a Construction Performance Security which shall be two percent of the total project cost before financing. This performance security shall be partially released by the PGP from time to time to the extent of the percentage-of-completion of the PLEX Project.

5. As concessionaire, SMC PLEX shall have full responsibility for all aspects of the Operation and Maintenance of the PLEX Project and shall collect, for its own account, the fees generated from the PLEX Project. To guarantee faithful performance of its obligation in respect to the operation and maintenance of the PLEX Project, SMC PLEX shall post in favor of the PGP an OMPS amounting to P56, which must be valid for at least one year, and shall be renewed every year thereafter until the end of concession period.

6. SMC PLEX shall finance the cost of the PLEX Project, while maintaining a debt-to-equity ratio of 70:30.

7. SMC PLEX shall enter into an interoperability agreement with the concessionaire/s and operator/s of other existing toll road projects, one year prior to the start of Operation and Maintenance.

8. The PGP shall be entitled to a five percent share in the Toll Revenue and Commercial Development Revenue of PLEX Phase 1 from the start of the concession period and shall terminate at the end of the concession period.

9. Ten years after the date of issuance of the Toll Operations Certificate for the PLEX Phase 1 and every year thereafter until the end of the concession period, SMC PLEX shall submit to the PGP its actual historical cash flows from Revenues based on the audited financial statements to test if the Project Internal Rate of Return has exceeded ten percent as of the relevant testing date. If the Project Internal Rate of Return has not exceeded ten percent as of the relevant testing date, the PGP shall not be entitled to any Province Earnings Share. If it exceeded ten percent as of the relevant testing date, the PGP shall be entitled, starting from the calendar year immediately following the calendar year of such testing date, to thirty percent of the Earnings before Taxes of the concessionaire. The amount of the Province Earnings Share shall be determined every quarter of the relevant calendar year where the PGP is entitled for such share. If it has exceeded twelve percent as of the relevant testing date, the PGP shall be entitled, starting from the calendar year immediately following the calendar year of such testing date, to seventy percent of the Earnings before Taxes of the concessionaire.

10. At the end of the concession period, SMC PLEX shall transfer the ownership and all its rights, title to, and interest in the PLEX Phase 1 to the PGP, free from any lien and encumbrance and in consideration of the sum of One Peso. On the transfer date, SMC PLEX shall deliver the Warranty Security, amounting to P100, which shall be valid for a period of one year from the turnover of the facilities.

xi. CBEX

On February 7, 2023, SMC CBEX entered into a TCA with the Provincial Government of Cavite (PGC). Under the TCA, the CBEX Project will include the financing, engineering, design, construction, operation and maintenance of a 27.06 km toll road. Subject to existing law, the TCA also grants to SMC CBEX the franchise to operate and maintain the CBEX Project up to the end of the concession period, which is for a period of 35 years (as may be renewed or extended for another 50 years upon written agreement of the parties), and to collect the toll fees, rentals and other charges, as may be determined in accordance with the TCA.

The following are the salient features of the TCA:

1. SMC CBEX shall have the right to designate an operator, with prior consent of the PGC, to operate and maintain the CBEX Project.

2. To guarantee the faithful performance by SMC CBEX of the construction of the CBEX Project, SMC CBEX shall post in favor of the Grantor, prior to the Construction Commencement Date, a Construction Performance Security which shall be two percent of the total project cost before financing. This performance security shall be partially released by the PGC from time to time to the extent of the percentage-of-completion of the CBEX Project.

3. As concessionaire, SMC CBEX shall have full responsibility in all aspects of the operation and maintenance of the CBEX Project and shall collect the regulated and other fees generated from it and from the end users. To guarantee faithful performance of its obligation in respect to the operation and maintenance of the CBEX Project, SMC CBEX shall post in favor of the PGC an OMPS amounting to P100, which must be valid for the entire concession period of 35 years.

4. SMC CBEX shall finance the cost of the CBEX Project, while maintaining a debt-to-equity ratio of 70:30.

5. SMC CBEX shall enter into an interoperability agreement with the concessionaire/s and operator/s of other existing toll road projects within three months from issuance of the Toll Operation Permit.

6. SMC CBEX shall remit to the PGC the Province Earnings Share of 70% of the net income of the CBEX Project after SMC CBEX has achieved Return of Investment based on the CBEX Project's free cash flows. The Province Earnings Share shall be remitted quarterly after the date of issuance of Toll Operation Permit and every year thereafter until the end of the concession period.

7. At the end of the concession period, SMC CBEX shall transfer ownership to the PGC without lien and encumbrance in an operational/serviceable condition as provided for by the TCA. On the transfer date, SMC CBEX shall deliver the Warranty Security, amounting to P100, which shall be valid for a period of one year from the turnover of the facilities.

xii. NBEX

On July 31, 2023, SMC NBEX entered into a TCA with the Provincial Government of Batangas (PGB), following the issuance of a NOA on March 22, 2023. Under the TCA, the NBEX Project will include the financing, engineering, design, construction, operation and maintenance of a 60.9 km toll road. Subject to existing law, the TCA also grants to SMC NBEX the franchise to operate and maintain the NBEX Project up to the end of the concession period, which is for a period of 35 years (as may be renewed or extended for another 50 years upon written agreement of the parties), and to collect the toll fees, rentals and other charges, as may be determined in accordance with the TCA.

The following are the salient features of the TCA:

1. SMC NBEX shall have the right to designate an operator, with prior consent of the PGB, to operate and maintain the project.

2. To guarantee the faithful performance by SMC NBEX of the construction of the NBEX Project, SMC NBEX shall post in favor of the Grantor, prior to the Construction Commencement Date, a Construction Performance Security which shall be two percent of the total project cost before financing. This performance security shall be partially released by the PGB from time to time to the extent of the percentage-of-completion of the NBEX Project.

3. As concessionaire, SMC NBEX shall have full responsibility in all aspects of the operation and maintenance of the NBEX Project and shall collect the regulated and other fees generated from it and from the end users. To guarantee faithful performance of its obligation in respect to the operation and maintenance of the NBEX Project, SMC NBEX shall post in favor of the PGB an OMPS amounting to P100, which must be valid for the entire concession period of 35 years.

4. SMC NBEX shall finance the cost of the NBEX Project, while maintaining a debt-to-equity ratio of 70:30.

5. SMC NBEX shall enter into an interoperability agreement with the concessionaire/s and operator/s of other existing toll road projects within three months from issuance of the Toll Operation Permit.

6. SMC NBEX shall remit to the PGB the Province Earnings Share of 70% of the net income of the NBEX Project after SMC NBEX has achieved Return of Investment based on the NBEX Project's free cash flows. The Province Earnings Share shall be remitted quarterly after the date of issuance of Toll Operation Permit and every year thereafter until the end of the concession period.

7. At the end of the concession period, SMC NBEX shall transfer the ownership to the PGB without lien and encumbrance in an operational/serviceable condition as provided for by the TCA. On the transfer date, SMC NBEX shall deliver the Warranty Security, amounting to P100, which shall be valid for a period of one year from the turnover of the facilities.

xiii. TPLEX Extension

On July 3, 2024, TPLEXE was awarded by the Government of the ROP, through the DPWH, rights to the financing, design, construction, operation and maintenance of the TPLEX Extension Project under a BOT scheme under RA No. 6957, as amended by the RA No. 7718, and its Implementing Rules and Regulations.

The TPLEX Extension Project is comprised of a 59.4 km toll road from Rosario, La Union to San Juan, La Union, with four travel lanes, divided into three segments: (1) Rosario-Tubao; (2) Tubao-Naguilian and (3) Naguilian-San Juan. There shall be five interchanges located at: (1) Rosario, La Union; (2) Tubao, La Union; (3) Naguilian, La Union; (4) Bauang, La Union and (5) San Juan, La Union; inclusive of civil works, toll facilities and toll system of the toll road.

Ownership of land assets acquired for the TPLEX Extension Project shall be transferred to the ROP periodically and within a reasonable time after their acquisition. Ownership of all facilities and other improvements forming part of the TPLEX Extension Project shall be transferred to the ROP only upon the expiration of the concession period.

The concession period for the TPLEX Extension Project shall be 34 years commencing from the effectivity date of the STOA.

The TPLEX Extension Project is currently undergoing right-of-way acquisition. The Detailed Engineering Design has been submitted to the Grantor and is currently awaiting review and approval.

- *Water Concession Agreements*

i. Bulacan Bulk Water Supply Project

On December 7, 2015, MWSS issued a NOA to SMC - K-water Consortium (the Consortium) awarding the Bulacan Bulk Water Supply Project. In accordance with the NOA, the LCWDC was registered by the Consortium as the concessionaire.

On January 15, 2016, a Concession Agreement was executed between MWSS and LCWDC for a 30-year period, subject to extensions as may be provided under the Concession Agreement. The Bulacan Bulk Water Supply Project shall comprise of the supply of treated bulk water, planning, financing, development, design, engineering and construction of facilities including the management, operation and maintenance to alleviate the chronic water shortage and provide potable water needs of the province of Bulacan.

On January 24, 2019, LCWDC commenced operations upon issuance of the Certificate of Final Acceptance by the MWSS for the completion of all works required under Stage 1 of the Bulacan Bulk Water Supply Project.

On April 25, 2019, MWSS issued the Certificate of Final Acceptance for Stage 2 of the Bulacan Bulk Water Supply Project.

Upon issuance of the Certificate of Final Acceptance by MWSS for completion of all works for Stage 1, LCWDC officially commenced its operations and started delivery of potable bulk water to the first seven Water Districts of Bulacan. Thereafter, on April 24, 2020, LCWDC successfully completed Stages 1 & 2 of the Bulacan Bulk Water Supply Project and delivered potable bulk water to 12 Water Districts.

Other salient features of the Concession Agreement are as follows:

1. LCWDC shall pay annual water rights fee to the Provincial Government of Bulacan amounting to P5 for the first five years of operation, subject to adjustment based on the Concession Agreement starting on the sixth contract year onwards.

2. LCWDC shall pay an annual Concession Fee and Operation and Maintenance Fee to MWSS amounting to the equivalent of 2.5% of the Annual Gross Revenue of LCWDC and P5, respectively.

3. MWSS and the Water Service Providers (WSPs) of the Province of Bulacan entered a Memoranda of Understanding where the parties agreed to cooperate with each other towards the successful implementation of the Bulacan Bulk Water Supply Project. Pursuant thereto, MWSS, LCWDC, and the individual WSPs for Stages 1 & 2 have entered into individual MOAs where the MWSS, through LCWDC, has committed to supply the potable bulk water and the WSPs have agreed to accept the water and/or pay the Bulk Water Charges at the rate of Eight Pesos and Fifty Centavos plus VAT, subject to certain adjustments as provided under the Concession Agreement and the MOA.

4. LCWDC utilized the National Housing Authority (NHA) site for the water treatment facility. The NHA site is a 5.5 hectares property located at Pleasant Hills, San Jose Del Monte, Bulacan intended as the site for the water treatment facility. LCWDC paid in staggered cash in the aggregate amount of P165.

5. At the end of the concession period, LCWDC shall transfer the facilities to MWSS in the condition required for turnover as described in the Minimum Performance Standards and Specifications of the Concession Agreement.

ii. Obando Water Project

On October 12, 2017, OWCI entered into a Concession Agreement with OWD. The Concession Agreement sets forth the rights and obligations of OWCI as concessionaire throughout the 25-year concession period. The OWD will monitor and review the performance of the concessionaire during the concession period.

Under the Agreement, OWD grants OWCI (as contractor to perform certain functions and as agent for the exercise of certain rights and powers under PD No. 564), the sole right to manage, operate, maintain, repair, refurbish and expand the fixed and movable assets required to provide water and sanitation services in the entire Municipality of Obando for a period of 25 years commencing on January 1, 2018 until December 31, 2042 or the early termination date as the case may be.

While OWCI has the right to manage, operate, repair and refurbish specified OWD facilities in the service area, legal title to these assets remains with the OWD. The legal title to all fixed assets contributed to the existing OWD system by OWCI during the concession period remains with OWCI until the Expiration Date (or the early termination date) at which time all rights, titles and interest in such assets will automatically vest in OWD.

The initial water tariff, exclusive of VAT and/or any applicable tax, to be charged to the customers for the first three years of the Concession Agreement shall be based on the 2005 Local Water Utilities Administration (LWUA) approved tariff table of OWD.

Under the Concession Agreement, in the event that one or more grounds for extraordinary price adjustment has occurred or is expected to occur, an appropriate price adjustment to be applied to the tariff or an appropriate adjustment to the service obligations of the concessionaire will be determined by OWD.

Grounds for extraordinary price adjustment means any of the following circumstances:

a. Change in law or change in the interpretation of the terms of the Concession Agreement;

b. Extraordinary cost incurred due to prolonged force majeure;

c. A material change has been made to the basis of calculation or definition of the Consumer Price Index or replacement index agreed;

d. Change in assumptions at the time of the execution of the Agreement; and

e. The concessionaire has incurred significant additional costs as a result of an event of force majeure which are not covered by insurance.

In 2023, the following provisions in the Concession Agreement were amended:

- Deferral of certain service obligations on continuity of supply, water availability and pressure, non-revenue water reduction, and supply of sanitation services and septage management system;
- Exclusion of the island barangays from the service area;
- Correction on provision of water other than through a water main and base and additional concession fee;
- Adjustment on the disconnection, performance security, tariff schedule and amendment on the extraordinary price adjustment;
- Adjustment for failure to meet service obligations and addition of formula for the early termination amount; and
- Basis of franchise tax has shifted from OWCI's gross receipt to OWD's gross receipt to align with BIR regulations.

iii. Bulakan Water Project

On June 14, 2019, BWCI entered into a Concession Agreement with BWD. The Concession Agreement sets forth the rights and obligations of BWCI as concessionaire throughout the 25-year concession period. BWD will monitor and review the performance of the concessionaire during the concession period.

Under the Concession Agreement, BWD grants BWCI, (as contractor to perform certain functions and as agent for the exercise of certain rights and powers), the sole right to manage, operate, maintain, repair, refurbish and expand, and as appropriate, decommission, the facilities in the entire Municipality of Bulakan for a period of 25 years commencing on June 14, 2019 until June 13, 2044 or the early termination date as the case may be.

While BWCI has the right to manage, operate, repair and refurbish specified BWD facilities in the service area, legal title to these assets remains with the BWD. The legal title to all fixed assets contributed to the existing BWD system by BWCI during the concession period remains with BWCI until the Expiration Date (or the early termination date) at which time all rights, titles and interest in such assets will automatically vest in BWD.

The water tariff, exclusive of VAT and/or any applicable tax, to be charged to the customers is adjusted based on the agreed tariff escalation clause under the Concession Agreement.

Under the Concession Agreement, in the event that one or more grounds for extraordinary price adjustment has occurred or is expected to occur, an appropriate price adjustment to be applied to the tariff or an appropriate adjustment to the service obligations of the concessionaire will be determined by BWD.

Grounds for extraordinary price adjustment means any of the following circumstances:

- Change in law or change in the interpretation of the terms of the Concession Agreement;
- Any event of force majeure;
- A material change has been made to the basis of calculation or definition of the Consumer Price Index or replacement index;
- The business assumptions of the concessionaire have proven to be incorrect in a material way; or

- The concessionaire has incurred significant additional costs as a result of an event of force majeure which are not covered by insurance.

On November 21, 2022, BWD received a tariff approval letter from LWUA approving the 43% tariff increase effective December 2022 (December 2022 consumption; January 2023 Billing). This is in accordance with the LWUA Board Resolution No. 55, Series of 2022 dated November 11, 2022.

As a result of the above terms of the Concession Agreement, BWCI recognized service concession asset and service concession obligation, on the commencement date.

On August 14, 2024, through its Board Resolution No. 030, Series 2024, BWD approved the adjusted timeline for the fulfillment of the service obligations of BWCI under the Concession Agreement.

- Food and Beverage

  - *Toll Agreements*

    The significant subsidiaries of SMFB have entered into toll processing with various contract growers, breeders, contractors and processing plant operators (collectively referred to as the "Parties"). The terms of the agreements include the following, among others:

    - The Parties have the qualifications to provide the contracted services and have the necessary manpower, facilities and equipment to perform the services contracted.

    - Tolling fees paid to the Parties are based on the agreed rate per acceptable output or processed product. The fees are normally subject to review in cases of changes in costs, volume and other factors.

    - The periods of the agreement vary. Negotiations for the renewal of any agreement generally commence six months before expiry date.

    Total tolling expenses included as part of "Cost of sales" account in the consolidated statements of income amounted to P5,715, P5,777 and P5,825 in 2025, 2024 and 2023, respectively (Note 28).

- Cement

  - *Mineral Production Sharing Agreement (MPSA)*

    NCC, ECC and its subsidiaries have the following existing MPSAs granted by the Philippine Government through the Mines and Geosciences Bureau (MGB) and the DENR. Details of the MPSA are as follows:

    i. NCC

MPSA No.	Location	Date of Issuance
106-98-1	Labayug, Sison, Pangasinan	March 12, 1998

    The MPSA has an initial term of 25 years from the date of issuance and an approved renewal of another 25 years or until March 12, 2048.

    NCC has the following key commitments under its MPSA:

    - The Philippine Government share shall be the excise tax on mineral products at the time of removal and at the rate provided for in RA No. 7729 amending Section 151 (a) of the Revised National Internal Revenue Code (NIRC), as well as other taxes, duties and fees levied by existing laws.

      Excise taxes paid to the Philippine Government aggregated to P16, P15 and P14 in 2025, 2024 and 2023, respectively.

- Allotment of a minimum of 1.50% of the direct drilling and milling costs necessary to implement the activities for community development.

  Allotment made amounted to P8 in 2025 and 2024.

ii. ECC and subsidiaries

MPSA No.	Location	Date of Issuance/Renewal
245-2007-III	Dona Remedios Trinidad and San Ildefonso, Bulacan	July 25, 2007
181-2002-III	Akle, San Ildefonso, Bulacan	June 20, 2022
161-00-III	Akle, San Ildefonso, Bulacan	September 12, 2000
100-97-VII	Ginatilan, Cebu	December 29, 1997
101-97-VII	Ginatilan and Malabuyoc, Cebu	December 29, 1997
059-96-VII	Lo-oc, Malabuyoc, Cebu	August 6, 2020
060-96-VII	Lo-oc, Malabuyoc, Cebu	August 6, 2020

The MPSAs have a term of 25 years from the issuance date and may be renewed thereafter for another term not exceeding 25 years. On August 6, 2020, the MGB approved the extension of the terms of the MPSAs 059-96-VII and 060-96-VII in Cebu sites for a period of nine years until November 18, 2030.

In 2024, ECC secured a 25-year extension for its MPSA 181-2002-III. Furthermore, ECC began commercial operations under MPSA 245-2007-III after receiving approval for its mining plan. Consequently, additional provision for MRO amounting to P34 was recognized (Note 14).

In August 2022, ECC applied for an extension of the term of MPSAs 100-97-VII and 101-97-VII from Cebu sites. As at December 31, 2025, ECC has not yet received the approval for the extension.

ECC and subsidiaries have the following key commitments under the MPSAs:

- Payment to the Philippine Government of 4% excise tax of the market value of the minerals or mineral products extracted from the area and annual occupation fee based on the rate provided in the existing rules and regulations.

  Excise taxes paid to the Philippine Government amounted to P58, P48, and P61 in 2025, 2024 and 2023, respectively.

- Allotment of a minimum of 1% of the direct drilling and milling costs necessary to implement the activities for community development.

  Pursuant to Administrative Order No. 2010-21: "Revised Implementing Rules and Regulations of RA No. 7942, otherwise known as the Philippine Mining Act of 1995," the allotment for community development activities was revised to 1.5% of the operating costs.

  Allotment for community development activities amounted to P19, P14 and P7 in 2025, 2024 and 2023, respectively.

As at December 31, 2025, ECC and subsidiaries are compliant with the foregoing commitments and obligations.

Lease Commitments

- Group as Lessor

The Group has entered into operating leases on its investment property portfolio, consisting of certain service stations and other related structures, machinery and equipment, surplus office spaces as well as leased property (Note 16). These non-cancellable leases will expire up to year 2038. All leases include a clause to enable upward revision of the rental charge on an annual basis based on prevailing market conditions.

The future minimum lease receipts under non-cancellable operating leases are as follows:

	2025	2024
Within one year	**P3,162**	P1,929
More than one to two years	**1,471**	1,116
More than two to three years	**1,226**	872
More than three to four years	**927**	882
More than four to five years	**1,058**	725
More than five years	**10,017**	8,272
	P17,861	P13,796

Rent income recognized in the consolidated statements of income amounted to P2,567, P2,284 and P2,004 in 2025, 2024 and 2023, respectively (Note 34). Income from sub-leasing recognized in the consolidated statements of income amounted to P1,867, P1,696 and P1,608 in 2025, 2024 and 2023, respectively.

37. Retirement Plans

The Parent Company and majority of its subsidiaries have funded, noncontributory, defined benefit retirement plans (collectively, the Retirement Plans) covering all of their permanent employees. The Retirement Plans of the Parent Company and majority of its subsidiaries pay out benefits based on final pay. Contributions and costs are determined in accordance with the actuarial studies made for the Retirement Plans. Annual cost is determined by using the projected unit credit method. Majority of the Group's latest actuarial valuation date is December 31, 2025. Valuations are obtained on a periodic basis.

Majority of the Retirement Plans are registered with the BIR as tax-qualified plans under RA No. 4917, as amended. The control and administration of the Group's Retirement Plans are vested in the Board of Trustees of each Retirement Plan. The majority of the Board of Trustees of the Group's Retirement Plans who exercises voting rights over the shares and approves material transactions are employees and/or officers of the Parent Company and its subsidiaries. The Retirement Plans' accounting and administrative functions are undertaken by the Retirement Funds Office of the Parent Company.

The following table shows a reconciliation of the net defined benefit retirement liability and its components:

	Fair Value of Plan Assets		Present Value of Defined Benefit Retirement Obligation		Effect of Asset Ceiling		Net Defined Benefit Retirement Liability	
	2025	2024	**2025**	2024	**2025**	2024	**2025**	2024
Balance at beginning of year	**P27,248**	P25,908	**(P39,710)**	(P36,620)	**(P11)**	(P2)	**(P12,473)**	(P10,714)

	(3)	143	**3,647**	3,149	**-**	-	**3,644**	3,292
Balance at end of year	**P30,634**	P27,248	**(P41,229)**	(P39,710)	**(P546)**	(P11)	**(P11,141)**	(P12,473)

The Group's annual contribution to the Retirement Plans consists of payments covering the current service cost plus amortization of unfunded past service liability.

Retirement costs recognized as part of "Personnel expenses" in the consolidated statements of income by the Parent Company amounted to P147, P113 and P89 in 2025, 2024 and 2023, respectively (Note 31).

Retirement costs recognized as part of "Personnel expenses" in the consolidated statements of income by the subsidiaries amounted to P2,252, P1,975 and P1,698 in 2025, 2024 and 2023, respectively (Note 31). Certain subsidiaries made amendments to their respective Retirement Plans in terms of the percentage of final pay based on the adjusted credited years of service. As a result, the Group recognized past service costs amounting to P121, P9 and P2 in 2025, 2024 and 2023, respectively.

The net interest expense on the defined benefit retirement liability recognized as part of "Interest expense and other financing charges" account in the consolidated statements of income by the Parent Company amounted to P28, P14 and P75 in 2025, 2024 and 2023, respectively (Note 32).

The net interest expense on the defined benefit retirement liability recognized as part of "Interest expense and other financing charges" and "Interest income" accounts in the consolidated statements of income by the subsidiaries amounted to P705, P624 and P557 in 2025, 2024 and 2023, respectively (Notes 32 and 33).

As at December 31, 2025, net retirement assets and liabilities, included as part of "Prepaid expenses and other current assets" and "Other noncurrent assets - net" accounts, amounted to P6 and P1,317, respectively (Notes 11 and 20) and under "Accounts payable and accrued expenses" and "Other noncurrent liabilities" accounts, amounted to P104 and P12,360, respectively (Notes 22 and 24).

As at December 31, 2024, net retirement assets and liabilities, included as part of "Other noncurrent assets - net" account, amounted to P77 (Note 20) and under "Accounts payable and accrued expenses" and "Other noncurrent liabilities" accounts, amounted to P170 and P12,380, respectively (Notes 22 and 24).

The carrying amounts of the Group's retirement fund approximate fair values as at December 31, 2025 and 2024.

The Group's plan assets consist of the following:

	In Percentages	
	2025	2024
Investments in marketable securities and shares of stock	**76.71**	80.51
Investments in pooled funds:		
Fixed income portfolio	**2.23**	3.59
Stock trading portfolio	**0.74**	0.74
Investments in real estate	**3.30**	2.60
Others	**17.02**	12.56

Investments in Marketable Securities

As at December 31, 2025, the plan assets include:

- 51,071,325 common shares and 9,782,770 Subseries "2-I", 2,995,200 Subseries "2-L", 7,441,600 Subseries "2-N", 3,873,600 Subseries "2-O", 4,561,800 Subseries "2-P", 144,750 Subseries "2-Q", 13,000 Subseries "2-R", 2,973,100 Subseries "2-S", 7,666,800 Subseries "2-T" and 7,136,000 Subseries "2-U" Preferred Shares of the Parent Company with fair market value per share of P82.00, P74.50, P79.00, P80.50, P81.00, P77.00, P77.80, P77.50, P77.80, P76.57 and P76.00, respectively;

- 373,201,500 common shares and 474,160 Series 3B, 13,390 Series 4A, 136,500 Series 4B, 736,500 Series 4C, 235,000 Series 4D and 286,000 Series 4E Preferred Shares of Petron with fair market value per share of P2.48, P1,005.00, P1,010.00, P1,000.00, P1,009.00, P998.00 and P1,015.00, respectively;

- 33,635,700 common shares of SMB with fair market value per share of P20.00;

- 19,154,430 common shares of GSMI with fair market value per share of P295.00;

- 25,324,900 common shares of SMFB with fair market value per share of P55.00;
- 300 common shares of SMPI with fair market value per share of P134.12;
- 5,997,311 common shares of Top Frontier with fair market value per share of P61.00;
- 435,246,160 common shares of BankCom with fair market value per share of P9.20; and
- investment in shares of stock of the PSE, other equity securities and bonds which amounted to P7,281.

As at December 31, 2024, the plan assets include:

- 45,227,625 common shares and 9,252,860 Subseries "2-F", 9,782,770 Subseries "2-I", 3,900,620 Subseries "2-J", 4,008,450 Subseries "2-K", 2,995,200 Subseries "2-L", 7,441,600 Subseries "2-N" and 3,873,600 Subseries"2-O" Preferred Shares of the Parent Company with fair market value per share of P86.00, P73.30, P72.25, P71.90, P70.00, P77.65, P79.70 and P82.30, respectively;
- 832,357,597 common shares and 474,160 Series 3B, 136,500 Series 4B, 736,500 Series 4C, 235,000 Series 4D and 286,000 Series 4E Preferred Shares of Petron with fair market value per share of P2.43, P1,030.00, P1,020.00, P1,043.00, P1,050.00 and P1,050.00, respectively;
- 33,635,700 common shares of SMB with fair market value per share of P20.00;
- 19,154,430 common shares of GSMI with fair market value per share of P275.00;
- 25,304,900 common shares of SMFB with fair market value per share of P52.75;
- 300 common shares of SMPI with fair market value per share of P134.12;
- 5,997,311 common shares of Top Frontier with fair market value per share of P63.10;
- 435,246,060 common shares of BankCom with fair market value per share of P6.75; and
- investment in shares of stock of the PSE, other equity securities and bonds which amounted to P8,233.

The fair market value per share of the above marketable securities is determined based on quoted market prices in active markets as at the reporting date (Note 4).

The Group's Retirement Plans recognized a gain on the investment in marketable securities of Top Frontier, Parent Company and its subsidiaries amounting to P1,467, P382 and P2,180 in 2025, 2024 and 2023, respectively.

Dividend income from the investment in shares of stock of the Parent Company and its subsidiaries amounted to P1,157, P956 and P618 in 2025, 2024 and 2023, respectively.

Investments in Shares of Stock
The Group's plan assets also include San Miguel Brewery Inc. Retirement Plan's investment in 8,608,494 preferred shares of stock of BPI (inclusive of nominee shares), accounted for under the cost method since cost approximates fair value, amounting to P859 as at December 31, 2025 and 2024.

Investments in Pooled Funds
Investments in pooled funds were established mainly to put together a portion of the funds of the Retirement Plans of the Group to be able to draw, negotiate and obtain the best terms and financial deals for the investments resulting from big volume transactions.

The Board of Trustees approved the percentage of asset to be allocated to fixed income instruments and equities. The Retirement Plans have set maximum exposure limits for each type of permissible investment in marketable securities and deposit instruments. The Board of Trustees may, from time to time, in the exercise of its reasonable discretion and taking into account existing investment opportunities, review and revise such allocation and limits.

Approximately 84% and 86% of the Retirement Plans' investments in pooled funds in stock trading portfolio include investments in shares of stock of the Parent Company and its subsidiaries as at December 31, 2025 and 2024, respectively.

Approximately 32% and 58% of the Retirement Plans' investments in pooled funds in fixed income portfolio include investments in shares of stock of the Parent Company and its subsidiaries as at December 31, 2025 and 2024, respectively.

Investments in Real Estate
The Retirement Plans of the Group have investments in real estate properties as at December 31, 2025 and 2024. The fair value of investment property amounted to P1,328 and P989 as at December 31, 2025 and 2024, respectively.

Others
Others include the Retirement Plans' investments in trust account, government securities, bonds and notes, cash and cash equivalents and receivables which earn interest. Investment in trust account represents funds entrusted to a financial institution for the purpose of maximizing the yield on investible funds.

The Board of Trustees reviews the level of funding required for the retirement fund. Such a review includes the asset-liability matching (ALM) strategy and investment risk management policy. The Group's ALM objective is to match maturities of the plan assets to the defined benefit retirement obligation as they fall due. The Group monitors how the duration and expected yield of the investments match the expected cash outflows arising from the retirement benefit obligation. The Group is expected to contribute P3,016 to the Retirement Plans in 2026.

The Retirement Plans expose the Group to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk as follows:

Investment and Interest Rate Risks. The present value of the defined benefit retirement obligation is calculated using a discount rate determined by reference to market yields to government bonds. Generally, a decrease in the interest rate of a reference government bond will increase the defined benefit retirement obligation. However, this will be partially offset by an increase in the return on the Retirement Plans' investments and if the return on plan asset falls below this rate, it will create a deficit in the Retirement Plans. Due to the long-term nature of the defined benefit retirement obligation, a level of continuing equity investments is an appropriate element of the long-term strategy of the Group to manage the Retirement Plans efficiently.

Longevity and Salary Risks. The present value of the defined benefit retirement obligation is calculated by reference to the best estimates of: (1) the mortality of the plan participants; and (2) the future salaries of the plan participants. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the defined benefit retirement obligation.

The overall expected rate of return is determined based on historical performance of the investments.

The principal actuarial assumptions used to determine retirement benefits are as follows:

	In Percentages	
	2025	2024
Discount rate	**2.70 - 6.59**	3.50 - 7.00
Salary increase rate	**3.00 - 8.00**	3.00 - 8.00

Assumptions for mortality and disability rates are based on published statistics and mortality and disability tables.

The weighted average duration of defined benefit retirement obligation ranges from 2.10 to 18.10 years and 2.30 to 19.40 years as at December 31, 2025 and 2024, respectively.

As at December 31, 2025 and 2024, the reasonably possible changes to one of the relevant actuarial assumptions, while holding all other assumptions constant, would have affected the defined benefit retirement obligation by the amounts below:

	Defined Benefit Retirement Obligation			
	2025		2024	
	1 Percent Increase	**1 Percent Decrease**	1 Percent Increase	1 Percent Decrease
Discount rate	**(P1,977)**	**P2,339**	(P1,972)	P2,326
Salary increase rate	**2,738**	**(2,422)**	2,640	(2,333)

The outstanding balances of the Group's receivable from the retirement plans are as follows:

a. The Parent Company has advances to and receivables from SMCRP amounting to P6,064 and P6,311 as at December 31, 2025 and 2024, respectively, included as part of "Amounts owed by related parties" under "Trade and other receivables - net" account in the consolidated statements of financial position (Notes 8 and 35). Portion of the advances are subject to 5.75% interest per annum in 2025 and 2024. Interest income earned from the advances amounted to P182, P189 and P188 in 2025, 2024 and 2023, respectively (Notes 33 and 35).

b. Petron has advances to PCERP amounting to P982 as at December 31, 2024, included as part of "Amounts owed by related parties" under "Trade and other receivables - net" account in the consolidated statements of financial position, which was fully paid on March 20, 2025 (Notes 8 and 35). Portion of the advances are subject to interest per annum of 5% in 2025 and 2024. Interest income earned from the advances amounted to P10 in 2025, P45 in 2024 and 2023 (Notes 33 and 35).

Transactions with the Retirement Plans are made at normal market prices and terms. Outstanding balances as at December 31, 2025 and 2024 are unsecured and settlements are made in cash. There have been no guarantees provided for any retirement plan receivable. The Group has not made any provision for impairment losses relating to the receivables from the Retirement Plans in 2025, 2024 and 2023.

38. Dividends and Distributions

Dividends

The BOD of the Parent Company approved the declaration and payment of the following cash dividends for common and preferred shares as follows:

2025

	November 7, 2024	December 20, 2024	January 3, 2025	1.611300

On January 15, 2026, the BOD of the Parent Company declared cash dividends to all preferred shareholders of record as at March 20, 2026 the following shares to be paid on March 30, 2026, as follows:

Class of Shares	Dividends Per Share
SMC2I	P1.18790625
SMC2L	1.48396875
SMC2M	1.5703125
SMC2N	1.5649875
SMC2O	1.6113
SMC2P	1.3059375
SMC2Q	1.3605
SMC2R	1.413
SMC2S	1.3059375
SMC2T	1.3605
SMC2U	1.413

On March 12, 2026, the BOD of the Parent Company declared cash dividends at P0.35 per share to all common shareholders of record as at March 30, 2026 to be paid on April 17, 2026.

Distributions

The Parent Company declared and paid P2,122 and P2,102 to the holders of SPCS in 2025 and 2024, respectively, as distributions in accordance with the terms and conditions of their respective separate subscription agreements with the Parent Company.

39. Basic and Diluted Earnings Per Common Share

Basic and diluted EPS is computed as follows:

	Note	**2025**	2024	2023
Net income (loss) attributable to equity holders of the Parent Company		**P41,291**	(P7,411)	P198
Dividends on preferred shares	*26, 38*	**(7,500)**	(7,416)	(4,185)
Distributions on capital securities	*26, 38*	**(1,247)**	(2,102)	(2,007)
Net income (loss) attributable to common shareholders of the Parent Company (a)		**P32,544**	(P16,929)	(P5,994)
Weighted average number of common shares outstanding (in millions) - basic and diluted (b)		**2,384**	2,384	2,384
Basic and diluted earnings (loss) per common share attributable to equity holders of the Parent Company (a/b)		**P13.65**	(P7.10)	(P2.51)

Earnings (loss) per common share is computed based on amounts in nearest Peso.

As at December 31, 2025, 2024 and 2023, the Parent Company has no dilutive debt or equity instruments.

40. Supplemental Cash Flow Information

Supplemental information with respect to the consolidated statements of cash flows is presented below:

a. Changes in current assets, certain current liabilities and others are as follows (amounts reflect actual cash flows rather than increases or decreases of the accounts in the consolidated statements of financial position):

	2025	2024	2023
Trade and other receivables - net	**(P14,251)**	(P1,561)	(P24,104)

41. Financial Risk and Capital Management Objectives and Policies

Objectives and Policies

The Group has significant exposure to the following financial risks primarily from its use of financial instruments:

- Market Risk (Interest Rate Risk, Foreign Currency Risk and Commodity Price Risk)
- Liquidity Risk
- Credit Risk

This note presents information about the exposure to each of the foregoing risks, the objectives, policies and processes for measuring and managing these risks, and for management of capital.

The principal non-trade related financial instruments of the Group include cash and cash equivalents, financial assets at FVPL, investments in equity and debt instruments, restricted cash, short-term and long-term loans, dividends and distributions payable and derivative instruments. These financial instruments, except financial assets at FVPL and derivative instruments, are used mainly for working capital management purposes. The trade-related financial assets and financial liabilities of the Group such as trade and other receivables, noncurrent receivables and deposits, accounts payable and accrued expenses, lease liabilities and other noncurrent liabilities arise directly from and are used to facilitate its daily operations.

The outstanding derivative instruments of the Group such as options, forwards and swaps are intended mainly for risk management purposes. The Group uses derivatives to manage its exposures to foreign currency, interest rate and commodity price risks arising from the operating and financing activities. The accounting policies in relation to derivatives are set out in Note 3 to the consolidated financial statements.

The BOD has the overall responsibility for the establishment and oversight of the risk management framework of the Group.

The risk management policies of the Group are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The BOD constituted the Audit and Risk Oversight Committee to assist the BOD in fulfilling its oversight responsibility of the Group's corporate governance process relating to the: a) quality and integrity of the consolidated financial statements and financial reporting process and the systems of internal accounting and financial controls; b) performance of the internal auditors; c) annual independent audit of the consolidated financial statements, the engagement of the independent auditors and the evaluation of the independent auditors' qualifications, independence and performance; d) compliance with tax, legal and regulatory requirements; e) evaluation of management's process to assess and manage the enterprise risk issues; and f) fulfillment of the other responsibilities set out by the BOD. The Audit and Risk Oversight Committee shall prepare such reports as may be necessary to document the activities of the committee in the performance of its functions and duties. Such reports shall be included in the annual report of the Group and other corporate disclosures as may be required by the SEC and/or the PSE.

The Audit and Risk Oversight Committee also oversees how management monitors compliance with the risk management policies and procedures of the Group and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. Internal Audit assists the Audit and Risk Oversight Committee in monitoring and evaluating the effectiveness of the risk management and governance processes of the Group. Internal Audit undertakes both regular and special reviews of risk management controls and procedures, the results of which are reported to the Audit and Risk Oversight Committee.

Interest Rate Risk

Interest rate risk is the risk that future cash flows from a financial instrument (cash flow interest rate risk) or its fair value (fair value interest rate risk) will fluctuate because of changes in market interest rates. The Group's exposure to changes in interest rates relates primarily to the long-term borrowings and investment securities. Investment securities acquired or borrowings issued at fixed rates expose the Group to fair value interest rate risk. On the other hand, investment securities acquired or borrowings issued at variable rates expose the Group to cash flow interest rate risk.

The Group manages its interest cost by using an optimal combination of fixed and variable rate debt instruments. The management is responsible for monitoring the prevailing market-based interest rate and ensures that the mark-up rates charged on its borrowings are optimal and benchmarked against the rates charged by other creditor banks.

On the other hand, the investment policy of the Group is to maintain an adequate yield to match or reduce the net interest cost from its borrowings pending the deployment of funds to their intended use in the operations and working capital management. However, the Group invests only in high-quality securities while maintaining the necessary diversification to avoid concentration risk.

In managing interest rate risk, the Group aims to reduce the impact of short-term fluctuations on the earnings. Over the longer term, however, permanent changes in interest rates would have an impact on profit or loss.

The management of interest rate risk is also supplemented by monitoring the sensitivity of the Group's financial instruments to various standard and non-standard interest rate scenarios.

The Group uses interest rate swaps as hedges of the variability in cash flows attributable to movements in interest rates. The Group applies a hedge ratio of 1:1 and determines the existence of an economic relationship between the hedging instrument and hedged item based on the reference interest rates, tenors, repricing dates and maturities, and notional amounts. The Group assesses whether the derivative designated in the hedging relationship is expected to be effective in offsetting changes in cash flows of the hedged item using the hypothetical derivative method.

The following are the main sources of ineffectiveness in the hedge relationships:

- the effect of the counterparty's and the Group's own credit risk on the fair value of the derivative contracts, which is not reflected in the change in the fair value of the hedged cash flows attributable to the change in interest rates; and

- changes in the timing of the hedged transactions.

Interest Rate Risk Table

The terms and maturity profile of the interest-bearing financial instruments, together with its gross amounts, are shown in the following tables:

December 31, 2025	**<1 Year**	**1-2 Years**	**>2-3 Years**	**>3-4 Years**	**>4-5 Years**	**>5 Years**	**Total**

December 31, 2024	<1 Year	1-2 Years	>2-3 Years	>3-4 Years	>4-5 Years	>5 Years	Total
Fixed Rate							
Philippine Peso-denominated	P69,559	P75,072	P111,758	P93,032	P81,440	P172,129	P602,990
Interest rate	3.284% - 9.635%	3.284% - 9.635%	3.5483% - 9.635%	3.5483% - 9.635%	3.5483% - 9.635%	4.8356% - 9.635%	
Foreign currency-denominated (expressed in Philippine Peso)	1,453	1,519	1,588	10,338	10,416	8,674	33,988
Interest rate	8.331%	8.331%	8.331%	6.55% - 8.331%	6.68% - 8.331%	8.331%	
Floating Rate							
Philippine Peso-denominated	1,895	2,923	4,045	4,383	10,936	29,632	53,814
Interest rate	BVAL + margin or applicable reference rate, whichever is higher	BVAL + margin or applicable reference rate, whichever is higher	BVAL + margin or applicable reference rate, whichever is higher	BVAL + margin or applicable reference rate, whichever is higher	BVAL + margin or applicable reference rate, whichever is higher	BVAL + margin or applicable reference rate, whichever is higher	
Foreign currency-denominated (expressed in Philippine Peso)	22,207	105,707	115,771	146,395	138,428	63,382	591,890
Interest rate	SOFR/ applicable reference rate + margin	SOFR/ applicable reference rate + margin	SOFR/ applicable reference rate + margin	SOFR/ applicable reference rate + margin	SOFR/ applicable reference rate + margin	SOFR/ applicable reference rate + margin	
	P95,114	P185,221	P233,162	P254,148	P241,220	P273,817	P1,282,682

The sensitivity to a reasonably possible 1% increase in the interest rates, with all other variables held constant, would have decreased the Group's profit before tax (through the impact on floating rate borrowings) by P7,189, P6,457 and P5,830 in 2025, 2024 and 2023, respectively. A 1% decrease in the interest rate would have had the equal but opposite effect. These changes are considered to be reasonably possible given the observation of prevailing market conditions in those periods. There is no impact on the Group's other comprehensive income.

Foreign Currency Risk

The functional currency is the Philippine Peso, which is the denomination of the bulk of the Group's transactions. The exposure to foreign currency risk results from significant movements in foreign exchange rates that adversely affect the foreign currency-denominated transactions of the Group. The risk management objective with respect to foreign currency risk is to reduce or eliminate earnings volatility and any adverse impact on equity. The Group enters into foreign currency hedges using a combination of non-derivative and derivative instruments such as foreign currency forwards, options or swaps to manage its foreign currency risk exposure.

Short-term currency forward contracts (deliverable and non-deliverable) and options are entered into to manage foreign currency risks arising from importations, revenue and expense transactions, and other foreign currency-denominated obligations. Currency swaps are entered into to manage foreign currency risks relating to long-term foreign currency-denominated borrowings.

Certain derivative contracts are designated as cash flow hedges. The Group applies a hedge ratio of 1:1 and determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of the cash flows. The Group assesses whether the derivatives designated in the hedging relationship is expected to be effective in offsetting changes in cash flows of the hedged item using the cumulative dollar-offset and hypothetical derivative method.

The following are the main sources of ineffectiveness in the hedge relationships:

- the effect of the counterparty's and the Group's own credit risk on the fair value of the derivative contracts, which is not reflected in the change in the fair value of the hedged cash flows attributable to the change in foreign exchange rates; and
- changes in the timing of the hedged transactions.

Information on the Group's foreign currency-denominated monetary assets and monetary liabilities and their Philippine Peso equivalents is as follows:

	December 31, 2025		December 31, 2024	
	US Dollar	**Peso Equivalent**	US Dollar	Peso Equivalent
Assets				
Cash and cash equivalents	**US$2,843**	**P167,215**	US$1,619	P93,731
Trade and other receivables	**826**	**48,518**	952	55,088
Prepaid expenses and other current assets	**27**	**1,544**	18	1,046
Noncurrent receivables	**40**	**2,460**	37	2,184
	3,736	**219,737**	2,626	152,049
Liabilities				
Loans payable	**721**	**42,416**	720	41,661
Accounts payable and accrued expenses	**2,553**	**150,092**	2,405	139,067
Long-term debt (including current maturities)	**11,719**	**688,926**	10,820	625,878
Lease liabilities (including current portion)	**232**	**13,659**	369	21,417
Other noncurrent liabilities	**11**	**657**	30	1,775
	15,236	**895,750**	14,344	829,798
Net foreign currency - denominated monetary liabilities	**US$11,500**	**P676,013**	US$11,718	P677,749

The Group reported net gain (loss) on foreign exchange amounting to (P8,709), (P20,514) and P2,485 in 2025, 2024 and 2023, respectively, with the translation of its foreign currency-denominated assets and liabilities (Note 34). These mainly resulted from the movements of the Philippine Peso against the US Dollar as shown in the following table:

	US Dollar to Philippine Peso
December 31, 2025	**P58.790**
December 31, 2024	57.845
December 31, 2023	55.370

The management of foreign currency risk is also supplemented by monitoring the sensitivity of the Group's financial instruments to various foreign currency exchange rate scenarios.

The following table demonstrates the sensitivity to a reasonably possible change in the US Dollar exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities) and the Group's equity (due to translation of results and financial position of foreign operations):

	P1 Decrease in the US Dollar Exchange Rate		P1 Increase in the US Dollar Exchange Rate	
December 31, 2025	**Effect on Income before Income Tax**	**Effect on Equity**	**Effect on Income before Income Tax**	**Effect on Equity**

	P11,618	**P8,809**	**(P11,618)**	**(P8,809)**

December 31, 2024	P1 Decrease in the US Dollar Exchange Rate: Effect on Income before Income Tax	P1 Decrease in the US Dollar Exchange Rate: Effect on Equity	P1 Increase in the US Dollar Exchange Rate: Effect on Income before Income Tax	P1 Increase in the US Dollar Exchange Rate: Effect on Equity
Cash and cash equivalents	(P1,454)	(P1,307)	P1,454	P1,307
Trade and other receivables	(431)	(898)	431	898
Prepaid expenses and other current assets	(10)	(15)	10	15
Noncurrent receivables	(34)	(28)	34	28
	(1,929)	(2,248)	1,929	2,248
Loans payable	425	612	(425)	(612)
Accounts payable and accrued expenses	1,874	2,387	(1,874)	(2,387)
Long-term debt (including current maturities)	10,786	8,123	(10,786)	(8,123)
Lease liabilities (including current portion)	277	301	(277)	(301)
Other noncurrent liabilities	28	23	(28)	(23)
	13,390	11,446	(13,390)	(11,446)
	P11,461	P9,198	(P11,461)	(P9,198)

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's foreign currency risk.

Commodity Price Risk

Commodity price risk is the risk that future cash flows from a financial instrument will fluctuate because of changes in commodity prices.

The Group enters into various commodity derivatives to manage its price risks on strategic commodities. Commodity hedging allows stability in prices, thus offsetting the risk of volatile market fluctuations. Through hedging, prices of commodities are fixed at levels acceptable to the Group, thus protecting raw material cost and preserving margins. For hedging transactions, if prices go down, hedge positions may show marked-to-market losses; however, any loss in the marked-to-market position is offset by the resulting lower physical raw material cost.

The Parent Company enters into commodity derivative transactions on behalf of its subsidiaries to reduce cost by optimizing purchasing synergies within the Group and managing inventory levels of common materials.

Commodity Swaps, Futures and Options. Commodity swaps, futures and options are used to manage the Group's exposures to volatility in prices of certain commodities such as fuel oil, crude oil, coal, aluminum, soybean meal and wheat.

Commodity Forwards. The Group enters into forward purchases of various commodities. The prices of the commodity forwards are fixed either through direct agreement with suppliers or by reference to a relevant commodity price index.

Liquidity Risk

Liquidity risk pertains to the risk that the Group will encounter difficulty to meet payment obligations when they fall due under normal and stress circumstances.

The Group's objectives to manage its liquidity risk are as follows: a) to ensure that adequate funding is available at all times; b) to meet commitments as they arise without incurring unnecessary costs; c) to be able to access funding when needed at the least possible cost; and d) to maintain an adequate time spread of refinancing maturities.

The Group constantly monitors and manages its liquidity position, liquidity gaps and surplus on a daily basis. A committed stand-by credit facility from several local banks is also available to ensure availability of funds when necessary. The Group also uses derivative instruments such as forwards and swaps to manage liquidity.

The table below summarizes the maturity profile of the Group's financial assets and financial liabilities based on contractual undiscounted receipts and payments used for liquidity management.

Credit Risk

Credit risk is the risk of financial loss to the Group when a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from trade and other receivables and investment securities. The Group manages its credit risk mainly through the application of transaction limits and close risk monitoring. It is the Group's policy to enter into transactions with a wide diversity of creditworthy counterparties to mitigate any significant concentration of credit risk.

The Group has regular internal control reviews to monitor the granting of credit and management of credit exposures.

Trade and Other Receivables

The exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, as these factors may have an influence on the credit risk.

The Group obtains collateral or arranges master netting agreements, where appropriate, so that in the event of default, the Group would have a secured claim.

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the standard payment and delivery terms and conditions are offered. The Group ensures that sales on account are made to customers with appropriate credit history. The Group has detailed credit criteria and several layers of credit approval requirements before engaging a particular customer or counterparty. The review includes external ratings, when available, and in some cases bank references. Purchase limits are established for each customer and are reviewed on a regular basis. Customers that fail to meet the benchmark creditworthiness may transact with the Group only on a prepayment basis.

Investment in Debt Instruments
The Group limits its exposure to credit risk by investing only in liquid debt instruments with counterparties that have high credit ratings. The Group monitors changes in credit risk by tracking published external credit ratings. To determine whether published ratings remain up to date and to assess whether there has been a significant increase in credit risk at the reporting date that has not been reflected in published ratings, the Group supplements this by reviewing changes in bond yields.

Credit Quality
In monitoring and controlling credit extended to counterparty, the Group adopts a comprehensive credit rating system based on financial and non-financial assessments of its customers. Financial factors being considered comprise the financial standing of the customer while the non-financial aspects include but are not limited to the assessment of the customer's nature of business, management profile, industry background, payment habit and both present and potential business dealings with the Group.

The credit quality of financial assets is being managed by the Group using internal credit ratings. Credit quality of the financial assets was determined as follows:

High grade includes deposits or placements to reputable banks and companies with good credit standing. High grade financial assets include cash and cash equivalents and derivative assets.

Standard grade pertains to receivables from counterparties with satisfactory financial capability and credit standing based on historical data, current conditions and the Group's view of forward-looking information over the expected lives of the receivables. Standard grade financial assets include trade and other receivables and noncurrent receivables and deposits.

Receivables with high probability of delinquency and default were fully provided with allowance for impairment losses.

Financial information on the Group's maximum exposure to credit risk, without considering the effects of collaterals and other risk mitigation techniques, is presented below.

	Note	**December 31, 2025**	December 31, 2024

	P196,886	P74,600	P10,838	P282,324

Various collaterals for trade receivables such as bank guarantees, time deposits and real estate mortgages are held by the Group for certain credit limits.

The Group believes that the unimpaired amounts that are past due by more than 30 days are still collectible based on historical payment behavior and analyses of the underlying customer credit ratings. There are no significant changes in their credit quality.

The Group computes impairment loss on receivables based on past collection experience, current circumstances and the impact of future economic conditions, if any, available at the reporting period (Note 4). There are no significant changes in the credit quality of the counterparties during the year.

The Group's cash and cash equivalents, derivative assets, investments in debt instruments and restricted cash are placed with reputable entities with high quality external credit ratings.

The Group's exposure to credit risk arises from default of counterparty. Generally, the maximum credit risk exposure of trade and other receivables and noncurrent receivables and deposits is its carrying amount without considering collaterals or credit enhancements, if any. The Group has no significant concentration of credit risk since the Group deals with a large number of homogenous counterparties.

The Group does not execute any credit guarantee in favor of any counterparty.

Financial and Other Risks Relating to Livestock

The Group is exposed to financial risks arising from the change in cost and supply of feed ingredients and the selling prices of chicken, hogs and related products, all of which are determined by constantly changing market forces such as supply and demand and other factors. The other factors include environmental regulations, weather conditions and livestock diseases for which the Group has little control. The mitigating factors are listed below:

- The Group is subject to risks affecting the food industry, generally, including risks posed by food spoilage and contamination. Specifically, the fresh meat industry is regulated by environmental, health and food safety organizations and regulatory sanctions. The Group has put into place systems to monitor food safety risks throughout all stages of manufacturing and processing to mitigate these risks. Furthermore, representatives from the government regulatory agencies are present at all times during the processing of dressed chicken and hogs in all dressing and meat plants and issue certificates accordingly. The authorities, however, may impose additional regulatory requirements that may require significant capital investment at short notice.

- The Group is subject to risks relating to its ability to maintain animal health status considering that it has no control over neighboring livestock farms. Livestock health problems could adversely impact production and consumer confidence. However, the Group monitors the health of its livestock on a daily basis and proper procedures are put in place.

- The livestock industry is exposed to risk associated with the supply and price of raw materials, mainly grain prices. Grain prices fluctuate depending on the harvest results. The shortage in the supply of grain will result in adverse fluctuation in the price of grain and will ultimately increase the Group's production cost. If necessary, the Group enters into forward contracts to secure the supply of raw materials at a reasonable price.

Other Market Price Risk

The Group's market price risk arises from its investments carried at fair value (financial assets at FVPL and FVOCI). The Group manages its risk arising from changes in market price by monitoring the changes in the market price of the investments.

Capital Management

The Group maintains a sound capital base to ensure its ability to continue as a going concern, thereby continue to provide returns to stockholders and benefits to other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

The Group manages its capital structure and makes adjustments in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay off existing debts, return capital to shareholders or issue new shares.

The Group monitors capital on the basis of debt-to-equity ratio, which is calculated as total debt divided by total equity. Total debt is defined as total current liabilities and total noncurrent liabilities, while equity is total equity as shown in the consolidated statements of financial position.

The BOD has overall responsibility for monitoring capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the external environment and the risks underlying the Group's business, operation and industry.

The Group, except for BankCom which is subject to certain capitalization requirements by the BSP, is not subject to externally imposed capital requirements.

42. Financial Assets and Financial Liabilities

The table below presents a comparison by category of the carrying amounts and fair values of the Group's financial instruments:

	December 31, 2025		December 31, 2024	
	Carrying Amount	**Fair Value**	Carrying Amount	Fair Value
Financial Assets				
Cash and cash equivalents	**P351,715**	**P351,715**	P293,677	P293,677
Trade and other receivables - net	**247,559**	**247,559**	266,981	266,981
Derivative assets (included under "Prepaid expenses and other current assets" and "Other noncurrent assets - net" accounts)	**3,664**	**3,664**	2,782	2,782
Financial assets at FVPL (included under "Prepaid expenses and other current assets" and "Investments in equity and debt instruments" accounts)	**886**	**886**	896	896
Financial assets at FVOCI (included under "Investments in equity and debt instruments" account)	**35,770**	**35,770**	8,988	8,988
Financial assets at amortized cost (included under "Prepaid expenses and other current assets" and "Investments in equity and debt instruments" accounts)	**12,205**	**12,205**	12,180	12,180
Noncurrent receivables and deposits - net (included under "Other noncurrent assets - net" account)	**6,155**	**6,155**	8,797	8,797
Restricted cash (included under "Prepaid expenses and other current assets" and "Other noncurrent assets - net" accounts)	**28,777**	**28,777**	23,822	23,822
Financial Liabilities				
Loans payable	**230,592**	**230,592**	293,230	293,230
Accounts payable and accrued expenses (excluding current retirement liabilities, derivative liabilities, IRO, ARO and deferred income)	**250,378**	**250,378**	285,456	285,456
Dividends and distributions payable	**4,639**	**4,639**	5,160	5,160
Derivative liabilities (included under "Accounts payable and accrued expenses" and "Other noncurrent liabilities" accounts)	**2,789**	**2,789**	2,017	2,017
Long-term debt (including current maturities)	**1,357,296**	**1,392,114**	1,267,269	1,306,606
Lease liabilities (including current portion)	**35,831**	**35,831**	42,545	42,545
Other noncurrent liabilities (excluding noncurrent retirement liabilities, derivative liabilities, IRO, ARO, MRO, deferred income and other noncurrent non-financial liabilities)	**5,641**	**5,641**	7,068	7,068

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

Cash and Cash Equivalents, Trade and Other Receivables, Financial Assets at Amortized Cost, Noncurrent Receivables and Deposits and Restricted Cash. The carrying amount of cash and cash equivalents and trade and other receivables approximates fair value primarily due to the relatively short-term maturities of these financial instruments. In the case of financial assets at amortized cost, noncurrent receivables and deposits and restricted cash, the fair value is based on the present value of expected future cash flows using the applicable discount rates based on current market rates of identical or similar quoted instruments.

Derivatives. The fair values of forward exchange contracts are calculated by reference to current forward exchange rates. In the case of freestanding currency and commodity derivatives, the fair values are determined based on quoted prices obtained from their respective active markets. Fair values for stand-alone derivative instruments that are not quoted from an active market and for embedded derivatives are based on valuation models used for similar instruments using both observable and non-observable inputs.

Financial Assets at FVPL and Financial Assets at FVOCI. The fair values of publicly traded instruments and similar investments are based on quoted market prices in an active market. For debt instruments with no quoted market prices, a reasonable estimate of their fair values is calculated based on the expected cash flows from the instruments discounted, using the applicable discount rates of comparable instruments quoted in active markets.

Loans Payable, Accounts Payable and Accrued Expenses and Dividends and Distributions Payable. The carrying amount of loans payable, accounts payable and accrued expenses and dividends and distributions payable approximates fair value due to the relatively short-term maturities of these financial instruments.

Long-term Debt, Lease Liabilities and Other Noncurrent Liabilities. The fair value of interest-bearing fixed rate loans is based on the discounted value of expected future cash flows using the applicable market rates for similar types of instruments as at the reporting date. Discount rates used for Philippine Peso-denominated loans range from 4.6% to 8.8% and 4.7% to 7.8% as at December 31, 2025 and 2024, respectively. The discount rates used for foreign currency-denominated loans range from 3.5% to 3.7% and 4.2% to 4.4% as at December 31, 2025 and 2024, respectively. The carrying amounts of floating rate loans with quarterly interest rate repricing approximate their fair values.

Derivative Financial Instruments

The Group's derivative financial instruments according to the type of financial risk being managed and the details of freestanding and embedded derivative financial instruments that are categorized into those accounted for as cash flow hedges and those that are not designated as accounting hedges are discussed below.

The Group enters into various foreign currency, interest rate and commodity derivative contracts to manage its exposure on foreign currency, interest rate and commodity price risks. The portfolio is a mixture of instruments including forwards, swaps and options.

Derivative Instruments Accounted for as Cash Flow Hedges

The Group designated the following derivative financial instruments as cash flow hedges:

	Maturity			
December 31, 2025	**1 Year or Less**	**> 1 Year - 2 Years**	**> 2 Years - 5 Years**	**Total**
Foreign currency risk:				
Non-deliverable call spreads:				
Notional amount	**US$40**	**US$40**	**US$935**	**US$1,015**
Average strike rate	**P51.35 to P55.40**	**P54.30 to P59.00**	**P55.35 to P61.845**	
Interest rate risk:				
Interest rate options:				
Notional amount	**US$225**	**US$ -**	**US$1,050**	**US$1,275**
Interest rate	**0.39% to 2.91%**	**-**	**0.50% to 6.25%**

Interest rate risk	**(79)**	**84**	516	(68)
Foreign currency and interest rate risks	**(400)**	**(597)**	75	(27)
Amount reclassified to profit or loss	**(731)**	**479**	(1,131)	276
Tax effect	**60**	**195**	(85)	178
Ending balance	**P200**	**(P1,647)**	P380	(P1,061)

Derivative Instruments Not Designated as Hedges

The Group enters into certain derivatives as economic hedges of certain underlying exposures. These include freestanding and embedded derivatives found in host contracts, which are not designated as accounting hedges. Changes in fair value of these instruments are accounted for directly in the consolidated statements of income. Details are as follows:

Freestanding Derivatives

Freestanding derivatives consist of interest rate, foreign currency and commodity derivatives entered into by the Group.

Interest Rate Swap

The Group has outstanding interest rate swap with notional amount of US$75 as at December 31, 2025 and 2024. Under the agreement, the Group receives floating interest rate based on SOFR and pays fixed interest rate up to 2026. The net positive fair value of the swap amounted to P15 and P32 as at December 31, 2025 and 2024, respectively.

Currency Forwards

The Group has outstanding foreign currency forward contracts with aggregate notional amount of US$1,322 and US$1,066 as at December 31, 2025 and 2024, respectively, and with various maturities in 2026 and 2025. The net negative fair value of these currency forwards amounted to P446 and P991 as at December 31, 2025 and 2024, respectively.

Currency Options

The Group has outstanding currency options with aggregate notional amount of US$1,003 and US$50 as at December 31, 2025 and 2024, respectively, and with various maturities in 2026 and 2025. The net negative fair value of these currency options amounted to P27 and P5 as at December 31, 2025 and 2024, respectively.

Commodity Swaps

The Group has outstanding swap agreements covering its fuel oil requirements, with various maturities up to 2027. Under the agreements, payment is made either by the Group or its counterparty for the difference between the hedged fixed price and the relevant price index.

The outstanding notional quantity of fuel oil was 116.5 million barrels an 100.6 million barrels as at December 31, 2025 and 2024, respectively. The net positive (negative) fair value of these swaps amounted to (P198) and P339 as at December 31, 2025 and 2024, respectively.

Embedded Derivatives

The Group's embedded derivatives include currency forwards embedded in non-financial contracts.

Embedded Currency Forwards
The total outstanding notional amount of currency forwards embedded innon-financial contracts amounted to US$118 and US$170 as at December 31, 2025 and 2024, respectively. These non-financial contracts consist mainly of foreign currency-denominated purchase orders, sales agreements and capital expenditures. The embedded forwards are not clearly and closely related to their respective host contracts. The net negative fair value of these embedded currency forwards amounted to P185 and P35 as at December 31, 2025 and 2024, respectively.

The Group recognized marked-to-market gain (loss) from freestanding and embedded derivatives amounting to (P1,008), P614 and (P1,379) in 2025, 2024 and 2023, respectively (Note 34).

Fair Value Changes on Derivatives
The net movements in fair value of all derivative instruments are as follows:

	2025	2024
Balance at beginning of year	**P765**	P1,187
Net change in fair value of derivatives:		
Designated as accounting hedge	**52**	1,751
Not designated as accounting hedge	**(1,008)**	614
	(191)	3,552
Less fair value of settled instruments	**(1,066)**	2,787
Balance at end of year	**P875**	P765

Fair Value Hierarchy
Financial assets and financial liabilities measured at fair value in the consolidated statements of financial position are categorized in accordance with the fair value hierarchy. This hierarchy groups financial assets and financial liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and financial liabilities (Note 3).

The table below analyzes financial instruments carried at fair value by valuation method:

	December 31, 2025			December 31, 2024		
	Level 1	**Level 2**	**Total**	Level 1	Level 2	Total
Financial Assets						
Derivative assets	**P -**	**P3,664**	**P3,664**	P -	P2,782	P2,782
Financial assets at FVPL	**398**	**488**	**886**	438	458	896
Financial assets at FVOCI	**28,397**	**7,373**	**35,770**	1,635	7,353	8,988
Financial Liabilities						
Derivative liabilities	**-**	**2,789**	**2,789**	-	2,017	2,017

The Group has no financial instruments valued based on Level 3 as at December 31, 2025 and 2024. In 2025 and 2024, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurement.

43. Events After the Reporting Date

a. Issuance of US$300 SPCS by San Miguel Global Power

On January 20, 2026, San Miguel Global Power completed the issuance of US$300 SPCS at an issue price of 100.00%, with an initial rate of distribution of 8.375% per annum and step-up date of January 20, 2031.

San Miguel Global Power applied the net proceeds from the issuance towards the redemption of all outstanding 5.70% SPCS issued in January 2020.

The US$300 SPCS were listed on the SGX-ST on January 21, 2026.

b. Issuance of Series N, Series O and Series P Fixed Rate Peso-denominated Bonds by San Miguel Global Power

On February 6, 2026, the BOD of San Miguel Global Power approved the issuance, offer and sale to the public of Peso-denominated bonds with an aggregate principal amount of up to P30,000, comprised of a base offer of Bonds with an aggregate principal amount of up to P20,000 and an oversubscription option of Bonds with an aggregate principal amount of up to P10,000.

The net proceeds of the issuance of the bonds will be used for: (a) refinancing of debt obligations; (b) partial funding of the pipeline of renewable energy project; and (c) payment of transaction-related fees, costs and expenses.

c. Redemption of SPCS by Petron

On March 3, 2026, the BOD of Petron approved the redemption on April 19, 2026 of the remaining $163 SPCS issued in April 2021.

d. Redemption of Series "2" Preferred Shares - Subseries "2-I" (SMC2I Preferred Shares) by the Parent Company

On March 30, 2026, the Parent Company redeemed the 169,333,400 SMC2I Preferred Shares issued on March 30, 2016 at a redemption price of P75.00 per share. Unpaid cash dividends were also settled. The redemption was approved by the BOD of the Parent Company on January 15, 2026.

The SMC2I Preferred Shares were redeemed using a portion of the proceeds from the US$1,000 term loan drawn on March 11, 2026 under the US$1,500 loan facility.

The redeemed shares were not retired and may be reissued by the Parent Company at a price to be determined by the BOD. The trading of the listed shares is suspended until reissued by the Parent Company, upon the approval of the application for lifting of trading suspension by the Parent Company, in accordance with the listing rules of the PSE.

44. Registration with the Board of Investments (BOI) and Others

a. San Miguel Global Power

- In 2013, MPI and LPI were granted incentives by the BOI on a pioneer status for six years subject to the representations and commitments set forth in the application for registration, the provisions of Omnibus Investments Code of 1987 [Executive Order (EO) No. 226], the rules and regulations of the BOI and the terms and conditions prescribed. On October 5, 2016, BOI granted LPI's request to move the start of its commercial operation and Income Tax Holiday (ITH) reckoning date from February 2016 to September 2017 or when the first kilowatt-hour (kWh) of energy was transmitted after commissioning or testing, or one month from the date of such commissioning or testing, whichever comes earlier as certified by NGCP. Subsequently, on December 21, 2016, BOI granted a similar request of MPI to move the start of its commercial operation and ITH reckoning date from December 2015 to July 2016, or the actual date of commercial operations subject to compliance with the specific terms and conditions, due to delay in the implementation of the project for reasons beyond its control. MPI's request for the further extension of the ITH reckoning date from July 2016 to September 2017 was likewise approved by the BOI on December 5, 2018. The ITH incentives shall only be limited to the conditions given under their respective BOI registrations' specific terms and conditions. The ITH period for Unit 1 and Unit 2 of LPI commenced on May 26, 2017, and expired on May 25, 2023. The ITH incentives of MPI expired on September 26, 2023.

- On September 20, 2016, Lumiere Energy Technologies, Inc. (LETI) was registered with the BOI under EO No. 226 as expanding operator of 2 x 150 MW Circulating Fluidized Bed Coal-fired Power Plant (Phase II Limay Greenfield Power Plant) on a non-pioneer status. The BOI categorized LETI as an "Expansion" based on the 2014 to 2016 IPP's Specific Guidelines for "Energy" in relation to LPI's 2 x 150 MW Coal-fired Power Plant (Phase I Limay Greenfield Power Plant). As a registered entity, LETI is entitled to certain incentives that include, among others, an ITH for three years from January 2018 or the date of actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration. The ITH incentives shall only be limited to the conditions given under the specific terms and conditions of LETI's BOI registrations.

  In June 2017, the BOI approved the transfer of ownership and registration of Phase II Limay Greenfield Power Plant from LETI to LPI. On July 13, 2018, the BOI granted the request of LPI to move the start of its commercial operation and ITH reckoning date from January 2018 to March 2018 or actual start of commercial operations, whichever is earlier. The ITH period for Phase II Limay Greenfield Power Plant (Unit 3 and Unit 4) commenced on March 26, 2018, and expired in 2021.

- On October 12, 2012, MPCL received the BOI approval for the application as expanding operator of 600 MW Coal-fired Thermal Power Plant. As a registered entity, MPCL is entitled to ITH for three years from June 2017 or the actual start of commercial operations, whichever is earlier (but not earlier than the date of registration) subject to compliance with the specific terms and conditions set forth in the BOI registration. On May 27, 2014, the BOI approved MPCL's request to move the start of its commercial operation and the reckoning date of the ITH entitlement from June 2017 to December 2018. On June 17, 2015, the BOI subsequently granted MPCL's requests to downgrade the registered capacity from 600 MW to 300 MW.

  On December 21, 2015, MPCL received the BOI approval for the application as new operator of 10 MW BESS Project on a pioneer status. The BESS facility provides 10 MW of interconnected capacity and enhances the reliability of the Luzon grid using the *Advancion* energy storage solution. As a registered entity, MPCL is entitled to incentives that include, among others, an ITH for six years from December 2018 or the date of the actual start of commercial operations, whichever is earlier (but not earlier than the date of registration) subject to compliance with the specific terms and conditions of MPCL's BOI registration. The ITH period for the 10 MW BESS of MPCL commenced on December 1, 2018. On October 1, 2020, MPCL likewise received the BOI approval on the additional 20 MW BESS Phase 2 Project of MPCL.

  On February 23, 2021, MPCL received the BOI approval for the applications as the new operator of a 315 MW Super Critical Pulverized Coal Thermal Power Plant Unit 4, and as the new operator of 315 MW Super Critical Pulverized Coal Thermal Power Plant Unit 5. Each registered activity is entitled to a four-year ITH reckoned from the start of commercial operations.

  On November 12 and December 26, 2024, MPCL submitted to BOI the request to transfer its registration from EO No. 226 to CREATE Act for Units 4 and 5, and BESS Phase 2 Project, respectively.

- On August 24, 2016, SMGP Kabankalan received the BOI approval for the application as the new operator of the 2 x 20 MW Kabankalan *Advancion* Energy Storage Array on a pioneer status. SMGP Kabankalan, a registered entity, is entitled to incentives that include, among others, an ITH for six years from July 2019 to December 2024 or the date of the actual start of commercial operations, whichever is earlier (but not earlier than the date of registration). On November 27, 2019, SMGP Kabankalan filed a request with the BOI to move the reckoning date of the ITH entitlement from July 2019 to July 2021. Due to the delays brought about by the pandemic, a subsequent request was filed to move the reckoning date to January 2022. On December 17, 2021, the BOI granted the request of SMGP Kabankalan Storage for the movement of the start of commercial operations and ITH reckoning to January 2022. The incentives shall be limited to the specific terms and conditions of SMGP Kabankalan's BOI registration.

- On November 29, 2019, the BOI approved the application of SMGP BESS as the new operator of BESS Component of the Integrated Renewable Power Facility (R-Hub) covering various sites across the Philippines. The BOI has also approved SMGP BESS' subsequent applications covering additional sites. Each registered site was granted certain incentives including ITH, among others. On November 12, 2024, SMGP BESS submitted to BOI the request to transfer its registration from EO No. 226 to CREATE Act. Said request was subsequently approved by the BOI on November 26, 2025.

- On November 29, 2022, the BOI approved the application of SMC Global Light and Power Corp. (SGLPC) as a Renewable Energy Developer of Solar Energy Resources located at Lucanin Industrial Estate, Mariveles, Bataan. SGLPC was granted certain incentives including a seven-year ITH reckoned from the start of commercial operation in October 2023, among others. SGLPC requested BOI to move the start of commercial operation due to events that are beyond its control.

  On November 7, 2025, the BOI approved the transfer of SGLPC's BOI registration to Lucanin Solar, Inc. (LSI) subject to certain conditions.

Registration with the Authority of the Freeport Area of Bataan (AFAB)
On April 24, 2019, MPGC was registered with AFAB, subject to annual renewal, as engaged in business of producing and generating electricity, and processing fuels alternative for power generation, among others, at the Freeport Area of Bataan (FAB). As a FAB enterprise, MPGC will operate 4 x 150 MW power plant located in Mariveles, Bataan. AFAB granted MPGC certain incentives that include, among others, an ITH of four years for original project effective on the committed date or actual date of start of commercial operations, whichever is earlier. MPGC, however, due to circumstances brought about by Corona Virus Disease in 2019, has requested with AFAB to move the reckoning date of the start of commercial operations and the ITH for each unit. The said request was approved by AFAB on October 11, 2024.

On December 13, 2021, MPGC has been granted a renewed certificate of registration with AFAB which now remains valid and in effect as long as MPGC remains in good standing or until revoked or cancelled.

On October 8, 2025, AFAB has approved the registration of SMGP BESS as the new operator of BESS Component of the Integrated Renewable Power Facility (R-Hub) in Mariveles, Bataan. As a FAB registered enterprise, SMGP BESS is entitled to incentives that includes ITH for six years and enhanced deductions for ten years, among others.

License Granted by the ERC
On August 4, 2008 and August 24, 2016, MPCL and LPI, respectively, were granted a RES License by the ERC pursuant to Section 29 of the EPIRA, which requires all suppliers of electricity to the contestable market to secure a license from the ERC. The term of the RES License is for a period of five years from the time it was granted and renewable thereafter.

On December 13, 2023, the ERC granted the renewal of the RES License of MPCL and LPI for another five years valid from September 30, 2023 until September 29, 2028.

On August 13, 2025, MPI was granted a RES License by the ERC pursuant to Section 29 of the EPIRA. The term is for a period of five years from August 13, 2025 until August 12, 2030 and renewable thereafter.

b. SMFB

SMFI
SMFI is registered with the BOI and AFAB for certain feedmill, poultry, meats and ready-to-eat meals projects. In accordance with the provisions of EO No. 226 otherwise known as "The Omnibus Investment Code of 1987" and the RA No. 9728, also known as "The Freeport Area of Bataan Act of 2009", pursuant to RA No. 11534, the projects are entitled, among others, to fiscal incentives described as follows:

- *New Domestic Producer of Animal Feeds (in Pellet, Crumble and Mash).* The Barangay Soyung, Echague, Isabela feedmill project (Echague Feedmill Project) was registered with the BOI pursuant to RA No. 11534 on anon-pioneer status on June 5, 2023 under Certificate of Registration No. 2023-100. The Echague Feedmill Project is entitled to ITH for six years from June 5, 2023 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

- *New Domestic Producer of Dressed Whole Chickens, Further Processed/Cut Up Chickens, and Other Chicken Parts (Liver, Gizzard, Fats, and Skins)*. The Barangay Darong, Sta. Cruz, Davao del Sur Magnolia Poultry Processing Plant project (MPPP Davao del Sur Project) was registered with the BOI pursuant to RA No. 11534 on a non-pioneer status on January 3, 2024 under Certificate of Registration No. 2024-006. The MPPP Davao del Sur Project is entitled to ITH for five years from January 2024 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

- *New Domestic Producer of Dressed Whole Chickens, Further Processed/Cut Up Chickens, and Other Chicken Parts (Liver, Gizzard, Fats, and Skins).* The Barangay Ilaya, Palsabangon, Pagbilao, Quezon Magnolia Poultry Processing Plant project (MPPP Pagbilao Project) was registered with the BOI pursuant to RA No. 11534 on a non-pioneer status on June 20, 2024 under Certificate of Registration No. 2024-133. The MPPP Pagbilao Project is entitled to ITH for six years from June 2024 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

- *New Domestic Producer of Animal Feeds.* The Barangay Pulong Balibaguhan, Mabini, Batangas feedmill project (Mabini Feedmill Project) was registered with the BOI pursuant to RA No. 11534 on a non-pioneer status on July 16, 2024 under Certificate of Registration No. 2024-201. The Mabini Feedmill Project is entitled to ITH for six years from July 2024 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

- *New Domestic Producer of Animal Feeds.* The Sta. Cruz, Davao Tower 2 feedmill project (Davao Feedmill Tower 2 Project) was registered with the BOI pursuant to RA No. 11534 on a non-pioneer status on June 3, 2025 under Certificate of Registration No. 2025-140. The Davao Feedmill Tower 2 Project is entitled to ITH for six years from June 2025 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

- Registered projects with expired ITH incentives:

IPA	CR No.	Registration Date	Registered Activity	Location	ITH Entitlement Period
AFAB	2025-083*	May 22, 2025	Manufacturer of Feeds for Poultry, Livestock and Marine Species	Bataan	May 2018 to April 2022
BOI	2016-074	April 14, 2016	Non-Pioneer New Producer of Animal Feeds	San Idelfonso, Bulacan	July 2018 to June 2022
BOI	2016-073	April 14, 2016	Non-Pioneer New Producer of Animal Feeds	Sta. Cruz, Davao	April 2019 to March 2023
BOI	2015-251	Nov 10, 2015	Non-Pioneer New Producer of Animal Feeds	Mandaue, Cebu	Dec 2019 to Nov 2023
BOI	2020-075	May 27, 2020	Non-Pioneer New Producer of Animal Feeds	Phividec, Tagoloan, Misamis Oriental	June 2020 to May 2024

**Latest registration renewal date*

Notwithstanding the expiration of ITH benefit, SMFI is still required to continue the submission of annual reports to the BOI, or for a period of five years from the last year of ITH availment pursuant to BOI Circular No. 2014-01. For AFAB registered projects, annual reports are required as long as registered with the IPA.

SMMI

SMMI was registered with the BOI under Registration No. 2016-035 on a non-pioneer status as an Expanding Producer of Wheat Flour and itsBy-Products (Bran and Pollard) for its flour mill expansion project in Mabini, Batangas on February 16, 2016.

Under the terms of SMMI's BOI registration and subject to certain requirements as provided in EO No. 226, SMMI is entitled to incentives which include, among others, ITH for three years from July 2017 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

On October 25, 2017, the BOI approved SMMI's request to adjust the ITH reckoning date to December 2018 or actual start of commercial operations, whichever is earlier.

On July 25, 2019, the BOI approved SMMI's subsequent request to further adjust the ITH reckoning date to July 2019 or actual start of commercial operations, whichever is earlier. The ITH period of the project commenced on December 1, 2019.

On August 7, 2020, by virtue of Resolution No. 15-19, Series of 2020, the BOI approved SMMI's request for amendment of ITH Base Figure from Peso sales value of P9,582 to sales volume of 388,447 metric tons.

The three-year ITH incentive ended on June 30, 2022.

Notwithstanding the expiration of ITH benefit in 2022, SMMI is still required to continue the submission of annual reports to the BOI for a period of five years from the last year of ITH availment pursuant to BOI Circular No. 2014-01.

PF-Hormel

Expanding Producer of Processed Meat (Hotdog). PF-Hormel was registered with the BOI under Registration No. 2017-033 on a non-pioneer status as an Expanding Producer of Processed Meat (Hotdog) for its project in General Trias, Cavite on January 31, 2017.

Under the terms of PF-Hormel's BOI registration and subject to certain requirements as provided in EO No. 226, PF-Hormel is entitled to incentives which include, among others, ITH for three years from December 2017 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration. The ITH period of the project commenced on December 1, 2017 until November 2020.

Notwithstanding the expiration of ITH benefit in 2020, PF-Hormel is still required to submit the annual reports to the BOI until 2025, or for a period of five years from the last year of ITH availment pursuant to BOI Circular No. 2014-01.

Domestic Producer of Canned Meat Products. The Sitio de Fuego, Barangay San Francisco, General Trias, Cavite cannery project (PHC Cannery Project) was registered with the BOI pursuant to CREATE Act on a non-pioneer status on January 3, 2024 under Certificate of Registration No. 2024-005. The PHC Cannery Project is entitled to ITH for six years from January 2024 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

c. Petron

Petron Bataan Refinery

In December 2021, the Petron Bataan Refinery (PBR) renewed its registration with the AFAB as a registered enterprise. The registration shall be valid and in effect as long as the registered enterprise remains in good standing or until revoked or cancelled. As a registered domestic market enterprise engaged in the oil refinery facility as its registered business activity, PBR, under Sec. 311 of RA No. 11534 is granted duty-free importation of merchandise, including capital equipment, raw materials, spare parts, and accessories subject to compliance with the conditions specified under the CREATE Act. Meanwhile, pursuant to Section 295(G) of the Tax Code, as amended by the CREATE Act, PBR's crude oil importations are exempt from duties and taxes, while applicable taxes are paid upon the withdrawal of finished products sourced from the crude oil importation.

Petron Solid Fuel-Fired Power Plant

On October 11, 2019, the BOI approved Petron's application under EO No. 226 as a New Operator of its 44.4 MW Solid Fuel-Fired Power Plant. The BOI is extending the following major incentives:

a. ITH for four years from January 2024 or actual start of commercial operations, whichever is earlier, but availment shall in no case earlier than the date of registration. Income qualified for ITH shall be limited to the income directly attributable to the eligible revenue generated from the net capacity of the registered project; with optional bonus year on specific cases provided that the aggregate ITH availment (regular and bonus year) shall not exceed eight years.

b. Importation of capital equipment, spare parts and accessories at zero duty under EO No. 85 and its Implementing Rules and Regulations; provided that such capital equipment shall be for the direct and exclusive use of the registered activity.

c. Importation of consigned equipment for a period of ten years from date of registration subject to posting of the appropriate re-export bond.

The project commenced its commercial operation in January 2023 and Petron availed of the ITH in 2025 and 2024.

Certificate of entitlement has been timely obtained by Petron to support its ITH incentive.

d. Packaging

SYFMC
On December 3, 2019, the BOI issued the certificate of registration to SYFMC's project as a new producer of molds for glass on a pioneer status under EO No. 226. The registration entitles SYFMC to certain tax and other incentives.

The ITH incentive is for a period of six years starting May 1, 2020 when it started its commercial operations. The income qualified for ITH shall be limited to the income directly attributable to the eligible revenue granted from the registered project.

e. Cement

ECC
On July 31, 2017, the BOI approved the application of ECC as an expanding producer of cement (Line 3) in Bulacan on a non-pioneer status. ECC's registration with the BOI entitles it to the following fiscal and non-fiscal incentives available to its registered project, among others:

i. ITH for income directly attributable to Line 3 for three years from May 2018 or actual start of commercial operations, whichever is earlier.

ii. Importation of capital equipment, spare parts and accessories at zero duty.

iii. Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year if the project meets the requirements as stated in the BOI certificate.

iv. Importation of consigned equipment for a period of ten years from date of registration, subject to posting of re-export bond.

v. Tax credit equivalent to the national internal revenue taxes and duties paid on raw materials and supplies and semi-manufactured products used in producing export product and forming part thereof for a period of ten years from start of commercial operation.

vi. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

vii. Employment of foreign nationals which may be allowed in supervisory, technical or advisory positions for five years from the date of registration.

viii. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

In April 2022, the ITH incentive for Line 3 expired.

On December 16, 2025, the BOI, pursuant to Republic Act No. 11534, extended the availment of duty exemption on importation of capital goods equipment, raw materials, spare parts or accessories including goods used for administrative purposes in relation to Line 3 until December 31, 2034.

On September 14, 2022, the BOI approved the application of ECC as an expanding producer of cement in under Tier 1, "All Qualified Manufacturing Activities including Agro-Processing" of the 2022 Strategic Investment Priority Plan (SIPP). ECC's registration with the BOI entitled to provide for the following fiscal and non-fiscal incentives:

i. ITH for income directly attributable to Finishing Mill 5 for two years from December 2022 or actual start of commercial operations, whichever is earlier.

ii. After ITH, enhanced deductions for five years.

iii. Duty exemption on importation of capital equipment, raw materials, spare parts, or accessories for 11 years from date of registration, unless otherwise extended in the SIPP.

iv. Employment of foreign nationals.

v. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

In December 2024, the ITH incentive for Finish Mill 5 expired.

In 2024, ECC availed benefits from ITH amounting to P398.

NCC

Lines A and B Cement Plant and Grinding Facility registration entitles NCC to the following benefits:

i. ITH for four years from January 2023 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

ii. Importation of capital equipment, spare parts and accessories at zero duty under EO No. 22 and its Implementing Rules and Regulations.

iii. Additional deduction from taxable income of 50% of wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year, if the project meets the requirements as stated in the BOI Certificate.

iv. Importation of consigned equipment for a period of ten years from the date of registration, subject to posting of re-export bond.

v. Tax credit equivalent to the national internal revenue taxes and duties paid on raw materials and supplies and semi-manufactured products used in producing its export product and forming part thereof for a period of ten years from start of commercial operations.

vi. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

vii. Employment of foreign nationals which may be allowed in supervisory, technical or advisory positions for five years from date of registration.

viii. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

On April 1, 2023, NCC's cement Line A has started its commercial operations.

NCC requested for the amendment of project timetable, movement of start of commercial operation and ITH Reckoning date and amendment of Line B from fully integrated cement manufacturing line to cement grinding facility.

On January 18, 2024, the BOI approved NCC's request for the amendment of project timetable, including the movement of start of commercial operation and ITH reckoning date and the amendment of Line B from fully integrated cement manufacturing line to cement grinding facility only.

SNMC

On March 23, 2018, the BOI approved the application of SNMC as a new producer of good, fine and coarse limestone on a non-pioneer status. SNMC's registration with the BOI entitles it to the following fiscal and non-fiscal incentives available to its registered project, among others:

i. Four-year ITH incentive, starting April 1, 2019, for activities directly attributable in producing good, fine and coarse limestone.

ii. Importation of capital equipment, spare parts and accessories at zero duty.

iii. Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year if the project meets the requirements as stated in the BOI certificate.

iv. Importation of consigned equipment for a period of ten years from date of registration, subject to posting of re-export bond.

v. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

vi. Additional deduction from taxable income of expenses incurred in the development of necessary and major infrastructure facilities.

On October 5, 2020, the BOI granted the deferment of SNMC's ITH availment for taxable year 2020 due to the adverse effects of the COVID-19 pandemic. SNMC is entitled to its remaining ITH entitlement equivalent to three years and three months or from January 1, 2021 to March 31, 2024.

South Western Cement Corporation (SWCC)

On August 23, 2017, SWCC was registered with the BOI as a new producer of cement on a non-pioneer status but with pioneer incentives (the project being located in a less-developed area) under the heading "All Qualified Manufacturing Activities including Agro-Processing" of the 2017 Investment Priorities Plan under EO No. 226. SWCC's registration with BOI entitles it to the following fiscal and non-fiscal incentives available to its registered project, among others:

i. ITH for six years from May 2020 or actual start of commercial operations, whichever is earlier but in no case earlier than the date of registration.

ii. Importation of capital equipment, spare parts and accessories at zero duty under EO No. 22 and its Implementing Rules and Regulations. Only equipment directly needed and exclusively used in its operation shall be entitled to capital equipment incentives.

iii. Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year, if the project meets the prescribed ratio of capital equipment to the number of workers set by the BOI. This may be availed of for the first five years from date of registration but not simultaneously with ITH.

iv. Importation of consigned equipment for a period of ten years from the date of registration, subject to posting of re-export bond.

v. Tax credit equivalent to the national internal revenue taxes and duties paid on raw materials and suppliers and semi-manufactured products used in producing its export product and forming part thereof for a period of ten years from start of commercial operations.

vi. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

vii. Employment of foreign nationals may be allowed in supervisory, technical or advisory positions for five years from date of registration. The president, general manager and treasurer of foreign-owned registered enterprises or their equivalent shall not subject to the foregoing limitations.

viii. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

ix. Additional deduction from taxable income equivalent to 100% of expenses incurred in the development of necessary and major infrastructure and facilities.

On August 26, 2020, the BOI approved the request of SWCC for the movement of start of commercial operation and ITH reckoning date of its registered activity from May 2020 to December 2023 due to ongoing processing of permits in the Cebu site.

On September 6, 2022, the BOI approved the request of SWCC for the movement of start of commercial operation from December 2023 to January 2027 and partially granted the request for the movement of ITH reckoning date of December 2023 to December 2025 noting that its operation has been affected by the COVID-19 pandemic for two years. Accordingly, no tax benefits from ITH incentives have been availed of in 2025 and 2024.

In November 2025, SWCC request for a further deferment of the commercial operation and ITH reckoning date from December 2023 to March 2029 due to delays in securing critical licenses and permits, aggravated by the global disruption caused by COVID-19 pandemic. The request has not been approved as of January 9, 2026.

Ionic Cementworks Industries Inc. (ICII)

- *New Producer of Cement (Barangay Ilayang Palsabangon, Pagbilao, Quezon)*. ICII was registered with the BOI on a non-pioneer status on April 17, 2018, under Certificate of Registration No. 2018-086. ICII's registration with the BOI entitles it to the following fiscal and non-fiscal incentives available to its registered project, among others:

  i. ITH

     - ITH for four years from May 2021 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration.

     - Application for Bonus years, provided that the aggregate availment shall not exceed eight years.

  ii. Importation of capital equipment, spare parts and accessories at zero duty under EO No. 22 and its Implementing Rules and Regulation.

  iii. Additional deduction from taxable income for a period of five years of 50% of wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year, if the project meets the requirements as stated in the BOI Certificate.

  iv. Importation of consigned equipment for a period of ten years from the date of registration, subject to posting of re-export bond.

  v. Employment of foreign nationals which may be allowed in supervisory, technical or advisory positions for five years from date of registration.

  vi. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

  vii. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

- *New Producer of Cement (Malicboy Cement Plant Project, Barangay Kanlurang Malicboy, Pagbilao, Quezon).* ICII was registered with the BOI on a non-pioneer status under Certificate of Registration No. 2021-095 on May 21, 2021. ICII's registration with the BOI entitles it to the following fiscal and non-fiscal incentives available to its registered project, among others:

  i. ITH

    - ITH for four years from January 2026 or actual start of commercial operations of Line 1, whichever is earlier, but in no case earlier than the date of registration.

    - Application for Bonus years, provided that the aggregate availment shall not exceed eight years.

  ii. Importation of capital equipment, spare parts and accessories at zero duty under EO No. 85 and its Implementing Rules and Regulation.

  iii. Additional deduction from taxable income for a period of five years of 50% of wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year, if the project meets the requirements as stated in the BOI Certificate.

  iv. Importation of consigned equipment for a period of ten years from the date of registration, subject to posting of re-export bond.

  v. Employment of foreign nationals which may be allowed in supervisory, technical or advisory positions for five years from date of registration.

  vi. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

  vii. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

ICII has not started commercial operations as at December 31, 2025. Thus, ICII has not availed yet of any tax incentives.

Armstrong Fly-Ash and Logistics Company, Inc. (AFALCI)
On December 1, 2017, the BOI approved the application of AFALCI as a new producer of Hi Carbon Fly-ash (Ecotherm) and Low Carbon Fly-ash (ProAsh) on a non-pioneer status. AFALCI's registration with the BOI entitled to provide for the following fiscal and non-fiscal incentives:

i. ITH for income directly attributable to the revenue generated from the registered project Ecotherm and ProAsh for four years from May 2018 or actual start of commercial operations, whichever is earlier.

ii. Importation of capital equipment, spare parts and accessories at zero duty.

iii. Additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year if the project meets the requirements as stated in the BOI certificate.

iv. Importation of consigned equipment for a period of ten years from date of registration, subject to posting of re-export bond.

v. Tax credit equivalent to the national internal revenue taxes and duties paid on raw materials and supplies and semi-manufactured products used in producing export products and forming part thereof for a period of ten years from start of commercial operation.

vi. Exemption from wharfage dues, and any export tax, duty, impost and fee for a period of ten years from date of registration.

vii. Employment of foreign nationals which may be allowed in supervisory, technical or advisory positions for five years from the date of registration.

viii. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

On May 1, 2018, AFALCI started its commercial operations.

On September 17, 2020, the BOI granted the deferment of AFALCI's ITH availment for taxable year 2020 up to April 2023 due to the adverse effects of the COVID-19 pandemic.

In April 2023, AFALCI's ITH with the BOI as a New Producer of Hi Carbon Fly-ash (Ecotherm) and Low Carbon Fly-ash (Pro-ash) on a non-pioneer status expired.

No tax benefits from ITH incentives have been availed of in 2025 and 2024.

SCII
SCII is registered with the BOI as a new producer of cement on a non-pioneer status under Certificate of Registration No. 2022-044 on April 8, 2022. In accordance with the provisions of EO No. 226, also known as the Omnibus Investments Code of 1987, SCII is eligible to the grant of several incentives.

SCII's registration with the BOI entitles it to the following fiscal and non-fiscal incentives available to its registered project, among others:

i. ITH

   a) ITH for two years from July 2022 for income directly attributable to the eligible revenue generated from the registered project.

   b) Enhanced deductions for five years, after ITH, as follows:

      - Additional depreciation allowance of the assets acquired for the entity's production of goods and services (qualified capital expenditure) - additional 10% for buildings; and additional 25% for machinery and equipment;

      - Additional 50% deduction on the labor expense incurred in the taxable year;

      - Additional 50% deduction on power expense incurred in the taxable year;

      - Deduction for reinvestment allowance to manufacturing industry;

      - Enhanced NOLCO; and

      - Other types of enhanced deductions that shall be determined relevant and applicable to the registered project under SIPP.

ii. Importation of capital equipment, raw materials, spare parts and accessories at zero duty.

iii. Employment of foreign nationals which may be allowed in supervisory, technical or advisory positions for five years from date of registration.

iv. Simplification of customs procedures for the importation of equipment, spare parts, raw materials and supplies.

On November 26, 2022, SCII requested the BOI to defer the start of its ITH availment period from July 1, 2022 to January 1, 2023 due to the delay in its commencement of commercial operations brought about by COVID-19 pandemic and the corresponding implementation of lockdowns and mobility restrictions.

On June 1, 2023, the BOI approved and confirmed the deferment of SCII's ITH. The entitlement period is January 1, 2023 to December 31, 2024. In December 31, 2024, the ITH for the Cement Grinding Plant-Line 1 has expired.

In compliance with the SCII's BOI COR Specific Terms and Conditions no. 7, SCII has incurred P2,239 domestic spending on capital equipment and raw materials in 2024.

f. SMCSLC

SMCSLC
SMCSLC is registered with the BOI under the Omnibus Investments Code of 1987 for the operation of domestic cargo vessels and motor tankers, where SMCSLC is entitled to the following incentives:

i. *Employment of Foreign Nationals*. This may be allowed in supervisory, technical or advisory positions for five years from the date of registration of the project as indicated above. The president, general manager and treasurer of foreign-owned registered firms or their equivalent shall not be subjected to the foregoing limitations.

ii. *Additional Deduction for Labor Expense.* For the first five years from registration, SMCSLC shall be allowed an additional deduction from taxable income equivalent to 50% of the wages of additional skilled and unskilled workers in the direct labor force. The incentive shall be granted only if the enterprise meets a prescribed capital to labor ratio and shall not be availed simultaneously with the ITH.

iii. *Importation of Capital Equipment, Spare Parts and Accessories*. For the *operation* of motor tankers, SMCSLC may import capital equipment, spare parts and accessories at zero percent duty from the date of registration of the project as indicated above pursuant to EO No. 528 and its Implementing Rules and Regulations.

On November 19, 2024, SMCSLC applied for the cancellation of the BOI registration for its vessels' Kalusugan 2, SL Tanglad, SL Banaba, SL Yakal, Katarungan 2, SL Bignay and Katapatan 2 under the provision of BOI Circular 2014-01 Section 2 par. d, Voluntary surrender of certificate of registration after a period of five years from the last year of ITH availment. BOI approved the cancellation on January 23, 2025.

The incentives with no specific number of years of entitlement as discussed in the foregoing may be enjoyed for a maximum period of ten years from the start of commercial operations and/or date of registration.

SLHBTC
In 2014, SLHBTC's registration with the BOI as an oil terminal for storage and bulk marketing of petroleum products in its Main Office located at Tondo, Manila was granted with Registration No. 2013-068. In 2015, SLHBTC registered its own fuel storage facilities at Limay, Bataan under Registration No. 2015-027. In 2016, its newly built oil terminal located at Tagoloan, Cagayan de Oro was also registered with the BOI under Registration No. 2016-145. With the registration, SLHBTC is entitled to the following incentives under RA No. 8479 from date of registration or date of actual start of commercial operations, whichever is earlier, and upon fulfillment of the terms enumerated below:

i. *Additional Deduction from Taxable Income.* SLHBTC shall be allowed an additional deduction from taxable income of 50% of the wages corresponding to the increment in number of direct labor for skilled and unskilled workers in the year of availment as against the previous year if the project meets the prescribed ratio of capital equipment to the number of workers set by the BOI and provided that this incentive shall not be availed of simultaneously with the ITH.

ii. *Minimum Duty of 3% and VAT on Imported Capital Equipment.* Importation of brand new capital equipment, machinery and accompanying spare parts, shall be entitled to this incentive subject to the following conditions:

- they are not manufactured domestically in sufficient quantity of comparable quality and at reasonable prices;
- the equipment is reasonably needed and will be exclusively used in the registered activity; and
- prior BOI approval is obtained for the importation as endorsed by the DOE.

iii. *Tax Credit on Domestic Capital Equipment.* This shall be granted on locally fabricated capital equipment equivalent to the difference between the tariff rate and the three percent duty imposed on the imported counterpart.

iv. *Importation of Consigned Equipment.* SLHBTC is entitled for importation of consigned equipment for a period of five years from the date of registration subject to posting of the appropriate bond, provided that such consigned equipment shall be for the exclusive use of the registered activity.

v. *Exemption from Taxes and Duties on Imported Spare Parts for Consigned Equipment with Bonded Manufacturing Warehouse.* SLHBTC is entitled to this exemption upon compliance with the following requirements:

- at least 70% of production is imported;
- such spare parts and supplies are not locally available at reasonable prices, sufficient quantity and comparable quality; and
- all such spare and supplies shall be used only on bonded manufacturing warehouse on the registered enterprise under such requirements as the Bureau of Customs may impose.

vi. *Exemption from Real Property Tax on Production Equipment or Machinery.* Equipment and machinery shall refer to those reasonably needed in the operations of the registered enterprise and will be used exclusively in its registered activity. BOI Certification to the appropriate Local Government Unit will be issued stating therein the fact of the applicant's registration with the BOI.

vii. *Exemption from the Contractor's Tax.* BOI certification to the BIR will be issued stating therein the fact of the applicant's registration with the BOI.

viii. *Employment of Foreign Nationals.* This may be allowed in supervisory, technical or advisory positions for five years from date of registration. The President, General Manager and Treasurer of foreign-owned registered enterprise or their equivalent shall not be subject to the foregoing limitations.

The incentives with no specific number of years of entitlement above may be enjoyed for a maximum period of ten years from the start of commercial operation and/or date of registration.

No ITH incentive was availed in 2025 and 2024 because entitlements were already expired.

Molave Tanker Corporation (MTC)

MTC is registered with the BOI under the Omnibus Investments Code of 1987 for the operation of domestic cargo vessels and motor tankers where MTC is entitled to the following incentives:

i. *Employment of Foreign Nationals.* This may be allowed in supervisory, technical or advisory positions for five years from the date of registration of the project as indicated above. The President, General Manager and Treasurer of foreign-owned registered firms or their equivalent shall not be subjected to the foregoing limitations.

ii. *Importation of Consigned Equipment.* For the operation of cargo vessels, MTC is entitled to importation of consigned equipment for a period of ten years from the date of registration, subject to the posting of re-export bond.

iii. *Importation of Capital Equipment, Spare Parts and Accessories.* For the operation of motor tankers, MTC may import capital equipment, spare parts and accessories at zero percent duty from the date of registration of the project as indicated above, pursuant to EO No. 528 and its Implementing Rules and Regulations.

iv. *Additional Deduction for Labor Expense*. For the first five years from registration, MTC shall be allowed an additional deduction from taxable income equivalent to 50% of the wages of additional skilled and unskilled workers in the direct labor force. The incentive shall be granted only if the enterprise meets a prescribed capital to labor ratio and shall not be availed simultaneously with the ITH.

v. *Simplification of Customs Procedures for the Importation of Equipment, Spare Parts, Raw Materials and Supplies.*

The incentives with no specific number of years of entitlement as discussed in the foregoing may be enjoyed for a maximum period of ten years from the start of commercial operations and/or date of registration.

No ITH incentive was availed in 2025 and 2024 because entitlements were already expired.

Balyena Tanker Corporation (BTC)
BTC is registered with the BOI under the Omnibus Investments Code of 1987, as amended, for the operation of domestic cargo vessels and motor tankers where BTC is entitled to the following incentives:

i. *Employment of Foreign Nationals*. This may be allowed in supervisory, technical or advisory positions for five years from the date of registration of the project as indicated above. The President, General Manager and Treasurer of foreign-owned registered firms or their equivalent shall not be subjected to the foregoing limitations.

ii. *Importation of Consigned Equipment*. For the operation of cargo vessels, BTC is entitled for importation of consigned equipment for a period of ten years from the date of registration, subject to the posting of re-export bond.

iii. *Importation of Capital Equipment, Spare Parts and Accessories.* For the operation of motor tankers, BTC may import capital equipment, spare parts and accessories at zero percent duty from the date of registration of the project as indicated above pursuant to EO No. 528 and its Implementing Rules and Regulations.

iv. *Additional Deduction for Labor Expense*. For the first five years from registration, BTC shall be allowed an additional deduction from taxable income equivalent to 50% of the wages of additional skilled and unskilled workers in the direct labor force. The incentive shall be granted only if the enterprise meets a prescribed capital to labor ratio and shall not be availed simultaneously with the ITH.

v. *Simplification of Customs Procedures for the Importation of Equipment, Spare Parts, Raw Materials and Supplies.*

vi. *Exemption from Wharfage Fees and Any Export Tax, Duty, Impost and Fees for a Period of Ten Years from Date of Registration.*

The incentives with no specific number of years of entitlement as discussed in the foregoing may be enjoyed for a maximum period of ten years from the start of commercial operations and/or date of registration.

No ITH incentive was availed in 2025 and 2024 because entitlements were already expired.

Narra Tanker Corporation (NTC)
NTC is registered with the BOI under the Omnibus Investments Code of 1987 for the operation of domestic cargo vessels and motor tankers where NTC is entitled to the following incentives:

i. *Employment of Foreign Nationals*. This may be allowed in supervisory, technical or advisory positions for five years from the date of registration of the project as indicated above. The President, General Manager and Treasurer of foreign-owned registered firms or their equivalent shall not be subjected to the foregoing limitations.

ii. *Importation of Consigned Equipment*. For the operation of cargo vessels, NTC is entitled for importation of consigned equipment for a period of ten years from the date of registration, subject to the posting of re-export bond.

iii. *Importation of Capital Equipment, Spare Parts and Accessories*. For the operation of motor tankers, NTC may import capital equipment, spare parts and accessories at zero percent duty from the date of registration of the project as indicated above, pursuant to EO No. 528 and its Implementing Rules and Regulations.

iv. *Additional Deduction for Labor Expense*. For the first five years from registration, NTC shall be allowed an additional deduction from taxable income equivalent to 50% of the wages of additional skilled and unskilled workers in the direct labor force. The incentive shall be granted only if the enterprise meets a prescribed capital to labor ratio and shall not be availed simultaneously with the ITH.

v. *Simplification of Customs Procedures for the Importation of Equipment, Spare Parts, Raw Materials and Supplies.*

The incentives with no specific number of years of entitlement as discussed in the foregoing may be enjoyed for a maximum period of ten years from the start of commercial operations and/or date of registration.

No incentive was availed in 2025 and 2024 because entitlements were already expired.

Batangas Shipyard Corporation (BtSC)
BtSC is registered with Philippine Economic Zone Authority (PEZA) as an Ecozone Export Enterprise to engage in oil rig construction, shipbuilding, ship repair and conversion, and leasing activity taken over from Seatrium Philippines Marine, Inc. the Batangas Shipyard Special Economic Zone since June 10, 2024. Under its registration, BtSC is entitled to the following incentives:

i. Income generated from its registered activities is subject to 5% Gross Income Tax Incentive (GIT) under the provisions of RA No. 11534 until December 31, 2034.

ii. BtSC is exempted from Expanded Withholding Taxes on payments received from its registered activities until December 31, 2034.

iii. BtSC is exempted from paying national and local taxes including local business tax, permits, fees and licenses until December 31, 2034.

iv. BtSC is exempted from wharfage dues on exportation of its registered export products until December 31, 2025.

The availment of the foregoing incentives is subject to all evaluation and processing requirements of PEZA.

Gross income arising from the registered project with the PEZA amounting to P356 were subjected 5% GIT in 2025. Total tax incentives availed by BtSC amounted to P71 in 2025.

SMC Cebu Shipyard Land, Inc (SCSLI)
Effective September 2, 2024, SCSLI is registered with the PEZA as an Ecozone Developer/Operator to develop, administer, manage and operate the Batangas Shipyard Special Economic Zone.

SCSLI is liable to pay 5% final tax on gross taxable income in accordance with RA No. 11534.

45. Other Matters

a. Contingencies

The Group is a party to certain lawsuits or claims (mostly labor related cases) filed by third parties which are either pending decision by the courts or are subject to settlement agreements. The outcome of these lawsuits or claims cannot be presently determined. In the opinion of management and its legal counsel, the eventual liability from these lawsuits or claims, if any, will not have a material effect on the consolidated financial statements of the Group.

- Excess Excise Tax Payments

  Filed by the Parent Company

  In 2004, the Parent Company was assessed excise taxes by the BIR on "San Mig Light" which at that time was one of its products. These assessments were contested by the Parent Company but nonetheless made the corresponding payments. Consequently, the Parent Company filed three claims for refund for overpayments of excise taxes with the BIR.

  The first and second claims for refund were then elevated to the Court of Tax Appeals (CTA) and went all the way to the Supreme Court which was resolved in favor of the Parent Company. On September 8, 2020, the BIR issued TCC Nos. 121-20-00012 amounting to P782 and TCC No. 121-20-00013 amounting to P926 in favor of the Parent Company which were applied in full to the Parent Company's tax obligations as at December 31, 2024 and 2025, respectively.

  The third claim for refund was consolidated with a claim for refund which was filed by SMB, a company to which, effective October 1, 2007, the Parent Company had spun off its domestic beer business. The claim was also favorably resolved in favor of the Parent Company and SMB. On August 10, 2020, the BIR issued TCC No. 121-20-00010 amounting to P105 in favor of the Parent Company, which was applied in full to the Parent Company's tax obligations as at December 31, 2021.

  Filed by SMB

  SMB filed 13 claims for refund for overpayments of excise taxes with the BIR which were then elevated to the CTA by way of Petition for Review. Six of these claims (i.e., CTA Case Nos. 7973, 8209, 8400, 8591, 8748 and 9743) were decided by the Supreme Court in favor of SMB and TCC amounting to P1,430, P1,569, P761 and P30 were received in 2019, 2020, 2023, and 2025, respectively. The TCC for CTA Case No. 9743 in the amount of P30 was issued by the BIR on October 16, 2025. One claim (CTA Case No. 10241) was withdrawn with the issuance of a TCC in the amount of P162 in 2021. The remaining six claims for refund are still pending before the courts, as follows:

  (a) Claim for refund of overpayments for the period of January 1, 2013 to December 31, 2013 - Third Division docketed as CTA Case No. 8955 (December 19, 2014);

  (b) Claim for refund of overpayments for the period of January 1, 2014 to December 31, 2014 - Third Division docketed as CTA Case No. 9223 (December 22, 2015);

  (c) Claim for refund of overpayments for the period of January 1, 2015 to December 31, 2015 - Second Division docketed as CTA Case No. 9513 (December 28, 2016);

  (d) Claim for refund of overpayments for the period from January 1, 2017 to December 31, 2017 - Third Division docketed as CTA Case No. 10000 (December 27, 2018);

  (e) Claim for refund of overpayments for the period from January 1, 2018 to December 31, 2018 - First Division docketed as CTA Case No. 10223 (December 11, 2019); and

  (f) Claim for refund of overpayments for the period of January 23, 2020 to February 9, 2020 - First Division docketed as CTA Case No. 10745 (via electronic mail on January 21, 2022, registered mail on January 24, 2022, and personal filing on February 2, 2022).

CTA Case No. 8955, SMB's claim for refund for P83, was decided against SMB by the CTA Third Division for having purportedly availed of the wrong mode of appeal as SMB should have filed the petition with the RTC rather than through a collateral attack on issuances of the BIR via a judicial claim for refund. SMB, through counsel, filed a Motion for Reconsideration, arguing that the case involves a claim for refund and is at the same time a direct attack on the BIR issuances which imposed excise tax rates which are contradictory to, and violative of, the rates imposed in the Tax Code. With the denial of SMB's Motion for Reconsideration on January 5, 2018, SMB elevated the case to the CTA *En Banc* by way of a Petition for Review. On September 19, 2018, the CTA *En Banc* reversed and set aside the decision of the CTA Third Division and remanded the case to the CTA Third Division for the resolution of the same on the merits (docketed as CTA *En Banc* Case No. 1772). A Motion for Reconsideration was filed by the BIR which was subsequently denied by the CTA *En Banc* in a resolution dated January 24, 2019. The BIR sought an extension within which to file a Petition for Review with the Supreme Court which was docketed as G.R. No. 244738. After the BIR filed a Manifestation stating that it will no longer file a Petition for Review, the Supreme Court issued a Resolution dated January 8, 2020 considering the case closed and terminated. The records have been remanded with the CTA Third Division for the CTA Third Division's decision on the merits.

The CTA Third Division partially granted SMB's Petition on September 14, 2023. The BIR is ordered to refund or issue a TCC in the reduced amount of P83, representing overpayment of excise taxes on the "San Mig Light' removals for the period from January 1, 2013 to December 31, 2013. The BIR filed a Motion for Reconsideration with CTA Third Division which was denied.

On March 20, 2024, the BIR elevated the case to the CTA *En Banc* by way of Petition for Review dated March 15, 2024 which was docketed as CTA *En Banc* No. 2890. On November 26, 2024, the CTA *En Banc* rendered its Decision denying the BIR's Petition for Review in CTA *En Banc* No. 2890. The BIR moved for reconsideration but the same was denied by the CTA *En Banc* on September 29, 2025.

The BIR then filed a Petition for Review with the Supreme Court which was docketed as G.R. No. E-02918.

CTA Case No. 9223, SMB's claim for refund for P60, was partially decided in favor of SMB by the CTA Third Division in April 2019. From the CTA Third Division, SMB and the BIR filed separate Petitions for Review with the CTA *En Banc*. On February 21, 2022, the CTA *En Banc* rendered a Decision denying the separate Petitions for Review. On March 21, 2022, SMB filed a Petition for Review with the Supreme Court which was docketed as G.R. No. 258812. The BIR also elevated the CTA *En Banc's* Decision to the Supreme Court which was docketed as G.R. No. 261197. The petitions were consolidated pursuant to the Supreme Court's Resolution dated January 11, 2023. In G.R. No. 258812, the Supreme Court issued a Resolution requiring the BIR to comment on SMB's Petition to which the Office of the Solicitor General filed a Comment dated February 19, 2024. In a Resolution dated June 3, 2024, the Supreme Court required SMB and the BIR to file their respective Replies on each other's Comment. SMB filed the required Reply on October 24, 2024 while the BIR filed its Reply on November 5, 2024.

CTA Case No. 9513, SMB's claim for refund for P48, was partially decided in favor of SMB by the CTA Second Division. From the CTA Second Division, SMB and the BIR filed separate Petitions for Review with the CTA *En Banc*. On February 4, 2021, the CTA *En Banc* affirmed the decision of the CTA Second Division. Both parties filed motions for partial reconsideration of the CTA *En Banc's* Decision. In its October 22, 2021 Resolution, the CTA *En Banc* denied the parties' Motion for Reconsideration. SMB and the BIR filed separate Petitions for Review on Certiorari with the Supreme Court docketed as G.R. No. 257784 and 259263, respectively. These were consolidated by the Supreme Court in its Resolution dated March 30, 2022, after which the BIR filed its comment to SMB's Petition as directed by the court. On September 11, 2023, SMB received the Supreme Court's Resolution dated March 22, 2023 requiring the former to file its Comment on the BIR's Petition for Review in G.R. No. 259263. SMB filed the required Comment on September 18, 2023.

CTA Case No. 10000, SMB's claim for refund for P123, was partially decided in favor of SMB by the CTA Third Division. On September 22, 2021, the CTA Third Division partially granted SMB's Petition for Review and ordered the refund of P123. The BIR filed for a Motion for Reconsideration which was denied by the CTA Third Division. The BIR filed a Petition for Review with CTA *En Banc* docketed as CTA *En Banc* No. 2625. SMB filed its Comment dated July 25, 2022. On August 2, 2023, the CTA *En Banc* promulgated its Decision in CTA *En Banc* No. 2625 affirming the decision of the CTA Third Division in favor of SMB. The BIR moved for reconsideration but the same was denied by the CTA *En Banc* on January 8, 2024.The BIR then filed a Petition for Review with the Supreme Court which was docketed as G.R. No. 271254.

CTA Case No. 10223, SMB's claim for refund for P147, was partially decided in favor of SMB by the CTA Second Division. On July 5, 2023, the CTA Second Division partially granted SMB's Petition for Review and ordered the refund of P147. The BIR filed for a Motion for Reconsideration which was denied by the CTA Second Division. The BIR filed a Petition for Review with the CTA *En Banc* docketed as CTA *En Banc* No. 2834.

SMB filed its Comment on February 1, 2024. On February 28, 2025, the CTA *En Banc* promulgated its Decision in CTA *En Banc* No. 2834 affirming the decision of the CTA Second Division in favor of SMB.

The BIR moved for reconsideration but the same was denied by the CTA *En Banc* on January 20, 2026. The BIR then filed a Petition for Review with the Supreme Court which was docketed as G.R. No. E-04680.

CTA Case No. 10745, SMB's claim for refund for P1,069, was decided in favor of SMB by the CTA First Division. The case is a consolidation of two claims, to wit:

i. P8 under RA No. 10351 - the overpayment arose from the BIR's imposition of excise tax of P27.07 per liter on SMB's beer products for the period January 23, 2020 to February 9, 2020 based on Revenue Memorandum Circular (RMC) No. 90-2012 and RR No. 17-2012. Said BIR issuances are inconsistent with RA No. 10351 which imposes an excise tax of P26.44 per liter under Section 143 of the NIRC, as amended by RA No. 10351 beginning January 1, 2020.

ii. P1,061 under RA No. 11467 - the overpayment arose from the BIR's imposition of excise tax of P35.00 per liter on SMB's beer products, as provided under Section 143 of the NIRC, as amended by RA No. 11467, for the period January 23, 2020 to February 9, 2020. The said imposition was based on RMC No. 65-2020, as amended by RMC No. 113-2020, implementing RA No. 11467 at an earlier date (i.e., January 23, 2020) which is inconsistent with the actual effectivity date of RA No. 11467 (i.e., February 10, 2020).

On November 18, 2024, the CTA First Division rendered a Decision ordering the BIR to refund or issue a TCC in favor of SMB in the amount of P1,069. The BIR filed a Motion for Partial Reconsideration which was denied by the CTA First Division on May 6, 2025. The BIR filed a Petition for Review with the CTA *En Banc* docketed as CTA *En Banc* No. 3157. SMB filed its Comment on June 23, 2025.

Filed by GSMI

GSMI filed two claims for refund for overpayments of excise taxes with the BIR which were then elevated to the CTA by way of petition for review as follows:

(a) CTA Case Nos. 8953 and 8954: These cases pertain to GSMI's Claims for Refund with the BIR, in the amounts of P582 in Case No. 8953, and P133 in Case No. 8954, or in the total amount of P715, representing payments of excise tax erroneously, excessively, illegally, and/or wrongfully assessed on and collected from GSMI by the BIR on removals of its distilled spirits or finished products for the periods from January 1, 2013 up to May 31, 2013 in Case No. 8953, and from January 8, 2013 up to March 31, 2013 in Case No. 8954.

The aforementioned assessment and collection arose from the imposition and collection of excise taxes on GSMI's finished products processed and produced exclusively from its inventory of ethyl alcohol, notwithstanding that excise taxes had already been previously paid by GSMI on said ethyl alcohol.

After several hearings and presentation of evidence, both parties filed their respective Formal Offers of Evidence.

On July 28, 2020, the CTA Third Division rendered its Decision and denied GSMI's Petition for Review. GSMI received the said Decision on August 24, 2020, for which it timely filed a Motion for Reconsideration on the aforementioned Decision on September 2, 2020, to which the Commissioner of Internal Revenue (CIR) filed its Opposition.

The CTA Third Division issued an Amended Decision dated February 1, 2021 which partially granted GSMI's Motion for Reconsideration and ruled that GSMI is entitled to a partial refund of its erroneously and excessively paid excise taxes in the amount of P320 out of its original claim of P715.

GSMI and CIR subsequently filed Motions for Reconsideration on the aforesaid Amended Decision and Oppositions to each other's Motion for Reconsideration. In a Resolution dated October 28, 2021, the CTA Third Division denied for lack of merit GSMI's Motion for Reconsideration and CIR's Motion for Partial Reconsideration of the Amended Decision.

On January 4, 2022, GSMI elevated to the CTA *En Banc* the Decision dated July 28, 2020, Amended Decision dated February 1, 2021, and Resolution dated October 28, 2021 of the CTA Third Division, by way of a Petition for Review, which was docketed as CTA *En Banc* No. 2555.

Earlier, the CIR also filed a Petition for Review with the CTA *En Banc* elevating thereto the Amended Decision dated February 1, 2021 and Resolution dated October 28, 2021 of the CTA Third Division, and the same was docketed as CTA *En Banc* No. 2544.

On March 28, 2022, the Court *En Banc* ordered the Parties to file their respective Comments/Oppositions to the Petitions for Review. On April 7, 2022, GSMI filed a Motion for Extension of Time to File Comment on the Petition for Review in CTA *En Banc* No. 2544.

On April 21, 2022, GSMI filed its Comment on the Petition for Review. On May 30, 2022, the Court *En Banc* promulgated a Resolution which denied GSMI's Motion for Extension and submitted the Petitions for Review for decision. On June 13, 2022, GSMI filed its Motion for Reconsideration assailing the said Resolution.

On October 4, 2022, the Court *En Banc* promulgated a Resolution which set aside the May 30, 2022 Resolution insofar as the Petitions for Review were submitted for decision. The Resolution likewise directed the CIR to file a Comment to GSMI's Motion for Reconsideration, to which the CIR failed despite due notice.

On January 18, 2023, the CTA *En Banc* granted GSMI's Motion for Extension of Time to File Comment on the Petition for Review in CTA *En Banc* No. 2544 and admitted GSMI's Comment as part of the records of the case.

In a Decision dated January 18, 2024 received by GSMI on January 23, 2024, the CTA *En Banc* denied both the Petitions for Review of GSMI and the CIR, and affirmed the Amended Decision of the CTA Third Division dated October 28, 2021 awarding GSMI a partial refund of P320 only.

GSMI had 15 days from January 23, 2024, or until February 7, 2024, within which to file a Petition for Review on Certiorari with the Supreme Court.

On January 30, 2024, GSMI filed a Motion for Extension of Time to File Petition for Review on Certiorari, praying for an extension of 30 days from February 7, 2024, or until March 8, 2024 within which to file a Petition for Review on Certiorari.

On March 4, 2024, GSMI filed with the Supreme Court a Petition for Review on Certiorari dated March 1, 2024, and the same was docketed as Supreme Court G.R. No. 271363. The CIR likewise filed its Petition for Review on Certiorari and the same was docketed as Supreme Court G.R. No. 275174.

These cases are still pending resolution.

(b) CTA Case No. 11052: This case is a judicial claim for refund of alleged deficiency taxes paid under protest by GSMI in connection with its removals of alcohol products for the period covering January 23, 2020 to February 9, 2020, in the aggregate amount of P66.

On July 22, 2020, GSMI received a Notice of Discrepancy dated July 6, 2020 issued by the BIR (the "Original NOD"), which enjoined GSMI to pay alleged deficiency excise taxes in the amount of P40, inclusive of interests, for the period covering January 27, 2020 to February 9, 2020.

On August 6, 2020, GSMI submitted to the BIR its Letter-Reply to the Original NOD, where it emphasized that it is not liable to pay the alleged deficiency excise tax liability, and thus, requested its cancellation and withdrawal.

On October 13, 2020, GSMI received from the BIR a Letter dated September 18, 2020 with an attached Amended Notice of Discrepancy, which modified the amount of the alleged deficiency excise tax liability to P72, inclusive of interests, for the period covering January 23, 2020 to February 9, 2020.

On October 28, 2020, GSMI submitted to the BIR its Letter-Reply to the Amended NOD, where it reiterated its position that it is not liable for the alleged deficiency excise taxes.

On November 11, 2020, GSMI received from the BIR a Letter dated November 6, 2020 which reiterated the finding of alleged deficiency excise tax under the Amended NOD.

On December 29, 2020, GSMI paid under protest the amount of P66, representing the deficiency excise tax portion under the Amended NOD, through the BIR Electronic Filing and Payment System (eFPS).

On January 8, 2021, GSMI submitted to the BIR a Letter-Reply to the BIR's Letter dated November 6, 2020. GSMI reiterated its position that it is not liable for the alleged deficiency excise tax liability under the Amended NOD and informed the BIR that it paid under protest the amount of P66 through eFPS on December 29, 2020. In the same Letter-Reply, GSMI explained that with respect to the assessed penalties from the alleged late payment of the deficiency excise tax, it would avail the remedies available under Revenue Regulations No. 13-2001, as amended.

On July 16, 2021, GSMI received a copy of Letter of Authority (LOA) No. LOA-121-2021-00000109 dated July 1, 2021 issued by the BIR, authorizing its revenue officers to examine GSMI's books of accounts and other accounting records for all internal revenue taxes except for value-added tax for taxable year 2020.

On August 3, 2021, GSMI filed with the CIR an administrative claim for refund of the erroneously or illegally collected deficiency excise tax for the period covering January 23, 2020 to February 9, 2020, in the amount of P66, which GSMI paid under protest on December 29, 2020.

On March 7, 2022, the BIR issued a letter notifying GSMI on the transmittal of the entire docket to CIR's Legal Service Division for its resolution and issuance of a clarificatory ruling on the administrative claim for refund.

Prior to the expiry of the two-year statutory period to file judicial action for the recovery of erroneously or illegally collected internal revenue taxes, GSMI filed a Petition for Review with the CTA on December 28, 2022 pursuant to Section 204(C) and 229, Tax Code, and Section 3(a), Rule 8, Revised Rules of the CTA in order to preserve its right to claim by judicial action its claims for refund of its erroneously or illegally collected deficiency excise taxes, in connection with its removals of alcohol products for the period covering January 23, 2020 to February 9, 2020.

The case was docketed as CTA Case No.11052, and was raffled to the CTA's First Division. In a Resolution dated May 29, 2023, the CTA First Division ordered the transfer of the case to the CTA Third Division.

Upon service of Summons to the CIR and the filing of the CIR's Answer dated March 24, 2023, pre-trial conference was held on July 26, 2023. Pursuant to the CTA's Order, the parties filed their Joint Stipulation of Facts and Issues on August 29, 2023. Pre-trial was terminated upon the issuance of the CTA's Pre-Trial Order on September 5, 2023.

GSMI presented its lone witness during the hearing on October 4, 2023. At the same hearing, the CTA ordered GSMI to file its Formal Offer of Evidence within ten days therefrom, or not later than October 13, 2023.

GSMI filed its Formal Offer of Evidence on October 13, 2023. Respondent CIR filed his Comment with Manifestation on GSMI's Formal Offer of Evidence on November 17, 2023. Respondent CIR's counsel manifested that they will no longer present testimonial evidence since there was no report of the investigation on GSMI's refund claim forwarded to their office.

On January 25, 2024, GSMI received the CTA's Resolution dated January 23, 2024, which admitted its Exhibits "P-1" to "P-17" and "P-19" to "P-21", inclusive of sub-markings. Moreover, the CTA's Resolution noted the manifestation of Respondent CIR that he will no longer present evidence, constraining the CTA to direct the parties to submit their respective memorandum within 30 days from receipt of the Resolution.

GSMI filed its Memorandum on February 23, 2024. In a Resolution dated March 7, 2024, the CTA noted the filing of GSMI's Memorandum. On April 2, 2024, GSMI received the Minute Resolution of the CTA dated March 22, 2024, noting that the CIR failed to file his Memorandum, and thus the Court deemed the case submitted for decision.

On March 21, 2025, the CTA Third Division promulgated its Decision which granted GSMI's Petition for Review. In the Decision, the CTA ordered the CIR to refund or issue a TCC in favor of GSMI amounting to P66, representing erroneously and illegally collected basic excise tax on the removals of alcohol for the period from January 23, 2020 to February 9, 2020.

On April 10, 2025, the CIR filed a Motion for Reconsideration of the CTA's Decision. On April 25, 2025, GSMI received a copy of CIR's Motion, which sought the reversal and setting aside of the Decision, and prayed for the issuance of a new one denying or dismissing GSMI's Petition for Review for lack of merit and/or failure to exhaust administrative remedies. On May 14, 2025, GSMI filed its Comment to the CIR's Motion for Reconsideration.

In its Resolution dated September 9, 2025, the CTA Third Division resolved to deny the CIR's Motion for Reconsideration for lack of merit. Thus, the Decision promulgated on March 21, 2025 was affirmed. On October 6, 2025, the CIR filed his Petition for Review dated September 24, 2025 with the CTA *En Banc*, and the same was docketed as CTA *En Banc* No. 3235. On November 20, 2025, GSMI received CTA *En Banc*'s Resolution dated November 15, 2025, directing GSMI to file its comment or opposition to the CIR's Petition for Review. In compliance, GSMI filed its Comment on December 1, 2025.

The case is still pending resolution.

(c) CTA Case No. 9059: This case pertains to GSMI's Claim for Refund with the BIR, in the total amount of P26, representing payments of excise tax erroneously, excessively, illegally, and/or wrongfully assessed on and collected from GSMI by the BIR on removals of its distilled spirits or finished products for the period from June 1, 2013 up to July 31, 2013.

The aforementioned assessment and collection arose from the imposition and collection of excise taxes on GSMI's finished products processed and produced exclusively from its inventory of ethyl alcohol, notwithstanding that excise taxes had already been previously paid by GSMI on the said ethyl alcohol.

After the presentation of its testimonial and documentary evidence, GSMI filed its Formal Offer of Evidence and Supplemental Offer of Evidence, which were all admitted by the CTA. BIR's presentation of evidence was set to January 23, 2019.

In a decision dated February 6, 2020, the CTA denied GSMI's Claim for refund for insufficiency of evidence. On February 20, 2020, GSMI filed a Motion for Reconsideration of the said Decision. However, the Motion for Reconsideration was denied by the CTA on June 9, 2020. On August 28, 2020, GSMI elevated the case to the CTA *En Banc* by way of a Petition for Review.

In a Decision dated November 10, 2021, the CTA *En Banc* denied the Petition for Review filed by GSMI. The Decision dated February 6, 2020 and the Resolution dated June 9, 2020 of the CTA Second Division were affirmed.

On December 10, 2021, GSMI elevated the Decision of the CTA *En Banc* to the Supreme Court by way of a Petition for Review, which was docketed as Supreme Court G.R. No. 25839.

In its Resolution dated July 14, 2025, which GSMI received on November 11, 2025, the Supreme Court deferred action on this case. In its Resolution dated August 27, 2025, which GSMI received on November 13, 2025, the Supreme Court resolved to consolidate G.R. No. 257839, "GSMI vs. CIR", with G.R. No. 271363, "GSMI vs. CIR" and G.R. No. 275174, "CIR vs. GSMI", considering that all the cases arose from the same antecedent facts, involve the same parties, and raise interrelated issues.

These cases are still pending resolution.

- Deficiency Tax Liabilities

  IBI

  On December 27, 2016, IBI received a Formal Letter of Demand for tax year 2012 with a demand for payment of income tax, VAT, withholding tax, documentary stamp tax (DST) and miscellaneous tax deficiencies with administrative penalties. IBI filed a Protest. Due to the inaction of the BIR, IBI filed a Petition for Review with the CTA Third Division and docketed as CTA Case No. 9657.

  On March 2, 2020, the CTA First Division promulgated its Decision partially granting IBI's Petition for Review. The assessment for deficiency income tax, VAT, DST and compromise penalty are cancelled and set aside.

  On October 29, 2020, the BIR filed a Petition for Review with the CTA *En Banc* docketed as CTA *En Banc* No. 2345. On January 25, 2021, IBI filed its Comment to the Petition for Review. On July 21, 2022, the CTA *En Banc* denied the BIR's Petition for Review. Thereafter, the BIR filed for a Motion for Reconsideration which was also denied by the CTA *En Banc*.

  The BIR filed a Petition for Review on Certiorari dated January 9, 2023 with the Supreme Court docketed as G.R. No. 264402.

  SMFI

  SMFI vs. Office of the City Treasurer, City of Davao

  SMFI filed several protests against the assessments issued by the City Treasurer of Davao City imposing permit fees to slaughter against its poultry dressing plants in Sirawan, Toril District and Los Amigos, Tugbok District both located in Davao City.

  Following the dismissal of the appeals filed by SMFI with the Davao RTC, the following Petitions for review were filed with the CTA:

  - CTA Case AC No. 209, filed on August 23, 2018
  - CTA Case AC No. 210, filed on November 12, 2018
  - CTA Case AC No. 249, filed on February 26, 2021

It is SMFI's position that Section 367 (a) of the 2005 Revenue Code of the City of Davao (Revenue Code of Davao City) on the imposition of permit fee to slaughter is applicable only to slaughterhouses operated by the City Government of Davao City. SMFI's poultry dressing plants in Sirawan, Toril District and Los Amigos, Tugbok District, being privately owned and operated slaughterhouses, are beyond the coverage of Section 357 (a) of the Revenue Code of Davao City. In addition, given that SMFI is already paying ante and post-mortem fees for the slaughter of poultry products pursuant to Section 367 (d) of the same Revenue Code, the assessment of permit fee to slaughter would constitute double taxation.

In CTA Case AC No. 209, the CTA First Division dismissed SMFI's Petition on May 29, 2020, and denied the Motion for Reconsideration on February 22, 2021. A Petition for Review was filed on May 12, 2021 with the CTA *En Banc* and docketed as CTA Case *En Banc* No. 2474. On January 31, 2023, the CTA *En Banc* denied SMFI's Petition. SMFI filed for a Motion for Reconsideration which was likewise denied on August 4, 2023. Following the denial, SMFI elevated and filed a Petition for Review with the Supreme Court on December 27, 2023.

Moreover, the CTA First Division also dismissed on July 3, 2020 the Petition docketed as CTA Case AC No. 210, and on July 28, 2021, SMFI's Motion for Reconsideration was denied. On October 8, 2021, SMFI filed a Petition for Review with the CTA *En Banc* docketed as CTA Case *En Banc* No. 2535, which was likewise denied on May 18, 2023. Thus, a Motion for Reconsideration was filed on September 15, 2023, with the same being denied on March 4, 2024.

Lastly, the CTA Special Third Division on October 12, 2022, dismissed the Petition for Review docketed as CTA Case AC No. 249 on the ground of lack of jurisdiction on permit fees as it is not a tax, therefore outside the CTA's jurisdiction. On December 22, 2022, SMFI filed a Motion for Reconsideration but was denied on November 9, 2023.

On April 2, 2024, SMFI Management decided not to pursue the above cases as the poultry dressing plants were already closed, therefore SMFI will no longer have future economic benefit from winning the cases.

- Oil Spill Incident in Guimaras

  On August 11, 2006, MT Solar I, a third-party vessel contracted by Petron to transport approximately two million liters of industrial fuel oil, sank 13 nautical miles southwest of Guimaras, an island province in the Western Visayas region of the Philippines. In separate investigations by the Philippine Department of Justice (DOJ) and the Special Board of Marine Inquiry (SBMI), both agencies found the owners of MT Solar I liable. The DOJ found Petron not criminally liable, but the SBMI found Petron to have overloaded the vessel. Petron has appealed the findings of the SBMI to the DOTr and is awaiting its resolution. Petron believes that SBMI can impose administrative penalties on vessel owners and crew, but has no authority to penalize other parties, such as Petron, which are charterers.

  Complaints for damages for non-payment of compensation for the clean-up operations during the oil spill were filed with the RTC of Guimaras by a total of 1,063 plaintiffs who allegedly did not receive any payment of their claims for damages arising from the oil spill. The total claims amounted to P292. The cases were pending as at December 31, 2025. In the course of plaintiffs' presentation of evidence, they moved for trial by the commissioner, which was denied by the trial court. The plaintiffs elevated the matter by way of a Petition for Certiorari to the Court of Appeals in Cebu City. On January 9, 2020, the Court of Appeals issued a Resolution granting plaintiffs' Motion for Reconsideration of the earlier resolution denying their petition and ordering Petron to file its comment on plaintiffs' petition within ten days. On February 6, 2020, Petron filed a Motion for Reconsideration of said Resolution which remains pending as at December 31, 2024. On September 25, 2024, the Court of Appeals denied the Motion for Reconsideration of another respondent International Oil Pollution Compensation (IOPC) Funds and directed IOPC to file its comment. The Court of Appeals held in abeyance any further action on the petition pending compliance with the directives of the said resolution. In the meantime, proceedings before the trial court continue. In one of the cases, the plaintiffs have already rested its case and trial dates have been set for the presentation of defendants' evidence. In the other case, plaintiffs are already expected to complete the presentation of their evidence testified so far. As at December 31, 2025 and 2024, the Group has not set up any provision related to this case because while the case is still pending, Petron believes the resolution will be in its favor.

- Lease Agreements with PNOC

  On October 20, 2017, Petron filed with the RTC of Mandaluyong City a complaint against the PNOC for the reconveyance of the various landholdings it conveyed to PNOC in 1993 as a result of the government-mandated privatization of Petron.

  The subject landholdings consisted of the refinery lots in Limay, Bataan, 23 bulk plant sites and 66 service station lots located in different parts of the country. The Deeds of Conveyance covering the landholdings provide that the transfer of these lots to PNOC was without prejudice to the continued long-term use by Petron of the conveyed lots for its business operation. Thus, PNOC and Petron executed three lease agreements covering the refinery lots, the bulk plants, and the service station sites, all with an initial lease term of 25 years which expired in August 2018, with a provision for automatic renewal for another 25 years. In 2009, Petron, through its realty subsidiary, NVRC, had an early renewal of the lease agreement for the refinery lots with an initial lease term of 30 years, renewable for another 25 years.

  The complaint alleged that PNOC committed a fundamental breach of the lease agreements when it refused to honor both the automatic renewal clause in the lease agreements for the bulk plants and the service station sites and the renewed lease agreement for the refinery lots on the alleged ground that all such lease agreements were grossly disadvantageous to PNOC, a government-owned-and-controlled corporation.

  On December 11, 2017, the trial court granted Petron's prayer for a writ of preliminary injunction, enjoining PNOC from committing any act aimed at ousting Petron from possession of the subject properties until the case is decided.

  The court-mandated mediation in 2018 and the judicial dispute resolution proceedings before the court in 2019 were likewise terminated, after the parties failed to agree to a settlement. Petron filed a motion for summary judgment on May 17, 2019. In a resolution dated November 13, 2019, the trial court granted Petron's motion for summary judgment and ordered: (i) the rescission of the Deeds of Conveyance dated 1993 relating to Petron's conveyance of such leased premises to PNOC pursuant to a property dividend declaration in 1993; (ii) the reconveyance by PNOC to Petron of all such properties; and (iii) the payment by Petron to PNOC of the amount of P143, with legal interest from 1993, representing the book value of the litigated properties at the time of the property dividend declaration. PNOC filed a Motion for Reconsideration. Petron also filed a motion for partial reconsideration seeking a modification of the judgment to include an order directing PNOC to return to Petron all lease payments the latter had paid to PNOC since 1993.

  Following the trial court's denial of their separate motions for reconsideration, both PNOC and Petron filed their respective notices of appeal with the trial court. In a decision dated December 13, 2021, the Court of Appeals dismissed both appeals of Petron and PNOC and affirmed the resolution of the trial court as described above. In a resolution promulgated on October 6, 2022, the Court of Appeals denied the respective motions for reconsideration of Petron and PNOC. The PNOC filed a Petition for Review on Certiorari with the Supreme Court in December 2022 which the Supreme Court denied on July 25, 2023 on the ground that PNOC failed to sufficiently show that the Court of Appeals committed any reversible error in the challenged decision and resolution as to warrant the Supreme Court's exercise of its discretionary appellate jurisdiction.

  In a resolution dated November 25, 2024, the Supreme Court denied with finality the Motion for Reconsideration and the motion to refer to the Supreme Court *En Banc* that the PNOC filed in December 2023. The November 2024 resolution also ordered the immediate issuance of the entry of judgment and declared that no further pleadings or motions shall be entertained.

  On January 21, 2025, PNOC filed a second Motion for Reconsideration. A second Motion for Reconsideration is generally prohibited under the Internal Rules of the Supreme Court.

Given the finality of the Supreme Courts's ruling, Petron recognized in its 2024 books the reversal of the conveyance of the land declared as property dividends in 1993 at P143 equivalent to the net book value of the land at the time of dividend declaration and instead recognized a liability for cash dividends to PNOC of the same amount plus legal interest of P267 computed from 1993 to 2024. The landholdings were recognized as part of "Property, plant and equipment" and "Investment property" amounting to P110 and P33, respectively (Notes 14 and 16). Correspondingly, all accruals related to the lease contracts with PNOC on the subject landholdings of the rescinded deeds of conveyance, namely, lease liabilities amounting to P3,629 (Note 21), ARO amounting to P2,600 (Note 22) for the cost of land restoration and remediation at the end of lease term, and the corresponding right-of-use assets amounting to P2,720 (Note 15) recognized previously were reversed which resulted in the recognition of gain on lease termination of P3,509 (Note 34).

On December 12, 2025, the trial court issued an order granting Petron's Motion for Issuance of Writ of Execution. On December 23, 2025, PNOC filed a Motion for Reconsideration with the trial court seeking the reversal of the trial court's order. In an Order dated January 8, 2026, the trial court denied PNOC's Omnibus Motion praying for the reversal of the trial court's December 12, 2025 Order granting the Writ of Execution and for the voluntary inhibition of presiding Judge Ryan Scott F. Robińos.

Petron recognized in its 2025 books additional legal interest amounting to P178 computed up to December 16, 2025 and made a valid tender of payment on December 17, 2025, when it offered to pay PNOC the amount of P588 through a Manager's Check. Petron's judgment debt in favor of PNOC could have been immediately satisfied had PNOC accepted the tender, but PNOC refused to do so. Petron's tender of payment was followed by its attempt to deposit the amount with the Branch Sheriff and the Branch Clerk of Court on January 27, 2026, pursuant to Rule 39 of the Rules of Court. When this was also refused without the payment of various fees, Petron filed a Motion for Consignation with the RTC on February 16, 2026. Also on February 16, 2026, Petron filed an Omnibus Motion seeking the court's order to divest PNOC of its ownership over all subject landholdings covered by the case and to vest ownership in Petron.

On February 19, 2026, Petron received an Order from the RTC divesting PNOC of its title over all the properties covered by the Deeds of Conveyance and vested title over them in Petron and ordered the relevant Registers of Deeds to cancel the transfer certificates of the title in the name of PNOC and to issue new ones in the name of Petron. The trial court also ordered Petron to consign the check that was refused acceptance by PNOC in December 2025.

On March 4, 2026, PNOC accepted the check amounting to P588 in full satisfaction of Petron's monetary obligations, inclusive of legal interest. The liability of Petron to PNOC was derecognized.

- Ilijan IPPA Agreement Dispute

SPPC and PSALM are parties to the Ilijan IPPA Agreement covering the appointment of SPPC as the IPP Administrator of the Ilijan Power Plant.

SPPC and PSALM have an ongoing dispute arising from differing interpretations of certain provisions related to generation payments under the Ilijan IPPA Agreement. As a result of such dispute, the parties have arrived at different computations regarding the subject payments. In a letter dated August 6, 2015, PSALM has demanded payment of the difference between the generation payments calculated based on its interpretation and the amount which has already been paid by SPPC, plus interest, covering the period December 26, 2012 to April 25, 2015.

On August 12, 2015, SPPC initiated a dispute resolution process with PSALM as provided under the terms of the Ilijan IPPA Agreement, while continuing to maintain its position that it has fully paid all of its obligations to PSALM. Notwithstanding the bona fide dispute, PSALM issued a notice terminating the Ilijan IPPA Agreement on September 4, 2015. On the same day, PSALM also called on the performance bond posted by SPPC pursuant to the Ilijan IPPA Agreement.

On September 8, 2015, SPPC filed a Complaint with the RTC of Mandaluyong City requesting the RTC that its interpretation of the relevant provisions of the Ilijan IPPA Agreement be upheld and asked that a 72-hour Temporary Restraining Order (TRO) be issued against PSALM for illegally terminating the Ilijan IPPA Agreement and drawing on the performance bond of SPPC. On even date, the RTC issued a 72-hour TRO which prohibited PSALM from treating SPPC as being in Administrator Default and from performing other acts that would change the status quo ante between the parties before PSALM issued the termination notice and drew on the performance bond of SPPC. The TRO was extended, and a Preliminary Injunction was later on granted maintaining status quo while the main case is pending.

Despite the pendency of the proceedings, the Ilijan Power Plant was turned over by PSALM to SPPC pursuant to the Ilijan IPPA Agreement and the Deed of Sale executed between PSALM and SPPC on June 3, 2022.

Trial on the merits proceeded until the RTC rendered a decision in favor of SPPC on June 13, 2025 (the "June 13, 2025 Decision"), which was received by SPPC on October 7, 2025. The June 13, 2025 Decision stated that PSALM's termination of the Ilijan IPPA Agreement, drawing of the Performance Bond, and issuance of the Cessation Notice were unauthorized and without factual and legal basis, ordered PSALM to among others return to SPPC the amount of the Performance Bond drawn by PSALM, with interests, and dismissed PSALM's counterclaim for lack of merit.

On October 22, 2025, PSALM filed a Motion for Reconsideration of the June 13, 2025 Decision. SPPC filed its Opposition to the Motion for Reconsideration on October 28, 2025.

On January 16, 2026, the RTC issued an order denying PSALM's Motion for Reconsideration of the June 13, 2025 Decision (the "January 16, 2026 RTC Order").

On March 5, 2026, SPPC through its external counsel received the Notice of Appeal dated February 24, 2026, filed by PSALM where it notified the RTC that it is appealing the June 13, 2025 Decision and January 16, 2026 RTC Order.

- Imported Industrial Fuel Oil

  SLHBTC has an on-going case with the CTA against the Commissioner of Customs (the Commissioner). On January 16, 2016, a Warrant of Seizure and Detention was issued against the 44,000 metric tons of fuel imported by SLHBTC with approximate value of P751. The Commissioner alleged that SLHBTC discharged fuel directly from the vessel carrying SLHBTC's imported fuel to another vessel via loop loading without paying duties and taxes and therefore, violating the Customs Modernization Tariff Act and other customs regulations. On January 20, 2017, the District Collector of Customs issued a decision forfeiting the fuel in favor of the government.

  Subsequently on March 23, 2017, SLHBTC filed with the CTA a petition for review seeking the lifting and termination of the Warrant of Seizure and Detention and the reversal of the decision issued by the District Collector of Customs.

  On April 19, 2017, SLHBTC filed with the CTA a Motion for Special Order to release the 44,000 metric tons of fuel, which was granted on January 28, 2018 subject to the posting of a surety bond amounting to P123 or one and one-half times of the assessed amount of P82 representing VAT. SLHBTC posted the surety bond and the 44,000 metric tons of fuel were released.

  On December 1, 2021, the customs officer representing the District Collector of Customs was cross-examined by SLHBTC legal counsel. He admitted that he did not examine the imported documents prior to recommending the issuance of a Writ of Seizure and Detention.

  On February 24, 2022, the CTA decided to lift and terminate the Warrant of Seizure and Detention issued by the Commissioner and reversed the decision issued by the District Collector of Customs in January 2017 to forfeit the fuel in favor of the government. Moreover, the order granted by the CTA in January 2018 to release the 44,000 metric tons of fuel is now permanent and the surety bond of P123 shall be released and discharged to SLHBTC upon finality of judgment.

On October 5, 2022, the Commissioner filed a Petition for Review with the CTA *En Banc*. After technical issues were clarified, SLHBTC filed its comment on January 30, 2023. There has been no action from the CTA since then.

On April 16, 2024, the Commissioner filed a Motion for Reconsideration that seeks to reverse the CTA *En Banc's* decision on denying the Commissioner's petition for review last October 2022. Subsequently, on October 15, 2024, CTA *En Banc* released its Notice for Resolution, denying the Commissioner's Motion for Reconsideration last April 16, 2024 due to lack of merit.

On January 23, 2025, SLHBTC's legal counsel received a copy of the Petition for Certiorari under Rule 45 of the Rules of Court, filed by the Commissioner before the Supreme Court. In this petition, the Commissioner now seeks to annul the CTA *En Banc*'s decision dated March 8, 2024 and Resolution October 15, 2024. As of November 12, 2025, SLHBTC's legal counsel have yet to receive an order to comment, or any other action from the Supreme Court since the filing of the Commissioner's petition.

SLHBTC and its legal counsel assessed that it has a meritorious case and the final outcome will not have a material adverse effect on the SLHBTC's business financial condition and results of operations.

- Criminal Cases

  Complaint against PSALM, TPEC, and TSC

  On October 21, 2015, SPI filed a criminal complaint for Plunder and violation of Section 3(e) and 3(f) of RA No. 3019, otherwise known as the "Anti-Graft and Corrupt Practices Act", before the DOJ against a certain officer of PSALM, and certain officers of TPEC and TSC, relating to the illegal grant of the so-called "excess capacity" of the Sual Power Plant in favor of TPEC which enabled it to receive a certain amount at the expense of the Government and SPI.

  In a Resolution dated July 29, 2016, the DOJ found probable cause to file an Information against the respondents for Plunder and violation of Section 3(e) and 3(f) of RA No. 3019 (the "July 29, 2016 DOJ Resolution"). The DOJ further resolved to forward the entire records of the case to the Office of the Ombudsman for their proper action. The TPEC and TSC officers have respectively appealed said July 29, 2016 DOJ Resolution, through the filing of a Petition for Review with the Secretary of Justice while the PSALM officer filed a Verified Motion for Reconsideration.

  On October 25, 2017, the DOJ issued a Resolution partially granting the Petition for Review of the TPEC and TSC officers by reversing the July 29, 2016 DOJ Resolution insofar as the conduct of the preliminary investigation was concerned, ruling that the Office of the Prosecutor General should have endorsed the case to the Office of the Ombudsman. On November 17, 2017, SPI filed a motion for partial reconsideration of said DOJ Resolution dated October 25, 2017.

  While the said Motion for Partial Reconsideration was pending, SPI, TPEC, TSC and the TPEC and TSC officers filed before the DOJ a Joint Motion to Dismiss dated June 6, 2022 praying for the dismissal of the criminal complaint filed by SPI against TPEC and TSC.

  In a Resolution promulgated on May 5, 2023, the DOJ affirmed its Resolution dated October 25, 2017. The DOJ held that considering SPI's desistance, SPI's Motion for Partial Reconsideration of the DOJ's Resolution of October 25, 2017 was considered dismissed and/or withdrawn. The PSALM officer's Verified Motion for Reconsideration remains unresolved as at report date.

- SPI Consignation Case

  On June 17, 2016, SPI filed with the RTC of Pasig City (the "RTC Pasig") a civil complaint for consignation against PSALM arising from PSALM's refusal to accept SPI's remittances corresponding to the proceeds from the sale to the WESM of electricity generated from capacity in excess of the 1,000 MW of the Sual Power Plant (the "Sale of the Excess Capacity"). With the filing of the complaint, SPI also consigned with the RTC Pasig, the amount corresponding to the proceeds of the Sale of the Excess Capacity for the billing periods December 26, 2015 to April 25, 2016.

PSALM filed an Answer dated August 17, 2016 stating that it has no right to, and is not the owner of, the proceeds from the Sale of the Excess Capacity and that the consigned amount should belong to TPEC as it is rightfully entitled to the 200 MW excess capacity of the Sual Power Plant (the "Excess Capacity").

On October 3, 2016, SPI filed an Omnibus Motion to Admit Supplemental Complaint and to Allow Future Consignation without Tender (the "Omnibus Motion"). Together with this Omnibus Motion, SPI consigned with the RTC Pasig an additional amount corresponding to the proceeds of the Sale of the Excess Capacity for the billing periods from April 26, 2016 to July 25, 2016. Subsequently, SPI continuously consigned additional proceeds from the Sale of the Excess Capacity for succeeding billing periods, with the RTC Pasig.

On May 22, 2018, the RTC Pasig issued an Order dismissing the complaint for consignation filed by SPI on the ground that the court has no jurisdiction over the subject matter of the complaint and finding that the ERC has the technical competence to determine the proper interpretation of "contracted capacity", the fairness of the settlement formula and the legality of the memorandum of agreement. SPI filed its Motion for Reconsideration to this Order.

After the case was later re-raffled, the RTC Pasig Branch 268, in an Order dated September 30, 2021: (a) granted SPI's Motion for Reconsideration and Supplemental Motion for Reconsideration of the Order dated May 22, 2018, which dismissed the case for lack of jurisdiction; (b) granted SPI's Omnibus Motion to Admit Supplemental Complaint and Allow Future Consignations without Tender; and (c) reinstated the Complaint.

On October 5, 2022, SPI and PSALM filed an Omnibus Motion to Dismiss and Release Deposited Monies, whereby PSALM, agreed to the release of the said amounts to TPEC. Relying on PSALM's representation and acknowledgment, did not object to the release of the consigned amounts to TPEC, which was later granted by the RTC Pasig Branch 268.

Further related thereto, on December 1, 2016, SPI received a copy of a Complaint filed by TPEC and TSC with the ERC against SPI and PSALM in relation to issues on the Excess Capacity issues, which have already been raised in the abovementioned cases. SPI filed a Motion to Dismiss and Motion to Suspend Proceeding of the instant case.

On June 6, 2022, SPI, TPEC and TSC filed a Joint Motion to Dismiss the ERC complaint. SPI received the Order from the ERC on June 22, 2022, asking the parties to submit a copy of the settlement agreement within five days from receipt of such order. TPEC, TSC and SPI filed with the ERC a Compliance and Submission attaching the settlement agreement on June 28, 2022. As at December 31, 2025, the case is still pending as the ERC has not issued any resolution granting the Joint Motion to Dismiss filed by the parties.

The total amount consigned with the RTC Pasig amounting to P491 was released to TPEC on December 20, 2022.

- Petition to Stop the Imposition of the Increase in Generation Charge

On December 5, 2013, Meralco wrote the ERC requesting for clearance and authority: (i) to collect a generation charge of P7.90 per kWh in its December 2013 billings to its customers for its generation cost for the month of November 2013; and (ii) to defer to February 2014 the recovery of the remaining P3,000, representing a portion of the generation costs for the November 2013 supply month which was not passed on to customers in December 2013, subject to the inclusion of the appropriate carrying charge. In response thereto, the ERC, in its letter dated December 9, 2013, granted Meralco the authority to implement a staggered collection of its generation cost for the power supplied in November 2013. The ERC, however, did not approve Meralco's request to recover the carrying costs and directed it to file a formal application for this instead.

On December 19, 2013, Petitioners Bayan Muna representatives, et al. filed a petition against the ERC and Meralco, questioning the increase in the generation cost for November 2013 supply month. On December 20, 2013, Petitioner National Association of Electricity Consumers for Reforms (NASECORE) et al. filed a petition against the ERC, DOE and Meralco assailing the automatic adjustment of generation cost. On December 23, 2013, the Supreme Court issued a resolution consolidating both petitions and issued a TRO, originally for a period of 60 days, enjoining: (i) the ERC from implementing its letter dated December 9, 2013; and (ii) Meralco from increasing the rates it charged to its consumers based on its letter dated December 5, 2013.

As a result, Meralco was constrained to fix its generation rate to its October 2013 level of P5.67 per kWh.

On January 8, 2014, Meralco filed its Consolidated Comment/Opposition with Counter-Petition (the "Counter-Petition") which prayed, among others, for the inclusion of SPI, SPPC, SRHI, MPCL and several generators as respondents to the case. On January 10, 2014, the Supreme Court issued an Order treating the Counter-Petition as in the nature of a third party complaint and granting the prayer to include SPI, SPPC, SRHI and MPCL as respondents in the Petition.

On February 18, 2014, the Supreme Court extended the TRO issued on December 23, 2013 for another 60 days or until April 22, 2014 and granted additional TROs enjoining the PEMC and the generators from demanding and collecting the deferred amounts. In a Resolution dated April 22, 2014, the Supreme Court extended indefinitely the effectivity of the TROs issued on December 23, 2013 and February 18, 2014.

In the Petition filed by special interest groups, the Supreme Court was made aware of the order of the ERC dated March 3, 2014 (the "March 3, 2014 ERC Order") (as defined and discussed under "*ERC Order Voiding WESM Prices"*), in which the ERC declared void the WESM prices during the November and December 2013 supply months and imposed regulated prices in their stead. The March 3, 2014 ERC Order likewise directed PEMC to: (a) calculate these "regulated prices" based on a formula identified by the ERC as representative of 2013 market prices under normalized conditions; and (b) to collect the same from the WESM participants involved.

A decision was promulgated by the Supreme Court *En Banc* on August 3, 2021 (the "Supreme Court Decision"), affirming the December 9, 2013 ERC Order, which approved the staggered imposition by Meralco of its generation rate for November 2013 from its consumers and declared as null and void the March 3, 2014 ERC Order. SPI, SPPC, and SRHI however received a copy of the Supreme Court Decision through their counsel only on July 5, 2022, while MPCL received the same on July 6, 2022.

On July 26, 2022, the special interest groups sought reconsideration of the Supreme Court Decision by filing separate Motions for Reconsideration where they prayed that the Supreme Court Petition be granted. The ERC likewise filed a Motion for Partial Reconsideration of the Supreme Court Decision and sought the reinstatement of the March 3, 2014 ERC Order, among others.

These motions were denied with finality by the Supreme Court *En Banc*, in its resolution dated October 11, 2022, which also directed the entry of judgment of the Supreme Court Decision be made immediately. On January 4, 2023, the external counsel of SPPC, SPI and SRHI received a copy of the Entry of Judgement from the Supreme Court *En Banc* dated October 11, 2022, while the external counsel of MPCL received a copy of the same on January 5, 2023.

With this, the relevant subsidiaries namely, SPPC, MPCL and SPI are pursuing the implementation of the Supreme Court Decision as at December 31, 2025. SPPC, MPCL and SPI have aggregate outstanding receivables from Meralco estimated at P1,276 included under "Trade and other receivables - net" account in the consolidated statements of financial position as at December 31, 2025.

- ERC Order Voiding WESM Prices

Relative to the above-cited Petition, on December 27, 2013, the DOE, ERC and PEMC, acting as a tripartite committee, issued a joint resolution setting a reduced price cap on the WESM of P32.00 per kWh. The price was set to be effective for 90 days until a new cap is decided upon.

On March 3, 2014, the ERC, in the exercise of its police power, issued an order in Miscellaneous Case No. 2014-021, declaring the November and December 2013 Luzon WESM prices void, imposed the application of regulated prices and mandated PEMC, the operator of the WESM, to calculate and issue adjustment bills using recalculated prices (the "March 3, 2014 ERC Order").

Subsequent orders were issued by the ERC setting the period for compliance of the March 3, 2014 ERC Order (collectively, together with the March 3, 2014 Order, the "2014 ERC Orders"). Based on these orders, SPI and SRHI recognized a reduction in the sale of power while MPCL, San Miguel Electric Corp. (SMELC) and SPPC recognized a reduction in its power purchases. Consequently, a payable and receivable were also recognized for the portion of over-collection or over-payment, the settlement of which have been covered by a 24-month Special Payment Arrangement with PEMC which was already completed on May 25, 2016.

SPI, SPPC, SRHI and MPCL filed various pleadings requesting ERC for the reconsideration of the March 3, 2014 ERC Order. Other generators also requested the Supreme Court to stop the implementation of the March 3, 2014 ERC Order. The ERC denied the motions for reconsideration filed by the generators.

On June 26, 2014, SPI, SPPC and SRHI, and on December 12, 2014, MPCL appealed the said ERC denial before the Court of Appeals through their respective Petitions for Review.

After consolidating the cases, the Court of Appeals, in its decision dated November 7, 2017 (the "November 7, 2017 Decision"), granted the Petition for Review filed by SPI, SPPC, SRHI and MPCL, declared the 2014 ERC Orders null and void and accordingly reinstated and declared as valid the WESM prices for Luzon for the supply months of November to December 2013.

Motions for Reconsideration of the November 7, 2017 Decision and several other motions which were filed by various intervenors, were denied by the Court of Appeals through its Omnibus Resolution dated March 29, 2019. The intervenors filed Petitions for Review on Certiorari before the Supreme Court, which were also denied by the Supreme Court through its resolutions dated September 11, 2019 and October 1, 2019. Entries of judgment were subsequently issued by the Supreme Court.

The ERC and Meralco also filed separate Petitions for Review appealing the above orders, which nullified and set aside the 2014 ERC Orders, declaring the WESM prices for November and December 2013 void. The Supreme Court directed the consolidation of the separate petitions to the Third Division of the Supreme Court.

The Supreme Court has not yet promulgated a decision as at December 31, 2025. However, on August 3, 2021, a Decision was rendered by the Supreme Court *En Banc* in a separate case (as discussed under "*Petition to Stop the Imposition of the Increase in Generation Charge*") declaring the March 3, 2014 ERC Order as null and void, which is the subject of the aforementioned Petition. Considering that this decision of the Supreme Court *En Banc* covers the March 3, 2014 ERC Order, the difference between the actual Luzon WESM prices and the regulated prices (based on the March 3, 2014 ERC Order) for WESM sales and purchases by SPI, SPPC, SRHI, SMELC and MPCL amounting to up to P2,322 will have to be settled with the IEMOP, the current operator of the WESM, in favor of the relevant San Miguel Global Power subsidiaries.

b. EPIRA

The EPIRA sets forth the following: (i) Section 49 created PSALM to take ownership and manage the orderly sale, disposition and privatization of all existing NPC generation assets, liabilities, IPP contracts, real estate and all other disposable assets; (ii) Section 31(c) requires the transfer of the management and control of at least 70% of the total energy output of power plants under contract with NPC to the IPP Administrators as one of the conditions for retail competition and open access; and (iii) Pursuant to Section 51(c), PSALM has the power to take title to and possession of the IPP contracts and to appoint, after a competitive, transparent and public bidding, qualified independent entities who shall act as the IPP Administrators in accordance with the EPIRA. In accordance with the bidding procedures and supplemented bid bulletins thereto to appoint an IPP Administrator relative to the capacity of the IPP contracts, PSALM has conducted a competitive, transparent and open public bidding process following which San Miguel Global Power was selected winning bidder of the IPPA Agreements (Note 36).

The EPIRA requires generation and DU companies to undergo public offering within five years from the effective date and provides cross ownership restrictions between transmission and generation companies. If the holding company of generation and DU companies is already listed with the PSE, the generation company or the DU need not comply with the requirement since such listing of the holding company is deemed already as compliance with the EPIRA.

A DU is allowed to source from an associated company engaged in generation up to 50% of its demand except for contracts entered into prior to the effective date of the EPIRA. Generation companies are restricted from owning more than 30% of the installed generating capacity of a grid and/or 25% of the national installed generating capacity. The Group is in compliance with the restrictions as at December 31, 2025 and 2024.

c. *Claims for Contract Price Adjustments on Certain "Fixed Price" PSAs with Meralco*

On October 22, 2019, SPI and SPPC each filed before the ERC a Joint Application with Meralco for the approval of their respective PSA with Meralco with prayer for provisional authority (the "Application"). The PSA of SPPC covers the supply of 670 MW baseload capacity to Meralco ("SPPC PSA") while the PSA of SPI covers the supply of 330 MW baseload capacity to Meralco ("SPI PSA") both for a period of ten years. The SPPC PSA and SPI PSA were awarded by Meralco to each of SPPC and SPI after they emerged as the winning bidders in the competitive selection process conducted by Meralco in September 2019.

On March 16, 2020, the ERC released Orders both dated December 10, 2019, granting provisional authority to implement the SPPC PSA and SPI PSA.

On May 11, 2022, SPPC and SPI each filed a Joint Motion for Price Adjustment with Meralco (the "Joint Motion") seeking approval from the ERC to temporarily increase the contract price under the SPPC PSA and SPI PSA for a period of six months, to recover incremental fuel costs covering January to May 2022 billing periods arising from a Change in Circumstances (as defined in the PSAs) to be collected over a period of six months.

On September 29, 2022, the ERC denied the foregoing Joint Motions filed by each of SPPC and SPI with Meralco requesting for the proposed price adjustments (the "September 29, 2022 ERC Orders").

SPPC Petition
On November 10, 2022, SPPC filed with the Court of Appeals a Petition for Certiorari under Rule 65 with Application for the Issuance of a TRO and/or Writ of Preliminary Injunction to annul, reverse and set aside the September 29, 2022 ERC Order for SPPC (the "SPPC Court of Appeals Petition"). The Court of Appeals issued a TRO on December 2, 2022, and a writ of preliminary injunction on February 23, 2023.

On July 10, 2023, SPPC received the Court of Appeals' Joint Decision dated June 27, 2023 (the "June 27, 2023 Court of Appeals Decision") which granted the consolidated petitions of SPPC and SPI. The Court of Appeals: (i) annulled and set aside the September 29, 2022 ERC Orders for having been issued with grave abuse of discretion; (ii) granted the Joint Motions for Price Adjustment with Provisional Authority and/or Interim Relief, without prejudice to any further requests for price adjustments for June 2022 onwards (for SPPC, from June 2022 to January 25, 2023 [date of writ of preliminary injunction] and for SPI, from June 2022 to the date of the finality of the June 27, 2023 Court of Appeal's Decision); and (iii) made permanent the writ of preliminary injunction issued in favor of SPPC. The Motions for Reconsideration filed by NASECORE and the ERC were also subsequently denied.

The June 27, 2023 Court of Appeals Decision was later on confirmed by the Supreme Court in a Resolution dated April 3, 2024 which denied the ERC's Petition for Review on Certiorari "for failure of petitioner [ERC] to sufficiently show that the Court of Appeals committed any reversible error in the challenged joint decision and resolution as to warrant the exercise of this Court's discretionary appellate jurisdiction." The ERC's Motion for Reconsideration of the Supreme Court Resolution was also denied with finality in another Supreme Court Resolution dated July 10, 2024, and received on August 30, 2024. An Entry of Judgment has already been issued for this case.

Pursuant thereto, SPPC filed with the ERC a Motion for Issuance of Writ of Execution to enforce the June 27, 2023 Court of Appeals Decision on October 10, 2024 and a Motion to Resolve (re: Motion for Issuance of Writ of Execution) on February 6, 2025. After filing a Motion to Direct the Court of Origin to Issue Writ of Execution with the Court of Appeals in March 2025 to compel the ERC to issue writs of execution on the June 27, 2023 Court of Appeals Decision, the Court of Appeals partially granted its motions and directed the ERC to immediately implement the June 27, 2023 Court of Appeals Decision and act on SPPC's motions without further delay.

On September 2, 2025, SPPC received the Compliance filed by the ERC with the Court of Appeals. In said Compliance, the ERC submitted its Order in ERC Case No. 2019-081 RC, promulgated on August 22, 2025, which granted SPPC's Motions for Issuance of Writ of Execution (Re: Court of Appeals Joint Decision dated June 27, 2023). The order allowed SPPC to recover from Meralco the price adjustments prayed for in its motions and authorized Meralco to collect the adjustments from its customers over a period of six months from the September 2025 customer billing period. As at February 25, 2026, Meralco has fully remitted its payment of the price adjustments to San Miguel Global Power.

Related thereto, pursuant to the June 27, 2023 Court of Appeals Decision, SPPC issued a Notice of Change in Circumstances (CIC) on August 18, 2023, informing Meralco of its request for price adjustments for the period May 26, 2022 to December 6, 2022 and requested the cooperation and assistance of Meralco in seeking the necessary approvals on the recovery of the additional claim due to CIC, as provided under the SPPC PSA, through the filing of a joint motion for the adjustment of the Contract Price with the ERC. In a letter dated January 30, 2024, Meralco acknowledged SPPC's right to the adjustment in the Contract Price as a result of the CIC under the SPPC PSA and in a letter dated August 30, 2024, validated the amounts being claimed therein.

On November 21, 2024, SPPC filed a Motion for Price Adjustment with the ERC, for its CIC claim for the period May 26, 2022 to December 6, 2022 pursuant to the SPPC PSA (the "2nd SPPC CIC Claim"), with its claims anchored on essentially the same legal bases established or ruled on by the Court of Appeals in its June 27, 2023 Court of Appeals Decision and confirmed by the Supreme Court with finality.

On January 27, 2026, SPPC received a copy of the ERC's Order dated January 26, 2026 which granted the 2nd SPPC CIC Claim allowing SPPC to recover from Meralco the aggregate amount of P15,850 over a recovery period of 36 months commencing from the March 2026 billing period.

SPI Petition
On November 10, 2022, SPI also filed with the Court of Appeals a Petition for Certiorari under Rule 65 with Application for the Issuance of a TRO and/or Writ of Preliminary Injunction to annul, reverse and set aside the September 29, 2022 ERC Order for SPI (the "SPI Court of Appeals Petition").

On January 13, 2023, the Court of Appeals: (i) denied SPI's prayer for the issuance of a TRO and/or writ of preliminary injunction; and (ii) granted the consolidation of the SPI Court of Appeals Petition with the SPPC Court of Appeals Petition.

On July 10, 2023, SPI received the Court of Appeals Joint Decision dated June 27, 2023 (the "June 27, 2023 Court of Appeals Decision") which granted the consolidated petitions of SPPC and SPI. The Court of Appeals: (i) annulled and set aside the September 29, 2022 ERC Orders for having been issued with grave abuse of discretion; (ii) granted the Joint Motions for Price Adjustment with Provisional Authority and/or Interim Relief, without prejudice to any further requests for price adjustments for June 2022 onwards (for SPPC, from June 2022 to January 25, 2023 [date of writ of preliminary injunction] and for SPI, from June 2022 to the date of the finality of the June 27, 2023 Court of Appeals Decision); and (iii) denied SPI's Motion for Partial Reconsideration of the January 13, 2023 Court of Appeals Resolution and its application for the issuance of a writ of preliminary injunction for being moot and academic.

The June 27, 2023 Court of Appeals Decision was later on confirmed by the Supreme Court in a Resolution dated April 3, 2024, and received on May 21, 2024, which denied the ERC's Petition for Review on Certiorari "for failure of petitioner [ERC] to sufficiently show that the Court of Appeals committed any reversible error in the challenged joint decision and resolution as to warrant the exercise of this Court's discretionary appellate jurisdiction." The ERC's Motion for Reconsideration of the Supreme Court Resolution dated April 3, 2024 was denied with finality in a Supreme Court Resolution dated July 10, 2024, and received on August 30, 2024. An Entry of Judgment has already been issued for this case.

Pursuant thereto, SPI filed with the ERC a Motion for Issuance of Writ of Execution to enforce the June 27, 2023 Court of Appeals Decision on October 10, 2024 and a Motion to Resolve (re: Motion for Issuance of writ of Execution) on February 6, 2025. After filing a Motion to Direct the Court of Origin to Issue Writ of Execution with the Court of Appeals in March 2025 to compel the ERC to issue writs of execution on the June 27, 2023 Court of Appeals Decision, the Court of Appeals partially granted its motions and directed the ERC to immediately implement the June 27, 2023 Court of Appeals Decision and act on SPI's motions without further delay.

On September 2, 2025, SPI received the Compliance filed by the ERC with the Court of Appeals. In said Compliance, the ERC submitted its Order in ERC Case No. 2019-083 RC, promulgated on August 22, 2025, which granted SPI's Motions for Issuance of Writ of Execution (Re: Court of Appeals Joint Decision dated June 27, 2023). The order allowed SPI to recover from Meralco the price adjustments prayed for in its motions and authorized Meralco to collect the adjustments from its customers over a period of six months from the September 2025 customer billing period. As at February 25, 2026, Meralco has fully remitted its payment of the price adjustments to SPI.

Related thereto, pursuant to the June 27, 2023 Court of Appeals Decision, SPI issued a Notice of CIC on August 18, 2023, informing Meralco of its request for price adjustments for the period June 2022 to July 2023 and requested the cooperation and assistance of Meralco in seeking the necessary approvals on the recovery of the additional claim due to CIC, as provided under the SPI PSA, through the filing of a joint motion for the adjustment of the Contract Price with the ERC. In a letter dated January 30, 2024, Meralco acknowledged SPI's right to the adjustment in the Contract Price as a result of the CIC under the SPI PSA, and in a letter dated August 30, 2024, validated the amounts being claimed therein.

On November 21, 2024, SPI filed a Motion for Price Adjustment with the ERC, for its CIC claim for the period June 2022 to July 2023 pursuant to the SPI PSA (the "2nd SPI CIC Claim"), with its claims anchored on essentially the same legal bases established or ruled on by the Court of Appeals in its June 27, 2023 Court of Appeals Decision and confirmed by the Supreme Court with finality.

On January 27, 2026, SPI received a copy of the ERC's Order dated January 26, 2026 which granted the 2nd SPI CIC Claim allowing SPI to recover from Meralco the aggregate amount of P13,362 over a recovery period of 36 months commencing from the March 2026 billing period.

In view of the dilution of San Miguel Global Power's equity interest in SPPC from 100% to 33%, following the Chromite Transaction in January 2025 but prior to the final resolution of these cases by the relevant court and/or the ERC, the parties to the Chromite Transaction acknowledged and agreed that San Miguel Global Power shall be entitled, pursuant to the relevant Chromite Transaction documents and forming part of the agreed consideration thereunder, to the economic benefits, rights of recovery, and corresponding potential equivalent exposure arising from the aforesaid cases and claims involving SPPC.

d. Joint Agreement with Citicore Renewable Energy Corporation (CREC) for the Group's Solar Projects

On June 28, 2024, San Miguel Global Power through its subsidiary, SGLPC, signed an agreement with CREC for a 153.5 MW peak solar power plant to be constructed in Barangay Lucanin, Mariveles, Province of Bataan, that is expected to be completed in 2027. The solar power plant to be owned by a wholly-owned subsidiary of SGLPC, LSI, shall be located in a property with an area of approximately 158 hectares owned by an affiliate. Upon commencement of operations, all capacity to be generated by the solar power plant shall be supplied to the Group or any of its affiliates under long-term energy supply contracts.

LSI was incorporated in the Philippines and registered with the Philippine SEC on August 9, 2024 primarily to carry on the business of producing, generating and storing electricity and processing fuels alternatives for the power generation.

On May 21, 2025, CREC subscribed to 105,560 common shares of LSI at a subscription price of P100.00 per share or for a total subscription amount of P11. As a result of the subscription, CREC now owns 49% of the outstanding capital stock of LSI while SGLPC retains 51% equity interest in the same.

e. Investment Agreement

The Parent Company entered into an Investment Agreement with Cerulean Infrastructure Investments Limited subject to terms and conditions defined in the Investment Agreement.

f. Impact of the United States of America-Israel-Iran Conflict

The joint attack of the United States of America and Israel on Iran on February 28, 2026, has resulted in significant volatility in global oil markets. Dubai crude prices increased sharply and remained elevated. The market reaction was driven by concerns over global oil supply following the closure of the Strait of Hormuz, a key transit route through which about 20% of global oil and a significant share of liquefied natural gas supply pass. As a result, prices have remained volatile, with notable movements observed across refined products, particularly middle distillates such as kerosene, jet fuel and diesel.

The Parent Company, through its Fuel and Oil business, sources most of its crude oil requirements from the Middle East under term supply arrangements. The closure of the Strait of Hormuz has affected the movement of crude oil from the region. The Group has undertaken measures to support the continuity of supply, including pursuing alternative sources of crude oil through its network of suppliers and securing imported fuel products to supplement refinery production and maintain product availability.

The increase in oil prices may affect the Group's working capital requirements. This impact may be further influenced by depreciation of the Philippine Peso, as crude oil and fuel purchases and a portion of the Group's borrowings are denominated in US Dollars. The Group manages its exposure to commodity price and foreign currency fluctuations using derivative instruments under its risk management strategies.

In a deregulated market environment, the Group generally adjusts product prices in response to changes in prevailing regional prices and related costs, subject to market conditions. Prolonged elevated prices may affect demand levels, while refining margins may be influenced by prevailing market conditions.

In light of the evolving situation, management continues to monitor developments and their potential impact on the Group's financial position.

These developments represent non-adjusting events after the reporting date, as the conditions arose subsequent to December 31, 2025 and did not exist at the reporting date. Accordingly, these events do not affect the amounts recognized in the consolidated financial statements as at December 31, 2025. Considering the rapidly evolving nature of the situation, volatility in global oil prices, and uncertainty over the duration and extent of supply disruptions, the Group is currently unable to reliably estimate the potential financial impact on its financial position, financial performance, and cash flows for the subsequent reporting periods.

The Group remains focused on ensuring supply chain reliability, pursuing diversification of crude and product sourcing, optimizing inventory levels, and implementing cost management initiatives. The Group continues to adopt prudent risk management to mitigate the adverse effects of the war, and implement appropriate measures to ensure continuity of supply, operations, and cash flows, amid the oil market volatility and disruptions in 2026.

g. Commitments

The outstanding purchase commitments of the Group amounted to P181,959 and P245,288 as at December 31, 2025 and 2024, respectively.

These consist mainly of construction, acquisition, upgrade or repair of fixed assets needed for normal operations of the business and will be funded by available cash, short-term loans and long-term debt.

h. Foreign Exchange Rates

The foreign exchange rates used in translating the US Dollar accounts of foreign subsidiaries, associates and joint ventures to Philippine Peso were closing rates of P58.790 and P57.845 in 2025 and 2024, respectively, for consolidated statements of financial position accounts; and average rates of P57.508, P57.279 and P55.632 in 2025, 2024 and 2023, respectively, for income and expense accounts.

i. Certain accounts in the statements of financial position and statements of cash flows in prior years have been reclassified for consistency with the current year presentation to provide more reliable and relevant information and better referencing to other information in the notes to the consolidated financial statements. These reclassifications had no effect on the reported financial performance for any period.
